II.—NEW TARIFFS.

During the month under review there have been distributed from this department to all the principal Custom-houses and Boards of Trade throughout the Dominion, copies of all foreign and colonial tariffs and supplements thereto, as furnished during that period by the international Customs Tariff Bureau, which are always available for reference by those interested therein, resident at the principal centres of trade. The following British and Colonial are supplemental to those published in the departmental Annual Report, 1893, and the quarterly and monthly reports since published, and comprise all additions thereto or changes therein, so far as the department has authentic advice.

(A.)—NEWFOUNDLAND.

AN ACT FOR GRANTING TO HIS MAJESTY CERTAIN DUTIES ON GOODS, WARES AND MERCHANDISE IMPORTED INTO THIS COLONY AND ITS DEPENDENCIES.

Passed 2nd August, 1901.

Be it enacted by the Governor, the Legislative Council and the House of Assembly, in Legislative Session convened, as follows :

1. This Act may be cited as the ' Revenue Act, 1901 '.

2. In this Act, unless the context otherwise requires :

(*a*) The initials ' N. E. S. ' represent and have the meaning of the words ' not elsewhere specified '.

(*b*) The initials ' N. O. P. ' represent and have the meaning of the words ' not otherwise provided '.

(*c*) The expression ' gall. ' or ' gallon ' means an imperial-gall.

(*d*) The expression ' ton ' means two thousand two hundred and forty pounds avoirdupois, except where otherwise defined.

(*e*) The letters ' cwt. ' means one hundred and twelve pounds avoirdupois.

(*f*) The letters ' qtl. ' means one hundred and twelve lbs. avoirdupois.

(*g*) The letter ' M.' means one thousand.

(*h*) The expression ' proof ' or ' proof spirits ', when applied to wines or spirits of any kind, means spirits of a strength equal to that of pure ethyl alcohol compounded with distilled water in such proportions that the resultant mixture shall, at a temperature of sixty degrees Fahrenheit, have a specific gravity of 0.9198 as compared with that of distilled water at the same temperature.

3. Subject to the provisions of this Act and to the requirements of ' The Customs Act, 1898 ', as amended by 62 and 63 Victoria, there shall be levied, collected and paid upon all goods enumerated in Schedule A. to this Act, the several rates of duties of Customs set forth and described in the said Schedule and set opposite to each item respectively or charged thereon as not enumerated, when such goods are imported into this Colony or taken out of warehouse for consumption therein.

4. Subject to the same provisions and to the further conditions contained in Schedule B. to this Act, all goods enumerated in the said Schedule B. may be imported into this Colony or may be taken out of warehouse for consumption in this Colony without the payment of any duties thereon.

5. The importation into this Colony of any goods enumerated, described or referred to in Schedule C. to this Act, is prohibited ; and any such goods imported shall thereby

become forfeited to the Crown, and shall be destroyed; and any person importing such prohibited goods, or causing them or permiting them to be imported, shall for each offence incur a penalty of two hundred dollars.

6. Subject to the provisions of this Act and to the requirements of 'The Customs' Act, 1898', as amended as aforesaid, there shall be levied, collected and paid upon all goods enumerated in Schedule D. to this Act, the several rates of excise duties set forth and described in the said schedule and set opposite to each item respectively.

7. There shall be allowed to any regular printer a drawback to the amount of any duties that may have been paid on any paper actually printed upon in this Colony, and of fifty per centum of any duties that may have been paid on any paper bags or sacks, labels of all kinds, shipping, price or other tags and tickets of all kinds actually printed upon in this Colony, upon the production of affidavit satisfactory to the Minister of Finance and Customs, setting forth the amount of duties which have been paid thereon, and that the said paper bags, sacks, labels, tags or tickets have been actually and *bona fide* printed upon in this Colony.

8. There shall be allowed a drawback upon biscuit manufactured in this Colony from flour imported, on which duty has been paid at the Customs, when such biscuit shall be exported from this Colony, at the rate of seventeen cents per hundred weight of such biscuit exported as aforesaid: Provided, that such drawback shall not be allowed on any quantity of biscuit so exported at any one time less than one hundred bags.

9. Upon all ale, porter, Bavarian or botanic beer manufactured in this Colony and upon which the duty herein imposed shall have been paid, and which may be exported from this Colony, there shall be paid to the exporter thereof the sum of five cents per gallon by way of drawback, upon conformity with the requisition of the Governor in Council.

10. There shall be a drawback allowed on all native berries and herrings, and other edible fish, excepting lobster and trout packed in cans per ninety-six pounds exported; if packed in one pound cans, twenty cents per ninety six pounds; if packed in two pound cans, fifteen cents per ninety-six pounds; if packed in larger cans, ten cents per ninety-six pounds.

11. There shall be a drawback allowed on all native edible fish when packed in one-quarters or one-halfs (sardine cans) of thirty-five cents per one hundred pounds of fish exported.

12. It shall be lawful for the Governor in Council to remit the whole or any portion of the duties imposed by this Act upon port or other wines, currants or other articles imported direct from the country of production into this Colony, when it shall appear to him that the duty on codfish, the product of the Colony, imported into such country, has been or will be reciprocally reduced.

13. There shall be a drawback, equal to the amount of duty paid, allowed on packages for the export of cod-liver oil, under rules and regulations to be made by the Governor in Council.

14. There shall be a drawback upon unbleached calico, used in the manufacture of oiled clothes in this Colony by manufacturers thereof, equal to one-third of the duty paid on such unbleached calico, under rules and regulations to be made by the Governor in Council.

15. The duty herein provided to be levied upon fish is subject to the following proviso, namely: Provided that the Governor may, by proclamation published in the *Royal Gazette*, remit, as he may deem equitable, the whole or any part of the duty imposed on fish imported into this Colony from countries making such changes or reduction in their tariff with respect to fish, the produce of fish, or other articles exported from this Colony to such countries.

16. In addition to the duties herein provided to be raised, levied, collected and paid on goods, wares and merchandize imported into this Colony, there shall be raised, levied, collected and paid on the goods, wares and merchandize hereinafter in this section mentioned, imported into this Colony from countries the fishermen of which have the privilege of taking codfish upon all parts of the coast of Newfoundland and its dependencies, and in which countries duties are or hereafter shall be levied upon fish,

or the produce of the fisheries, exported from this Colony or its dependencies to such countries, the following rates, namely:

Flour, the barrel, seventy-five cents.
Pork, the barrel, seventy-five cents.
Butter, the one hundred pound, seventy-five cents.
Tobacco, the one hundred pounds, five dollars.
Kerosene oil, the gallon, five cents.
Corn Meal, the barrel, twenty-five cents.
Hay, the ton, five dollars.
Oats, the bushel, ten cents.
Potatoes, the bushel, tenty-five cents.
Turnips, the bushel, twenty-five cents.
Cabbages, the dozen heads, forty cents.
Unenumerated vegetables, thirty per cent, *ad val.*

Provided always that the Governor in Council may, at any time when it shall be made to appear to him to be for the interest of the Colony, by proclamation to be published in the *Royal Gazette*, suspend the operation of this clause for a limited period, the duration of such period to be stated in the said proclamation, in respect of all or any of the above-mentioned articles.

17. In case of any country now imposing, or which may hereafter impose, an import duty on herrings exported from this Colony and imported into such country in vessels belonging to this Colony, when such herring may be imported into such country in vessels belonging to the same free of duty, the Governor in Council may, by proclamation, impose an export duty equal to the amount of duty so imposed by such country aforesaid on herrings exported from this Colony in vessels belonging to such country where such import duty is imposed.

18. It shall be lawful for the Governor in Council to direct the appropriation of the duties collected upon coals in the port of St. John's to the use of the St. John's Municipal Council; and the duties collected upon coals in the port of Carbonear for the use of the Water Company of Carbonear; and the duties collected upon coals in the port of Placentia for the use of the Water Company of Placentia; and the duties collected upon coals in the port of Harbour Grace for the following purposes, namely: Three hundred dollars to provide additional lights in the town of Harbour Grace, and the remainder to use of the Water Company.

19. At the time of entering neat cattle, subject to an *ad valorem* duty by this Act, the importer or known agent thereof shall, at the time of such entry, pay a sum as duty to be calculated upon the valuation of forty dollars for each of such cattle: Provided always, that within fourteen days after the landing of such cattle, the said importer, or his authorised agent, shall, if in the meantime the same shall have been realised by public auction or private sale, produce the original account sales thereof, and answer all such questions respecting the same as the Minister of Finance and Customs, Assistant Collector, or other proper officer, may propose, on oath (if required), which oath the said officers are hereby authorised to administer; and if, upon such examination, it shall appear to either of the said officers that the amount of value exceeds that for which the said cattle were first entered, the importer, or known agent, shall then pay by post entry the amount of duty that may exceed the original duty paid on the same; or, if the value should be less, the surplus duty received shall be returned, by certificate of over entry to the said importer or known agent; and if such importer or known agent shall refuse to produce the account sales at the time aforesaid, or produce any other than the true account, or alter the same, or refuse to answer upon oath such questions as aforesaid, or to answer them truly, or to pay the additional duty (if any) due as aforesaid, such importer or known agent shall forfeit in any case aforesaid the sum of four hundred dollars; and should the said cattle not have been disposed of within the time aforesaid, or appraised as hereinafter provided, the duty already paid upon them shall be detained, and deemed to be the true duty: Provided, also, that one day's notice, in writing, of the time of the intended sale at auction, as aforesaid, be given to the Minister of Finance and Customs, Assistant Collector, or other proper

officer: Provided, further, that when the said cattle so imported are not intended for immediate sale, the duty payable thereon shall be ascertained at the time of landing by appraisement at their value in the place where imported, one appraiser to be appointed by the Minister of Finance and Customs, Assistant Collector, or other proper officer, as aforesaid, and one by the importer or his authorised agent; and should the said parties disagree, they shall appoint a third appraiser, the appraisement of any two of whom shall be final and binding; and in the event of said importer or agent neglecting or refusing to appoint an appraiser at the time aforesaid, it shall be lawful for the Minister of Finance and Customs, Assistant Collector, or other proper officer, to appoint an appraiser to act for the said importer, by whose appraisement with the other or others aforesaid, the said importer or agent shall be bound, and shall also be subject to the same regulations and penalties as hereinbefore provided; and the said importer or known agent shall, at the time of entry aforesaid, deposit with the Minister of Finance and Customs, Assistant Collector, or other proper officer aforesaid, the sum of six dollars to meet the expenses of appraisement aforesaid, any part of which said sum unexpended shall be returned to the said importer or known agent.

20. The duty imposed upon neat cattle by this Act shall be levied, collected and paid upon the proceeds of sale appearing upon the production of the original account sales, when such cattle shall have been sold, or upon the appraised value as hereinbefore provided, after deducting the amount of freight of any such cattle in either case.

21. Packages shall be subject to the following provisions:

(*a*) All bottles, flasks, jars, demijohns, carboys, casks, hogsheads, pipes, barrels, and all other vessels or packages manufactured of tin, iron lead, zinc, glass, ar any other material capable of holding liquids, and all packages in which goods are commonly placed for home consumption, including cases, not otherwise provided for, in which bottled spirits, wines or malt, wines or malt liquors, or other liquids are contained, and every package being the first receptacle or covering inclosing goods for the purpose of sale, shall, in all cases, not otherwise provided for, in which they contain goods subject to an *ad val.* duty or a specific and *ad val.* duty, be charged with the same rate of *ad val.* duty as is to be levied and collected on the goods they contain except when the value of the packages is included in the value of such goods;

(*b*) All such packages as aforesaid of the value of more than one dollar containing goods subject to a specific duty only, and not otherwise provided for, shall be charged with a duty of twenty per cent *ad val.*, except when the value of the packages is included in the value of such goods;

(*c*) Packages not hereinbefore specified and not herein specially charged with or declared liable to duty, and being the usual and ordinary packages in which goods are packed for exportation, according to the general usage and custom of trade, shall be free of duty;

(*d*) All such special packages or coverings as are of any use, or apparently designed for use other than in the importation of the goods they contain (not otherwise provided), excepting bags in which sugar, oats, flour, and similar articles are imported shall be subject to the same rate of duty as would thereon be levied if imported empty or separate from their contents.

(*e*) Packages (inside or outside) containing free goods shall be exempt from duty when the packages are of such a nature that their destruction is necessary in order to release the goods.

22. All sums of money payable under this Act as duties, penalties or forfeitures, shall be deemed, and are hereby declared to be in dollars and cents, Newfoundland currency, and shall be received, taken and paid in such currency; and all such duties shall be paid and received according to Imperial weights and measures by law established in this Colony; and in all such cases where such duties are imposed, according to any specific quantity or value, the same shall apply in like proportion to any greater or less quantity or value.

23. The several duties imposed in Schedule *A.* of this Act shall be paid by the importers of such articles, respectively, and shall be collected and secured by means of, and under the regulations and penalties, and in the manner provided by this Act and

by any Act or Acts of the General Assembly of this Colony for collecting the revenue of this Colony and its dependencies.

24. In the case of all wines, spirits or alcoholic liquors subject to duty according to their relative strength of proof, such strength shall be ascertained either by means of Syke's hydrometer or of the specific gravity bottle, as the Minister of Finance and Customs directs ; and in case such relative strength cannot be correctly ascertained by the direct use of the hydrometer or gravity bottle, it shall be ascertained by the distillation of a sample, and the subsequent test in like manner of the distillate.

25. All medicinal preparations, whether chemical or other, usually imported with the name of the manufacturer, shall have the true name of such manufacturer and the place where they are prepared, and the word 'alcoholic' or 'non-alcoholic', permanently and legibly affixed to each parcel by stamp, label or otherwise ; and all medicinal preparations imported without such names and word so affixed may be forfeited.

26. Any person who, without lawful excuse, the proof of which shall be on the person accused, sends or brings into this Colony, or who, being in this Colony, has in his possession any bill heading or other paper appearing to be a heading or blank, capable of being filled up and used as an invoice and bearing any certificate purporting to show, or which may be used to show that the invoice which may be made from such bill heading or blank is correct or authentic, is guilty of an indictable offence and liable to a penalty of five hundred dollars, and to imprisonment for a term not exceeding twelve months, in the discretion of the Court, and the goods entered under any invoice made from any such bill heading or blank shall be forfeited.

27. With respect to goods imported for manufacturing purposes that are admissible for any specific purpose at a lower rate of duty than would otherwise be chargeable, or exempt from duty, the importer claiming such exemption from duty, or proportionate exemption from duty shall make and subscribe to the following affidavit or affirmation before the Collector of Customs at the port of entry, or before a Notary Public or a Commissioner for taking affidavits :

I, (name of importer), the undersigned importer of the (names of the goods or articles) mentioned in this entry, do solemnly (swear or affirm) that such (names of the goods or articles) are imported by me for the manufacture of (names of the goods to be manufactured), in my own factory, situated at (name of place) and that no portion of the same will be used for any purpose or disposed of until so manufactured.

28. Whenever the Governor in Council has reason to believe that with regard to any article of commerce there exists any trust, combination, association or agreement of any kind among manufacturers of such articles or dealers therein, to unduly enhance the price of such article, or in any other way to unduly promote the advantage of the manufacturers or dealers at the expense of the consumers, the Governor in Conncil may commission or empower any Judge of the Supreme Court to inquire in a summary way into and report to the Governor in Council whether such trust, combination, association or agreement exists.

2. The Judge may compel the attendance of witnesses, and examine them under oath, and require the production of books and papers, and shall have such other necessary powers as are conferred upon him by the Governor in Council for the purposes of such inquiry.

3. If the Judge reports that such trust, combination, association or agreement exists, and if it appears to the Governor in Council that such disadvantage to the consumers is facilitated by the duties of customs imposed on a like article when imported, the Governor in Council shall place such article on the free list, or so reduce the duty on it as to give to the public the benefit of reasonable competition in such articles.

29. *Whereas* under clause forty-five of the contract between Robert G. Reid and the Government of the Colony for the operation of the Newfoundland Railway, as confirmed by the Newfoundland Railway Act, 1898, it is provided that "From the time when the Contractor shall satisfy the Government that he his able so to operate his coal mine or mines as to supply not less than 50,000 tons per annum of coal of good quality, and to continue to furnish such supply, the Government agree to procure the

imposition of a duty of not less than one dollar per ton upon all coal imported into this Colony," upon certain further conditions also set forth in the said clause :

Be it therefore enacted that at such time as the said Contractor shall satisfy the Governor in Council that he is able so to operate his said mine or mines as to furnish the said supply to the quantity so provided by the said contract, the Governor in Council shall issue his proclamation directing that the said duty of one dollar shall be imposed and collected upon all coal imported into this Colony, and thereupon such duty shall come into force and effect at and from the date prescribed in and by the said proclamation. It being, however, hereby declared and provided that this duty shall not be held to apply to anthracite or cannel coal, or to coal imported for actual use on board steamships, which shall be exempt from duty.

30. Whenever it shall be made to appear to the Governor in Council that it is desirable, for the purpose of promoting the importation of potatoes for seed, to abrogate or reduce the duty upon potatoes for such purpose, it shall be lawful for the Governor in Council, by order published in the *Royal Gazette*, to abrogate or reduce such duty.

31. Upon all coal supplied in St. John's to ships of war a rebate of fifty cents a ton shall be allowed to the supplier, upon the production to the Assistant Collector of the necessary evidence.

32. Upon the survey, by an authorized surveyor, of lumber imported into this Colony, for ascertaining the quantity therein upon which duty is to be collected, the surveyor shall furnish to the Custom House a certificate setting forth that he has surveyed a cargo of lumber imported in a certain ship, stating name and master and where from, and giving particulars of such survey, the number of feet, and the kind and description of the board, plank (dressed or undressed), timber, laths or shingles, as may constitute such cargo ; such certificate of survey must be delivered to the proper officer of Customs twenty-four hours after the landing of the cargo under a penalty of twenty dollars, to be collected in a summary manner upon complaint before a Justice of the Peace.

For every certificate of survey furnished by an authorized surveyor he shall be entitled to receive the sum of fifty cents.

33. On such articles of machinery, implements or materials as are necessary to the initiation and installation of any manufacture or industry in this Colony, or in connection therewith and used therein, there shall be levied and collected such less duties than the rate prescribed as the Governor in Council may from time to time fix by order in Council : Provided that such order may prescribe such conditions and regulations concerning the said importations as he may deem wise.

34. Upon oleomargarine, butterine, or similar substitutes for butter, and upon tobacco, imported into this Colony, being reported at the Custom House, and before being entered for consumption, the packages in which such article is contained shall be stamped or marked by a Customs' officer with the name of the article or with some distinguishing mark.

35. The importation of any such article for consumption before the package containing it is marked as aforesaid, is hereby prohibited, and any such goods so imported shall become forfeited to the Crown, and may be seized by a Customs' officer and sold, after stamping or marking, one-half the proceeds being paid to the informer and seizing officer, one moiety to each, the other half being paid to the consolidated revenue.

36. It shall be unlawful to manufacture oleomargarine, butterine, or a similar substitute for butter, or to manufacture tobacco except under the license of the Minister of Finance and Customs, who may grant such license upon application, without charge to the applicant.

37. Each factory of oleomargarine, butterine, and similar substitutes for butter, or of tobacco, shall be for the purposes hereafter stated, a bonded warehouse ; the products manufactured therein being, for the purpose hereafter set forth, under the control of the Minister of Finance and Customs and such officers as he may appoint, from the time of its production in the factory until the packages containing it have been duly stamped or marked, and the excise duty paid thereon.

38. It shall be unlawful for any person to take from such factory or from the part or parts under the control of the officer aforesaid, any product of the factory not con-

tained in packages marked or stamped by the Excise officer with the name of the article or with some other stamp or mark whereby the product of the factory may be distinguished, except by permission of the Minister of Finance and Customs.

39. The excise duty levied and collected upon oleomargarine, butterine, or similar compounds, and upon tobacco shall be paid in advance from time to time to the Minister of Finance and Customs, or such persons as he may appoint, before a permit shall be granted for the entry of such products for consumption ; the excise duty so collected being from time to time paid into the consolidated revenue.

40. For any violation of the foregoing provisions relating to Excise, complaint may be made before a Stipendiary Magistrate or two Justices of the Peace, and the offender, upon conviction, shall be liable to a penalty not exceeding five hundred dollars, or in default of the payment thereof to imprisonment for a period not exceeding six months. If the person convicted be the holder of a license, or if it be proved that he was a party to the offence, his license shall be forfeited, and he shall thenceforth be incapable of procuring a license.

41. All articles and ingredients, except butter, imported into Bond for the use and to be used in the manufacture of tobacco and butterine, oleomargarine, or similar compounds, shall be admitted free of duty under regulations to be made by the Governor in Council.

42. 'The Revenue Act, 1898', and the Act 62 and 63 Victoria, Chapter 36, and the Act 63 Victoria, Session 2, Chapter 9, in amendment thereof, are hereby repealed, and shall be deemed to have been repealed on the first day of July, One thousand nine hundred and one : Provided always that all bonds given and payments made under the said Acts or any of them are hereby confirmed and declared valid and nothing herein contained shall be construed to affect the same.

43. This Act shall be held to have come into operation on the first day of July, One thousand nine hundred and one, at the hour of 9.30 a. m.

SCHEDULE *A.*

GOODS SUBJECT TO DUTY.

No.			Duties. $ cts.
1.	Aerated Waters, of all descriptions, and non alcoholic drinks, not to include natural Mineral Waters	*ad val.*	40 p.c.
2.	Acids, Muriatic and Nitric, and all mixed or other Acids, N. E. S. ; Sulphuric Ether, Chloroform and Solutions of Peroxides of Hydrogen ; Ceresene, Chloro di Nitro, Bensole, and Nitro of Ammonia	do	35 p.c.
3.	Ale, Porter and Beer, when imported in casks or otherwise than in bottles	gallon.	0 35
	When imported in bottles (six reputed quarts, or twelve reputed pint bottles to be held to contain one gallon)	do	0 40
4.	Anchovies, Sardines, Oysters, Clams, Salmon, Lobsters, and all fish prepared, preserved or packed in oil or otherwise, N. E. S. ; fish smoked or boneless, N. O. P., and all other articles the product of the fisheries, not specially provided for	*ad val.*	35 p.c.
5.	Animals, living, viz. :		
	Oxen, cows, bulls, horses, mares, foals, and other draft animals, N. E. S.	do	20 p.c.
	Calves, pigs and sheep	each	1
	Pigs (under 3 months of age) and lambs	do	0 50
6.	Apples	barrel	0 50
7.	Apples (dried)	pound	0 02
8.	Asbestos, and all manufactures thereof	*ad val.*	35 p.c.
9.	Barley, when imported for seed or for brewing purposes	do	10 p.c.
10.	Baths, tubs and washstands, of earthenware, stone, cement or clay, or of other material N. E. S.	do	40 p.c.
11.	Beans	pound	0 00½
12.	Belting of leather, or other material for machinery, including lacings or fasteners.	*ad val.*	10 p.c.
13.	Bicycles and tricycles, and parts thereof, N.E.S	do	40 p.c.
14.	Billiard Tables and Bagatelle boards and tables, cues, balls, cue racks, cue tips and billiard chalk	*ad val.*	40 p.c.
15.	Biscuits, viz. :		
	Those known as Ships' Biscuits	cwt.	0 10
	Soda, water, butter and pilot, and any biscuit of that description not sweetened	pound	0 03
	Biscuit and bread, N.E.S.	*ad val.*	40 p.c.
16.	Blocks for ships, and block sheaves, N.E.S.	do	40 p.c.
17.	" " " of galvanized iron	do	30 p.c.

			Duties. $ cts.
18.	Brick, stock or common	M.	2 50
		and *ad val.*	30 p.c.
	Facing and fire	do	20 p.c.
19.	Brin, known as bread-bag brin, when imported by local manufacturers of bread, rope or nails, in which to inclose their manufactures	*ad val.*	10 p.c.
20.	Brooms and whisks of corn	do	50 p.c.
21.	Broom handles	do	20 p.c.
22.	Brushes	do	40 p.c.

173. Chair cane, or reeds of withrod, when imported in au unmanufactured state.
174. Clothing and medicine, donations of, for charitable purposes, and photographs sent by friends and not intended for sale.
175. Coals, when not imported or brought into the ports of St. John's, Harbour Grace, Carbonear or Placentia.
176. Coin and bullion, and medals, when imported by schools or associations to be distributed as prizes.
177. Copper, bitumen, naphtha, and iron oxide, to be used by manufacturers in the manufacture of copper paint.
178. Corn for the manufacture of brooms and whisks.
179. Cotton yarn, raw cotton and coke.
180. Cotton seed oil, olive oil, boracic acid, acetic acid, preservaline, when imported by manufacturers to be used in the preservation of fish or fish glue.
181. Cranes, derricks, fire clay, fire brick, rock drills, rolling mills, crushing mills, separators, drill steel, machinery of every description for mining, used within the mine proper or at the surface of the mine, but not to include machinery for conveying ore or other material outside of the mine proper ; smelting machinery of all kinds when imported directly by persons engaged in mining, to be used in their mining operations and not for sale ; brick machines, dynamite, detonators, blasting powder and fuse.

182. Equipments, accoutrements and musical instruments for Boys' Brigades and Salvation Army.
183. Fish, of British catch and cure, and oil, the produce of such fish (not to include preparations of cod-liver oil, eggs of fish or game birds when imported for propagation.
184. Globes, geographical, topographical, and astronomical maps and charts, for the use of schools; pictorial illustrations of insects or similar studies, when imported for the use of colleges, schools and library associations; manuscripts and insurance maps.
185. Hemp, hemp yarn, coir yarn, sisal manilla, jute, flax and tow.
186. Hides, or pieces of hides, not tanned, curried or dressed.
187. Hoop iron or hoop steel, splayed, punched or nosed, and cut in lengths not to exceed sixty-eight inches, to be used in making herring barrels.
188. Indian corn.
189. Junk, old iron, old copper, and old composition metal.
190. Lines and twines used in connection with the fisheries, not including sporting tackle.
191. Manures and fertilizers of all kinds, and sulphuric acid, when imported to be used in the manufacture of manures.
192. Material for sheating the bottoms of vessels, such as zinc, copper and composition metal, together with nails and paper or felt, which may be used for or under such sheathing when used for sheathing vessels, under regulations to be made by the Governor in Council; and lignum-vitæ.
193. Music, written.
194. Oil cake, oil cake meal, cotton seed cake, cotton seed meal pease meal, bran, and other preparations for cattle feed.
195. Ores to be used as flux.
196. Parchment or wax paper, when imported specially for wrapping boneless fish, or for lining tins used in the lobster packing industry in this Colony.
197. Pig iron, nail strips of iron, steel, zinc or brass, to be used in the manufacture of cut nails in this Colony.
198. Plants, trees and shrubs, also seeds for agricultural purposes and florists' seeds.
199. Engravers' Plates of Steel, polished, for engraving thereupon; Photo engraving machinery, viz.: Router bevelling and squaring machines, screen holders, cross line screens, chemicals, for use in engraving, wood for blocking, engraving tools and process plates.
200. Printing paper, printing presses, printing types, printers' ink, and printers' office furniture, when imported for *bona fide* printers for use in their business.
201. Rice, uncleaned or refuse rice.
202. Samples of no commercial value; Sand and fire clay; Sausage skins or casings; Salt, in bulk, when imported for use in the fisheries.
203. Scrap Iron and scrap steel (old) and fit only to be remanufactured, being part of, or recovered from any vessel wrecked in waters subject to the jurisdiction of Newfoundland.
204. Steel Shafting, when imported for use in steam vessels not owned, in whole or in part, by persons in this Colony, and here for repairs solely.
205. Supplies, stores and donations for the Moravian Missionaries on Labrador and for the Deep Sea Mission, under such rules and regulations as may be made by the Governor in Council.
206. Settlers' effects, viz.: Wearing apparel, household furniture, books, implements and tools of trade, occupation or employment; Guns, musical instruments, domestic sewing machines, typewriters, live stock, bicycles, carts and other vehicles, and agricultural implements in use by the settler for at least six months before his removal to this Colony, not to include machinery or articles imported for use in any manufacturing establishment, or for sale: Provided that any dutiable articles entered as settlers' effects may not be so entered unless brought with the settler on his first arrival, and shall not be sold or otherwise disposed of without payment of duty, until after twelve months' actual use in the Colony; and travellers' baggage, under regulations prescribed by the Governor in Council.
207. Scientific instruments and apparatus, when imported for use in colleges, schools and scientific or library societies; and specimens, illustratrative of natural history.
208. Stereotypes, electrotypes and celluloids for almanacs, calendars, illustrated pamphlets, newspaper advertisements or engravings, and all other like work for commercial trade or other purposes, and matrices or copper shells for the same,
209. Surgical and dental instruments (not being furniture) and surgical needles.
210. Unmanufactured wool.
211. Wire, of brass, zinc or steel, screwed or twisted or flattened or corrugated, when imported by manufacturers of boots and shoes, for use in connection with nailing machines for the manufacture of boots and shoes, to be used for such purposes only in their own factories.
212. Wheat, whole, not ground or crushed.
213. Works of Art, viz.: Paintings in oil or water colours, by artists of well-known merit, or copies of the old masters by such artists; and Paintings in oil and water colours, the production of Newfoundland artists, under regulations prescribed by the Governor in Council.

SCHEDULE C.

PROHIBITED GOODS.

214. Books, printed paper, drawings, paintings, prints, photographs or representations of any kind of a treasonable or seditions or of an immoral or indecent character.
215. Coin, base or counterfeit.
216. Goods, manufactured or produced wholly or in part by prison labour, or which have been made within or in connection with any prison, jail or penitentiary, shall not be imported into this Colony under a penalty of two hundred dollars; and, if imported, such goods and the packages in which they are contained shall be forfeited.

217. Reprints of Newfoundland copyright works and reprints of British copyright works, which have been copyrighted in Newfoundland also.
218. Tea, adulterated with spurious leaf or with exhausted leaves, or containing so great an admixture of chemical or other deleterious substance as to make it unfit for use.

SCHEDULE D.

EXCISE.

	$ cts.
The following duties shall be raised, levied and collected on the following articles distilled, brewed, or manufactured in this Colony, viz. :	
219. Brandy, not exceeding the strength of proof by Sykes' hydrometer, and so in proportion for any greater strength than the strength of proof.....gallon	2 35
220. Whiskey, not exceeding the strength of proof by Sykes' hydrometer, and so in proportion for any greater strength than the strength of proof.....gallon	1 85
221. Gin, not exceeding the strength of proof by Sykes' hydrometer, and so in proportion for any greater strength than the strength of proof.....gallon	1 75
222. Rum, not exceeding the strength of proof by Sykes' hydrometer, and so in proportion for any greater strength than the strength of proof.....gallon	1 50
223. Ale, porter, Bavarian beer, botanic beer, and all other malt and dextrinous liquors...gallon	0 05
224. Tobacco.....pound	0 27½
225. Oleomargarine, butterine or similar compounds.....do	0 01

III. TARIFF CHANGES.

UNITED KINGDOM.

I.—Extract from General Customs Order, No. 19, of April 15, 1902, in reference to the duties chargeable on certain imported products.

In pursuance of Resolutions of the House of Commons of the 14th-15th April, 1902 *(see 2nd supplement to the tariff of the United Kingdom)*, there shall, as from the fifteenth day of April, nineteen hundred and two, be charged, levied and paid, on the grain and other articles, mentioned in the annexed Schedule, imported into Great Britain or Ireland, the duties mentioned in that Schedule.

SCHEDULE.

Part I.	Duties per Cwt. £ s. d.	Part II.	Duties per Cwt. £ s. d.
Wheat Barley Oats Rye Maize Buckwheat Peas (not fresh) Beans (not fresh) Locust Beans Lentils Rice (other than whole and cleaned rice); and Any offals of the above-mentioned articles	0 0 3	Flour and the meal (other than offals) of any of the articles mentioned in Part I of this Schedule Starch Arrowroot Cassava Powder and Tapioca Potato Flour Sago Malt Pearled Barley; and Rice (whole and cleaned)	0 0 5

Note.—Preparations containing any of the above-named articles such as, Biscuits, Feeding-cakes, &c., will be liable to duty under Section 7 (1) of the *Finance Act*, 1901 (*).

Such goods should be sampled for analysis, but pending the Analyst's report may be delivered on a deposit sufficient to cover the Duty.

Directions accompanying General Order 19, 1902 as to the Levying of Import Duties under the Resolutions of the House of Commons, dated the 14th-15th April, 1902.

1. .....

2. Duty is to be charged on the net weights of any of the goods liable to Duty at the rate applicable to such goods.

In computing the Duty, fractions of a cwt. are to be disregarded to the following extent:

(*a*) In consignments exceeding one cwt., any fractions of a cwt. (Parts I and II of the Schedule).

(*b*) In consignments of less than one cwt., any fraction less than one third of a cwt. as regards goods in Part I and less than one fifth of a cwt. as regards goods in Part II of the Schedule.

.....

(*) *Finance Act*, 1901.—Section 7 (1).—Where any manufactured or prepared goods contain, as a part or ingredient thereof, any article liable to any duty of customs, duty shall be charged in respect of such quantity of the article as shall appear to the satisfaction of the Treasury to be used in the manufacture or preparation of the goods, and in the case of goods so containing more than one such article, shall be charged in a similar manner on each article liable to duty at the rates of duty respectively applicable thereto, unless, the Treasury shall be of opinion that it is necessary for the protection of the revenue that duty should be charged in accordance with the Customs Tariff Act, 1876.

Any rebate which can be allowed by law on any article when separately charged shall be allowed in charging goods under this section in respect of the quantity of that article used in the manufacture or preparation of the goods.

(2).....

II.—Duty on green figs in syrup.

('*General Customs Order*' No. 33, of May 27 1902.)

Duty on Green Figs in syrup is to be assessed at the rate of 7*s.* a cwt. on the weight of the Figs (without squeezing out the contained syrup); and, in respect of the syrup, according to its rating, viz.: 1*s.* per cwt. if thin, and 3*s.* per cwt. if thick syrup.

III.—Increased duties on imported spirits and on glucose.

1. *General Customs Order No. 36, of June 17, 1902.*

Collectors and other Officers are informed, for guidance, that the following Resolutions were proposed in the House of Commons on the 16th instant:

(1.) That on and after the 17th June, 1902, the respective Duties of Customs on imported spirits be increased by one penny.
(2.) That on and after the 17th June, 1902, the Duties of Customs on imported glucose, imposed by section 2 of the Finance Act, 1901, be, as respects solid glucose, three shillings and three pence, and, as respects liquid glucose, two shillings and six pence.

The increased Duties are accordingly to be levied from this date inclusive.

2. *General Customs Order No. 38, of June 19, 1902.*

With reference to Paragraph 1 of General Order 36, 1902, the full duties payable on spirits are shown in the schedule below, viz.:

RATES OF DUTY.

Spirits and Strong Waters.

For every gallon computed at hydrometer proof of Spirits of any description (except perfumed Spirits) including Naphtha or Methylic Alcohol, purified so as to be potable; and mixtures and preparations containing spirits:

	IMPORTED.					
	in Casks.			in Bottles.		
	£	s.	d.	£	s.	d.
Enumerated Spirits:						
Brandy ..... proof gallon	0	11	4	0	12	4
Rum ..... "	0	11	4	0	12	4
Imitation Rum ..... "	0	11	5	0	12	5
Geneva ..... "	0	11	5	0	12	5
Unenumerated Spirits:—						
Swetened ..... proof gallon (Including Liqueurs, Cordials, Mixtures, and other preparations containing Spirits; if tested.)	0	11	7	0	12	7
Not Sweetened ..... proof gallon (Including Liqueurs, Cordials, Mixtures, and other preparations containing Spirits, provided such Spirits can be shown to be both Unenumerated and Not Sweetened; if tested.)	0	11	5	0	11	5
Liqueurs, Cordials, Mixtures, and other preparations containing Spirits in bottle, entered in such a manner as to indicate that the strength is not to be tested ..... liquid gallon		—		0	16	4
Perfumed Spirits ..... "	0	18	1	0	19	1
Any importations of Naphtha or Methylic Alcohol purified so as to be potable are rated under the heading of Unenumerated Spirits.						

Any additional duty levied under General Order 36, 1902, on Brandy, Rum, Liqueurs, Cordials, Mixtures, &c., entered not to be tested, and Perfumed Spirits is to be returned by Over-Entry Certificate.

IV.—Alterations in Corn and Grain Duties.

1. *General Customs Order No. 37, of June 18, 1902.*

Officers are informed for guidance that in pursuance of certain amendments in the Finance Bill agreed upon in the House of Commons on the 16th instant, the following alterations are to be made in the Schedule to General Order 19, 1902 :

(1) Part I.—The words 'Locust Beans' are to be deleted.

(2) Part I.—The words 'Any Offals of the above mentioned articles', are to be deleted, and the following words substituted therefor :

> 'Any Offals which are feeding stuffs and are proved to the satisfaction of the Board not to contain more than fifty per cent of starch, the cwt. 1½d.'

(3) The first two lines in Part II are to be struck out and the following words substituted :

> 'Flour and the Meal or Milled Products (other than Offals liable to the above-mentioned Duty of one penny halfpenny) of any of the articles mentioned in Part I of this Schedule.'

For convenience of reference a revised Schedule embracing these alterations is appended hereto.

The exemption from Duty on Locust Beans is to take effect from the date of receipt of this Order.

Following on the insertion of the words 'or Milled Products', Split Pease and Split Lentils are to be charged at the rate of Fivepence the cwt.

Special attention is directed to the definition of Offals which has been inserted after Part I. Pending further directions, such goods other than ordinary Brans, Husks, Shells or Dust, or as to which the officers have no doubt that they fall within the definition, should be sampled for analysis in every case ; immediate delivery being allowed, if desired, on deposit of Duty at the higher rate of Fivepence the cwt.

The question whether past accounts in respect of Locust Beans and Offals should be re-opened will be hereafter decided (*).

SCHEDULE.

Part I.	Duties per Cwt. £ s. d.
Wheat, Barley, Oats, Rye, Maize, Buckwheat, Peas (not fresh), Beans (not fresh), Lentils, Rice (other than whole and cleaned rice)	0 0 3
Any offals which are feeding stuffs and are proved to the satisfaction of the Commissioners of Customs not to contain more than fifty per cent, of starch	0 0 1½

'Offals' mean the bran, pollards, germs, husks, culms, dust, or other similar bye-products of the articles liable to the above-mentioned duty of threepence.

Part II.	Duties per Cwt. £ s. d.
Flour and the meal or milled products (other than offals liable to the aforementioned duty of one penny halfpenny) of any of the articles mentioned in Part I. of this Schedule... Starch, Arrowroot, Cassava powder and Tapioca, Potato Flour, Sago, Malt, Pearled Barley ; and, Rice (whole and cleaned)	0 0 5

(*) By direction of the Board, all duty levied on Locust Beans under the Resolution of the House of Commons of the 14th, 15th April last is to be returned by Over-Entry Certificate in the usual manner. (*General Customs Order* No. 40, of June 30, 1902.)

2. *General Customs Order No. 39, of June 20, 1902.*

Further alterations having been made in the Finance Bill, involving a reduction of the Duty on Maize and Maize Meal, the accompanying Schedule is to be substituted for that forwarded with General Order 37, 1902, and Officers are to govern themselves accordingly.

Paragraphs (1), (2) and (3) of General Order 37, 1902, are superseded, and that Order and General Order 19, 1902, are to be noted.

Officers are to note for guidance that the reduced Duty on Maize and Offals, and on the Meal and Milled Products of Maize is to take effect from the 18th instant inclusive—the accounts of goods entered on or after that date being adjusted accordingly, and that the Board, with reference to the provisions contained in the Schedule, will hereafter give directions as to the remission of any excess Duty not recovered on these articles.

SCHEDULE.

Part I.	Duties per Cwt. £ s. d.
Wheat, Barley, Oats, Rye, Buckwheat, Peas (not fresh), Beans (not fresh), Lentils, Rice (other than whole and cleaned rice)	0 0 3
Maize	
Any offals which are feeding stuffs and are proved to the satisfaction of the Commissioners of Customs not to contain more than fifty per cent of starch	0 0 1½

'Offals' mean the bran, pollards, germs, husks, culms, dust, or other similar bye-products of maize and the articles liable to the above-mentioned duty of threepence.

Provided that, as from the fifteenth day of April up to the seventeenth day of June nineteen hundred and two, the said duty of 1½*d.* on maize and offals shall be deemed to have been chargeable at the rate of 3*d.*, but where it is proved to the satisfaction of the Commissioners of Customs that the said duty of 3*d.* has been paid during that period on any maize or offals, and that the excess of that duty over the duty of 1½*d.* has not been recovered from any person to whom the maize or offals have been delivered after importation, the Commissioners of Customs may remit the excess.

Part II.	Duties per Cwt. £. s. d.
Flour and the meal or milled products (other than offals liable to the aforementioned duty of one penny halfpenny) of any of the articles mentioned in Part I. of this Schedule exeept maize, Starch, Arrowroot, Cassava powder and tapioca, Potato flour, Sago, Malt, Pearled Barley; and Rice (whole and cleaned)	0 0 5
The meal or milled products of maize (other than offals of maize liable to the afore-mentioned duty of one penny halfpenny)	0 0 2½

Provided that, as from the fifteenth day of April up to the seventeenth day of June, 1902, the said duty of 2½*d.* on the meal or milled products of maize shall be deemed to have been chargeable at the rate of 5*d.*, but where it is proved to the satisfaction of the Commissioners of Customs that the said duty of 5 *d.* has been paid during that period on any meal or milled products of maize, and that the excess of that duty over the duty of 2½*d.* has not been recovered from any person to whom the meal or milled products of maize have been delivered after importation, the Commissioners of Customs may remit the excess.

V.—Order of the Board of Agriculture entitled 'The Foreign Animals (Amendment) Order of 1902' prohibiting the importation of animals from the Channel Islands (*).

This Order, which came into operation on 22nd April, 1902, provides that 'unless and until the Board otherwise order, it shall not be lawful to land any animal brought from the Channel Islands'.

(*) According to a further Order of the Board of Agriculture dated the 11th, and entering into operation on the 16th, June 1902, 'The Foreign Animals (Amendment) Order of 1902' shall not apply to the Island of Jersey or to any animal brought therefrom.

(The International Customs Journal.)

JERSEY AND GUERNSEY.

1st Supplement to No. 91, July 1902

I.—Prohibition to import into Jersey, animals, animal wastes and other products.

By virtue of different resolutions adopted by the '*Harbour and Highway Committee*", duly confirmed by the States, importation into Jersey of animals and articles hereinafter mentioned, is prohibited :

1. Native cattle returning from having been exhibited in England. *(Act dated 5th, and published on the 30th September, 1891.)*

2. Cattle arriving from Norway, Sweden, Spain, Portugal and Iceland. *(Act dated 2nd, and published on the 4th April, 1892.)*

3. Neat cattle, sheep, swine, goats, green hides, tallow, unboiled, and horns and hoofs of dead animals imported from France. *(Act dated October 1st, and published on the 30th November, 1892.)*

4. Pork, arriving from France. *(Act dated the 20th, and published on the 22nd of January, 1894.)*

5. Swine, arriving from Ireland. *(Act dated the 2nd, and published on the 11th March, 1895.)*

6. Hay and straw, and also dogs arriving from all parts of France. *(Act dated September 3, 1900.)*

7. Dogs of Irish origin. *(Act of June 15, 1901.)*

8. Hay, straw and other forage, neat cattle, sheep, swine and goats or other animals, green hides, tallow, unboiled, and horns and hoofs of dead animals, proceeding from Guernsey or brought into Jersey by any vessel having called at Guernsey. *(Act of April 23, 1902.)*

Note.—The provisional prohibition in force by virtue of an Act of said Committee, dated September 3, 1900, confirmed by an Act of the States, dated October 22, 1900, respecting hay, and straw shall extend to forage used in packing or shipping eggs, poultry or any other goods proceeding from France. Live poultry imported from France shall immediately after landing be removed to the foreign Animals Wharf under the supervision of the Inspector and remain in his custody at the expense of the owners or consignees, until killed for consumption.—The prohibition enacted by Act of said Committee, dated October 1, 1892, confirmed by an Act of the States, dated November 30, 1892, in reference to the introduction into Jersey of neat cattle, sheep, swine, goats, green hides, tallow, unboiled, and horns and hoofs of dead animals imported from France, shall extend to horses arriving from said country. *(Act of April 23, 1902.)*

9. Heads, tongues, and garbage of neat cattle and sheep, proceeding from France or the Island of Guernsey, or brought into Jersey by any vessel having called in France or at Guernsey. *(Act dated and published April 26, 1902.)*

IV.—COMMERCIAL AGENCIES.

The following Canadian Commercial Agents (whose addresses are given) will answer correspondence relative to commercial and trade matters, and give information to those interested as to local trade requirements in the districts they represent.

Such reports of general interest as have been received from them since the publication of the last monthly report of this department are appended.

J. S. Larke, Sydney, N.S.W., agent for Australasia.

James G. Jardine, Cape Town, South Africa, agent for South Africa.

G. Eustace Burke, Kingston, Jamaica, agent for Jamaica.

Robert Bryson, St. John, Antigua, agent for Antigua, Montserrat and Dominica.

S. L. Horsford, St. Kitts, agent for St. Kitts, Nevis and Virgin Islands.

Edgar Tripp, Port of Spain, Trinidad, agent for Trinidad and Tobago.

C. E. Sontum, Christiana, Norway, agent for Norway, Sweden and Denmark.

A. D. Campbell, Buenos Ayres, agent for Argentine Republic and Uruguay.

In addition to their other duties, the undermentioned Canadian agents will answer inquiries relative to trade matters, and their services are available in furthering the interests of Canadian traders :—

J. G. Colmer, 17 Victoria Street, London, S.W., England.

Harrison Watson, Curator for Canadian Section, Imperial Institute, London, England.

G. H. Mitchell, 15 Water Street, Liverpool, England.

H. M. Murray, 52 St. Enoch Square, Glasgow, Scotland.

W. L. Griffith, Western Mail Buildings, Cardiff, South Wales.

C. R. Devlin, 14 Westmoreland Street, Dublin, Ireland.

D. Treau De Cœli, 75 Marché St. Jacques, Antwerp, Belgium.

(A.)—AUSTRALASIA.

Report of Commercial Agent.

(Mr. J. S. Larke.)

Sydney, N.S.W., July 15, 1902.

The Honourable
The Minister of Trade and Commerce,
Ottawa, Canada.

Sir,—Last week there were rains in South Australia, Victoria and the South Eastern portion of New South Wales. These have materially improved the outlook for dairy products and of the harvest. As a result the produce markets are quieter and there has been a slight decline in prices of dairy products, and some other articles, from the prices quoted in a circular letter sent to Canadian Boards of Trade in May last. The drought is by no means broken up and the larger portion of New South Wales and Queensland are yet without useful rains. It is impossible to foresee what the possibilities of trade will be from month to month in foodstuffs. The business must be done by cable and all that can be done here is to establish the lines of communication so that

advantage can be taken of circumstances as they may occur. There are fair prospects that this will be done.

I find that the prices of certain articles as given in the circular referred to have led some Canadian exporters to believe that these prices could be obtained upon articles at ship's side, Sydney, overlooking the expenses between the ship and the retail trade, and in some instances the duties which were also given in the letter. These are serious items. They include wharfage, cartage to and from store, charges for passing customs, commission and often storage, and generally the profit of a wholesale firm also. The bulk of the imports pass through three hands and every item, at least, through two before it reaches the consumer. These items will amount to from ten to thirty per cent of the selling price. Then until its reputation is established on the market a new article, as a rule, will not bring the prevailing price. As it becomes known and appreciated it will bring its full value.

Some samples of oats and barley have been sent here but they are inferior to the Australian article and it is believed do not represent a fair sample of the last Canadian harvest. The recipients have refrained from offering them on the market and sent for new samples.

The sale of Canadian hard wheat flours is making progress beyond New South Wales and Queensland, but there is a considerable trade in inferior grades in the South Sea Islands which as yet Canada has not touched. This trade is unaffected by the Australian duties. I had hoped to be able to visit a few of the chief of these markets but the prevalence of plague in Sydney necessitating a quarantine of some time at Island ports has made it unadvisable up to the present. Should the opportunity offer I think it could profitably be undertaken.

TRADE RETURNS.

The details of the Australasian trade for 1901 have not yet been issued but the totals have been given out. The figures for 1899, 1900 and 1901 are :—

	Imports.		
	1899.	1900.	1901.
New South Wales	£25,594,315	£27,561,071	£26,928,218
Victoria	17,952,894	18,301,811	18,927,340
Queensland	6,764,097	7,184,112	6,386,208
South Australia	6,884,358	8,034,552	7,371,588
West Australia	4,473,532	5,962,178	6,454,171
Tasmania	1,769,324	2,073,657	1,969,577
Commonwealth	£63,438,520	£69,117,381	£68,037,102
New Zealand	8,739,633	10,646,096	11,817,915
Total Australasia	£72,178,153	£79,763,477	£79,855,017

The Australian imports showed some shrinkage last year, as the loading up had been mainly accomplished in 1900 but there was a large accession of imports to New Zealand. The reverse, however, was the case with regard to the exports, as the Commonwealth exports expanded, while those of New Zealand showed contraction :—

	Exports.		
	1899.	1900.	1901.
New South Wales	£28,445,466	£28,164,516	£27,351,124
Victoria	18,567,780	17,422,552	18,646,097
Queensland	11,942,858	9,581,562	9,249,366
South Australia	8,388,396	8,029,157	8,010,934
West Australia	6,985,642	6,852,054	8,515,623
Tasmania	2,577,475	2,610,617	2,916,656
Commonwealth	£76,907,617	£72,660,458	£74,689,800
New Zealand	11,938,335	13,246,161	12,881,424
Australasia	£88,845,952	£85,906,619	£87,571,224

These figures include the inter-state trade, which shortly will disappear from the returns.

The Statistician in the office of the Government of Victoria has issued particulars of the harvests of Australia for the last two years, which will be of interest to Canadian farmers as well as to the millers. The wheat production was :—

	1900-1901.	1901-1902.	Excess of in 1901.	
	Bushels.	Bushels.	Bushels.	
New South Wales	16,173,771	14,786,059	Exports	7,732,958
Victoria	17,847,321	12,127,382	"	10,248,093
South Australia	11,253,148	8,012,762	"	9,604,048
Queensland	1,194,088	1,692,222	Imports	2,012,655
Tasmania	1,110,421	1,110,421	Exports	22,781
West Australia	774,653	774,653	Imports	898,319
Australia	48,353,402	38,503,499	Exports	24,696,906
New Zealand	6,527,154	4,086,550	"	2,374,447
	54,880,556	42,590,049	Exports	27,071,353

Returns for 1901-2 are not available, but will not materially affect the result.

The last Australasian crop was, therefore, less than that of the previous year by 12,300,000 bushels, or 22·4 per cent. The net exports of wheat and flour in 1901, placed at 27,071,000 bushels of wheat, or its equivalent, out of a crop of 54,880,000 bushels. It left only 27,810,000 bushels for food and seed. Six million bushels were required for seed, leaving, say, 21,500,000 bushels for home consumption or about $4\frac{3}{4}$ bushels per head. The common estimate of the consumption of wheat in Australia has been about five and a half bushels, so that there should be a considerable deficiency this year on the

basis of these figures and of the exports of this year. The crop last year was the worst since 1897-8, as shown below :—

——	Australia.	N. Zealand.	Together.	Average per acre.
	Bushels.	Bushels.	Bushels.	Bushels.
1897-8	28,241,409	5,670,017	33,911,426	7·25
1898-9	41,421,853	13,073,416	54,495,269	9·29
1899-1900	39,998,295	8,581,898	48,580,193	8·26
1900-1	48,353,402	6,537,154	54,880,556	9·34
1901-2	38,503,499	4,086,550	42,590,049	8·09

The year 1900-1 was the record crop for Australia and that of last year was not much below the average. The two crops will materially aid the farmer to tide over this year of bad prospects.

As will be seen the crop of New Zealand was exceedingly small, having been injured by too much rain. The actual yields of grain were :—Wheat, 24·76 bushels an acre ; oats, 37·06 ; barley, 32. The quantity available on February 28 was 5,373,848 bushels, and the estimated requirements for the year are 5,410,000, leaving a deficit of 36,152 bushels. A large quantity of wheat is unfit for milling owing to the late rains. Owing to there being a direct line of steamers from San Francisco the deficiency so far has been supplied from the United States. It is hoped that some Manitoba flour will be shipped next month.

The wool year of Australia closed on June 30. The returns for the last year show exports of 1901-2 to have been 1,659,392 bales, being an increase of 46,697 over those of the previous year. 934,660 bales were sold in Australia, the price averaging £9- 6–4 per bale as against £8–11–10 realized for the wool of the year before. This is an improvement but is very much below the prices received the two previous years, which were :—

1899–1900	£16	14s.	8d. per bale.
1900–1901	10	18s.	6d. "

The wool shipped unsold in 1899-1900 realized less than the average obtained in Australia, whereas the wool so exported last year is likely to realize more than the average obtained here.

The trade of Sydney is now showing the effects of the increased drought. The trade for the first six months of this and the previous years was :—

——	Imports.	Exports.
1901	£11,615,452	£8,656,265
1902	9,867,567	8,223,965

A large share of the decrease in exports was in that of gold, other articles increased by £110,382. This increase was, however, not in domestic produce, but in the produce of other States re-exported. The whole of the decrease and more is in articles imported from abroad as the following list will show :—

IMPORTS.—JANUARY 1 TO JULY 5.

Soft goods	£2,019,192	Decrease £554,178
Beer and spirits	317,964	" 82,139
Boots and shoes	140,262	" 160,978
Furniture	203,715	" 88,987
Hardware	728,580	" 98,809
Jewellery	148,294	" 98,242
Machinery	323,951	" 82,594
Oilmen's stores	314,755	" 192,536
Paints and oils	160,142	" 187,993
Stationery and books	295,089	" 113,475
Timber	223,360	" 78,429
	£4,875,304	£1,738,360

These imports, so far, this year, show a decrease of 26·3 per cent, which is exceptionally heavy. To some extent the deficiency has been made from stocks carried over from last year, but nevertheless much of the decline is of the three last months, an indication of the loss of purchasing power by the people. This is shown more clearly by the fact that the re-export of merchandise in the six months increased by £451,524, mainly of imported goods. The decrease in imports sold in New South Wales will total nearly two million pounds. This is a heavy loss for the trade with which Canada has mainly had to do. As a consequence there have been a number of small failures, but none of any important importing houses and of none that are interested in Canadian trade.

LIVE STOCK.

The hope has been expressed in previous reports that the time would come when Canadian breeders would here find a market for high bred stock. I had hoped that some Australian expert would be able to visit Canada during the autumn Fairs and give an opinion of the prospects. At present such a trade is out of the question. The only animals that are imported from America are merino sheep from the United States, a breed that Canada does not excel in. This trade has been going on for some years and the Vermont merinos have secured a high reputation. The annual Sydney sheep sales took place last month, when a number of Vermonts were offered. The drought affected the sales seriously so that the highest prices realized for the best local sheep were only half those obtained last year. The highest prices realized for Vermonts were $2,103 for one ram; $1,333 for a second, and $1,026 for a third. The ewes brought a much lower figure, the highest price being $360. The average price of one lot of 51 sheep was, rams $230, and ewes $128 each. Another lot of 15 brought,—rams $437; ewes $191 each. These prices were deemed satisfactory. Australia will pay a high price for first-class stock. Canada just now cannot find a market for the long and medium wool sheep, in which she excels, as these animals do not bring fancy prices here, but Autralia is going to pay more attention to other animals: horses, cattle and pigs. There are a number of difficulties in the way of an immediate trade, but the prospects are worthy the attention of Canadian breeders, and if a competent judge of live stock were visiting Australia it would be advisable that the Association should arrange with him to give some attention to the matter.

TIMBER.

I have again had applications for oak staves for wine casks. Nothing so far has been done in direct shipments from Canada. The requirements have been, so far, too small to warrant full car lots being sent through, and purchases for Australia are, therefore, made in New York. There are considerable shipments each month from New York of pine, oak and basswood for Australia and New Zealand, which can be supplied direct by Canada upon the establishment of direct ships. A vessel recently brought a quarter of a million feet.

SADDLES.

Some of the saddles supplied to the Canadian contingents in South Africa attracted the attention of Australian troopers, and it is believed in spite of the duty of 20 per cent a trade can be done in them. Correspondence has been initiated which it is hoped may accomplish this.

COMBINATIONS.

I am advised that efforts are being made to unite manufacturers in sending out a traveller on joint account. It is unadvisable to load an agent with too many lines as some are pretty certain to be neglected, but on the other hand a number of failures in this trade are due to limiting a traveller to a line of trade in which it is not possible to secure sufficient business to pay expenses. It is sometimes, advisable that manufacturers of the same class of goods should join to send out a man in their common interest. It is a mistake to sell a line to too many firms. The end is pretty sure to be cutting prices until there is no profit and the trade then give up handling the line. A traveller with the goods of three or even four houses could limit the sale of the goods of a manufacturer to a good firm in each city and a second line to another firm. In this way if the articles were suitable then the sale would be pushed and the trade continued. The sales of the three or four firms would cover the expense account, which in Australia is heavy.

I have the honour to be,
Your obedient servant,

J. S. LARKE.

V.—GENERAL COMMERCIAL INFORMATION.

(B.)—INQUIRIES RELATING TO CANADIAN TRADE.

Since the publication of the last monthly report, there have been received at this department from the High Commissioner for Canada, London, England, and the Curator, Canadian section, Imperial Institute, London, England, the following inquiries relating to Canadian trade. The names of the firms making these inquiries, together with their addresses, can be obtained from this department, or from the office through which the inquiry was received.

Inquiries from the High Commissioner for Canada.

Canadian Shippers of Wood Flour.

1. Inquiry is made for Canadian shippers of wood flour by a firm who are needing a considerable quantity. (Reference No. 57).

Principal Oilcake Mills, (Canada).

2. A London firm have asked to be placed in communication with some of the principal oilcake mills in Canada. (Reference No. 57.)

Agency for Wood Pulp, (London, Eng.)

3. A firm in a good position to undertake the agency in London of a large wood pulp mill in Canada desire to correspond with an important concern not already represented. (Reference No. 57).

Exporters of Canadian Spruce and Pine Lumber, &c.

4. A Welsh importer is desirous of obtaining f.o.b. prices at Canadian ports and c.i.f. prices Bristol or Liverpool for Canadian spruce and pine lumber, mouldings, &c., also for oils and greases in barrels or drums. He is also prepared to quote for high grade Portland cement for export. (Reference No. 57).

Exporters of Labrador Cod.

5. An Italian house ask to be referred to a leading Canadian exporter of Labrador cod. (Reference No. 57).

Canadian Importers of Agricultural Tools, Steels Files, &c.

6. An English firm manufacturing agricultural tools, steel files, &c., make inquiry respecting the opening in Canada for their goods. (Reference No. 57).

Agency for Canadian Pig Iron, Steel Rails. Wood Pulp, &c., (England).

7. A Canadian firm of engineers with a branch in England are open to take up the agencyfor Canadian manufacturers of pig iron, steel rails, billets, iron and other ores, wood pulp, &c. (Reference No 57).

Agency for Groceries, Small-ware lines, (Canada).

8. A young Canadian now on a visit to Europe desires to get into touch with some English firms in the grocery and small-ware line who require such an agency in the Dominion as he can offer on his return. (Reference No. 57).

Importers of Neckwear Silk.

9. Inquiry is made for English firms selling neckwear silks for manufacturing by a Canadian neckwear house. (Reference No. 57).

(C.)—AUSTRALASIAN AND CANADIAN DAIRY PRODUCE REVIEW.

Season 1901–1902.

The attention of the Producers and Exporters of Dairy Produce throughout Canada is directed to the following extracts taken from Weddel & Co.'s Australasian Dairy Produce Review upon the Imports of Butter and Cheese into Britain during the season 1901–1902.

The most gratifying feature of the Australasian Butter Season which closed at the end of April was the establishment of an absolute record for high prices. On the London market "Choicest" grade quotations averaged for the season 109/6 per cwt., thus excelling the previous year which held the record at 108/5. Unfortunately, against the record of high prices is to be set a season of great diminution in supplies, which totalled only 14,976 tons against 22,545 tons for the season 1900-01. This shortage is due solely to the falling off in the Australian import. The season in the Commonwealth was exceptionally droughty, and the amount of butter received was only 50 per cent. of that imported during the previous season. The first vessel carrying Australian butter did not arrive in London until 26th October, against the 18th August of the preceding year, and the last vessel of the season reached London 1st March, while the year before it was not until 14th May that the final shipment arrived. Thus the Australian season, 1901-02, consisted of only 126 days. Its immediate predecessor was a long season, and lasted for 269 days. The New Zealand season, which is always about a month later than the Australian, was slightly short of its normal length, commencing with the first arrival on 18th November, and closing with the receipt of the final shipment on 23rd May, which shows a season of 186 days, being thus one-third longer than the Australian. The total amount of butter received during the past season from Australia was only 7,669 tons as against 15,293 tons the season before. New Zealand arrivals amounted to 7,307 tons, or only 362 tons less than those from Australia. Thus the two branches of the Australasian butter trade contributed about equal amounts to the British market. The nearest approach to equality previously attained was in the season 1897-98, when New Zealand receipts were 4,187 tons below those from Australia. In the season 1900-01, Australia sent 8,042 tons more than New Zealand, an excess greater than the total Australian receipts during the past season.

How seriously the drought in Australia and the increasing requirements in South Africa have affected the imports of butter from the Commonwealth for the past three years, is demonstrated by the fact that Australian supplies to British markets for that period have been 17,208 tons, 15,293 tons, and 7,669 tons respectively. New Zealand, although free from drought, has been called upon during the past two season to divert considerable amounts of butter to Australia and South Africa, and consequently the New Zealand imports into the mother country have not exhibited the expansion of former years. The exact amounts received during each of the past three seasons were

7,465 tons, 7,252 tons, and 7,307 tons respectively. The following table shows the imports of butter from the various Colonies for each of the last eight Australasian seasons.

IMPORTS OF COLONIAL BUTTER DURING THE AUSTRALASIAN BUTTER SEASON.

Season.	Australia.					New Zealand.	Canada.	Grand Total.

As the Dominion of Canada lies in the same northern latitude as the United Kingdom, the Canadian butter season coincides with that of the mother country. So far as the bulk of export business is concerned, the Canadian season commences in May and ends in December, although a dwindling amount is received month by month from January to April. From May to December last the imports of butter from Canada totalled 10,718 tons, and from January to April 413 tons, making a total receipt for the year ended 30th April, 1902, of 11,131 tons. For the previous year the corresponding import from May to December was 6,822 tons ; and from January to April, 46 tons ; the annual import totalling 6,868 tons.

Prices.—It is a matter for congratulation that the fluctuation of prices has been remarkably small, the extreme range reaching 14s. per cwt. The highest price for "Choicest" grade was obtained in the first week in November, when 120s. per cwt. was secured for special brands out of the first Australian arrival. The lowest price was 106s., which occurred in December, and in January, and again in April. This is also a record, as in every season, save the last, values have in certain weeks been even below 100s.

The average price per cwt. in London for "Choicest" Canadian salt butter for each of the ten months ended April last, was May 94s., June 100s., July 99s. 6d., Aug. 104s. 10d., Sept. 109s., Oct. 112s. 6d., Nov. 112s 10d., Dec. 106s., Jan. 104s., Feb. 104s., March (no supplies), April (no supplies). The average for the eight months, May to December was 104s. 10d., and for Jan. and Feb. 104s.

QUALITY OF BUTTER.

The best friends of the Australian Dairy Produce trade cannot but regret that the steady improvement in the quality of butter, which Australia exhibited regularly until last year, has not only ceased, but on the whole has actually receded. It is true there are certain factories and a limited number of brands which are equal in quality to anything formerly received, but the bulk of the butter is inferior to what it was only two years ago. The reason of this may be attributed in some degree to the continued droughty conditions that have been so disastrous to agriculture generally in Australia ; but the main reason for deterioration in quality is the increasing use of the private separator. In a hot climate like Australia, the result of farmers separating their own cream and delivering it to the factory at irregular intervals is certain ruin to the manufacture of perfect butter. It is contrary to common sense and opposed to every scientific method to expect a vat of cream which contains cream of three or four different ages, all blended together, to produce as good butter as a vat which contains cream all of one age. To

mix ripe, over-ripe, and doubly over-ripe cream together, as results from the use of private separators, and to expect that it will produce as good butter as only ripe cream, is to show utter ignorance of those principles of fermentation on which the flavour and keeping qualities of all butter absolutely depend. The machinery agents in Australia who have pushed private separators on the farmers have done an incalculable injury to Australian butter, and, unless this policy is immediately reversed, the quality of Australian butter is doomed to occupy a secondary position in British markets.

In New Zealand there is not any noticeable deterioration as there is in Australia, but the taint of the private separator is too frequently making itself known even there, and the sooner this baneful influence is abolished the better. New Zealand butter has now gained a very high character, and during the past season it may be safely asserted that the bulk of it was superior to Australian, and if this present rate of progress should continue it will soon sell at higher prices than Australian. There can be no doubt that the excellent system of grading adopted by New Zealand, and the lower temperature at which the butter is carried in transit to the United Kingdom, have done something to bring about this improvement ; but the fact that the bulk of the milk in New Zealand is daily delivered direct into the factory, and each day's cream being thus kept under the control of the factory manager, renders it possible to make a higher class article than when " collected " cream from the farmer's private separator is received at odd times during the week.

Canadian butter, notwithstanding the small size of the factories, and the existence of too few co-operative companies, is making steady and fairly satisfactory progress. The main defects about Canadian is the want of " finish " to the butter when packed in the export box of 56 lbs., and the wretchedly inferior imitation vegetable parchment paper which lines the boxes and enfolds the butter. There are few shippers who use as good vegetable parchment paper as the Australians and the New Zealanders ; but unfortunately these few are exceptional. The difference in cost between the very best parchment paper and the inferior imitation rubbish used in Canada is less than one half-penny per 56 lbs. box of butter, and the attempt to save one half-penny over an article worth 50s. to 55s. is a good illustration of spoiling the ship for a ha'porth of tar ! Largely owing to this inferior quality of paper, Canadian butter becomes mouldy on the surface, and shillings per cwt. are lost in consequence. Although some dip their paper in a formaline solution, yet it would be far better to use only the very best paper as is done in Australia and New Zealand. If the Dominion Government Commissioner were to collect specimens of the parchment paper used in Canada and in Australia and dip them in sterilized butter, and then place them in an incubator the crop of mould growing on the Canadian paper would demonstrate the inferior quality which Canadians are content to use for their butter. Another point that deserves attention in Canadian butter is the temperature at which it is carried from Montreal to the United Kingdom. At present this temperature is too high, and 25° Fahr. should be the maximum. New Zealand butter is all carried below 20° Fahr.

QUALITY AND PRICE OF CHEESE.

A great improvement was made last year in the carriage of Canadian cheese across the Atlantic. Cool chambers were introduced on some of the lines of steamers, and, although an increased freight was incurred, there is no doubt whatever that it was a genuine economical change, for the much better condition in which the cheese arrived during the hot weather resulted in the cheese obtaining a higher proportionate price. This system has been further extended this season, and soon all Canadian cheese will arrive in a greatly improved condition as compared with that which prevailed up to two years ago. In New Zealand cheese too there has been an improvement in quality, mainly in its keeping properties, although there is room yet for considerable progress in this connection.

The following table shows the average monthly prices of Canadian cheese on the London market since 1895. Prices of New Zealand cheese run parallel with those of Canadian, but at about 1s. and 2s. per cwt. lower.

SHIPPING ARRANGEMENTS.

Satisfactory progress on the whole can be reported as to the arrangements for shipping butter and cheese from Australasia, especially those regarding the shipments of New Zealand dairy produce which is now shipped from only two ports in the Colony instead of four or more as formerly. This has secured a more rapid discharge of the vessels on their arrival in London, but, unfortunately, the discharge from the vessel does not correlate with the receipt of the goods by the consignees. The old and unsatisfactory method of sorting on the quay or in the sheds at the docks still continues with both lines of New Zealand steamers and with the P. & O. line from Australia. The Orient-Pacific line deserves much praise for the very great improvement they have introduced in the discharge of Australian butter from their vessels, and although there are greater difficulties in the matter of discharging New Zealand dairy produce, there is nothing to prevent the P. & O. Co. falling into line next season with the Orient-Pacific Co. Instead of discharging the goods on to the quay or into the sheds at the docks, and sorting them out there for despatch to the various consignees, the Orient-Pacific Co. "tally" the whole cargo into barges which immediately proceed up river to Cotton's Wharf, where 80 per cent of the goods are required, and the sorting and despatch proceeds from there. Every consignee admits that he now gets the bulk of his goods by this system at least one day sooner than formerly, and what is of more importance, there are no remnants of brands to wait for, often for one, two, or three weeks as formerly.

SALE OF BUTTER REGULATIONS.

Since the last publication of this Review the Departmental Committee, appointed by the Local Government Board, to inquire into the use of preservatives and colouring matter in the preservation and colouring of food, has issued its report. The Committee recommends that no preservative or colouring matter whatever shall be allowed in milk, that the only preservative for the use of cream shall be boracic acid, or mixtures of boracic acid and borax, the amount not to exceed one quarter of one per cent (0·25), and the only preservative permitted to be used in butter or margarine shall be boracic acid or mixtures of boracic acid and borax, the amount not to exceed a half of one per

cent (0·50). This recommendation has been adopted by the Board of Agriculture and has now become the law on the matter.

In July, 1901, the Department of Agriculture, under the authority of the Sale of Food and Drugs Act, 1899, also appointed a Departmental Committee "for determining what deficiency in any of the normal constituents of butter, or what addition of extraneous matter, or proportion of water in any sample of butter shall, for the purpose of the Sale of Food and Drugs Acts, raise a presumption until the contrary is proved that the butter is not genuine." On the 24th January, 1902, after taking much evidence, the committee issued an interim report containing the following unanimous recommendation on one part of their inquiry, viz., the proportion of water to be allowed in butter: "We, therefore, recommend the adoption of a limit of 16 per cent for the proportion of water in butter to be fixed by a regulation under section 4 of the Sale of Food and Drugs Act, 1899, and we make this recommendation on the assumption that butter containing a larger percentage of water than 16 per cent. will escape the operation of this limit provided that a sufficient disclosure is made to the purchaser."

This recommendation of the committee seemed to most people a practical and reasonable solution of the difficulty, as it distinctly made it a fraud to sell butter containing more than 16 per cent of water, unless the amount of water contained in the butter was specifically made known to the purchaser at the time of sale. The report, however, met with strong opposition from the pastoral interests and a very large number of provision dealers who had agitated for the appointment of the committee. There is very grave reason to believe that the real object the agitators had in view was the prevention of the sale of an article known as "milk-blended-butter." So great was the pressure brought to bear upon the Department of Agriculture that Mr. Hanbury, the President, over-rode the unanimous recommendation of his committee, and issued a regulation for the sale of butter, omitting the "sufficient disclosure" qualification and fixing 16 per cent as the absolute limit for Great Britain, which came into operation on 15th May last. Even this regulation was not sufficiently strong for the agitators, and to meet their views the President has recently introduced a Bill into the House of Commons enacting that butter to which any substance has been added whereby the amount of water in the butter is increased shall be sold only under the name of "Butterine."

The objects of the promoters of this new legislation is to stop the sale of "milk-blended butter" on the ground that its sale is a fraud. Although the firm which sells it has been prosecuted all over the country on this same ground, and magistrates have condemned them to fines, yet, on appeal to the higher courts, the judges have emphatically decided it is not a fraud, and the magistrates' decisions have been quashed. The proposed legislation is contrary to the spirit of the British Constitution, for it is intended by an objectionable name—"Butterine"—to stop the sale of an article which, in itself, is a mixture of two other articles, both everywhere known as excellent foods and in no way whatever injurious to health.

The spirit of British law is deterrent, and follows the principle of preventing fraud by severity of punishment, and not by suppression of the manufacture of pure and wholesome commodities. If the sale of "milk-blended butter" is a fraud then it should be stopped by imposing such heavy fines, or actual imprisonment of the offenders, as would be effectual. Another obvious result of Mr. Hanbury's Bill will be to enable Margarine to be sold as butterine, and thus sellers will escape the irksome Margarine regulations which now control its sale. To allege, as the supporters of Mr. Hanbury do, that milk added to butter increases its water contents may probably be analytically correct, but it is no more commercially true than alleging that when anyone sells 100 gallons of milk he sells 88 gallons of water, and only 12 gallons of solids.

The Australasian Agents General, when reporting to their respective governments on this new development in the butter trade, do not appear to have realized that the sale of "milk-blended butter" would in all probability be beneficial to Australasian shippers. Colonial butter, owing to its being the driest butter on the market, is the most suitable for blending purposes, and thus a large additional demand has arisen for it. Were the sale of milk-blended butter to become general the Colonies would have

great difficulty in supplying a sufficient amount to be consumed in the ordinary way in addition to satisfying the demand for "milk-blended butter." The public have found "milk-blended butter" so attractive that already one firm sells nearly 60 tons a week and there is no reason why in this country ten, twenty, or more firms should not each sell 50 or 60 tons a week of this butter, and an additional demand for 500 or 1,000 tons of Colonial butter per week is surely something to be encouraged. If the sale of this butter were fraudulent it would be another matter, but since the judges have emphatically ruled that it is not, the Agents General and their advisers appear to have acted injudiciously in aiding and abetting legislation for the suppression of the sale of a perfectly pure and nutritious article, the extended use of which would be so palpably beneficial to the Colonies.

IMPORTS.

Year ended 30th June, 1902.

BUTTER.

The increase in the imports of butter into the United Kingdom goes steadily on. Sometimes this increase is large, as in the year ended 30th June last, when it amounted to 12,448 tons, or an average increase of more than 1,000 tons a month. The following statement of the increase for each of the past ten years demonstrates the capacity of British markets for absorbing the surplus of butter produced in other countries.

	1893	1894	1895	1896	1897	1898	1899	1900	1901	1902
Tons (increase).	7,001	7,964	11,453	11,661	10,713	2,247	5,479	6,754	3,598	12,448

The increase in the Imports of the year just closed is thus seen to be the greatest in the decade. In the year 1892 the total imports were 108,119 tons, and now they have reached 187,907 tons, which shows a growth of 79,988 tons in ten years.

The country which shows the greatest increase for the year just ended is Russia, with an addition of 9,392 tons, nearly altogether from Siberia. Denmark stands next with 7,093 tons, and then comes Canada with 3,959 tons. France follows with 1,482 tons, Argentina with 1,477 tons, and Holland with 960 tons. No other country sent an increased quantity except Norway, and that was only 126 tons. Among the countries showing a deficiency compared with last year Australia takes the lead with a reduction of 8,107 tons, the United States follows with 1,706 tons, Sweden with 1,093 tons, New Zealand with 617 tons, Belgium with 222 tons, and Germany with 47 tons. Various other countries, whose total imports this year were only 131 tons, contributed to our supply 239 tons less than in the previous period. It is interesting to note that for the year ended June 30, 1902, the imports of New Zealand butter for the first time exceeded those from Australia, the actual receipts being 8,295 tons and 7,449 tons respectively.

If the sources of our butter imports be divided into Colonial and Foreign, it will be found that only once in the last decade have the Foreign imports been less than in the year before, and that took place in 1900 when the deficit was 8,236 tons, in the following year an increase of 9,502 tons occurred, and this year the Foreign supply shows the enormous increase of 17,213 tons. Colonial imports in the last decade have four times been below the previous year, and on three of these occasions the deficiency was due to Australia. The total Colonial supply rose from 9,000 tons in 1893 to its climax of 37,500 tons in 1900, since then it has declined to 27,000 tons in the present year. This feature of the Colonial and Foreign supplies of butter is illustrated in the chart accompanying this Review, and Table IV. below records the various sources from which butter is drawn for consumption in the United Kingdom.

Cheese.

From every country which supplies Cheese to British markets, with the exception of France, the imports last year show a deficit, the total falling off being 5,786 tons. In contrast to the supplies of butter, which are principally from foreign sources, those of cheese are mainly from colonial, the foreign imports last year being only 46,245 tons, while colonial were 79,007 tons, Canada alone sending 76,297 tons, and New Zealand 2,710 tons of this amount. Just as Danish supplies dominate the market for imported butter, Canadian holds the sway for imported chesse. The progress made by the Colonies in supplying us with cheese is most gratifying, for the increase in the past ten years is about 25,000 tons, while foreign supplies have decreased by about 1,000 tons a year. The home supplies are virtually stationary, the average make for the last five years being about 143,000 tons, while the total imports average about 126,500 tons. The following Table demonstrates not only how Canada now supplies the bulk of imported cheese but also the solid and steady increase she has made. In 1892 the import from Canada was 44,400 tons, this year it was 76,300, or an average increase of over 3,000 tons a year.

PROSPECTS FOR NEXT SEASON.

Butter.—Reports by letter and cable from Australia all tend to show that the winter is extremely severe, the cattle poor, the drought the worst for many years, and a very late opening of the season is everywhere anticipated. The return of the civil population to South Africa will cause a larger demand than ever from there for Australian butter, and the high price of cattle in the Commonwealth tends to reduce the milking herds, because beef production pays better than butter making: therefore, it looks as if the import of butter from Australia next season is scarcely likely to show an increase. New Zealand butter is expected to show a continued increase, although the high price of cheese this season may tempt a larger production of this article next year. Canadian supplies it is anticipated will be slightly larger than last year. The high price of butter in the United States has prevented any large export from there and will probably continue to restrict supplies.

Although the grass and root crops all over the Continent of Europe and the British Isles are just now exceptionally good, the scarcity of fodder last winter greatly reduced the milking herds, and only a partial stocking up can be made this winter. The hay crop all over Europe, though an average, has been on the whole badly gathered in, much being damaged by the heavy rains.

The outlook for the coming winter, therefore, does not indicate any great increase in the imports on last year, yet, at the same time, it seems somewhat doubtful whether the abnormally high prices of last winter will be maintained during the ensuing season.

Cheese.—Owing to the better pastures this year and the inducement given by the high prices of last season, it is certain that the make of home cheese will be considerably augmented, and as the foreign and colonial makes will probably be equal to last year, prices next winter are not expected to be so high as during the winter of 1901-2.

(D.)—BICYCLE TRADE OF NEW ZEALAND.

The importation of bicycles and bicycle materials into New Zealand, during the calendar years 1897 to 1901, presents some very interesting features. During the year 1897 the imports were 11,497 bicycles, valued at $617,653, while in 1901 the imports were 8,014, valued at $263,078, showing a falling off in the number of bicycles imported from 1897 to 1901 of 3,483, or about 30 per cent; while the decrease in value for the same period was $354,575, or about 57 per cent. In the year 1897 the average value of each bicycle imported was $53.72 and in 1901, $32.83, a decrease of $20.89 on each bicycle. The importation of bicycle materials does not show such a change, however, the value of the imports in 1901 was $346,375 as against $312,177 in 1897, an increase of $34,198. The proportion of bicycle materials to bicycles shows a great change, the value of the imports of the former, in the year 1897, being little more than half the value of the latter, the figures being $312,177 to $617,653, whereas in the year 1901 the value of the imports of bicycle materials was $346,375 to $263,078 for bicycles. From the above it is evident that the locally, or put together, machine is gradually displacing the complete machine.

(D.)—The following statement shows, by countries, the importation of bicycles and bicycle materials into New Zealand during the calendar years 1897 to 1901.

(E.)—BRITISH AND COLONIAL INDUSTRIAL EXHIBITION, CAPE TOWN, SOUTH AFRICA.

Mr. Jas. G. Jardine, Canadian Trade Agent, South Africa, writing to the Department of Trade and Commerce from Pietermaritzburg, Natal, under date the 20th July, conveys the information that a British & Colonial Industrial Exhibition will be held at Cape Town during the months of November, December, January and February, 1903-4, under the patronage of His Excellency Lord Milner, G.C.B., G.C.M.G., High Commissioner for South Africa.

Mr. Jardine is of the opinion that the time fixed for the Exhibition is certainly an opportune one for Canadian manufacturers desirous of doing business in that country, giving them as it does ample time to enter exhibits. Mr. Jardine states that such a Canadian exhibit should embrace samples of the forest wealth of Canada and industries in which large quantities of wood are required, all descriptions of canned goods, dairy and food products, apples, agricultural implements, furniture, boots and shoes, leather, trunks and valises, cotton and woollen textures, models of railway and tram cars, locomotives and traction engines, &c., carriages, stoves and heating apparatus, tin and enamelled ware, axes and mechanics tools generally, and musical instruments including cabinet organs.

The cost of such an exhibit need hardly be considered as every article of the kind mentioned could be sold at a reasonable advance on cost of manufacture and transportation, &c., besides such an exhibit from Canada, side by side with industries from all parts of the Empire, cannot but lead to extensive and profitable business and the opening up of new and permanent trade outlets to Canadian industries generally.

(F.)—PROVISION TRADE OF CANADA, GREAT BRITAIN AND UNITED STATES.

STATEMENT showing Value of Provisions Exported (Home Produce) from Canada and the United States, with portion sent to Great Britain during the Years ended June 30, 1891 to 1901; also Imports into Great Britain, with portion taken from Canada and the United States during the Calendar Years 1891 to 1901.

(I.) WATTLE BARK FOR SOLE AND UPPER LEATHER TANNAGE.

Mr. Jas. G. Jardine, Canadian Trade Agent, South Africa, writing to the Department of Trade and Commerce from Pietermaritzburg, Natal, under date July 19, desires to call the attention of Tanners throughout Canada to Wattle Bark, and in connection therewith, Mr. Jardine states that he has forwarded the following letter to a number of Canadian firms in Canada:

PIETERMARITZBURG, NATAL, July 19, 1902.

GENTLEMEN,—I have been asked by Sir Benjamin Greenacre, of Durban, Natal, President Natal Tannery Company, to call the attention of leading Canadian Tanners, to the virtues of black Wattle Bark for sole and upper leather tannage. The Manager of the Tannery here, an expert from England, informs me that one ton of Cassia alumen, or Black Wattle, contains as much tanning as two and one-half tons of English Oak Bark. It is particularly adapted for making Extract. If, however, used as a tanning agent *by itself* will produce leather *too red* for market, but not so red as hemlock. It makes an admirable tanning agent in combination with Oak Bark, Valonia Myrabolans, Sumach and Gambia. It requires the mixture of one of these, especially oak, both to tone down the astringency of tannage and produce leather of the colour and quality of the very best English Oak. It contains about thirty per cent of tanning and would cost f.o.b. Durban, chopped and bagged, £6. 10s. 0d. per long ton. Very large quantities of this bark goes to England and the United States from both Natal and Australia. If you care to obtain a sample, I will have a cwt. or less quantity shipped to your address by writing me to Cape Town.

Yours truly,

JAS. GEO. JARDINE.

Note.—'Special' means in the case of Imports, 'Imports for Home Consumption,' in case of Exports, 'Exports of Domestic Produce and Manufacture.'

a The figures for Mexico include coin and bullion.

II.—NEW TARIFFS.

During the month under review there have been distributed from this department to all the principal Custom-houses and Boards of Trade throughout the Dominion, copies of all foreign and colonial tariffs and supplements thereto, as furnished during that period by the international Customs Tariff Bureau, which are always available for reference by those interested therein, resident at the principal centres of trade. The following British and Colonial are supplemental to those published in the departmental Annual Report, 1893, and the quarterly and monthly reports since published, and comprise all additions thereto or changes therein, so far as the department has authentic advice.

(A.)—UNITED KINGDOM.

The following statement, showing the several articles subject to import and export duties in the United Kingdom, and the duty levied upon each article according to the tariff in operation upon the 1st day of August, 1902, has been issued by the Commissioners of His Majesty's Customs.

ARTICLES. IMPORT DUTIES.		Rates of Duty. £	s.	d.
Cocoa	lb.	0	0	1
Husks and shells	cwt.	0	2	0
Cocoa or chocolate, ground, prepared, or in any way manufactured	lb.	0	0	2
Cocoa butter	"	0	0	1
Coffee	cwt.	0	14	0
Coffee, kiln-dried, roasted or ground	lb.	0	0	2
Chicory, raw or kiln-dried	cwt.	0	13	3
Chicory, roasted or ground	lb.	0	0	2
Chicory (or other vegetable substances) and coffee, roasted and ground, mixed	"	0	0	2
Corn and grain, &c—				
PART 1.				
Wheat	cwt.	0	0	3
Barley	"	0	0	3
Oats	"	0	0	3
Rye	"	0	0	3
Buckwheat	"	0	0	3
Peas (not fresh)	"	0	0	3
Beans (not fresh)	"	0	0	3
Lentils	"	0	0	3
Rice, (other than whole and cleaned rice)	"	0	0	3
Maize	"	0	0	1½
Offals—Any offals which are feeding stuffs and are proved not to contain more than 50 per cent of starch	"	0	0	1½
"Offals" means the bran, pollards, germs, husks, culms dust, or other similar bye-products of maize and the articles liable to the above-mentioned duties of 3d.				
PART II.				
Flour and the meal or milled products (other than offals at a duty of 1½d.) of any of the articles mentioned in Part I, except maize	cwt.	0	0	5
Starch	"	0	0	6
Arrowroot	"	0	0	5
Cassava powder and tapioca	"	0	0	5
Potato flour	"	0	0	5
Sago	"	0	0	5
Malt	"	0	0	5
Pearled barley	"	0	0	5
Rice (whole and cleaned)	"	0	0	5
Maize meal or milled products of maize (other than offals of maize liable to the above mentioned duty of 1½d.)	"	0	0	2½

ARTICLES—*Continued.*		Rates of Duty. £ s. d.
Mixtures of whole and broken rice (cleaned).		
Rice (cleaned) containing not more than 10 per cent of whole	cwt.	0 0 3
Rice (cleaned) containing not more than 10 per cent and not more than 50 per cent of whole	"	0 0 4
Rice (cleaned) containing more than 50 per cent of whole	"	0 0 5
NOTE—Preparations in which any of the above mentioned articles have been used in manufacture are liable to duty under Sec. 7, Finance Act, 1901.		
Fruits, dried—		
Currants	"	0 2 0
Figs and fig cake, plums, prunes and raisins	"	0 6 0
Tea	lb.	0 0 6
Tobacco, manufactured, viz.—		
Cigars	"	0 5 6
Cavendish or negrohead	"	0 4 4
Cavendish or negrohead manufactured in bond	"	0 3 10
Other manufactured tobacco, viz.—		
Cigarettes	"	0 3 10
Other sorts	"	0 3 10
Snuff containing more than 13 lbs. of moisture in every 100 lbs. weight thereof	"	0 3 7
Snuff not containing more than 13 lbs. of moisture in every 100 lbs. weight thereof	"	0 4 4
Tobacco unmanufactured, viz.—		
Containing 10 lbs. or more of moisture in every 100 lbs. weight thereof	"	0 3 0
Containing less than 10 lbs. of moisture in every 100 lbs. weight thereof	"	0 3 4
Wine—		
Not exceeding 30° of proof spirit	gall.	0 1 3
Exceeding 30 but not exceeding 42° of proof spirit	"	0 3 0
And for every degree or part of a degree beyond the highest above charged, an additional duty of	"	0 0 3
The word 'degree' does not include fractions of the next higher degree. Wine includes lees of wine.		
Additional—		
On still wine imported in bottles	gall.	0 1 0
On sparkling wine imported in bottles	"	0 2 6
Beer of the descriptions called mum, spruce or black beer, and Berlin white beer, and other preparations, whether fermented or not fermented, of a character similar to mum, spruce or black beer, where the worts thereof were, before fermentation, of a specific gravity—		
Not exceeding 1215°	every 36 gall.	1 12 0
Exceeding 1215°	"	1 17 6
Beer of any other description where the worts thereof were, before fermentation, of specific gravity of 1055	"	0 8 0
And so on in proportion for any difference in gravity.		

	Imported in cask. £ s. d.	Imported in bottle. £ s. d.
Spirits and strong waters—		
For every gallon computed at hydrometer proof of spirits of any description (except perfumed spirits) including naphtha or methylic alcohol, purified so as to be potable; and mixtures and preparations containing spirits—		
Enumerated spirits—		
Brandy, per proof gall	0 11 4	0 12 4
Rum "	0 11 4	0 12 4
Imitation rum "	0 11 5	0 12 5
Geneva "	0 11 5	0 12 5
Additional in respect of sugar used in sweetening any of the above tested for strength per proof gall	0 0 2	0 0 2
Unenumerated spirits—		
Sweetened	0 11 7	0 12 7
(Including liqueurs, cordials, mixtures and other preparations containing spirits, if tested.)		
Not sweetened, per proof gall	0 11 5	0 11 5
(Including liqueurs, cordials, mixtures and other preparations containing spirits, provided such spirits can be shown to be both unenumerated and not sweetened, if tested.)		
Liqueurs, cordials, mixtures and other preparations containing spirits in bottle, entered in such a manner as to indicate that the strength is not to be tested, per liquid gall		0 16 4
Perfumed spirits, per liquid gall	0 18 1	0 19 1
And so on in proportion for any less quantity.		
Any importations of naphtha or methylic alcohol purified so as to be potable are rated under the heading of unenumerated spirits.

Customs charges—				
On delivery from warehouse for home consumption of goods liable to customs duties and on British compounded spirits, for every £100 of duty and in proportion for every fractional part of £100.—				
In respect of tobacco		0	2	6
" other goods		0	5	0

Where any manufactured or prepared goods contain, as a part or ingredient thereof, any article liable to any duty of customs duty shall be charged in respect of such quantity of the article as shall appear to the satisfaction of the treasury to be used in the manufacture or preparation of the goods, and in the case of goods so containing more than one such article, shall be charged in a similar manner on each article liable to duty at the rates of duty respectively applicable thereto, unless the treasury shall be of opinion that it is necessary for the protection of the revenue that duty should be charged in accordance with the Customs Tariff Act, 1876.

Any rebate which can be allowed by law on any article when separately charged, shall be allowed in charging goods in respect of the quantity of that article used in the manufacture or preparation of the goods.

As respects the first levying or repealing of any duty of Customs, the time at which the importation of any goods shall be deemed to have had effect shall be the time at which the entry of the goods under the Customs Act is delivered, instead of the time mentioned in Section 40 of Customs Consolidated Act, 1876. (Finance Act, 1901. Sec. 7.)

EXPORT DUTY.

Coal, cinders, &c., exported, viz.:—				
Coal and culm	ton.	0	1	0
Coke and cinders	"	0	1	0
Fuel manufactured	"	90 p.c. of export duty on coal.		

A rebate of the duty is allowed on coal, the value of which, free on board, exclusive of duty, is proved not to exceed 6s. per ton; and on fuel, the coal ingredient of which is proved not to be of a higher value than 6s. per ton.

NOTE.—The minimum sizes of packages of saccharin, tobacco and casks of spirits allowed to be imported into the United Kingdom and the Channel Islands are as follows :—

	Minimum legal quantity.
Saccharin	In packages of not less than 11 lbs. net weight.
Tobacco	" " 80 lbs. gross weight.
Spirits (imported otherwise than in cases)	In casks or other vessels of the size or content of not less than nine gallons.

Saccharin allowed to be imported only at—

Dover, Folkestone, Goole, Grangemouth, Grimsby, Harwich, Hull, Leith, London, Newhaven, Southampton and West Hartlepool.

Not allowed to be imported through foreign and colonial parcel post.

Packages of tobacco must contain tobacco only, and under tobacco are included cigars, cigarillos, cigarettes and snuff.

ARTICLES—*Continued.*

CUSTOMS DRAWBACKS.		Rates of Drawback. £ s. d.
Coffee—		
On all roasted coffee exported which is not mixed with chicory or any other substance	100 lbs.	0 14 0
Corn and grain—		
On any of the articles mentioned in parts 1 and 11, which have undergone a process of manufacture or preparation in Great Britain or Ireland, a drawback equal to the duty paid on the article.		
On goods in the manufacture or preparation of which in Great Britain or Ireland any of the articles mentioned in Parts 1 and 11, have been used, a drawback equal to the duty paid in respect of the quantity of that article which appears to the satisfaction of the treasury to have been so used.		
Tobacco—		
Tobacco containing 14 per cent of moisture manufactured in Great Britain and Ireland upon which the duties of Customs shall have been paid, on the same being by any licensed manufacturer exported as merchandise or deposited in any bonded warehouse to be used as ships' stores, and packed in whole and complete cases (or packages), each weighing not less than 80 lbs. gross weight, or such less weight as the Commissioners of Customs may permit	lb.	0 3 0
And in proportion if the moisture exceeds or is less than 4 per cent.		
Snuff—		
Manufactured in Great Britain and Ireland, on the exportation thereof, or on deposit in the King's Warehouse to be abandoned, provided the quantity of inorganic matter contained therein does not exceed the proportion of 18 lbs. in every 100 lbs. exclusive of water, or on every pound deposited by a licensed manufacturer in a bonded warehouse approved by the Commissioner of Customs, for the purpose of being either converted into sheep-wash, hop-powder, or other similar compounds for exportation under bond, or of being mixed with such substance or combination of substances as the Commissioners of Customs may prescribe, so as to render the snuff no longer capable of being used as such, or as tobacco in any manner	lb.	0 3 1
If the snuff contains more than such proportion of inorganic matter, a deduction is to be made from the drawback in respect of every pound of the excess above such proportion.*		
Foreign Beer—		
Of an original gravity of 1,055° for every 36 gallons		0 7 9
And so on in proportion for any difference of gravity.		
Sugar—		
Which has passed a refinery in Great Britain or Ireland a drawback equal to the duty on sugar of the like polarization	cwt.	0 1 0
Molasses—		
Allowed to a refinery on molasses produced in Great Britain or Ireland and delivered by him to a licensed distiller for use in the manufacture of spirits.		
On goods (other than beer) in the manufacture or preparation of which in Great Britain or Ireland, any sugar, glucose, saccharin, or molasses has been used, a drawback equal to the duty in respect of the quantity of that article which appears to the satisfaction of the Treasury to have been used in the manufacture or preparation of the goods or, in the case of residual products, to be contained therein.		

The following is the text of a general order (No. 59 of 1902) recently issued by the commissioners of H. M. Customs, relative to the rates of drawback allowable on the exportation of flour, meal, offals, &c., and the evidence to be required that drawback is claimable :—

'The Board having had under consideration the second schedule to the Finance Act, 1902, setting out the drawbacks to be allowed under the first section of the Act and the conditions upon which such drawbacks can be granted, now direct as follows :

'1. The drawback to be allowed on flour and the meal or milled products (other than offals) of—

Wheat,	Buckwheat,
Barley,	Peas (not fresh),
Oats,	Beans (not fresh),
Rye,	Lentils,

which are subject on importation to the duty of 3d. per cwt., under part 1 of the first schedule to the Finance Act, 1902, will be at the rate of 3½d. per cwt. on the net weight exported.

'2. Drawback on offals (as defined in the first schedule to the Act) and on the meal or milled products of maize is to be allowed at 1½d. per cwt. on the net weight exported, being the rate of import duty chargeable on offals and maize respectively.

'The second schedule to the Act prescribes that drawbacks can only be allowed if it is proved to the satisfaction of the Commissioners of Customs that the duties on importation have been duly paid, and, having regard to the fact that most of the articles named in part 1 of the first schedule are of a description which is grown in the United Kingdom, and on which, if so grown, no duty is chargeable, the Board must look to exporters claiming drawback to produce such evidence as will meet the requirements of the law.

---

*By Section 6, § 2, of the Finance Act, 1896, the limitations in respect of inorganic matter and sand, governing the payment of drawback under Section 1 of the Manufactured Tobacco Act, 1863, may be relaxed by the Commissioners of Customs, where, in their opinion, having regard to the character of the tobacco tendered for drawback, there has been no artificial increase in inorganic matter or sand during the process of manufacture.

'In all cases, therefore, where drawback is claimed on the product of articles of a description which is grown in the United Kingdom, the Board will require, in addition to compliance with the usual drawback regulations, evidence that the articles from which such products have been manufactured were of foreign origin, and consequently that the duties on importation have been duly paid.

'The nature of such evidence will necessarily depend on the circumstances of each case, but it may be useful to indicate that:

'*(a)* An exporter who imported and paid duty upon the raw material from which the article specified on the shipping bill has been manufactured will be required to satisfy the Board as to such importation by means of a statutory declaration or a declaration before a collector of customs made by a competent person, or by allowing his books to be inspected by an officer of the department.

'*(b)* An exporter who did not import the raw material must produce a similar declaration or evidence from the actual importer, and, if necessary, from the manufacturer and any other persons through whose hands the goods may have passed.'

A further general order (No. 60 of 1902) has been issued by the commissioners of H. M. Customs, relative to the treatment, for customs purposes, of saccharin and mixtures containing saccharin or similar substances. The following is the text of the order:—

Noti ce ishereby givent hat the Lords of the Treasury have directed that, on and after the 1st prox., the full rate of duty of 1s. 3d. an ounce be charged on all importations of saccharin and mixtures containing saccharin, or other substances of like nature or use, in accordance with the provisions of section 7 of the Finance Act. 1901, and the Customs Tariff Act, 1876.

Under this order no questions will arise in respect of importations already assessed for duty which may be remaining in bond on and after the 1st prox. In all such cases the original assessment is to stand.'

This order is dated August 12, 1902.

(B.)—CYPRUS.

Rates of Duty Leviable on Articles Imported into Cyprus.

EXEMPTIONS.

The following articles are *exempt* from the payment of import duty :

Uniforms of public officers and professional robes of legal or judicial officers in the employment of His Majesty's Government, provided that such uniforms or robes are imported for the personal use only of such officers, and have been duly authorised.

Professional robes of advocates entitled to practise in Cyprus.

The authorised uniforms of Foreign Consuls and Consular officers, and national flags imported for their use.

The authorised uniforms of any Foreign Government to be worn by persons entitled to wear them.

Government medals and decorations to be worn by persons resident in Cyprus.

Fire-arms for the personal use of officers of His Majesty's naval and military forces.

Paving stones imported by municipal councils to be used for the paving of streets within the municipal limits, and duly certified as so imported by the President and by the cashier of any municipal council.

Street lamps and their fittings imported by municipal councils to be used in the lighting of streets within the municipal limits, and duly certified as so imported by the President and by the cashier of any municipal council.

Casks and vats, and staves and hoops for use in their construction.

Microscopes and all microscopical and other apparatus or appliances for purposes of scientific investigation and research.

Gymnastic apparatus ; mathematical and other instruments used in schools for educational purposes, when imported for the use of schools.

Animals and livestock ; atlases and maps ; anchors and chains (ship's) ; bark, boats, charcoal, church furniture and articles intended to be used in the building and fitting-up of churches or mosques, and vestments and other articles necessarily used for religious services and certified to be so intended or used, as the case may be, by the proper ecclesiastical authority, coals, empty casks and sacks, fresh fish, gold bullion and specie, ice, lime, medicines and medical appliances, pitch and tar, printed books, sawdust, silkworms' eggs, sponges taken by licensed boats, stationery, printing paper whether white or coloured, printing ink, type, and other materials, sulphur, wheat, barley, oats, vetches, flour, bran, chopped straw, cotton seed, fodder for cattle, all mechanical appliances for use in the manufacture and examination of wine, sulphur syringes, tombstones and memorial tablets, tools and implements used in agriculture and handicrafts.

Machinery and parts thereof, and their fittings, connections, and gearing.

Dutiable articles that have previously been exported from Cyprus, provided they are *re* imported not later than one year after exportation.

Hospital appliances and equipments certified under the hand of the chief medical Officer to be imported for the use of any hospital.

TARIFF VALUATION.

The value of the goods liable to *ad valorem* duties will be taken to be the value at the place of shipment or purchase of the goods with the addition of the cost of transport (including insurance), as far as the port of final discharge.

33. Other drugs and chemicals (except chemicals for use in the extraction of metal from ores or other mining or gold recovery purposes)	"	7½ p.c.
34. Perfumery, cosmetics, dyes, powders, and soap, or other preparations for toilet use; also soap powders and extracts	"	20 p.c.
35. Furniture, brushware, cabinetware, carpets, glassware, household utensils, lampware, and musical instruments	"	7½ p.c.
36. Haberdashery, drapery and millinery	"	7½ p.c.
37. Jewellery, plate, clocks, and watches	"	7½ p.c.
38. All other articles not otherwise mentioned		free.

NOTES.—The above duties shall not in any case extend or apply to any articles (except spirits) grown, produced, or manufactured within the South African Customs Union, or to any articles described in the free list attached to the said Customs Union Tariff.

The value of goods subject to *ad valorem* duty shall be the true current value in the open market for such goods at the place of purchase by the importer or his agent, including the cost of packing and packages, but not including agents' commission if it does not exceed five per cent; provided that in no case shall the true current value, as above defined, be less than the cost of the goods to the importer at the place of purchase.

The importation of seeds or dried plants into North-eastern Rhodesia from India, Ceylon, the Straits Settlements, the Dutch East Indies, Mauritius, Zanzibar, Central America, German East Africa, or Natal has been prohibited since December 1, 1900.

III.—TARIFF CHANGES.

(A).—JERSEY AND GUERNSEY

I.—PROHIBITION TO IMPORT INTO JERSEY, ANIMALS, ANIMAL WASTES AND OTHER PRODUCTS.

By virtue of different resolutions adopted by the "*Harbour and Highway Committee*", duly confirmed by the States, importation into Jersey of animals and articles hereinafter mentioned, is prohibited:

1. Native cattle returning from having been exhibited in England. *(Act dated 5th, and published on September 30, 1891.)*

2. Cattle arriving from Norway, Sweden, Spain, Portugal and Ireland. *(Act dated 2nd, and published on April 4 1892.)*

3. Neat cattle, sheep, swine, goats, green hides, tallow, unboiled, and horns and hoofs of dead animals imported from France. *(Act dated October 1st, and published on November 30 1892.)*

4. Pork, arriving from France. *(Act dated the 20th, and published on January 22, 1894.)*

5. Swine, arriving from Ireland. *(Act dated the 2nd, and published on March 11, 1895.)*

6. Hay and straw, and also dogs arriving from all parts of France. *(Act dated September 3, 1900.)*

7. Dogs of Irish origin. *(Act of June 15, 1901.)*

8. Hay, straw and other forage, neat cattle, sheep, swine and goats or other animals, green hides, tallow unboiled, and horns and hoofs of dead animals, proceeding from Guernsey or brought into Jersey by any vessel having called at Guernsey. *(Act of April 23, 1902.)*

NOTE.—The provisional prohibition in force by virtue of an Act of said Committee dated September 3, 1900, confirmed by an Act of the States, dated October 22, 1900 respecting hay and straw, shall extend to forage used in packing or shipping eggs, poultry, or any other goods proceeding from France. Live poultry imported from France shall immediately after landing be removed to the foreign Animals Wharf under the supervision of the Inspector and remain in his custody at the expense of the owners or consignees, until killed for consumption.—The prohibition enacted by Act of said Committee, dated October 1, 1892, confirmed by an Act of the States, dated November 30, 1892, in reference to the introduction into Jersey of neat cattle, sheep, swine, goats, green hides, tallow unboiled, and horns and hoofs of dead animals imported from France, shall extend to horses arriving from said country. *(Act of April 23, 1902.)*

9. Heads, tongues, and garbage of neat cattle and sheep, proceeding from France or the Island of Guernsey, or brought into Jersey by any vessel having called in France or at Gurensey. *(Act dated and published April 26, 1902.)*

IV.—COMMERCIAL AGENCIES.

The following Canadian Commercial Agents (whose addresses are given) will answer correspondence relative to commercial and trade matters, and give information to those interested as to local trade requirements in the districts they represent.

Such reports of general interest as have been received from them since the publication of the last monthly report of this department are appended.

J. S. Larke, Sydney, N.S.W., agent for Australasia.
James G. Jardine, Cape Town, South Africa, agent for South Africa.
G. Eustace Burke, Kingston, Jamaica, agent for Jamaica.
Robert Bryson, St. John, Antigua, agent for Antigua, Montserrat and Dominica.
S. L. Horsford, St. Kitts, agent for St. Kitts, Nevis and Virgin Islands.
Edgar Tripp, Port of Spain, Trinidad, agent for Trinidad and Tobago.
C. E. Sontum, Christiania, Norway, agent for Norway, Sweden and Denmark.
A. D. Campbell, Buenos Ayres, agent for Argentine Republic and Uruguay.
A. Poindron, 10 Rue de Rome, Paris, agent for France.

In addition to their other duties, the undermentioned Canadian agents will answer inquiries relative to trade matters, and their services are available in furthering the interests of Canadian traders :—

J. G. Colmer, 17 Victoria Street, London, S.W., England.
Harrison Watson, Curator for Canadian Section, Imperial Institute, London, England.
G. H. Mitchell, 15 Water Street, Liverpool, England.
H. M. Murray, 52 St. Enoch Square, Glasgow, Scotland.
W. L. Griffith, Western Mail Buildings, Cardiff, South Wales.
C. R. Devlin, 14 Westmoreland Street, Dublin, Ireland.
D. Treau De Cœli, 75 Marché St. Jacques, Antwerp, Belgium.

(A.)—AUSTRALASIA.

Report of Commercial Agent.

(Mr. J. S. Larke.)

Sydney, N.S.W., August , 1902.

The Honourable
The Minister of Trade and Commerce,
Ottawa, Canada.

TRADE OF NEW ZEALAND.

Sir,—The report of the trade of this colony for 1901 shows a marked increase in imports and a considerable decrease in exports in comparison with the previous year. The figures are :—

	Imports.	Exports.
1900	£10,646,096	£13,246,161
1901	11,817,915	12,881,424

The volume of exports and imports are drawing closer together but still there is nearly a ten per cent margin in favor of the former.

The Canadian trade shows a slight improvement in both imports and exports. For the last two years they were :—

	Imports.	Exports.
1900	£41,165	£ 287
1901	42,178	2,118

The imports and exports were: –

IMPORTS N. Z. FROM CANADA.	£
Apparel	882
Bicycles	12,022
" materials dutiable	720
" " free	163
Biscuits	3
Books	393

Meats-potted	4
Flax	705
Rabbit skins	1,300
Stationery	2
Paint	55

NEW SOUTH WALES.

In May last I gave a summary of the trade of this state for 1901. It showed an increase of imports from Canada over last year of nearly thirty thousand pounds and a decrease of exports of slightly over that amount, due to the diminished output of sugar.

The items of imports from Canada for 1900 and 1901 were :—

	1900.	1901.
	£	£
Ploughs and plough materials	5,694	4,933
Other agricultural implements	5,694	8,883
Aparel	9,247	3,062
Bicycles	17,585	22,487
Boots and shoes	3,078	529
Carriages	1,304	429
Carriage materials	1,947	31
Confectionery	35	3
Drapery	11,878	17,613
Drugs	11,878	1,498
Furniture	402	132
Fish, preserved	3,660	11,775
Fish, fresh	1,609	705
Flour	15,715	29,765
Hardware	278	875
Hops	106	400
India rubber goods	574	956
Cabinet organs	1,175	1,642
Pianos	1,347	3,621
Agricultural machinery	18,713	8,316
Other machinery	4,767	2,840
Hams, bacon	29	1
Tinctures	341	277
Timber, rough	4,024	1,633
Timber, dressed		878
Laths		93
Shooks and staves	561	
Varnish	46	
Brushware	3	10
Cheese	1,605	2,523
Dentist's tools	313	

	1900.	1901.
	£	£
Jewellery		90
Engine packing	15	127
Printed matter	171	178
Paper	475	642
Books		147
Pictures	33	15
Plated ware	432	707
Saddlers' ware	10	
Seeds	25	
Sewing machines	69	3,539
Whiskey		1,749
Perfumes	189	177
Stationery		13
Woollens	15	
Personal effects	420	95
Plaster of Paris	340	729
Tools	5	45
Typewriters	19	412
Bags		10
Building materials	57	714
Fancy goods	11	58
Fruits, dried	4	
Upholstering materials		18
Ammunition	19	659
Cutlery	660	141
Hollow ware	25	49
Surgical instruments	20	40
Leather	75	59
Silk	2,441	1,833
Tinware	18	4
Woodenware	43	184

	£
Ale and beer	3,478
Gum	5
Bottles	2
Fibre	127
Millinery	6
Oilmen stores	3
Painters' materials	10
Safes	54
Toys	121

These figures as in previous years are but approximates of the trade done. In one or two items, notably ale and beer, they include articles not Canadian and in other articles as ploughs and agricultural implements—in New Zealand the figures are much below the actual imports—and in some articles such as wall paper neither in New South Wales nor New Zealand is there any record of trade done though there is one of some amount.

The trade taken as it appears in the returns shows a good deal of fluctuation in both the variety of articles sold and the amount of business done. Some articles, such as paints, varnishes and other carriage material, which promised at one time to develop into a considerable business, have dwindled away and some have disappeared from the list of Canadian goods. Many causes account for this state of things.

In many instances the demand of the home market has prevented catering for export. A few months ago a Canadian firm wrote me that it desired to obtain business from Australia. Arrangements were made to this end and a first order was sent. It was not very large but the last mail brought the information that the firm was sorry but that it was too busy to execute the order. At no time apparently have the factories of Canada been so pressed to their capacity than at the present time. Australian agents who have recently returned from Canada have not succeeded in making many

arrangements for business, and some of them were altogether unsuccessful. In some instances price and quality have stood in the way of securing Australian trade. In a few cases bad methods of business and bad packing of goods interfered with success. Very much improvement has been shown during the last year or two in these respects, but there is not a week without complaints. Last week I was informed that a Sydney House, which had worked up a good business, was much dissatisfied with the Canadian manufacturer who supplied the goods, because of delay in replying to letters of inquiry. To letters respecting ordinary business, good attention was given, but if there was an inquiry for some line in which there was a slight departure from the goods previously sent no response was received and the people here were uncertain whether they were to receive the articles or not. It might not have been profitable for the Canadian manufacturer to make the change but if so he should have promptly advised the Sydney customer. It would at least have avoided the uncertainty and dissatisfaction that now exists and may lead to the Sydney firm seeking other sources of supply.

MERCANTILING GOODS.

Canadians are giving a good deal of attention to the export of goods and seek information respecting markets and urge the establishing of lines of steamers, but too little attention is paid to the mercantiling of goods. It is necessary to have goods that will suit the market. it is also necessary to get them to the market in good condition and at the cheapest rates, but it is also essential to have as suitable and effective means of selling them. Unsuccessful experimenters may assert that the Australasian market is a difficult one in which to get a foot hold. As a matter of fact the conditions are not more difficult than are those of the Canadian save as they are made so by the greater distance between the producer and consumer. Here as in Canada the producer and not the consumer makes the market. If a manufacturer begins business in Canada he commonly finds that he has entered a market that is pretty well supplied, and if he is to secure a trade he must persuade the buyer that he is offering an article that has advantages in quality or price. That means expense in advertising and travellers with samples. It is just so here, but many Canadian manufacturers imagine that the conditions are reversed and that the buyer will make the business without expense to them. A number of Australian business men now visiting Canada have made some direct purchases but the trade created in this has been small in extent, and commonly has not been of long duration. Some time ago a manufacturer sent a cut with a brief description of an article which he made to an agent. He refused to send a sample but said he expected to get a car lot of orders by next mail. No firm in Australia ever did or is likely to give such an order to any firm, much less to a firm with which they had no business. Naturally they refused to give an order for even a dozen without seeing a sample. Such cases do not occur as often as they did three or four years ago, but there is still much misunderstanding as to the nature of getting into this market.

If there is one thing made clear by past experience it is that Canadians must do their own business. Every other nation that has sucured a foothold has had to do it and Canada cannot hope to change this law of trade. The growth of the trade of the United States here is due to the increasing extent to which the firms of that country are carrying out this policy. Until within the past three years the large agricultural manufacturers had arrangements with large Australian Houses to handle their business. The result was that it fell behind and now all who are doing business of any extent have opened up their own branches.

There are various methods pursued in getting into the market in this way, depending upon the class of goods to be sold and the capital available. Those adopted by Canadians may be briefly enumeratled :—

Opening up a branch carrying a full stock and doing the retailing. This is done in the case of agricultural implements and bicycles with marked results. It means at least five sub-branches to do the business thoroughly and involves a very heavy outlay at the beginning, the use of a very large capital and is open to but few concerns in Canada as yet.

A second is opening an office with or without carrying a certain amoun of stock. The representative would take orders from the wholesale trade and the larger retailers who import their goods. This is applicable to the bulk of the goods imported. The carrying of stock frequently is a valuable assistance in introducing the goods. This method involves considerable expense and is open only to a limited number of Canadian firms. The volume of business that could be secured will be insufficient to warrant that expense in the case of the majority of exporters.

Sending out a traveller periodically from Canada to take orders. In nearly all cases the amount of the orders secured will be disappointing in the case of first trips and commonly of second ones also. Before a large trade can be secured the buyer must have obtained confidence that the goods are such as the market will take and that the firm can be relied upon to maintain the quality and supply orders as sent. This confidence is not generated in a day, nor a week and can come only from an extended experience. Unluckily the experience in too many cases has been to destroy confidence in the ability to fill orders at least.

Another is to employ an Australian agent. Where a good agent has been selected, the article is specially adapted to the market, the price is right and it costs little to introduce it, good results follow. These conditions are not always found and the result is a failure. It takes money to get a new line on the market and as a rule even a good commission agents have little spare capital and are under the necessity of earning a living week by week. In order to cover the initiatory costs he frequently asks for some financial assistance. This has rarely been given by Canadians. Some money has been paid but unfortunately it was paid in one or two instances to incompetent men who could secure no results for the expenditure. There must first be a good agent or it is useless to spend money in travelling or advertising. And by a good agent is one suitable for the line of goods to be sold. A man because of his knowledge and connections may sell boots and shoes but fail in hardware. The weakness of many commission men is taking on too many lines and of such varied character that it is impossible for them to do justice to them.

Two methods Canadians have not tried. One is the co-operation of two or three manufacturers in placing their goods upon the market and the other is the formation of an Export Company. In one or two cases travellers have come here with a side line which is commonly neglected, but in no case has there been to my knowledge conjoint action in lines on which there is a sufficiently large trade to be profitable.

No attempt at all has been made to form an Export Company. There are many lines in Canada made by manufacturers which could be sold here which the makers have not the capital to put on the market. To make goods is one branch of business, to sell them is another. A company controlled by specialists in selling abroad with sufficient capital to carry on the work would greatly extend Canadian trade and be a blessing to manufacturers who otherwise could not hope to dispose of goods abroad.

I have not included the attempt to do business by sending out circulars or catalogues to wholesale firms. These are useful helps, but it is rare that alone they make any trade or secure a permanent connection.

THE DROUGHT.

Since my last report there have been some coastal rains and some showers inland, but nothing to improve the condition agriculturally or pastorally. The prospects are rather worse than four weeks ago and a very poor harvest is now assured. No estimates have yet been made of the acreage of wheat growing but the probabilities are that Australia will not produce enough for its own needs. All the wheat growing states are affected. It is to early too speak of the prospects in New Zealand. It is reasonable to expect a demand for wheat and an advance in the price of flour. I regret that I have had no responses to a circular sent out for information as to parties ready to export should the demand arise. As the demand is certain I should be glad to get the rddresses of exporters of wheat with samples of the grades as soon as fixed by the Inspectors.

The price of butter, cheese, ham and bacon have advanced. They are now :—

Butter	35 to 38 cents
Cheese	16 to 19 "
Bacon	16 to 19 "
Ham	20 to 24 "

The duty still remains six cents per lb. on all these artieles and it is not likely to be reduced.

I am advised that first-class Canadian butter could be landed at Sydney for twenty cents per lb. There would, therefore, appear to be a fair margin for profit, but I fear the opportunity will be lost. This is another illustration of my statement that Canadians must do their own business. Canadian butter is practically unknown in this market. A couple of samples have arrived in fair condition but not enough to give assurance to buyers, and though at one time two or three firms were inclined to order a quantity, in the end they refused to take the risk. Canadians exporters on their side have also declined to take the risk and nothing has been done. A Victoria firm has sent out a representative but unfortunately no butter. They hoped he might get orders with letters of credit, but naturally the Australian buyer said.—"We don't know your butter. If you will bring it here and it suits the market we shall be glad to buy it."

New Zealand butter is quoted at 36 cents per pound. The first shipment that came here was sent on to South Africa on the ground that the market here would not take it. A second shipment was sold at 9 cents below best Australian, but the shipments were continued until to-day it is quoted within two cents of best fresh Australian. Though the distance from Canada is longer than from New Zealand, the means of carriage is better, and first-class Canadian ought to be landed in as good condition in Brisbane certainly as first-class New Zealand, and the price of butter in Brisbane is two cents higher than in Sydney.

First shipments involves a good deal of risk, and in all probability would net a loss. There is a disinclination on the part of a shipper to incur these risks in order to make a market which will be shared by others. I submit for your consideration whether it would not be advisable for the Government to make one or two shipments in the outset of a trade like this. The conditions of shipment would be carefully watched and the best soon discovered. The loss would be small. It is probably too late now to secure profitable results, as in six weeks this market should be supplied from the southern coastal districts and portions of Victoria which have had fair rainfalls and receive supplies, if necessary, from New Zealand. These supplies depend upon further rains which may not occur. Even should experimental shipments be of no present value, the results will be useful in case of future droughts, and once it be established that Canada can land good butter, the trade will take care of itself.

THE TARIFF.

The recommendations of the Senate are now before the House of Representatives which, it is anticipated, will have considered them and returned the Bill to the Senate this week. Very few changes from the duties now levied are likely to be made.

THE HARVEST.

Since writing with reference to the prospects of the coming wheat harvest, my views respecting the demand for Canadian hard wheat have been confirmed. Advices to hand say the harvest of Queensland is an assured failure, that of New South Wales about a third of a crop, and the position in Victoria and South Australia doubtful, but the probabilities are of a poor yield. I therefore beg to ask that standard samples of Manitoba grain be sent me at the earliest moment. Correspondence looking to business in grain has been initiated, but the receipt of these samples will aid in securing it. The large demand is likely to be for No. 1 Hard, as the bulk of the wheat harvested in Australia will probably be below the usual average quality, and a strong flour will be required to bring up the grade of that from home grown wheat.

I am, sir, your obedient servant,

J. S. LARKE.

(B.) AUSTRALASIA.

Report of Commercial Agent.

(Mr. J. S. Larke).

Sydney, N.S.W., Sertember 8, 1902.

The Honourable,
The Minister of Trade and Commerce,
Ottawa, Canada.

Sir,—The last two weeks of August were characterised by rainfalls widespread and of considerable extent over New South Wales, a portion of Queensland and of the other states. So far as this state is concerned they have been the most useful rains for years. It is not an assurance that the drought has broken up as the West is still dry and more rains will be needed everywhere to ensure the advantages of that fallen, but certainly it has greatly changed the aspect of affairs for the better. The rains were followed by warm weather and grass at once sprung up and the necessity of hand feeding flocks has passed away at the majority of the stations.

The consequence has been a lowering in the price of many articles. Butter has gone down to a figure that prohibits imports from Canada and though there has not been a material lowering in the price of grains the market is in no mood for ordering for future delivery just now. Even under the changed aspect I do not think the next harvest will yield sufficient wheat to meet the home demand. In addition to flour I expect that wheat, oats for oatmeal, barley for malting, and peas should be required from Canada. It is possible also that potatoes and onions could be sold here though hitherto California has monopolized the trade in onions. Correspondence is being conducted looking to business in all these lines.

With the rain has come a brighter prospect for general trade. It will take more than one year of good seasons to restore the lost flocks and herds of New South Wales and Queensland but the rains have given hope. They will enable miners that have suspended to resume work. This in itself is an important advantage.

Another factor is the probable early settlement of the tariff and the adoption of measures for facilitating inter-state trade. The provision in the Australian constitution which provides for a return to each State of three-fourths of the customs derived from goods consumed by its people necessitated a most elaborate system of bookkeeping and minute system of export entries for goods shipped from one State to another. It was much easier to import direct from abroad into each state than to transfer these imports, even where duty had been paid from one state to another. Efforts are being made to secure a much simpler process than that now used. As Sydney and Melbourne are the chief importing centres for Canadian goods anything that will facilitate inter-state trade will be helpful to Canadian business.

THE COURSE OF THE TARIFF.

The House of Representatives has now had the tariff before it three times and the Senate twice. First the House of Representatives passed it, and sent it to the Senate. That chamber considered the items, and sent back a message requesting that 103 amendments should be made. The larger half of these did not involve matters of principle, and the government took time to consider what should be done with them. As a result of its consideration it decided to agree to 45 out of the 103 requests, to disagree with 53, and to offer compromise with regard to five. The House of Representatives in the main followed the government's advice, but in some cases acted in opposition to it, and the result was that when the tariff schedule again reached the Senate there were a few over 40 items in which the two Houses were not in accord. The Senate again went

through the schedule, and still further reduced the number of points of divergence. The following table sets them out :—

Article.	Senate Suggestion.	House of Representatives.	Senate Reply.
Paraffin, wax, &c.	¼d. per lb.	½d. per lb.	¼d. per lb.
Mangles, &c.	10 per cent.	15 per cent.	10 per cent.
Cigars	7s. per lb.	6s. 3d. and 15 per cent ad val.	7s. per lb.
Bacon and hams	2d. "	3d. per lb.	2d. "
Butter and cheese	2d. "	3d. "	2d. "
Grain and pulse, N.E.I.	Wheat free	1s. 6d. cental.	Wheat free.
" manufactured	1s. 6d. cental.	2s. 6d. "	1s. 6d. cental.
Hay, chaff	Free.	1s. per cwt.	Free.
Rice, N.E.I.	5s. cental.	6s. cental.	5s. cental.
Apparel (wool or silk) N.E.I.	20 per cent.	25 per cent.	20 per cent.
" (not wool or silk)	15 "	25 "	20 "
Hats and caps, felt	25 "	30 "	25 "
" sewn	25 "	30 "	25 "
Socks and stockings, except wool or silk	10 per cent.	25 "	15 "
Yarn	5 per cent.	10 "	5 "
Agricultural implements	10 "	15 "	10 "
Engines	10 "	15 "	10 "
" gas	10 "	15 "	10 "
Boilers, pumps, &c., N.E.I.	10 "	15 "	10 "
Mining machinery, N.E.I.	10 "	15 "	10 "
Electrical machinery, N.E.I.	10 "	15 "	10 "
Electrical appliances, N.E.I.	10 "	15 "	10 "
Railway material	10 "	15 "	10 "
Rolled iron and steel	10 "	15 "	10 "
Solar and residual oil	Free.	½d. per gall.	Free.
Cement, &c.	6d. per cwt.	9d. per cwt.	6d. per cwt.
Explosives, N.E.I.	10 per cent.	Free.	10 per cent.
Sensitised films and paper	Free.	15 per cent.	Films free.
Goods imported by governors	Strike out of free list.	Free.	Strike out of free list.

Last week the House of Representatives again took these amended suggestions and following the leadings of the Government adopted a line of compromise and made the following changes :—

	Previous tariff.	Senate's requests.	Government compromise.
Socks and stockings, woollen	25 p. c.	15 p. c.	15 p. c.
Yarns	10 "	5 "	5 "
Mangles and washing machines	20 "	10 "	12½ "
Agricultural and horticultural machinery	15 "	10 "	12½ "
Engines	15 "	10 "	12½ "
Boilers, pumps, machines and machinery, N.E.I.	15 "	10 "	12½ "
Mining machinery	15 "	10 "	12½ "
Electrical machinery	15 "	10 "	12½ "
Electrical appliances, N.E.I.	15 "	10 "	12½ "
Rails, &c., for railways	15 "	10 "	12½ "
Rolled iron or steel beams, &c.	15 "	10 "	12½ "
Solar and residual oil	½d. p. gall.	Free.	¼d. p. gall.

This leaves cigars, butter, cheese, bacon and hams, paraffin wax, wheat, grain and pulse prepared N.E.I., hay and chaff, rice N.E.I., apparel, hats and caps, silk and cotton socks and stockings, cement, ammunition, and articles imported for the official use of the Governor General as in the existing tariff.

It is anticipated that the Senate will accept these changes and that next week the tariff as thus amended will become law.

I have the honour to be,

Your obedient servant,

J. S. LARKE.

(C.)—SOUTH AFRICA.

(Mr. James G. Jardine.)

Rand Club, Johannesburg, Transvaal,
South Africa, August 25, 1902.

Honorable,
Sir Richard Cartwright, G.C.M.G.,
Minister of Trade and Commerce,
Ottawa, Canada.

Sir,—Since the last report I had the honour of addressing to you from Durban on June 14 last, I have visited Pietermaritzburg, Ladysmith, Newcastle and Johannesburg, and met in their respective places of business the leading importers of these cities. I have also interviewed the Executive Officers of the various Chambers of Commerce and was given the privilege of addressing the members at their several monthly meetings. Committees were afterwards named by some of the Chambers to meet and discuss with me the industries of Canada best suited to the requirements of South Africa, from whom I received very valuable assistance, and have succeeded in establishing communication between a large number of importers in this country and Canadian manufacturers of furniture, agricultural implements, boots and shoes, timber, woodenware, stoves, carriages, cycles, and food products generally. I have also written to many Canadian business firms as to the necessity of improved methods of advertising. This is all the more important on account of our neighbours to the South, who are making a great thing out of their "prices current" sent free of charge monthly to all South African merchants and containing a tremendous fund of information. The lists and prices are given of everything, including the latest specialties, and there are hundreds of illustrations and neat little pictures of exactly the thing required, I see this publication everywhere, and people wonder how it is that Canada, so wide awake in other matters, has not adopted similar methods. It has helped the neighboring country to get most of the trade in mowers, hay presses, two-furrow ploughs, corn shellers, many dairy appliances, and cheap native ploughs sold out here from thirty to thirty-five shillings, and used by thousands of Kaffir farmers. They have also the bulk of the trade in files because they are half the weight of the British, and fifteen per cent cheaper. In all kinds of carpenter's and garden tools, lawn mowers, axes and axe-handles, medium priced, furniture, &c., our neighbours take the lead over British and German goods ; not so much perhaps, on account of cheapness, as in the packing and knack of getting their things in smaller bulk and thereby cheapening freights. The atrocious freight charges of the British and Continental Shipping Ring has also helped to divert trade to our own Continent, and now that a direct line from Canada to South Africa is announced, and hailed by Africanders with the greatest satisfaction our manufactures ought to be able to secure a fair share of the trade in timber, woodenware, furniture, carriages, boots and shoes, organs, cycles, &c., &c. Food products, including flour, cheese, butter, eggs, poultry, canned salmon, lobster, herrings, &c., crossing the Equator in cold storage compartments should find a ready sale also. The retail prices in Johannesburg for these articles of food are extraordinary high. Consignments of the articles mentioned, and two or three hundred barrels of *choice* 1902 apples should arrive by the first steamer and addressed to Cape Town, Port Elizabeth, Durban and Johannesburg. The enterprising shippers I am sure will not regret this venture, as poor flavorless Tasmanian apples sell here two and three for a shilling. A Johannesburg merchant has given me an indent for 100 barrels of choice Canadian apples, (he proposes to give them away gratis to his customers) to cultivate their tastes for "the World's best fruit." For the information of exporters proposing to send travellers to South Africa, let me say that a commercial traveller is allowed to travel first class and second class rates, namely, two pence or four cents a

mile, and two hundred pounds of baggage free, and excess baggage is charged at one-half luggage rates. Hotel charges for commercial men are from twelve and six pence, to seventeen and six pence per day, and does not include the use of a sample room. I regret to say the barbarous Commercial Traveller Licence Tax is still in force throughout South Africa. This is a relic of the old Dutch and Boer ascendances, and it is hoped that Lord Milner's personal government will lose no time in wiping it out; meanwhile the Cape and Orange River Colony charge jointly £25 or one hundred and twenty five dollars. The Transvaal £20 or one hundred dollars, and Natal £10 or fifty dollars. The Licenses expire at a fixed date and licenses having less than six months to run pay only a portion of the above sums.

Trade has not commenced to boom in the Transvaal, as many expected it would at the close of the war. The establishment of peace had been largely discounted and prepared for. The business houses have large stocks on hand, and hundreds of thousands of pounds worth of all descriptions of goods are still lying at the various seaports awaiting transportation to the rand. Gradually as the troops are removed to the coast and the refugees restored to their homes the railways will be in a position to handle the legitimate traffic of the country, and when that time comes merchants of Johannesburg and elsewhere will be in a position to place extensive orders and then there will be a big rush of trade. In Johannesburg hundreds of buildings and dwelling houses will go up when building materials, now at the coast, can be obtained. Mechanics of all sorts and miners are walking the streets patiently awaiting the advent of these supplies to obtain work. Australia seems to be sending her sons by thousands to the Transvaal on account of the drought and failure of her resources generally. Johannesburg and other cities of South Africa will be spending largely in the near future for electric tramways, sanitation and other public works. New railways and extensions of the older ones are being projected. Steel rails and sleepers, passenger and flat cars will be needed. The Commissioner of Government railways is a Canadian. We have several car factories in Canada. Are they looking for a share of this business? If so I am sure they will receive something more than cold justice at the hands of this bright Canadian Administrator. It is estimated that within the next five years one hundred and thirty million dollars worth of new mining machinery will be required in the Transvaal alone. What are the Canadian Rock drill and other mining machinery companies doing to secure a share of this trade? A big demand for agricultural machinery is bound to arise as the Boers get back to their farms and new settlers are placed. The rebuilding and stocking of the farm houses will cause a big demand for all sorts of materials. The importation of food alone means a tremendous thing for commercial men, and no country in the world is in a better position to take advantage of this immense demand for the necessities of life than Canada.

Before concluding I venture to copy a portion of an article in the *Transvaal Leader* of last week. This is one of the most widely circulated newspapers in South Africa and is published in Johannesburg. It reflects the sentiments of nearly every Africander we meet, including Dutch and Boer, and is headed 'Canadian Energy.'

'For reasons which we shall not wait to analyse, Canada is the most popular of all the British Colonies. It is to-day the most energetic and most imperial of them all. We do not mean that others are less devoted to the Empire—he would be a rash man that would say that in South Africa—but the ancient traditions have found a healthy home there. The vigorous French stock and the conservatism of agricultural pursuits, in a country where a man's personality is not overwhelmed, where he is continually thrown upon his own resources, have developed a race of clean minded, strong limbed men and women, active, intelligent and quite free from the sordid views that arise with deadly facility in centres where the occupation of finance and speculation are supreme. 'We are content' said Sir Wilfrid Laurier the other day, 'We are happy; and Canada, like England, is the home of steady Government that changes only under compulsion. Our Government is better, more dignified, more elastic than that of the Americans. We want no change; we anticipate no change.' And yet it is these stable folk that have shown the fullest measure of Imperial responsibility and the most business like suggestions foo practical action. While others have let their tongues and pens run

loose on vague oratory concerning Zolvereins, and other large and blessed words, Canada has instituted a sort of Imperial Intercolonial Trades Information Bureau, and this is backed by a subsidised line of steamships.'

The following memorandum of wholesale and retail prices current of food products in the Transvaal may assist Canadian exporters who are turning their attention to South Africa.

WHOLESALE PRICES.

Sweet Milk Cheese, 11d. to 1/1 per lb.
Canadian Cheddar Cheese, 1/3 per lb.
Imported Butter, finest quality, 23/ to 24/ per doz. pound tins.
Medium Butter, 18/6 to 20/ per doz. pound pats.
Morton's Salmon, 10/9 to 11/6 per doz. tins.
Lazenby's Salmon, 11/ to 12/6 per doz. tins.
American Salmon, 8/ to 8/6 per doz. tins.
" (flat tins), 10/6 per doz. tins.
Lobsters, 18/6 to 24/ per doz. tins.
Sardines, medium, 6/6 per doz. tins.
Best quality Sardines, 9/ to 10/6 per doz. tins.
Oysters, 7/ to 7/6 per doz. tins.
Alaska Pickled Salmon, (in large barrels) retail at 1/3 per lb.
Corned Beef, 8/3 per doz. tins and 15/6 per doz. 2 lb. tins.
Ox Tongues, 28/ per doz. 2-lbs. tins.
Milk, Sweet, 27/6 ; Unsweetened, 28/ per case of four doz.
White Granulated Sugar, 26/ per hundred pounds.
Colonial Fresh Eggs, 3/6 to 4/ per doz.
New laid Eggs, 5/ to 6/ per doz.
Fowls or chickens, best quality, 7/; middling kinds, 6/ to 6/6 each.
Ducks, from 8/ to 11/6 each.

RETAIL PRICES.

Forage, from 19/ to 22/6 per hundred pounds.
Turkeys, best, from 20/ to 25/; inferior, 12/6 to 15/ each.
Onions, best, 25/ to 30/ per bag 125 lbs.; 2nd quality, 20/ to 22/6.

Timber, all big contracts in the building trade here are at a standstill owing to the scarcity of material and must continue untill the Railway block at the coast towns eases off ; flooring boards are unobtainable, and windows are very scarce.

Deals, 6 inch to 17 inch are 11 ½d., 18 to 19 inch 1/, 20 feet and over 1/1 per foot.

It must be remembered however that prices will be lowered to some extent when the blockade at the coast ports is raised and the railways are able to send goods as formerly to the interior. The mines at the Rand and elsewhere are buyiug very little food products or anything else, only enough to keep the batteries going as practically no new work is in progress through the shortage of native labour, but very shortly the mines will be running as before the war.

I have the honour to be, sir, your obedient servant,

JAS. GEO. JARDINE.

V.—GENERAL COMMERCIAL INFORMATION.

(A.)—IMPORTS OF PRINCIPAL FOODSTUFFS INTO GREAT BRITAIN.

QUANTITIES of Butter, Cheese, Bacon, Hams, Fish, and Eggs, Imported into Great Britain during the *months* of August and the *eight months* ended August 31, 1900, 1901 and 1902. (*From British Returns.*)

*Australasia.

(B.)—INQUIRIES RELATING TO CANADIAN TRADE.

Since the publication of the last monthly report, there have been received at this department from the High Commissioner for Canada, London, England, and the Curator, Canadian section, Imperial Institute, London, England, the following inquiries relating to Canadian trade. The names of the firms making these inquiries, together with their addresses, can be obtained from this department, or from the office through which the inquiry was received.

Inquiries from the High Commissioner for Canada.

CANADIAN SHIPPERS OF APPLES.

1. A London firm of fruit salesmen and commission agents are desirous of extending their Canadian connection, and are prepared to correspond with apple shippers in the Dominion. (Reference No. 58.)

AGENCY FOR CANADIAN GOODS (LONDON, ENG.)

2. An agent in London is prepared to buy heavy scrap brass on behalf of Canadian houses, if desired ; he is also open to take up agencies for the sale in the United Kingdom of doors, sashes, caskets, frames, &c. (Reference No. 58.)

CANADIAN SHIPPERS OF PACKING CASES.

3. Inquiry is made by a firm in the north of England for names of Canadian shippers of packing cases in a knock down condition. (Reference No. 58.)

BRITISH IMPORTERS OF CEREALS, ETC.

4. A Canadian cereal manufacturing company putting up a high grade of flour. corn meal and split pease, is desirous of appointing agents in the United Kingdom, (Reference No. 58.)

BRITISH IMPORTERS OF PORK, POULTRY, ETC.

5. A proprietor of a pork packing establishment in Canada (with cold storage for poultry and fruit) contemplates appointing agents at one or two points in the United Kingdom. (Reference No. 58.)

CANADIAN AGENCY FOR ENGLISH WOOLLENS, DRY GOODS, ETC.

6. A gentleman with considerable business experience in Canada is prepared to undertake the representation of English or foreign firms exporting woollens, dry goods specialties, or any other class of manufactured goods. (Reference No. 58.)

ENGLISH EXPORTERS OF DRUGGISTS' WARES,

7. A Toronto firm are looking out for the agency of an English house exporting druggists' sundries such as drugs, tooth and hair brushes, combs, novelties, &c. (Reference No. 58.)

AGENCY IN CANADA FOR ENGINEERS' SPECIALTIES, ETC.

8. A London firm of engineers' furnishers contemplate appointing buying agents in Canada for the sale of a number of their specialties and have asked to be referred to likely parties. (Reference No. 59.)

CANADIAN MANUFACTURERS OF ROPES, CORDAGE, ETC.

9. A correspondent at Constantinople desires to get into communication with Canadian manufacturers of ropes, cordage, &c. (Reference No. 59.)

CANADIANS DESIROUS OF EXHIBITING WARES AT LORENZO MARQUES.

10. A firm of importers and merchants of Lorenzo Marques, East Africa, is proposing to open a sample show room at that port and wishes to hear from Canadian manufacturers who would be likely to exhibit. (Reference No. 59.)

CANADIAN IMPORTERS OF COKE.

11. A North of England correspondent interested in a process for making pure coke for use in foundries, has asked to be furnished with a list of the leading foundries in Canada. (Reference No. 59,)

CANADIAN MANUFACTURERS OF HOUSE AND HOTEL FURNITURE.

12. An important firm of hotel and house furnishers and decorators is prepared to purchase quantities of wood mouldings and structural steel work from Canadian manufacturers. (Reference No. 59.)

AGENCY IN GLASGOW FOR CANADIAN PROVISIONS.

13. A firm of large importers of provisions would like to represent in Glasgow a good Canadian house dealing in canned goods or dairy produce. (Reference No. 59.)

CANADIAN IMPORTERS OF GRAPES.

14. A London importer of Almeria grapes has asked to be referred to fruit brokers in Canada interested in the import of this fruit. (Reference No. 59.)

CANADIAN SHIPPERS OF ASBESTOS.

15. A firm in Glasgow, large dealers in asbestos for packing purposes are anxious to be put in communication with a firm of direct shippers in Canada. (Reference No. 59.)

CANADIAN EXPORTERS OF PROVISIONS, ETC.

16. A London firm of buyers for South African business houses desires to get into communication with Canadian shippers of hams, bacon, cheese, fruits, canned goods and produce generally. (Reference No. 60.)

CANADIAN EXPORTERS OF SHOVEL HANDLES.

17. A North of England firm using quantities of spade and shovel handles wishes to be placed in touch with Canadian exporters of these goods. (Reference No. 60.)

OWNERS OF IRON SAND DEPOSITS IN CANADA.

18. A London firm interested in a new process for treating iron sand desires to get into communication with owners of iron sand deposits in Ontario and Quebec. (Reference No. 60.)

CANADIAN SHIPPERS OF APPLES.

19. A firm at Boulogne (France) wishes to correspond with one or two reliable Canadian shippers of apples of good quality. (Reference No. 60.)

CANADIAN EXPORTERS OF FOODSTUFFS.

20. A Middlesbrough firm asks to be placed in communication with Canadian exporters of peas, beans, cheese, and other produce from whom it could obtain quotations. (Reference No. 60.)

AGENCIES IN SOUTH AFRICA FOR CANADIAN PRODUCTS.

21. A Johannesburg (South Africa) firm desires to secure agencies for Canadian natural and manufactured products and will be glad to hear from houses in the Dominion requiring such services. (Reference No 60.)

ENGLISH IMPORTERS OF BARYTES.

22. A Nova Scotian house interested in barytes properties in Cape Breton is open to correspond with an English firm handling this mineral. (Reference No. 60.)

AGENCY FOR ENGLISH HOUSE IN BRITISH COLUMBIA.

23. A. manufacturers' agent who is leaving Montreal to start business in British Columbia desires to hear from English houses requiring representation in that province. (Reference No. 60.)

Inquiries from the Curator, Canadian Section, Imperial Institute.

CANADIAN SHIPPERS OF OYSTERS.

1. A London firm wishes to hear from Canadian shippers of Malpeque and Caraquet oysters. (Reference No. 26.)

CANADIAN PRODUCERS OF PULP BOARD.

2. A London house asks to be placed in communication with Canadian producers of pulp board used for making boot and shoe soles. (Reference No. 26.)

AGENCY IN CANADA FOR PARAFFIN SPECIALTIES.

3. A manufacturing firm is prepared to appoint suitable Canadian resident agent for the sale of paraffin specialties and other druggist lines. (Reference No. 26.)

INQUIRY *re* CANADIAN SHIPPERS OF CAVIARE.

4. An inquiry has been received for the names of Canadian shippers of caviare. (Reference No. 26.)

(C.)—BREADSTUFFS EXPORTED FROM CANADA AND UNITED STATES, COMPARED WITH IMPORTS INTO GREAT BRITAIN.

STATEMENT showing Value of Breadstuffs Exported (Home Produce) from Canada and the United States, with portion sent to Great Britain, during the years ended June 30, 1891 to 1901; also Imports into Great Britain, with portion taken from Canada and the United States, during the Calendar Years 1891 to 1901.

II.—COMMERCIAL AGENCIES.

The following Canadian Commercial Agents (whose addresses are given) will answer correspondence relative to commercial and trade matters, and give information to those interested as to local trade requirements in the districts they represent.

Such reports of general interest as have been received from them since the publication of the last monthly report of this department are appended.

J. S. Larke, Sydney, N.S.W., agent for Australasia.

James G. Jardine, Cape Town, South Africa, agent for South Africa.

G. Eustace Burke, Kingston, Jamaica, agent for Jamaica.

Robert Bryson, St. John, Antigua, agent for Antigua, Montserrat and Dominica.

S. L. Horsford, St. Kitts, agent for St. Kitts, Nevis and Virgin Islands.

Edgar Tripp, Port of Spain, Trinidad, agent for Trinidad and Tobago.

C. E. Sontum, Christiania, Norway, agent for Norway, Sweden and Denmark.

A. D. Campbell, Buenos Ayres, agent for Argentine Republic and Uruguay.

A. Poindron, 10 Rue de Rome, Paris, agent for France.

In addition to their other duties, the undermentioned Canadian agents will answer inquiries relative to trade matters, and their services are available in furthering the interests of Canadian traders :—

J. G. Colmer, 17 Victoria Street, London, S.W., England.

Harrison Watson, Curator for Canadian Section, Imperial Institute, London, England.

G. H. Mitchell, 15 Water Street, Liverpool, England.

H. M. Murray, 52 St. Enoch Square, Glasgow, Scotland.

W. L. Griffith, Western Mail Buildings, Cardiff, South Wales.

C. R. Devlin, 14 Westmoreland Street, Dublin, Ireland.

D. Treau De Cœli, 75 Marché St. Jacques, Antwerp, Belgium.

(A.)—NORWAY, SWEDEN AND DENMARK.

Report of Commercial Agent.

(Mr. C. E. Sontum.)

Christiana, Norway, October 3, 1902.

The Honourable
The Minister of Trade and Commerce,
Ottawa, Canada.

Sir,—Confirming my report for the quarter ending June 30, I herewith have the honour to forward report for the quarter ending September 30, 1902.

On account of the very cold and dry summer and early frosts now in the fall, the harvest in these countries is more or less a failure, and in many districts in Norway and Sweden, it will be a hard winter to meet for the farmers. Even of hay for the cattle, there is a large shortage, and it is said that not since the year 1812 has the crops of every kind been such a total failure. As a consequence, there will be imported large quantities of grain and breadstuffs during the coming year, and the import has already commenced. Only with the last steamer from New York, there arrived in the neighbourhood of 8,000 sacks of wheat flour and several hundred barrels of rolled oats. I have time and time again called the attention of different Canadian millers to the possibilities for a steady and large export of their products to these countries, but it seems as though they are not aware of the importance of this market. I should be pleased to take up

correspondence with one or more mills, who might be interested in having their products introduced here, in the Scandinavian countries; but as the time is already far advanced, it would be the best if they sent samples and quotations at once. The usual packing here for wheat flour is in sacks of 100 kilogrammes = 220½ lbs. net, and for rolled oats, in barrels of usual size, and half barrels. Considerable rolled oats is also imported in sacks of 50 kilogrammes. The buyers always desire the prices cast, freight and insurance paid to Scandinavian ports.

According to a report published by the Statistical Bureau in Copenhagen, the value of goods imported for consumption in Denmark during the year 1901, amounted to 397·2 millions of kroner. The value of home produced goods for export to foreign countries during the same period, amounted to 292·0 millions of kroner. Thus the difference between import and export is 105·2 millions of kroner.

Comparing these figures with those of the preceding three years, the following general result will be obtained.

Years.	Imported for Consumption.	Export of Home Goods.	Difference.
	Millions of Kroner.	Millions of Kroner.	Millions of Kroner.
1901	397·2	292·0	105·2
1900	416·2	281·9	134·3
1899	399·8	270·1	129·7
1898	367·3	238·5	128·8
1898–1900 average	394·4	263·5	130·9

The excess of imports over exports in 1901, is therefore 29·1 millions kroner less than in 1900, which is a consequence of a fall of 4·6 per cent on imports, and a rise of 3·6 per cent on exports. Compared to the average excess value of imports in 1898–1900, viz.: 130·9 millions kroner, the decrease in 1901 amounts to one fifth, (25·7 millions kroner) exclusively arising from increased exports.

I have the honour to remain, sir,
Your obedient servant

C. E. SONTUM.

III.—GENERAL COMMERCIAL INFORMATION.

(B.)—INQUIRIES RELATING TO CANADIAN TRADE.

Since the publication of the last monthly report, there have been received at this department from the High Commissioner for Canada, London, England, and the Curator, Canadian section, Imperial Institute, London, England, the following inquiries relating to Canadian trade. The names of the firms making these inquiries, together with their addresses, can be obtained from this department, or from the office through which the inquiry was received.

Inquiries from the High Commissioner for Canada.

CANADIANS WISHING TO ESTABLISH AGENCIES IN SOUTH AFRICA.

1. A London firm having branches at Beira, Port Elizabeth, and Cape Town, desires to get into communication with Canadian firms wishing to establish agencies in South Africa for Canadian produce and manufactured goods. (Reference No. 61.)

CANADIAN EXPORTERS OF FRUITS.

2. A firm in Portsmouth desires to open up business relations with firms in Canada who are exporters of fruits, such as apples, &c. They will undertake sales at a fixed commission. (Reference No. 61.)

MANUFACTURERS OF STEAM TRAWLERS.

3. An inquiry has been received from Vancouver, B.C., for the names of manufacturers of steam trawlers for fishing on the high seas. (Reference No. 61.)

ENGLISH MANUFACTURERS OF GROCERIES.

4. A grocery commission merchant in Montreal would be glad to receive export price lists from any English manufacturer in the grocery line. (Reference No. 61.)

CANADIAN MANUFACTURERS OF SHOP EQUIPMENTS.

5. A London firm makes inquiry for Canadian firms manufacturing articles for tradesmens' equipment, such as butchers' blocks, alarm tills, bent-wood shop chairs, light two and four wheeled carts, barrows, ladders, &c. (Reference No. 62.)

CANADIAN EXPORTERS OF MAPLE WOOD LUMBER.

6. Inquiry comes from a Yorkshire firm for houses in Canada from whom they can purchase maple wood lumber for wringing machine rollers. (Reference No. 62.)

CANADIAN MANUFACTURERS OF STEEL TUBES, ETC.

7. A gentleman just over on a visit from the Transvaal desires to get into communication with a Canadian steel company manufacturing steel tubes and similar articles. (Reference No. 62.)

CANADIAN SHIPPERS OF DOORS, SASHES, ETC.

8. A Colonial merchant in London having a branch house in South Africa desires to get into touch with Canadian shippers of doors, sashes, windows, dimension-lumber and deals, with a view to large shipments for South Africa. (Reference No. 62.)

BUYERS OF CYCLE SADDLES ETC., IN CANADA.

9. A manufacturer of cycle saddles and general leather goods desires to be placed in communication with Canadian buyers of such goods. (Reference No. 62.)

INQUIRY RE DEALERS IN SEEDS.

10. Inquiry comes from an Ontario firm for the names of reliable seedsmen who grow and deal in field seeds. (Reference No. 62.)

ENGLISH IMPORTERS OF BUNGS, SPILES, ETC.

11. A Montreal firm manufacturing wood cut bungs, spiles, tapends, broom, chisel and other handles, desires to hear from English importers. (Reference No. 62.)

HARDWARE DEALERS IN CANADA.

12. A manufacturer of copper and tin moulds and paste cutters for kitchen use is desirous of getting into touch with hardware firms in Canada open to purchase these goods. (Reference No. 63.)

CANADIAN MANUFACTURERS OF EVAPORATED CREAM.

13. Inquiry is made by a Barcelona house for the address of Canadian manufacturers of evaporated cream. (Reference No. 63.)

CANADIAN SHIPPERS OF FRUIT AND POULTRY.

14. A firm in the Midlands desires to receive quotations from Canadian shippers of fruit and poultry (turkeys). (Reference No. 63.)

CANADIAN AGENCIES WANTED.

15. A Birmingham firm who wishes to introduce Canadian manufactures to their foreign correspondents, desires to get into touch with reliable commission agents in Montreal, Toronto and other centres, who could undertake the purchase and shipment of the goods required, viz., hardware, lumber, &c. (Reference No. 63.)

EXPORTERS OF ROOFING SLATE.

16. Inquiry is made for the names of Canadian firms who are prepared to export roofing slates. (Reference No. 63.)

AGENCY IN SOUTH AFRICA.

17. A gentleman with considerable experience in the hardware and metal trade in Canada, is open to take up the representation of English or Canadian manufacturers desirous of participating in the South African market. (Reference No. 63.)

Inquiries from the Curator, Canadian Section, Imperial Institute.

CANADIAN MANUFACTURERS OF BIRCH SQUARES, ETC.

1. A Liverpool house asks to be placed in correspondence with Canadian manufacturers of birch squares, turned legs, and other chair stock; also of drawer bottoms. (Reference No. 27.)

CANADIAN SHIPPERS OF SOAPSTONE.

2. A London firm desires names of Canadian shippers of soapstone of first class quality. (Reference No. 27.)

CANADIAN DEALERS IN DRUGS.

3. A British house in Japan exporting druggist's lines wishes to arrange with Canadian firm of good standing to handle their goods. (Reference No. 27.)

IMPORTERS OF WELSH COAL IN MONTREAL.

4. A Welsh firm of coal shippers desires the names of Montreal wholesale coal dealers. (Reference No. 28.)

AGENCY IN CANADA FOR BRIAR PIPE.

5. The manufacturers of a popular briar pipe, wish to appoint suitable Canadian resident agent. (Reference No. 28.)

CANADIAN EXPORTERS OF BOX SHOOKS.

6. A Birmingham house possessing a large connection in box shooks wishes to hear from Canadian firms who can supply same in large quantities. (Reference No. 28.)

CANADIAN IMPORTERS OF TOBACCO, CIGARS, ETC.

7. A London company manufacturing tobaccos, cigars and cigarettes asks to be placed in touch with Canadian importers of these lines. (Reference No. 28.)

(C.)—TRADE OF BELGIUM.

(F.) TRADE CONDITIONS, YUKON TERRITORY.

REPORT OF SPECIAL TRADE COMMISSIONER

(Mr. Geo. Anderson.)

TORONTO, October 1, 1902.

Honourable SIR RICHARD CARTWRIGHT, G.C.M.G.
Minister of Trade and Commerce,
Ottawa.

HONOURABLE SIR.—In accordance with instructions received, I have pleasure in submitting my report as Special Trade Commissioner, regarding trade conditions in the Yukon Territory.

The rush to the Yukon Gold Fields is so recent that it is scarcely necessary to recall.

Early in 1897, when the richness of the Klondyke was heralded to the outside world, men of all ranks in life and from all countries, headed for the far north of Canada. Steamers from Pacific Coast ports, both in Canada and the United States, were loaded with passengers and necessary supplies, and on arriving at Skagway or Dyea, in Alaska, the difficulties of the journey only commenced. There were almost impossible mountain passes to be climbed and supplies had to be carried up to the summit on horseback, muleback, by dog train and by the patient traveller. Again and again did the stampeder ascend the mountain only again to descend to take another load on his back to the mountain top. In the spring of 1898, thousands were camped on the shores of Lakes Lindeman and Bennet, all busy building boats and rafts so that on the opening of navigation they might float or drift or paddle down the swift current of the Great Yukon River, nearly 500 miles to the city of gold. The warm spring time came and the rush down the river commenced, and crafts by the hundreds could be counted. Bonanza Creek, where the first strike was made, empties into the Klondyke River about three miles from its mouth.

Near the mouth of the Klondyke, which empties into the Yukon River, there was a flat surrounded by steep hills, and it was here the eager gold hunters, estimated at 30,000, built their cabins or pitched their tents and founded what is now the prosperous and progressive City of Dawson. The stories of the richness of the field were all true, and future operations have proved that the placer mining camp of the Yukon is the most productive the world has ever known. Elated with success, along with the difficulties of securing supplies, commodities were sold at fabulous prices and a condition of business created unique in history.

Reaching Dawson, the capital of the Yukon Territory, during the summer month, is now an easy proposition. On reaching Vancouver, over the Canadian Pacific Railway the good steamer "*Princess May*" of the Canadian Pacific Navigation Line, leaves the dock bound for Skagway, Alaska, a journey of 900 miles on the Pacific Ocean, but as we thread our way among the Islands we find that 800 miles of the journey is really like a river trip down the St. Lawrence. The majestic scenery, the mountain peaks, the snow clad hills, the immense glaziers, the beautiful inland bays, the intricate navigation, it is impossible to describe.

Arriving at Skagway, three days later, we there take the White Pass and Yukon Railway for the town of White Horse, situated on the Yukon River, a distance of 110 miles from Skagway. For the first 20 miles rising $4\frac{1}{2}$ feet to the hundred it seems

impossible that any engineer could succeed in finding a way through the difficult pass. In due time we arrive at White Horse, there to go on board one of the magnificent steamers of the British Yukon Navigation Co. We sail down the Yukon River for 450 miles and 48 hours after leaving White Horse, arrive in the city of Dawson.

DAWSON

Is very beautifully located on the Yukon River at the base of the Dome Mountain. The streets and avenues are well laid out. The business houses and dwellings are constructed of wood, with the exception of one or two brick warehouses, and some large warehouses of corrugated iron. There are of course a number of cosy log cabins reminding us of the earlier settlers of four or five years ago.

The Administration Building, the Governor's residence and the Court House, Post Office, Public School and the Bank of Commerce are all creditable buildings, heated by steam and lighted by electricity.

Mention should be made of the four commodious and comfortable Churches which are well attended.

The city affairs are administered by a Municipal Council, elected for the first time this year.

Dawson City is a very orderly, well conducted city, and contains a population at present between 6,000 and 7,000.

CANADIAN AND FOREIGN BUSINESS.

It having been reported that Canadian manufactures and merchants were getting a small per centage of the business of the Territory, I made careful inquiry, and have much pleasure in submitting the following statement showing that Canadian firms are securing a fair share of the trade. This can be further increased by following closely the various items and noting the remarks regarding each item.

Value of Canadian and Foreign goods to Yukon Territory and points in British Columbia during fiscal year, July 1, 1901 to June 30, 1902.

	CANADIAN.	FOREIGN.
Via St. Michael's	$ 612,406 00	$ 654,558 00
Via White Horse, R. R.	3,109,187 00	1,192,361 00
	$3,721,593 00	$1,846,919 00

Total value of Canadian and Foreign goods, $5,568,512.00.

Canadian goods	67 per cent.
Foreign goods	33 per cent.

TONNAGE.

Below is the tonnage of Canadian and Foreign goods for fiscal year ending June 30, 1902.

	CANADIAN.	FOREIGN.
Via White Horse, R. R.	16,391 tons.	10,223 tons.
Via St. Michael's	5,741 "	5,226 "
	22,132 tons.	15,449 tons.

Total tonnage, 37,681 tons.

MONTHLY STATEMENT OF BUSINESS VIA WHITE HORSE, R. R.

For the information of firms interested, I submit the following statement showing the value of Canadian and Foreign goods landed each month in Skagway and forwarded via the White Pass and Yukon, R. R. to Points in Yukon Territory and British Columbia during the fiscal year, July, 1901 to June 30, 1902.

MONTH.	CANADIAN.	FOREIGN.
1901—July	$ 501,306 00	$ 166,123 00
August	523,351 00	180,929 00
September	738,533 00	295,288 00
October	559,443 00	104,876 00
November	26,357 00	7,135 00
December	16,465 00	11,016 00
1902—January	26,143 00	9,745 00
February	70,934 00	33,583 00
March	146,925 00	75,295 00
April	98,050 00	64,048 00
May	207,304 00	85,796 00
June	194,376 00	158,527 00
	$3,109,187 00	$1,192,361 00

BUSINESS, JULY AND AUGUST, 1902.

It will be noticed that for the months of July and August, 1902, the per centage of business done by Canadian firms continues to increase.

Statement of Canadian and Foreign goods entered at Dawson during the months of July and August, 1902.

	Canadian.	Foreign.
July via White Horse	$ 315,342	$195,035
July via St. Michaels	225,067	203,950
Aug. via White Horse	759,183	121,750
Aug. via St. Michaels	142,236	90,683
	$1,441,828	$611,418
Per centage	70	30

CANADIAN AND FOREIGN TRADE.

As near as can be ascertained for the years 1898, 1899 and 1900 the per centage of Canadian and Foreign business is here given. For 1901 and 1902 the exact proportion is given, showing the rapid growth of Canadian business.

	Canadian.	Foreign.
1898	10 per cent.	90 per cent.
1899	15 "	85 "
1900	25 "	75 "
1901	67 "	33 "
1902	70 "	30 "

BUSINESS.

The business of Dawson is undergoing a change, and is becoming more of a whole sale or distributing centre. Stores are being established on the creeks in the neighbour-

hood of the mining operations, and miners will hereafter purchase a large share of their supplies nearer their work. This will lessen the retail trade of the city, and a number now in business will find it difficult to continue. Some argue that the closing of the gambling houses and dance halls has proved a direct injury to the business. With this view I cannot agree. It is better that business should find more legitimate channels. The tendency of trade is towards the larger houses controlling the business. This can be accounted for by their purchasing direct from manufacturers, saving the middlemen's profit, the obtaining of lower freight rates which is itself a handsome profit.

COMMODITIES.

Belting—leather and rubber. —On account of the large quantity of machinery in operation, there is a considerable demand for belting, which is now purchased chiefly from Canadian manufacturers and dealers. The sales will increase, as additional machinery is sure to be introduced.

Blankets—gray and white.—Are bought through Canadian jobbers, and are mostly Canadian make. A few of the finer qualities of English white blankets are bought through the same channels.

Beer and ale.—In the first few years the ale and beer imported came forward in bottles, and chiefly from the United States. Latterly it is being shipped in barrels and casks, and the total consumption is United States production, with the exception of a small quantity of Guiness's stout and Bass's ale.

Butter.—About two or three years ago some inferior butter was received from Eastern Canada, which injured the market for Canadian brands, and latterly nearly all is now being imported from the United States. It is put up in $\frac{1}{4}$ and $\frac{1}{2}$ barrels and in cases, the quarter and half barrel packages being in brine. Creamery butter is put up in two pound tins, also in brine, and it is in this way that it is preferred. Latterly a limited quantity from New Westminister, B.C., is finding a market and giving excellent satisfaction. Too great care cannot be exercised by Canadian shippers in having the butter of first class quality and properly put up, as only in this way can the market for butter be redeemed by Canadian firms.

Biscuits,—It is a pleasure to say that Canadian biscuits are well put up, reach the market in excellent order and give unbounded satisfaction. Consequently they command the trade.

Boots and Shoes.—Certain makes in mens' boots are perfectly satisfactory and probably 60 per cent are of Canadian manufacture. In Ladies the finer lines are American. The purchases are probably 50 per cent of Canadian and 50 per cent of American.

Boilers.—To give an idea of the demand, last fall at the close of navigation, 125 boilers were in stock at Dawson, and all were sold before the first of March. The vertical boilers, are from 6 to 20 horse power which are used in small properties. Horizontal boilers from 20 to 75 horse power are in great demand, some being of the locomotive type. Those light in construction and most economical in fuel consumption are preferred. The cost of transportation to Dawson is a very heavy item, and again to the mine location the cost is largely augmented.

Clothing.—In ready-made clothing the sales are largely United States goods. A large percentage of the population are Americans, and buyers for the large commercial companies say that the United States clothing is more stylish in finish and more desirable in cut than Canadian clothing. The bulk of this trade can readily be secured by Canadian firms, as it is generally admitted that Canadian clothing is better in material and quite equal to any in the market.

Cigars.—A large quantity are imported direct from Havana. Those known as Domestic are about half American and half Canadian. The consumption is large and there are good opportunities for pushing the sale of Canadian made goods. With the establishment of an Inland Revenue office at Dawson, for which provision has been made, the sales of Canadian cigars should increase. There are excellent opportunities in this line.

Carpets.—Purchased chiefly from Canadian manufacturers and jobbers. British carpets are also bought from Canadian carpet dealers. With the erection of more modern houses the demand should increase and there is a good chance to push carpet lines.

Cattle, Sheep and Hogs.—Nearly all come from Calgary and the North-west Territories. The Pacific Storage Company have very large cold storage facilities at Dawson and their imports this summer were :—1,000 head cattle, 2,000 sheep and 200 hogs. Competent authorities estimate that the total receipts of live stock in 1901, were :—cattle, 5,500 ; sheep, 10,000; hogs, 2,500, and in 1902 will be :—cattle, 3,500 ; sheep, 5,000 ; Hogs, 1,200.

Candles.—The consumption in candles by the miners is very large. They are purchased mainly in the United States, although a few from Sarnia, Ontario, have lately made their appearance. They are mostly paraffine wax and composite. The Standard Oil Co., having an agency in Dawson, secure the bulk of the trade.

Cream, Evaporated.—Formerly condensed milk was largerly used. Now evaporated cream is displacing the milk, and the sales are 90 per cent Canadian, and found to be very satisfactory.

Chemicals and Drugs.—Proprietory articles are purchased from the manufacturers direct and other lines from Canadian jobbers.

Crockery.—Purchased through Canadian jobbers. Complaints are made that when firsts are bought the order is filled with seconds, and some of the leading merchants in Dawson say they will import direct from England another season.

Dry Goods, general.—Supplied principally from eastern wholesale dealers and business very satisfactory.

Doors and Sash.—Probably 50 per cent Canadian and 50 per cent American. Shipments recently from British Columbia are reported of excellent quality. As better houses will continue to be constructed the demand must increase.

Explosives.— At present there is a limited demand for powder and dynamite, but if quarts should be discovered the requirements will largely increase. Principally procured at present from Canadian manufacturers.

Electrical appliances.—The larger quantity from United States firms and said to be 30 per cent cheaper than Canadian goods. There is a good opportunity to secure trade in this line.

Eggs.—A large percentage from the United States. Great care should be taken in selecting only eggs of first class quality, as the freight enters largely into the cost at destination. All eggs should be carefully handled before shipment. Eggs are packed in cases containing 30 dozen. Latterly some shipments have been made from British Columbia and reported very satisfactory.

Engines.—The quantity of machinery within a radius of Dawson is probably unequalled in any mining camp on the continent. The engines used are both vertical and horizontal for running centrifugal pumps and for hoisting ranges from 10 to 50 horse power. Should be durable, light and compact. These are nearly all of United States manufacture. The demand will continue and Canadian engine builders should by an energetic effort secure the bulk of the trade.

Flour.—The Canadian millers have easily 90 per cent of the trade, and is pronounced A 1 in quality. A few shipments from California for pastry purposes also reach the market.

Furniture.—Nearly all Canadian, and satisfactory, although some dealers say that improvement might be made in finishing.

Fur garments and robes :—All purchased from Canadian houses.

Fruits, dried.—Prunes, apricots, peaches and raisins from California.

Fruits, canned.—Ninety per cent are Canadian, and are considered superior. I might be permitted to suggest that the labels might be more attractive. They should be packed in strong cases to prevent damage in transit.

Felt boots and shoes.—Principally American and occasionally bought through Canadian jobbers. A very large demand in winter.

Granite ware.—Exclusively Canadian. Very satisfactory.

Hats.—English and American. The English purchased through Canadian dealers. Some of the American finer lines also sold.

Horses.—Nearly all from Calgary and North-west Territories.

Hay.—This is put up in compressed bales, and comes mainly from Washington Territory, east of the mountains. It is certainly well cured, fresh and green, and extra quality. Canadian firms are making an effort to secure the trade for similar hay grown north of the boundary line in British Columbia. Some idea of the quantity used may be formed, when it is known that 28,000 bales were shipped *via* St. Michaels during the present season.

Hardware.—In house building, house furnishing and general hardware Canadian firms are getting the business and the trade in this line is satisfactory.

Iron, bar.—Supplied by Canadian Roller Mills.

Iron pipe.—This is nearly all supplied by United States firms. Some Canadian pipe was found split and unfit for use. All sizes from $\frac{3}{8}$ up for mining and steam fitting required, also extra heavy hydraulic piping $\frac{1}{2}$, $\frac{3}{4}$ and $1\frac{1}{2}$. There is a large market for steel hydraulic pipe from 8 to 30 inches, punched, rolled and ready to be riveted and nested for shipment. As hydraulicing increases, a very large quantity will be required. Canadian firms should look up this business.

Lumber.—Is coming from British Columbia, besides there is a quantity of local manufactured.

Liquors and Wines.—The consumption is principally Canadian and Scotch whiskey with a limited quantity of American Bourbon. Probably 75 per cent is Canadian. French brandies and wines and Scotch whiskies are purchased through Montreal agents. Gins are half Holland and half Canadian. Wines are half French and half California.

Musical Instruments.—Pianos and organs, Canadian. A small demand which will increase with the opening up and development of the country.

Milk, condensed.—Sale is diminishing, being displaced by evaporated cream, which is nearly all Canadian product and gives excellent satisfaction.

Meats.—The sale of canned meats is gradually growing smaller, fresh meats taking their place. There is a good cold storage plant in Dawson, and the company controlling it are importing frozen beef and mutton from Australia and poultry from the United States. Meats from Australia come in steamers carrying refrigerating compartments. Australia to Victoria, thence to Nome, Alaska and thence up the Yukon river steamers to Dawson.

Miner's Picks.—A very large sale of drifting picks used and require to be made of special tempered steels. Some of the large dealers are submitting their own pattern to the manufacturers. This trade is worth attention

Oats.—Are being purchased in the United States. The colour and quality is extra. Some very choice oats, plump and weighing about 40 pounds to the bushel have reached the market from the Edmonton district. The sale of the Canadian product should be largely increased by an effort. Nearly 30,000 sacks of oats have come in via St. Michaels this present summer.

Oils, illuminating and lubricating.—The Standard Oil Co., have an agency at Dawson and the trade is entirely in their hands.

Paper.—For building paper there is a large demand and the Canadians have this well in hand.

Potatoes.—Principally imported from California and Oregon, as the British Columbia potatoes do not mature in time to reach Dawson before the close of Navigation.

In evaporated potatoes, sliced from Germany are considered the best, but the Canadian granulated are securing a fair share of the trade.

Pumps.—A large quantity of Centrifugal 5, 6, 8 and 10-inch are in use and as big plants will continue to increase, so will the demand for steam pumps.

Rope.—Wire rope for hoisting from $\frac{1}{4}$ to $\frac{3}{4}$-inch, principally $\frac{1}{2}$-inch largely used, purchased in the United States. The demand will increase as large plants are installed.

Rubber Packing.—A large market. Canadians are now getting a share but they have not more than half of the trade.

Rubber Boots.—To give an idea of the quantity used there were 15 tons of old worn out rubbers shipped from Dawson to a United States Pacific port as junk one day in August, 1902. Some Canadian rubbers shipped a few years ago proved very inferior and unsatisfactory, and since then the main purchases have been from the United States. Careful nursing, an energetic effort and a first-class article will again secure the trade for Canadian firms.

Rubber Hose.—Very extensively used, especially $\frac{1}{2}$-inch for steam purposes to connect steam pipes to thawing points. A good market and Canadians are not getting their share.

Road Scrapers.—These are used in considerable quantity in mining operations. They are soon worn out. Canadians by pushing can secure the trade.

Sugar.—Granulated and cube principally from the United States. British Columbia refiners are sending some, but are only getting a small share of the trade. Active competition should command more business.

Salt.—Entirely from Windsor, Ontario, and every one praises the quality.

Stoves and Cooking Ranges.—Are nearly all Canadian. A good size fuel box and a large oven are required. A number of sheet steel heating stoves are used. The trade seems to be well distributed among the leading Canadian manufacturers.

Syrups.—Maple syrup put up in one-half and one gallon tins required. Golden syrup from British Columbia. This trade practically in the hands of the Canadians.

Salted and Smoked Meats.—Altogether American hams and bacon used. I presume the development and increase of our trade with Britain has prevented Canadian packers and curers from going after the Yukon trade. Certainly the quality of the Canadian meats will secure the trade whenever our packers desire it.

Salmon, canned.—The superiority of the British Columbia stock is acknowledged and commands the trade.

Sluice Forks.—A very large quantity used and principally Canadian.

Shovels, Miners.—Half spring, long handled and the preference given to American manufacture. A few of Canadian make are finding a market. By complying with the needs of the buyers there is no reason why Canadian goods should not command the business.

Saddlery and Harness.—Nearly all supplied by Canadian houses.

Soap.—For toilet soap English and American. In laundry soap probably 50 per cent American and 50 per cent Canadian. Canadian soap manufacturers should look up this business.

Tobacco.—While there is a small quantity of Canadian sold by the dealers, the bulk is American importation. It is expected that the Inland Revenue Office, about to be established in Dawson, will assist the sale of Canadian tobacco.

Underwear.—Cheaper grades are Canadian, and the better lines English and American.

Vinegar.—The vinegar is concentrated one to twelve to save high freight charges, and chiefly of German manufacture.

Vegetables, canned.—Nearly all Canadian and giving excellent satisfaction. Bought from members of the Canners Association.

Wagons.—A large number of what is known as 'farmers wagons' coming from Canadian makers. The heavy mining mountain and stage wagons are nearly all American. Teaming to the various camps and mines and stage wagons require to be of special strong construction, as heavy loads are carried using four and six horses to the team.

RETAIL PRICES OF CERTAIN COMMODITIES.

It is interesting to note the extraordinary values and fluctuations of some commodities during the excitement of boom times, and present prices. Also wages during same periods.

——	1898.	1899.	1902.
Flour	30c. per lb.	15c. per lb.	6c. per lb.
Potatoes	$1.25 per lb.	33c. per lb.	8c. per lb.
Hams and bacon	$1.25 per lb.	40c. per lb.	25c. per lb.
Butter	$1 per lb.	65c. per lb.	50c. per lb.
Eggs	$18 per doz.	$2 per doz.	50c. per doz.
Hay		$500 per ton.	$90 per ton.
Oats		$8 per bushel.	$1.60 per bushel.
Candles	$1 each	25c. each.	4c. each.
Sugar	$1 per lb.	25c. per lb.	7½c. per lb.
Salt	$1 per lb	20c. per lb.	7½c. per lb.

WAGES.

	1898.	1899.	1902.
Miners wages	$1.50 per hour.	$1.25 per hour.	80c. per hour.

GOLD PRODUCTION.

The following are the Bankers' estimate of the Gold Production for the past six years.

1897	$ 1,000,000
1898	9,000,000
1899	16,000,000
1900	23,000,000
1901	18,000,000
1902	11,000,000
Total	$ 78,000,000

GOLD MARKET.

The gold dust and nuggets are now purchased by the bank or sent by express to outside markets. Some of the leading men of Dawson are of the opinion that the government should establish an assay office and purchase the gold. There is a splendidly equipped government assay office at Vancouver and it might not be advisable to establish others at various points. If a market could be found for gold at assay value less the cost of transportation, insurance and eastern exchange, it would certainly be in the interests of the district.

COAL.

Bituminous coal of a good quality has been found at various points and is being mined at Five Fingers, Rock Creek and at White Horse, the terminus of the White Pass Railroad. The latter coal has been tested on the locomotives of the railroad and pronounced equal in quality to the Comox coal of Vancouver Island.

COPPER

Has also been discovered near White Horse. The mine has lately been examined by large capitalists with the view of further development.

MEN EMPLOYED.

The following is an estimate of the number of men in the different districts engaged in mining :—

Bonanza	3,114
Hunker	1,740
Dominion	895
Gold Run	842
Sulphur	468
Stewart	412
Clear	295
Forty Mile	124
Hootalinqua	175
	8,065

There are no doubt a large number of prospectors to be added to the above.

WHITE PASS AND YUKON RAILWAY RATES.

Here follows the published freight tariff rates in condensed form, of the above railway.

Following the tariff is a memo of the classification of some of the principal commodities :—

All rates are in cents per 100 lbs. Wharfage charges at Skagway are $2 per ton, and are not included in any rate given.

U. S. Pacific Ports mentioned are Seattle, Tacoma, Port Townsend and San Francisco.

	Group A.		Group B.		Group C.	
	L.C.L. Shipments under 20,000 lbs.	C. L. Shipments 20,000 lbs. or over.	L.C.L. Shipments under 20,000 lbs.	C.L. Shipments 20,000 lbs. or over.	L.C.L. Shipments under. 20,000 lbs.	C.L. Shipments 20,000 lbs. or over.
	$ cts.	$ cts.	$ cts.	$ cts.	$ cts.	$ cts.
No. 1—Skagway to White Horse, Y.T.	2.50	2.25	2.75	2.50	3.50	3.00
No. 2—Skagway to Atlin, B.C	3.20	2.90	3.60	3.10	4.25	3.60
No. 3—Skagway to Dawson, Y.T	3.70	3.45	3.95	3.70	4.70	4.20
No. 4—Vancouver and Victoria, B.C., and U. S. Pacific Ports via Skagway to Dawson, Y.T	4.00	3.75	4.50	4.25	5.50	5.00
No. 5—Vancouver and Victoria, B.C., and U. S. Pacific Ports via Atlin, B.C.	3.45	3.15	4.15	3.65	5.05	4.40

No. 1—Effective April 15, 1902.

No. 2—Effective opening navigation 1902, expires October 10, 1902, unless sooner revoked.

No. 3—Effective opening of navigation 1902, expires August 20, 1902, unless sooner revoked.

No. 4—Effective opening of navigation 1902, expires August 20, 1902, unless sooner revoked.

No. 5—Effective opening of navigation 1902, expires October 10, 1902, unless sooner revoked.

NOTE—The carload (20,000 lbs.) rate will apply on freight from all groups whenever the total tonnage of any single shipment made up of freight from one or more groups aggregates 20,000 lbs. or over.

SPECIAL COMMODITY RATES.

1st Group.—On straight or mixed lots of flour, sugar, salt, beans and rice in sacks or barrels, hoop bar and band iron, nuts, bolts, nails, spikes and wire rope, aggregating not less than 50 tons.

No. 1—Skagway to Atlin, B.C.	$2.65	per 100 lbs.
No. 2—Skagway to Dawson, Y.T.	3.00	"
No. 3—Vancouver and Victoria, B.C., and U.S. Pacific Ports to Atlin, B.C.	2.90	"

2nd Group.—On straight or mixed lots of canned goods, boxed and Butter in brine aggregating not less than 50 tons.

No. 1—Skagway to Atlin, B.C.	$2.80	per 100 lbs.
No. 2—Skagway to Dawson, Y.T.	3.25	"
No. 3—Vancouver and Victoria, B.C., and U.S. Pacific Ports to Atlin, B.C.	3.05	"

No. 1—Effective opening of navigation 1902, expires October 10, 1902, unless sooner revoked.

No. 2—Effective opening of navigation 1902, expires August 20, 1902, unless sooner revoked.

No. 3—Effective opening of navigation 1902, expires October 10, 1902, unless sooner revoked.

NOTE.—If a shipment consists of goods from both groups aggregating 50 tons, articles in first group will take first rate mentioned and articles in second group will take second rate mentioned.

The rate to Dawson from Victoria and Vancouver, B.C., Seattle, Tacoma, Port Townsend, San Francisco, U.S., via Skagway, includes both groups, and is $3.25 per 100 lbs., effective opening of navigation, 1902. Expires August 20, 1902, unless sooner revoked.

SPECIAL TARIFF ON HAY, OATS, FEED AND BRAN.

(Loading and unloading charges on carloads extra.)

	HAY.		OATS, FEED AND BRAN.	
	Under 7 tons.	7 tons and over.	Under 10 tons.	10 tons and over.
Skagway to White Horse	$2.85	$2 per 100 lbs.	$2.50	$2.00

NOTE.—Hay, square bales compressed to at least 22 lbs. per cubic foot.

The rate on all above commodities from Vancover and Victoria, B.C., and United States Pacific ports to Dawson is $3.75 per 100 lbs.

Classification Memo. of a Few Principal Articles.

Group A—Beef, pressed, in cans.	Group A—Hardware.

Shipping Instructions.

Although the Yukon Territory and Atlin, in British Columbia, are in Canada, shippers will carefully observe that it is absolutely necessary to follow instructions given below. It will enable customers to get speedy delivery and prevent confusion and delay.

All goods consigned as above must pass through a foreign country (Alaska) before reaching destination.

Via St. Michael's.—Goods arriving at seaports in British Columbia in transit in bond may be entered for exportation to St. Michael on the usual form. Goods of Canadian origin or foreign goods, duty paid in Canada, when transported as aforesaid, may be admitted into the Yukon Territory free of duty, if the invoices thereof (in duplicate) are certified by the Canadian exporter before a customs officer in accordance with form which follows :—

Certificate from Canadian Exporter or his agent for the Yukon Trade, via St. Michael's.

I, ... do solemnly declare and certify the foregoing to be the true and correct invoice of goods, duty paid, or the product of Canada, with the marks and the numbers of the packages in which shipped per ..... and the vessels of the ..... to Dawson, Y.T., via .....and St. Michael, Alaska, and sold by the said .....on account of ..... to ..... of .....

The said invoice being dated at ..... and amounting to .....dollars.

Signature .....

Sworn at.....
this .....day
of ... ... 1902, before me

.....,
Customs Officer.

[Customs stamp.]

Dominion of Canada Customs Regulations Governing Shipment of Goods into British Territory via Skagway.

Considerable delay and confusion has been caused in the past by shippers not understanding the requirements of the Dominion Customs Department. The following infor-

mation is given for the guidance of shippers, and the instructions herein contained must be strictly adhered to.

Shipments of Goods from Canadian ports destined to points in British Territory, via Skagway, must be accompanied by :—

Two (2) certified copies of invoices (certified clause not necessary on these).
Three (3) copies of Bills of Lading, and
Four (4) copies of Canadian Customs special steamer and railway manifest must be made out, one of which is to be filed by the purser with customs at point of origin, and three copies sent with goods to Skagway.
Each package must be plainly marked, showing consignee and destination and contents of package.
Invoices must show the exact number of packages and this number must agree with the number on Bill of Lading.
Goods shipped from Canadian ports to points in British Territory via Alaska, in bond, are bonded through the United States territory free.
All of the above papers are necessary for customs purposes at Skagway.

ROUTES.

The season of navigation is open four and a half months in the year, from May 20 until October 10.

There are two routes.—1st. From any Pacific Coast port to Skagway in Alaska, thence via White Pass railway, crossing the boundary between Alaska and Yukon Territory at the summit and then on to White Horse on the Yukon river, a total distance by rail of 110 miles. From White Horse by boat down the Yukon river a distance of 450 miles to Dawson. The British Yukon Navigation Co., a branch of the White Pass Railway system, operate nearly all the boats on the upper river, there being three or four independent boats.

2nd. From Pacific Coast ports via ocean steamer to St. Michael's in Alaska near the mouth of the Yukon river, then transferred to river boats and up the Yukon river to Dawson, a distance of 1,650 miles.

This trip takes about thirty days. The steamers both on the Pacific and on the river via St. Michael's are operated and controlled by two large commercial companies doing business in Dawson, viz.:—

The Northern Commercial Company with headquarters at San Francisco, and the North American Trading and Transportation Company with head office at Chicago, Illinois, and main office at Seattle, Washington Territory.

When Navigation is closed the route is via Skagway by White Pass Railway to White Horse, thence by stage or carrier by the winter road just constructed, a distance of 300 miles. The government have just completed a new winter road shortening the distance from 370 miles to 300 miles as above.

DIFFICULTIES.

One of the main difficulties in doing business is the unavoidableness of having all goods delivered during the season of navigation. This necessitates the storing of very large stocks ; one company will have over $2,500,000 worth of merchandise in their warehouse at the beginning of the winter season, and it can be readily seen how difficult it is to estimate closely the requirements for so lengthened a period. The insurance rates are very high, the freight in many instances largely exceeds the first cost of the goods, the probabilities of deterioration during the cold weather is considerable and the cost of help is expensive. For all these reasons it is costly to do business, and prices of necessaries are consequently high. The miner and the working man must have good wages to maintain himself and his family, and it is very difficult for the individual miner to earn sufficient wages operating his own claim under present conditions. There was

universal complaint about excessive freight rates over the White Pass Railway system. Their published tariff will be found elsewhere in this report. If, as was stated, the large buyer is able to make contracts for large shipments at much lower rates than the smaller buyer, then one thing is sure the small dealer will soon be out of business or be compelled to purchase from the large trader.

What is wanted is an equitable rate to all, and this I believe would be satisfactory to the merchants of Dawson. Reduced transportation rates are absolutely necessary to the welfare of the business community. It is only fair to mention that the earnings of the railways are largely earned during the four and a half months of navigation, and the total tonnage is comparatively small, probably by both routes this season 28,000 tons.

FUTURE DEVELOPMENTS.

Canada has a great heritage in the Northern Territories, indeed the area is equal to a vast empire. It may be a frozen land for months in the year, but the climate is no less favourable than the province of Manitoba and the North-west Territories. The future just depends on the activity of our development. We will never know what we have until a railroad is built to the Great North through Canadian Territory, and as soon as practicable this ought to be done. The government, with commendable energy and foresight, have erected a telegraph line over two thousand miles to Dawson and I trust the time is not far distant when it will be followed by a railroad line.

FUTURE MINING PROSPECTS.

It is difficult to estimate the output in the years to come, and I leave the solution of this question in the hands of the Department of Mines, whose efficient Superintendent has lately investigated the whole district. That the production has fallen off during the past two years there is not the slighest doubt, but with improved methods in mining operations now being rapidly introduced, it is expected that the next few years will prove more fruitful. Practical miners have every confidence in the district and from the number of claims that daily are being recorded, there must be a large area unprospected and undeveloped. It is true there are claims in a state of suspended animation that may again be profitably operated.

The question of quartz mining, which would certainly give permanency to the camp, is yet in the balance. There is evidence that the gold nuggets now being taken from the placer mines by their marked angular and unworn character has not travelled long distances and are of local origin. Samples of quartz has been brought into Dawson and the assay value would indicate that it could be worked to great advantage. I am pleased to see that the government propose establishing two experimental stamp mills which is certainly encouraging to quartz prospectors, as they will soon be able to estimate the worth of their finds. Everything should be done to encourage the placer or quartz prospector as on their primary work the future of the district depends. Considerable complaint, and I think justly, is made regarding the large concessions which are not being worked. My opinion is the concession, are and also the small owner should be compelled to work their claims within a reasonable time or abandon their rights. Claims held for speculative purposes retard the progress of the district.

METHODS OF MINING.

I am indebted to J. B. Tyrrell, Esq., C.E., for the following article, and I am sure it will prove of interest to readers of this report:—

In the summer of 1896, gold was discovered in Bonanza Creek, and during the winter of 1896 and 1897, shafts were sunk through the alluvial gravel in Eldorado, Bonanza and other creeks, and the richness of many of the claims in the valley-bottoms was proved beyond question. The ground was found to be permanently frozen to an unknown depth from the surface. The miners who had, during the previous decade, been working

on Forty Mile River and its tributaries, had been accustomed to divert the water of the stream on which they were working into several longitudinal ditches cut in the "muck" or vegetable mould on the surface, and pick the muck down into the running water, which would carry it away. In this way the muck which might have a depth of from six to ten feet might be entirely or almost entirely removed.

The gravel stripped of its covering of "muck" was then allowed to thaw under the influence of the sun and wind and was afterwards shovelled into sluice boxes and the gold removed therefrom. This process was suitable only when the thickness of the alluvial deposits were not great, say between ten and fifteen feet. When it was deeper some other method had to be adopted and shafts were sunk by building fire after fire in the same place and digging out the thawed ground and raising it to the surface. When bedrock was reached, on top of which the richest ground was usually found, fires were laid around the sides of the bottom of the shaft so sunk and the thawed dirt raised to the surface with a bucket and a windlass. In this way a chamber often fifty or sixty feet in diameter was excavated at the bottom of each shaft and these chambers might be connected so as to undermine a large area.

This process which is known as drifting with wood fires was only applicable in winter, for in summer the fires would thaw far more ground than was necessary and the carbonic acid gas generated by the fires would not run from the cool underground chambers or drifts, but would remain in them for days, making access to them impossible. Besides, even in winter the process used a large quantity of wood and was slow and expensive.

In the winter of 1898 and 1899 and during the following years, various devices were adopted for thawing the ground without the aid of wood fires, but of these the one that is now almost universally adopted is the boiler generating steam to a pressure of about 100 lbs. to the square inch, from which the steam is conducted in pipes and flexible hose to "points" which are driven into the gravel or underlying bedrock while the steam is turned into them. Each point, if steamed for twelve hours, will thaw from four to five cubic yards of dirt. This process is known as drifting with steam, and as it does not generate any noxious gasses underground, it is equally applicable both in summer and winter.

Instead of using live steam and points to thaw the gravel, some miners are using pulsometers and others force pumps to thaw it preparatory to being hoisted to the surface. The gravel that is mined in winter is hoisted to the surface, formerly by a hand-windlass, but now by a steam hoist, and piled there until spring, when it is shovelled into sluice boxes. That which is hoisted in summer is dumped directly into a sluice box, when the gold is washed from it immediately.

In this method of working the following might be taken as a list of the necessary articles of machinery:—1 boiler 20 to 50 horse power; 1 hoisting engine 12 horse power; 500 feet $\frac{3}{8}$ steel cable; 300 feet $\frac{3}{4}$ steel cables; 1 self-dumping bucket carrier capable of carrying one ton; 210 points 5 feet long hydraulic pipe; 400 feet one inch pipe; 300 feet $\frac{3}{4}$-inch pipe; 500 feet $\frac{1}{2}$-inch pipe; 150 feet steam hose; one 8 horse power engine; one 24 inch circular saw; 1 small portable saw-mill; forge; anvil; blacksmiths tools; carpenters tools; 1 No. 5 pulsometer; 1–2 $\frac{1}{2}$-inch Worthington duplex pump.

The first method, known as open cutting, is still used in shallow ground, but instead of shovelling the bottom gravel into the sluice boxes by hand it is now scraped in by scrapers drawn by horses or a reversible hoist. The pit is drained by a centrifugal pump, and the water for sluicing is often raised by a centrifugal pump.

In one place, when the ground is not frozen, a large dredge is working successfully, while on some of the hill gravels, where water can be obtained at slight cost, the gravel is being moved and sluiced very cheaply by a hydraulic giant.

The methods briefly outlined above are the groundwork of all the mining in the district. Without a relatively large initial outlay for plant, very little of the ground can now be worked successfully.

BANKS.

At Dawson there are branches of the Canadian Bank of Commerce and the Bank of British North America, both doing large business. The interest rates vary from one

per cent to two per cent per month. These banks purchase all the gold offered and make collections for their customers.

AGRICULTURAL PROBABILITIES.

Professor Macoun, Botanist of the Department of Agriculture at Ottawa, visited the district this summer, and I venture to predict his report will be most interesting as to the agricultural prospects of the Yukon Territory.

The agricultural possibilities, I believe, are unbounded, and that there are millions of acres in this great new unknown possession susceptible of cultivation. I am quite aware that this statement will be discredited by many, but some of us remember that less than a quarter of a century ago many were of the opinion that Manitoba and our North-west Territories were uninhabitable and uncultivable.

HON. J. H. ROSS.

It is proper that I should bear testimony to the great esteem in which all classes of the community have for the Hon. J. H. Ross, Governor of the Yukon Territory. He is known as a gentleman worthy of respect, a fair, upright and righteous administrator. It is hoped that he will soon recover from his present illness, which, it is thought, has occurred from overwork in his anxiety to attend to public business.

NORTH-WEST MOUNTED POLICE.

The citizens speak in terms of praise of this fine body of men. Foreigners, as well as Canadians, informed me that they were of the opinion their equal as a police force were not to be found. They are a terror to evil-doers and a praise to them that do well.

HOW TO INCREASE CANADIAN BUSINESS.

By carefully studying the remarks under the various items the manufacturer or merchant can readily see in what lines Canadian business can be increased. In few instances would it pay to send travellers such a distance at a large expenditure, and those desiring business connection must themselves be the best judge.

The largest dealers send their buyers to the primary markets and purchase very little from travelling salesmen who visit Dawson.

There is no doubt that a good machinery salesman could secure large orders for Canadian firms, as the demand for boilers, pumps and engines, &c., is very large, and will continue.

When orders are received they should be promptly acknowledged and promptly filled, and great care should be taken in packing goods properly, securely and safely, remembering the long distance to be carried.

There is no use sending inferior goods to the Yukon, as they are prepared to pay for a good article, and satisfactory qualities will command future business. In catering for the Yukon trade or for any new market it must be remembered that conditions, climate, styles and requirements may be quite different from those of our own market, and in building up an export trade, which this virtually is, although in Canada, an intelligent study of the whole situation must be made. Producers and manufacturers will require to adapt themselves to the position and make an effort to supply such articles as are suitable to the requirements of the people whose trade they seek in price, form and quality.

ATLIN, BRITISH COLUMBIA.

I also visited Atlin, B. C., which also enjoyed a boom during the Klondike excitement.

Atlin is reached from Caribou, a station 67 miles from Skagway.

During the season of navigation the steamer *Gleaner* of the British Yukon Navigation Co., makes semi-weekly trips through Lakes Nares, Tagish and Taku Arm to Taku. At Taku there is a portage of about two miles traversed by a tramway (probably the shortest railway in the world) to the western shore of Atlin Lake and the lake is crossed by steamer in half an hour where you land at beautiful Atlin, a town of about 500 inhabitants.

The scenery of this district could scarcely be surpassed, and I think this region will yet be visited by thousands as a health and summer resort. The climate and opportunities for fishing and hunting are all that could be desired.

The outlook in Atlin district, is very hopeful and encouraging and the gold production this year shows a considerable increase over last year, the total amount being $500,000. The Atlin camp is of course smaller than the Klondike field; the number of men working placer ground being nearly 800 as below:—

Spruce Creek	150 Men.
Boulder	125 "
Birch	10 "
Wright	30 "
Pine	200 "
Gold Run	25 "
McKee	50 "
Other Creeks	30 "
Men working mineral claims	150 "
Total	770 "

I visited Pine and Spruce Creeks and all the miners I met were very cheerful and well satisfied with their operations. There did not seem to be an idle man in the whole district. The number of claims recorded in the district, 1,600.

New and up to date methods are being introduced, and mine owners are preparing for extensive developments. Quartz has been discovered and some experimental shipments are being made for analysis, which it is hoped will prove favourable.

The merchants are contented and distinctively Canadian in their sentiments. All that I have said in reference to the commodities and freight rates and other difficulties existing in the Yukon territory will apply to this field. There is an abundant supply of water for slucing purposes which is a great advantage in cleaning up.

This district is entirely under the jurisdiction of the provincial government of British Columbia. The government building, the headquarters of the gold commissioner and other government officials, are very commodious and comfortable.

The president and members of the board of trade were very cordial in giving information. The Canadian Bank of Commerce has a branch here and serve the community satisfactorily.

ACKNOWLEDGMENTS.

I desire to tender my hearty appreciation of the kindness and attention and information received from the acting Governor, Major Wood, the members of the Yukon Territorial Council and every member of the government staff.

I am specially indebted to Mr. E. S. Busby, collector of customs, and to Mr. Hartman, postmaster, and to all the officials of the two departments of which they are the competent chiefs.

The business men of Dawson were exceedingly communicative and readily furnished me the information I desired.

I had great pleasure in meeting with Mayor Macaulay and the city council and in discussing trade conditions with them. I found them reasonable, level headed, common sense business men and anxious for the future welfare of the city and district.

EXTENDING CANADIAN EXPORT TRADE.

After carefully studying conditions of the export trade from Canada, I am convinced it will continue to develop and increase in the line of the natural products of the country, but there are many lines which can be exported by a proper effort to market these products in a foreign country, and by the present methods our trade in those lines will be slow.

I am sure if an exporters' syndicate or large commercial company were formed with the view of pushing Canadian goods in foreign countries it would work out to the satisfaction of the shareholders of such company and to the credit of our country.

Large warehouses could be established at say Liverpool, Glasgow, Cape Town and other shipping points in South Africa and in the West Indies, and from time to time at any good port in any country where business would warrant. Full cargo lots could be shipped from Canadian ports and direct steamer communication would be established on simple and natural lines. The export trade of the Dominion would largely increase. Canada would become better known, and trade would be direct and on a sound basis. We all believe that Massey–Harris Co.'s foreign business has been so successful because of operating and controlling their own agencies all over the world. Very few firms can afford to do this, but it can be done collectively and successfully on the methods above advised.

Canada is at present enjoying an era of growth and prosperity unparalleled in its history and from present appearances it is going to continue. There are living and dying nations and Canada, although young, is very much alive. The battles of the future are to be fought out on commercial lines and the active and aggressive people will win. When the Prince of Wales returned to Britain a year ago he advised the English people to 'wake up.' Canadians also need the same advise to 'wake up.' All our factories will require to double up their capacity during the next few years. Let us realize our responsibilities and our future, and being filled with a noble patriotism go forward and do our share in working out the destiny of our great country.

I have the honour to be,
Your obedient servant,

GEORGE ANDERSON.

Note.—'Special' means in the case of Imports, 'Imports for Home Consumption,' in case of Exports, 'Exports of Domestic Produce and Manufacture.'

a The figures for Mexico include coin and bullion.

II.—NEW TARIFFS.

During the month under review there have been distributed from this department to all the principal Custom-houses and Boards of Trade throughout the Dominion, copies of all foreign and colonial tariffs and supplements thereto, as furnished during that period by the International Customs Tariff Bureau, which are always available for reference by those interested therein, resident at the principal centres of trade. The following British and Colonial are supplemental to those published in the departmental Annual Report, 1893, and the quarterly and monthly reports since published, and comprise all additions thereto or changes therein, so far as the department has authentic advice.

(A.)—THE COMMONWEALTH OF AUSTRALIA.

No. 14 of 1902.—'An Act relating to Duties of Customs.'

[*Assented to September 16, 1902.*]

Be it enacted by the King's Most Excellent Majesty, the Senate, and the House of Representatives of the Commonwealth of Australia, as follows:—

1. This Act may be cited as the Customs Tariff 1902.

2. The *Customs Act* 1901 shall be incorporated and read as one with this Act.

3. In this Act, except where otherwise clearly intented—

'Tariff' means the Tariff proposed in the Parliament on the eighth day of October, one thousand nine hundred and one.

'Tariff' alteration' means any alteration of the Tariff since proposed in the Parliament.

4. The time of the imposition of uniform Duties of Customs is the eighth day of October one thousand nine hundred and one, at four o'clock in the afternoon reckoned according to the standard time in force in the State of Victoria and this Act shall be deemed to have come into operation at that time.

5. The Duties of Customs specified in the Schedule are hereby imposed according to the Schedule, as from the time of the imposition of uniform Duties of Customs or such other later dates as are mentioned in the Schedule in regard to any particular items, and such duties shall be deemed to have been imposed at such time and dates, and shall be charged, collected, and paid to the use of the King for the purposes of the Commonwealth on all goods dutiable under the Schedule imported into Australia after the time when such duties are deemed to have been imposed, or before such time if not entered for home consumption until after such imposition.

6. All Duties of Customs collected pursuant to any Tariff or Tariff alteration shall be deemed to have been lawfully imposed and collected, and no additional duty shall be payable on any goods on which duty was so collected, merely by reason that the rate at which the duty was so collected is less than the rate of duty specified in this Act, and no duty shall be payable in respect of goods delivered for home consumption free of duty pursuant to any Tariff or Tariff alteration.

THE SCHEDULE.

The Customs Tariff.

All goods to be free if not included among dutiable goods.

All imitations to be dutiable at the rate chargeable on the goods they imitate, unless such rate is less than the rate which would otherwise be chargeable on the imitations.

'Proof' or 'Proof Spirit' means spirit of a strength equal to that of pure ethyl alcohol compounded with distilled water so that the resultant mixture at a temperature of 60° Fahrenheit has a specific gravity of 0.9198 as compared with that of distilled water at the same temperature.

'N.E.I.' means 'not elsewhere included,'

'Departmental By-law' means By-law made by the Minister, and published in the *Gazette*.

'Proclamation' means proclamation by the Governor-General published in the *Gazette*.

(A) Quarter-pints and smaller sizes . per doz.	6d.	
(B) Half-pints and over quarter-pints "	1s.	
(C) Pints and over half-pints ... "	2s.	
(D) Quarts and over pints ... "	4s.	
(E) Exceeding a quart ... per gal.	1s. 4d.	
45. Potatoes ... per cwt.	1s.	
46. Rice, viz.:—		
(A) Uncleaned ... per cental	5s. 3d. ; and on and after March 26, 1902, 3s. 4d.	
(B) For manufacturing starch, under departmental by-laws ... per cental	6s. 3d. ; and on and after March 26, 1902, free.	
(C) N.E.I. ... "	8s. 4d. ; and on and after March 26, 1902, 6s.	
47. Sago and tapioca ... "	4s.	
48. Salt, n.e.i. ... per ton.	20s.; and on and after November 30, 1901, 10s.; and on and after April 4, 1902, 15s.; and on and after April 19, 1902, 12s. 6d.	(*h*) Salt, brown rock. (*i*) Manures.
49. Seed, canary, hemp, and rape ... ad val.	15 p. c.; and on and after November 30, 1901, per cental, 1s. 6d.	
50. Seed, cotton ... per cental.	4s. on and after April 4, 1902.	(*j*) For making methylated cotton seed oil, under departmental by-laws.
51. Soap, viz :—		
(A) Perfumed, toilet, and medicated (including the weight of wrappers) ... per lb.	4d.; and on and after December 3, 1901, 3d.	
(B) N.E.I., including polishing ... per lb.	1d.; and on and after December 3, 1901, ½d.	
52. Spices, viz. :—		
(A) Unground, n.e.i., including green ginger per lb.	2d.	
(B) Ground, n.e.i ... per lb.	4d.	
53. (A) Starch, including starch in powdered form per lb.	2d.	
(B) Starch flours, including rice meal, and rice, tapioca, and potato flours ... per lb	2d.; and on and after August 14, 1902, ½d.	
54. Straw ... per ton.	5s.; and on and after August 14, 1902, free.	

SCHEDULE—*Continued.*

Dutiable Goods.	Duties.	Special Exemptions.
DIVISION IV.—AGRICULTURAL PRODUCTS AND GROCERIES—*Concluded.*		
55. Table waters, aërated or mineral, and preparations packed for household use for the production thereof; also ale, porter, and other beer, cider, and perry containing less than 2 p. c. of proof spirit.....ad val.	20 p. c.	*(k)* Sparklets.
56. (A) Tea.....per lb.	2d. and 20 p. c. ad val.; and on and after March 21st, 1902, free.	
(B) Tea in packets.....per lb.	3d. and 20 p. c. ad val.; and on and after March 21, 1902, free.	
57. Wine, unfermented .....per gallon.	3s.	
DIVISION V.—APPAREL AND TEXTILES.		
58. Apparel and attire and articles, n.e.i.— (A) Woollen or silk, or containing wool or silk, partly or wholly made up (not being piece goods), including articles cut into shape.....ad val.	25 p. c.	*(a)* Apparel and attire—minor articles for :— Bindings and stay and boot laces (except of leather), braids, buckles and buttons (not for adornment), busk and stay fasteners, protectors and shields, bodice and skirt steelss ferretings, filletings, hook, and eyes, tapes, webs, waddings, webbing, wire and wire ribbon.
(B) Not containing wool or silk, partly or wholly made up (not being piece goods), including articles cut into shape, and dressed feathers.....ad val.	20 p. c.; and on and after December 3, 1901, 25 p. c.	*(b)* Bandages, elastic stockings, leggings, knee-caps, thigh-pieces, and wristlets, surgical. *(c)* Diving dresses. *(d)* Regalia, viz., embroidery woven sashes. *(e)* All accoutrements, badges, buttons, braid, and lace for naval and military uniforms, under departmental by-laws.
(C) Towels and handkerchiefs, made of cotton or linen.....ad val.	15 p. c. on and after April 9, 1902.	
59. (A) Bags and sacks, calico, hessian, linen, and meat wraps, whether partly or wholly made.....ad val.	10 p. c. on and after April 9, 1902.	*(f)* Bags, sacks, packs and bales for bran, chaff, compressed fodder, potato, onion, ore, coal and wool; also sugar mats, and corn and flour sacks.
(B) Bags and sacks, n.e.i.....ad val.	10 p. c. on and after April 18, 1902.	
60. (A) Blankets, blanketing, rugs, lap dusters, and rugging; carpets, carpeting, floor cloths and mats, n.e.i., floor coverings (including felts and pads), and carriage mats; curtains.....ad val.	20 p. c.; and on and after December 6, 1901, 15 p. c.	
(B) Cosies, cushions, mantel and furniture drapery and coverings, bed-covers and furnishings, n.e.i, whether partly or wholly made up; frillings, rufflings, tucked lawns, pleatings, and ruchings.....ad val.	20 p. c.	
61. Fur and other skins, dressed or prepared, and hatters' fur.....ad val.	15 p. c.	
62. Gloves, including mittens and flesh gloves. ad val.	20 p. c.	

SCHEDULE—*Continued.*

Dutiable Goods.	Duties.	Special Exemptions.
DIVISION V.—APPAREL AND TEXTILES—*Continued.*		
63. Hats and caps, viz. :—		
(A) Men's, women's, boys', and children's felt hats.....per doz.	10s. and 15 p. c. ad val.; and on and after December 7, 1901, 30 p. c. ad val.	
(B) Dress hats.....per doz.	48s.; and on or after December 7, 1901, 30 p. c. ad val.	
(C) Hats and caps, sewn.....per doz.	3s.; and on and after December 7, 1901, 30 p. c. ad val.	
64. Hats, caps, and bonnets, n.e.i., hat and bonnet shapes, felt pullover hoods, and wigs and other articles of natural or artificial human hair .....ad val.	20 p. c.	(*g*) Hats, miners'. (*h*) Hats— Minor articles for :— Buckes, not for adornment. Plaits. (*i*) Helmets, firemen's.
65. Pararols, sunshades, and umbrellas, viz.:—		
(A) Containing silk..... each	1s. 6d. and 15 p. c. ad val.; and on and after December 7, 1901, 30 p. c. ad val.; and on and after August 14, 1902, 20 p.c. ad val.	(*j*) Parasols, sunshades, and umbrellas— Minor articles for :— Cups, ferrules, notches, ribs, rings, and runners.
(B) N.E.I..... each	6d. and 15 p. c. ad val.; and on and after December 7, 1901, 30 p. c. ad val.; and on and after August 14, 1902, 20 p.c. ad val.	
(C) Parasol, sunshade, and umbrella handles, sticks, and fitups, whether mounted or not. ...ad val.	10 p. c. on and after April 9, 1902; and on and after Aug. 14, 1902, free.	
66. Piece goods, viz.:—		(*k*) Felt sheathing, bunting.
(A) Woollen, or containing wool, n.e.i. ad val.	20 p.c.; and on and after December 5, 1901, 15 p.c.	(*l*) On and after December 10, 1901, saddlers' webs, upholsterers' webs, collar check, saddlers' serge, and felt.
(B) Coatings, vesting, trouserings, n.e.i., flannels and flannelettes..... ad val.	20 p. c.; and on and after December 5, 1901, 15 p. c.	(*m*) Horsehair cloth and hop cloth.
(C) Silk, or containing silk or having silk worked thereon .....ad val.	15 p. c.	(*n*) Milling silk.
(D) Velvets, velveteens, plushes, ribbons, galloons, lace, lace flouncings, millinery nets, and veilings —all kinds and materials.....ad val.	15 p. c.	
(E) Cottons and linens, viz., blue frocking, butter and cheese cloth, calico, white and grey, drills, duck, dungaree, jeans, moleskins, oil baize, leather cloth, sheetings, (including forfar, dowlas and flax), shirtings, white, and Oxford, Cambridge, and Harvard, ticks, towellings, window nets, and hollands.....ad val.	10 p. c.; and on and after December 4, 1901, free; and on and after April 5, 1902, 5 p. c. ad val.	

SCHEDULE—*Continued.*

Dutiable Goods.	Duties.	Special Exemptions.
DIVISION V.—APPAREL AND TEXTILES—*Concluded.*		
Piece Goods—*Concluded.*		
(F) Corduroy, imitation moleskins, zephyrs, galateas, shirtings not being flannelette, and denims....ad val.	15 p. c.; and on and after December 4, 1901, free; and on and after April 5, 1902, ad val. 5 p. c.	
(G) Cotton and linen piece goods, n.e.i.....ad val.	15 p. c.; and on and after December 4, 1901, 10 p. c.; and on and after April 5, 1902, ad val. 5 p. c.	(*o*) Tent and sail canvas and duck, hessians, and brattice cloth.
(H) Cotton and linen piece goods, n. e.i. (including dungaree, denim and moleskin).....ad val.	5 p. c. on and after April 5, 1902.	
67. Piece goods, to be used in the manufacture of cloth made waterproof with india-rubber pursuant to departmental By-laws.....ad val.	10 p. c. on and after December 7, 1901; and on and after April 18, 1902, 7½ p. c.	
68. (A) Socks and stockings, cotton.....ad val.	10 p. c. on and after April 9, 1902.	
(B) Socks and stockings, woollen or containing wool.....ad val.	15 p. c. on and after September 4, 1902.	
69. Tents, tarpaulins, sails and flags.....ad val.	20 p.c.; and on and after December 7, 1901, free; and on and after April 18, 1902, 5 p.c.	
70. Trimmings, mantle dress bonnet and hat, n.e.i., including flowers, undressed feathers, and embroideries in the piece..ad val.	15 p.c.	
71. Yarns, partly or wholly of wool.....ad val.	15 p.c.; and on and after December 7, 1901, 10 p.c.; and on and after September 4, 1902, 5 p.c.	(*p.*) Yarn, angora.
"Wool" or "Woollen" includes all manufactures from wool, hair or fur.		
DIVISION VI—METALS AND MACHINERY.		
72. Ammunition, viz.: shot, bullets and slugs.p. cwt.	7s. 6d.; and on and after December 10, 1901, 5s.	
73. Arms, viz.:—		
(A) Revolvers, pistols, air gun and air pistols, bayonets, swords, fencing foils and masks, gun, revolver and pistol covers cases and fittings, loading tools, and cartridge belts.ad val.	15 p.c.	(*a.*) Arms, viz.:—Rifles, military and match, including Cadet rifles.
(B) Rifles, n.e.i., shot guns.....ad val.	15 p.c.; and on and after December 10, 1901, 10 p.c.	

SCHEDULE—*Continued.*

Dutiable Goods.	Duties.	Special Exemptions.
DIVISION VI—METALS AND MACHINERY—*Con.*		
74. Iron, plate and sheet,* viz.:—		
(A) Plain galvanized.....per ton.	15s.; and on and after December 10, 1901, free.	
(B) Corrugated galvanized.....per ton.	30s.; and on and after December 10, 1901, free.	
(C) Iron, galvanized, plate and sheet...per ton.	15s. ; on and after April 9, 1902.	
75. Lamps and lampware, n.e.i., and lanterns and lamp stoves and all parts thereof (except chimneys, shades, and globes, gasaliers, and electroliers).....ad val.	20 p.c.; and on and after December 10, 1901, 15 p.c.	
76. Lead, sheet and piping.....per cwt.	2s. 6d. ; and on and after December 10, 1901, free.	
77. Mangles, clothes-wringers, and washing machines.....ad val.	20 p.c.; and on and after August 14, 1902, 15 p.c.; and on and after September 4, 1902, 12½ p.c.	
78. Manufactures of metal, viz.:		*(b.)* Agricultural machinery and implements, viz.:— Chaffcutter knives, hand-worked seed wheel drills and hand-worked cultivators, huskers and shellers, horse rakes, lucerne bunchers, maize harvesters and binders, maize huskers and shredders, milking machines, mowers, potato raisers, rakes and ploughs combined, root cutters, straw stackers, strawsorizers, and other field-spraying machines, threshing machines, winnower orks (wood and steel.)
(A) Agricultural, horticultural, and viticultural machinery and implements, n.e.i., including shares and plough plates cut to shape, horse gears; and roadmaking ploughs, scoops, horse road rollers, and machines.....ad val.	15 p.c.; and on and after September 4, 1902, 12½ p.c.	*(c.)* Apparatus—Diving. *(d.)* Crucibles. *(e.)* Engines—Fire. *(f.)* Machinery and part thereof, viz.:— Automatic stokers. Blowers for smelting furnaces. Briquetting machinery. Coke rams or pushers, steam or hydraulic. Indicators, steam engine. Manganese steel parts—that is parts that are made of steel containing not less than 7 p.c. of manganese, and that are used for and worn in grinding or crushing or pulverising material by coming in actual contact therewith. Patent porcelain and steel rollers for flour mills. Roll shells. Rollers, steam road. Zinc refining retorts.

* To continue only until the coming into force of "Division VIA," metals.

SCHEDULE—*Continued.*

Dutiable Goods.	Duties.	Special Exemptions.
DIVISION VI.—METALS AND MACHINERY—*Continued.*		Machinery, &c.—*Continued.*
Manufactures of metal—*Continued.*		(*g.*) Machinery (not including motive power, engine combination, or power connections, if any, viz.:—
(B) Mould boards, sheep-shearing machines, engines, portable, fixed on a locomotive boiler horizontally, with wheels and shafts, suitable for transport, traction engines . . ad val.	15 p.c.; and on and after December 13, 1901, free.	Automatic can making and closing machines. Cream separators, testers and pasteurizers. Garment drafting machines. Jewellers' polishing lathes. Knitting Linotype, monotype, monoline, and other type composing machines. Log band saw-mills. Machinery for scouring, washing, carding, spinning, weaving, and finishing the manufacture of fibrous materials.
(C) Cutlery, n.e.i. (including manicure sets and knife sharpeners); also instruments, drawing, mathematical and surveying. ad val.	15 %	Machinery for the manufacture of paper and for felting. Printing machines and presses, and machinery used exclusively for and in the actual process of electrotyping and stereotyping; aluminium rotary graining machines. Sewing machines. Soap cutting machines. Stitching machines. Typewriters. Machine tools, as follow:—
		(*h*) Bookbinding.—Backing, bench presses, bevelling, binding, blocking, book rolling, book rounding, case rolling, case cleaning, case making, cutting, eyeleting, embossing, finishing press and stand, folding, glueing, indexing, laying presses, nipping presses, numbering, paging, paring, perforating, punching, ruling, scoring, stand presses, stapling, trimming, wire stitching machines.
(D) Nails, n.e.i., viz.:—		
Horse shoe nails . . . . . per cwt.	7s.; and on and after December 13, 1901, 5s.	(*i*) Bootmaking.—Accessories to stitching machines (being—gem insole, inseam trimming, stitch separating, turn moulding, welt beating), button fastening, channel openers, counter moulders, hooking, pattern cutting and grading, pegging, power hammer, pricker, fair stich; rand compressing, rand splitting, rand turning, sole rounding, standard screwing, staple fasteners strap (printing and covering), treeing, tying (shoe), upper blocking and cleaning, vamp beading, folding, and marking.

SCHEDULE—*Continued.*

Dutiable Goods.	Duties.	Special Exemptions.
DIVISION VI.—METALS AND MACHINERY—*Continued.*		
Manufactures of metal—*Continued.*		Machinery, &c.—*Continued.* Machine tools—*Continued.* (*j*) Brushmaking.—Boring, cutting, filling, flue or bottle brush machine, shaping, trimming. (*k*) Glass making and working.—Beveling machines, bottlemaklng, patent presses, roughing mills, sandblasting, standard iron-frame plate-glass polishers. (*l*) Hatmaking.—Hydraulic blocking press for making straw hats. (*m*) India-rubber working. Hose machines, steel stamps, steel tire mandrills, spreading, tread-drums, washer cutting, (*n*) Metal working.—Arbor or mandrel presses, bolt making, cropping, cutter making ; cutters, lead and brass, finning, machine tools for electrotyping, stereotyping and photo engraving, viz.:—backing presses, bevelling, casting moulds, curved cutting off cylinder, curved finishing cylinder, curving for electroplate, electrotype, engravers' elliptographs, hydraulic moulding presses, matrix rolling, plate thinning, rotary bevellers, rotary edging machine, rotary planing machines, routing machines, shaving, squaring, trimming.
(E) Wire and other, and spikes, staples, brads and tacks..... ....per cwt.	3s	
(F) Tanks, containing goods or empty, for every 100 gallons or part thereof..	3s. ; and on and after December 14, 1901, free.	Caulking and chipping, cold tire setting machine, facing, flanging, horse-shoe, mitreing, nail making, measuring machines, profiling, riveting, rivet making, straightening, type-casting and finishing machines, washer making, welding, wire netting, hydraulic wheel presses, lathes, drilling, slotting, shaping, sawing, grinding, milling, keyseating, nut-finishing, tapping, screwing, planing, tooth-wheel or gear-cutting, forging, nut-making, centering, chucks for lathes, blowers used for foundry and mining purposes, pneumatic hammers, steam hammers, milling machine cutters to make lathing out of metal sheets.

SCHEDULE.—*Continued.*

Dutiable Goods.	Duties.	Special Exemptions.
DIVISION VI.—METALS AND MACHINERY—*Con.*		
Manufactures of metal—***Continued.***		Machinery, &c.—*Continued.* Machine Tools—*Continued.* *(n)*—*Continued.* Machines for making metallic capsules Punching and shearing machines *(o)* Paper finishing, cutting, and folding. — Bending and creasing. Cutting, viz.:—Card guillotine, label, lever, millboard, rotary cutting and grooving, rotary cutting and scoring:—damping, envelope making, glazing, and hot rolling, labelling, machines for coating and finishing, paper bag and paper box making, varnishing paper, wrapping
(G) Weighing machines, weigh-bridges, and scales, n.e.i., also cash registers, computing machines, and attachments .....ad val.	20%	
		(p) Saddlers' and harness makers' and bagmakers'—creasing, leather printing presses and plates, pinking, strapcutting, riveting, creasing, stitch pricking, tracetrimming machines and presses and dies for loops.
		(q) Stone working. — Litho. stone grinding
		(r) Tanning.—Tanners, squeezing machines, shaving machines, whitening and blackening machines, measuring machines
		(s) Tile, pipe, and brick making. — Blungers, filter presses, grinding mills (for enamels, colours, glazes, and flint), magnetiser, moulding machines, press stamps, sifters, stilt spur, ann thimble pressers
(H) Engines, gas and oil, and high-speed engines and turbines, water and steam.....ad val.	15% on and after 18th April, 1902; and on and after 4th September, 1902, 12½%	*(t)* Wood-working. — Sawing, joining, planing, moulding, surfacing, tenoning, tonguing and grooving, trying up, sand-papering, dovetailing, mortising, boring, saw-sharpening, rounding, saw-brazing, spoke-making, wheel-making lathes, and copying lathes; cask-making machines, viz.:—rounding and bevelling, combined hoop punching, shearing, splaying, and bending, hoop splaying and bending, stave jointing, chiming, crozing, and dowelling

SCHEDULE.—*Continued.*

Dutiable Goods.	Duties.	Special Exemptions.
DIVISION VI.—METALS AND MACHINERY—*Continued.*		
Manufactures of metal—*Continued.*		Machinery, &c.—*Continued.*
		Machine Tools—*Continued.*
		(u) Miscellaneous.—Rock-boring percussion drills, grinding and polishing discs, lens-cutting machines, lens-drilling machines, lens measures, punching and eyeletting machines.
		(v) Any machinery, machine tool, or any part thereof specified in any proclamation issued by the Governor-general in pursuance of a joint address passed on the motion of Ministers by both Houses of the Parliament, stating that such machinery, machine tool, or part cannot be reasonably manufactured within the commonwealth, and that it should be admitted free.
(I) Engines.....ad val.	25 p. c.; and on and after 17th January, 1902, 20 p. c.; and on and after 19th April, 1902, 15 p.c.; and on and after 4th September, 1902, 12½ p. c.	
		Metals and manufactures of metal.—
		(w) Aluminium, bronze, yellow metal, britannia metal, nickel, and german silver, viz. :—Pigs, ingots, scrap, blocks, bars, strips, sheets, and plates.
		(x) Anchors, over 10 cwt.
(J) Boilers, pumps, machines, and machinery, n.e.i.....ad val.	25 p. c.; and on and after 18th January, 1902, 20 p. c.; and on and after 19th April, 1902, 15 p.c.; and on and after 4th September, 1902, 12½ p. c.	*(y)* Anodes and hooks for plating purposes.
		(z) Bolts, carriage (⅜ of an inch and under in diameter and 4 inches and under in length).
		(aa) Brass, viz. :—Scrap, bars, sheets, pipes, tubes, and strips.
		(ab) Capsules, metallic.
		(ac) Chains, n.e.i.
		(ad) Copper, viz. : — Strips, scrap, bars, sheets, pipes, and tubes, prepared plates for engravers and lithographers.
		(ae) Cylinders for anhydrous ammonia and for gas.
(K) Axles and springs..... ad val.	25 p. c.; and on and after 18th January, 1902, 15 p. c.	*(af)* Discs, plough and harrow
		(ag) Droppers, patent steel of all lengths.
		(ah) Electrical materials, viz. : —Accumulators or storage batteries, including glass cells used therewith, cable and wire (covered), carbons, incandescent lamps, testing meters and instruments, dry cells, translators, porcelain fittings complete (including lampholders), except switches over 4 inches in the base

SCHEDULE—*Continued.*

Dutiable Goods.	Duties.	Special Exemptions.
DIVISION VI.—METALS AND MACHINERY—*Continued.*		Metals and manufactures of metal—*Continued.*
Manufactures of metal—*Continued.*		(*ah*)—*Continued.* Electrical materials—*Con.* insulating tapes, meters, arc lamps and accessories, resistance coils, rheostats, static transformers and terminals.
		(*ai*) Eyelets.
		(*aj*) Fasteners, machine belt
		(*ak*) Fire extinguishers, hand
(L) Mixed metal-ware. .. ..ad val.	25 p.c.; and on and after January 18, 1902, 15 p.c.	(*al*) Iron and steel tubes or pipes (except riveted or cast) not more than 6 inches internal diameter, including flexible metal tubes, galloway and vertical parallel boiler tubes, water bore casings, wrought iron fittings for wrought iron pipes
		(*am*) Lamps, miners' safety
		(*an*) Last thimbles and block fasteners
		(*ao*) Leaf and foil
		(*ap*) Locks, including knobs, keys, escutcheons, and staples
		(*aq*) Pins, viz., gimp, solid-headed short toilet, plain wire hair, plain safety
(M) Plated ware and plated cutlery. ....ad val.	25 p.c.; and an and after January 18, 1902, 20 p.c.	(*ar*) Platinum, viz., bars, strips, sheets, plates, retorts, pans, condensers, tubing, or pipes
		(*as*) Printers' materials, viz.:—Circles, clumps, curves, knives (paring), rules, leads, slugs and type
		(*at*) Rabbit traps, dog traps, vermin traps
		(*au*) Rods for nail making
		Saddlers and harness makers' materials, viz.:—Saddle trees, saddlers' tacks and nails, snaps (harness and halter), spurs, and spur boxes
		(*aw*) Scales, viz., chemical, analytical, and assay
(N) N.E.I. ....ad val.	25 p.c.; and on and after January 22, 1902, 20 p.c.	(*ax*) *Scrap iron and steel, and subject to Departmental By-laws, materials for use as scrap iron
		(*ay*) Screw hooks, eyes and rings
		(*az*) Screws (table and music stool)
		(*ba*) Ships' fittings, viz.:—Propellers, blades, and bosses, liners for cylinders, shafting, winches, windlasses, steering gear, feed-water heaters, feed pumps, evaporators, and auxiliary condensers. Provided such fittings form duplicate parts of and are used in connection with the ship in or for which they were imported

DIVISION VIA.—METALS AND MACHINERY—*Con.*		
Iron and steel—*Con.*		
(E) Machinery, machines and parts—		
Reapers and binders ad val.	15 p.c.	
Other machinery, machines or parts, referred to in proclamation "	15 p.c.	
(F) Wire netting "	10 p.c.	
(G) Iron and steel tubes and pipes, not dutiable under Division VI. "	10 p.c.	
(H) Spelter "	10 p.c.	
DIVISION VII.—OILS, PAINTS AND VARNISHES.		
82. Blacking, including dressings, soaps, oils, inks, pastes, polishes, stains and varnishes for leather; Berlin and Brunswick blacks, furniture oil paste and polish, and bronzing and metal liquids and powders ad val.	20 p.c.	
83. (A) Grease, axle, and thickened or solidified oils; solid or viscous compounds for lubricating, and tallow unrefined, in packages not exceeding 4 lbs. in weight per cwt.	4s.	
(B) N.E.I. "	4s.; and on and after Feb. 19, 1902, 2s.	
84. Oils—		
(A) Cotton seed, in bulk or otherwise....per gal.	2s.	
Other (including castor), in vessels not exceeding one gallon, viz.:—		
(B) Quarter-pints and smaller sizes per doz.	6d.	
(C) Half-pints and over quarter-pints "	1s.	
(D) Pints and over half-pints "	2s.	
(E) Quarts and over pints "	4s.	
(F) Over a quart per gal.	1s. 4d.	
In vessels exceeding one gallon, viz.:—		
(G) Olive per gal.	1s. 4d.	(*a*) Oil, viz.:—Coal tar, China, fish, including cod (unrefined), seal, whale, penguin, petroleum (crude), degras, sod, wood, naphtha, maribane and turpentine.
(H) Castor, colza, linseed, mineral, spirit oils, n.e.i., and cotton seed when methylated pursuant to departmental by-laws "	6d.	
(I) Lubricating (mineral) and mineral n.e.i. "	3d.	
(J) Kerosene "	3d.; and on and after Mar. 26, 1902, free.	
(K) Naphtha, benzine, benzolene, gasoline "	½d. on and after Apl. 12, 1902.	
(L) Solar oil, residual oil "	½d. on and after Apl. 12, 1902; and on and after Sept. 4, 1902, ¼d.	
(M) N.E.I. "	6d.	
85. Paints and colours, viz.:—		
(A) Ground, in liquid	1s. per cwt. and 15 p.c. ad val.; and on and after Feb. 19, 1902, 2s. per cwt.	
(B) Prepared for use	1s. per cwt. and 15 p.c. ad val.; and on and after Feb. 19, 1902, 4s. per cwt.	
(C) Colours dry, dry white lead and patent dryers and putty per cwt.	1s.	(*b*) Ceramic colours. (*c*) Colours, artists'. (*d*) Dyes.
(D) Whiting "	6d.	

SCHEDULE—*Continued.*

Dutiable Goods.	Duties.	Special Exemptions.
DIVISION VII.—OILS, PAINTS AND VARNISHES—*Concluded.*		
86. Varnishes, varnish stains, lacquers, enamels, japans, liquid sizes, patent knotting, oil and wood finishes, petrifying liquids, damp wall compositions, lithographic varnish, terebine, liquid dryers and gold size	1s. per gal. and 15 p.c. ad val.; and on and after Feb. 19, 1902, 1s. 9d. per gal.	(*e*) Lamp, ivory, bone and vegetable blacks. (*f*) London purple and Paris green. (*g*) Prepared glazes for pottery. (*h*) Sulphate of copper. (*i*) Ultramarine blue.
DIVISION VIII.—EARTHENWARE, CEMENT, CHINA, GLASS AND STONE.		
87. Cement, Portland, plaster of Paris and other like preparations having magnesia or sulphate of lime as a basis, also gypsum, not prepared ..... per cwt.	1s.; and on and after Feb. 20, 1902, 9d.	
88. China, parian and porcelain ware, and mosaic flooring ..... ad val.	20 p.c.	(*a*) Earthenware, viz. :—Spurs, stilts and thimbles.
89. Earthenware, brownware and stoneware, n.e.i., and tiles, n.e.i.	6d. per cubic foot and 15 p.c. ad val.; and on and after February 20, 1902, 20 p.c. ad val.	(*b*) Fire bricks for special use in reverberatory furnaces.
90. Filters of all kinds, fire and glazed bricks, fire lumps, fireclay manufactures, n.e.i., asphalt tiles and roofing tiles ..... ad val.	15 p.c.	(*c*) Crucibles, scorifiers, roasting dishes, muffles, assay furnaces, and cupels. (*d*) Glass, viz. :—Lenses, n.e.i., locket, brooch and watch glasses.
91. Glass, viz. :— Bent, bevelled, heraldic, sandblasted, enamelled, embossed, etched, silvered, and cut; corners cut, bevelled, or engraved; panes, prisms, and all other framed with metal ..... "	20 p.c.	
92. Glass, viz. :— (A) Polished plate, n.e.i. ..per 100 superficial ft. (B) Sheet ..... " "	10 s. 2 s.	
(C) Polished plate, each plate not exceeding 7 superficial feet .....per 100 superficial ft. (D) Polished plate, each plate exceeding 7 superficial feet and not exceeding 12 superficial feet ..... per 100 superficial ft.	5s. on and after April 12, 1902. 7s. 6d. on and after April 12, 1902.	(*e*) Scientific instruments and apparatus, viz. :—Instruments for measuring the density of liquids, including hydrometers, saccharometers, lactometers, salimometers and barkometers.
93. Glass, n.e.i.; also seltzogenes and accessories, and syphon bottles ..... ad val.	15 p.c.	(*f*) Scientific apparatus (glass), viz. :—Beakers, flasks, test tubes, vacuum tubes, burettes, pipettes, weighing bottles and tubes, eudiometers, nitrometers, radiometers, fat extraction tubes, filter pumps, gas washing, reduction and absorption bulbs and tubes, test measures in centimetres and grains; also carbonic acid, sulphuretted hydrogen, decomposing water, and bacteriological apparatus of glass.
94. Glassware, viz. :— Empty wine and beer bottles ..... "	10 p.c. on and after April 16, 1902.	
95. Glassware, n.e.i.	8d. per cubic foot and 15 p.c. ad val.; and on and after February 21, 1902, 20 p.c. ad val.	
96. Glassware, viz. :— Bottles over 5 fluid drams and not exceeding 9 fluid ounces in capacity, when containing goods not subject to ad valorem duty, except flasks containing spirits and bottles containing wine ..... per doz.	2d. on and after April 16, 1902.	(*g*) Screens, process engravers'. (*h*) Bottles, empty, of not more than five fluid drams capacity.
97. Gelatine, sheet ..... per lb.	2d.	(*i*) Dry gums, shellac, dextrine, sandarach and mastic.

SCHEDULE—*Continued*

Dutiable Goods.	Duties.	Special Exemptions.
DIVISION VIII.—EARTHENWARE, CEMENT, &C.—*Con.*		
98. Glue, gelatine, n.e.i., and cement, n.e.i., including mucilage and printer's roller composition.....ad val.	20 p.c.	
99. Stone, including marble and slate, viz. :—		
(A) Monumental, wrought.....per cubic ft.	5s. and 15 p.c. ad val.; and on and after February 21, 1902, 25 p.c. ad val.	(*j*) Bath bricks. (*k*) Oil and whet stones; also lithographic and emery stones. (*l*) Pestles and mortars—agate.
(B) Wrought, n.e.i.....ad val.	20 p.c.	(*m*) Stone, viz.: Sawn or in the rough, n.e.i.
(C) Unwrought marble..... "	10 p.c.	
(D) Roofing slates and unwrought slate slabs..... "	15 p.c.	
DIVISION IX.—DRUGS AND CHEMICALS.		
100. Acetic acid, extract or essence of vinegar, and vinegar—		
(A) Containing not more than 6 per cent of absolute acid..... per gal.	6 d.	
(B) Containing more than 6 per cent, but not more than 30 per cent..... "	2s. 6d.	
(C) For every extra 10 per cent or part of 10 per cent..... "	10 d.	
101. Acids, viz. :— Muriatic, nitric, and sulphuric.....ad val.	15 p.c.	
102. (A) Carbonate of ammonia..... per cwt.	5s.	
(B) Carbide of calcium..... "	5s.; and on and after February 26, 1902, free.	
103. Drugs and chemicals, viz. :— Salicylic and boric acids; sulphites and bisulphites of potassium, sodium, calcium, and magnesium, and foaming powders and liquids.....ad val.	20 p.c.	
104. Insecticides, sheep-washes and disinfectants, n.e.i., including coal-tar preparations for such purposes..... "	15 p.c.; and on and after February 26, 1902, free.	
105. Medicines, viz.:—Patent and proprietary medicines, and other medicinal compounds, not chemical; medicinal extracts, essences, juices, infusions, solutions and syrups; pills, pilules, tabloids, tablets, capsules, cachets, suppositories, plasters, poultices, salves, ointments, liniments, pastes, medicated confectionery, medicinal waters and oils, n. e. i.; and medicines for animals.....ad val.	25 p. c.; and on and after February 26, 1902, 15 p. c.	(*a*) Essential oils, non-spirituous. (*b*) Bacteriological products and serum. (*c*) Carbonate and bicarbonate of soda, tartaric acid, cream of cartar and citric acid.
106. Opium, medical preparations containing.....	30s. per lb. of opium contained therein, when not dutiable at a higher rate under the heading of medicine.	
107. (A) Perfumery, including perfumed ammonia, camphor in blocks or tablets, toilet preparations, perfumed or not; lanoline, glycerine, vaseline and petroleum jelly not medicated. ad val.	20 p. c.	
(B) Unrefined glycerine.....ad val.	20 p. c.; and on and after April 19, 1902, free.	
108. Soda crystals.....per cwt.	1 s.	

SCHEDULE—*Continued.*

Dutiable Goods.	Duties.	Special Exemptions.
DIVISION X.—WOOD, WICKER AND CANE.		
109. Furniture, n. e. i. (except metal), in parts or finished, including billiard and bagatelle tables and boards and accessories, photograph frames and stands for pictures, picture frames (on pictures or otherwise), and picture mouldings, cabinets, brackets, trays, verandah blinds, screens, hair curled, show figures for draping or other purposes, writing and stationery cases, writing desks and mirrors framed or set..ad val.	20 p. c.	(*a*) Billiard balls in the rough. (*b*) Furniture— Minor articles for :— Bindings (except leather), buttons, castors, ferrets, gimps, lace (float and orris), tufts and fringes.
110. Timber, viz.:—		Timber, viz.:—
(A) Architraves, mouldings and skirtings of any material.....per 100 lineal feet	5s.	(*c*) Hickory spokes, dressed, 2 inches and under in diameter.
(B) Timber, dressed, n.e.i. .per 100 super. feet	3s.	(*d*) Hickory, undressed.
(C) Timber, undressed, n.e.i., in sizes of 12 in. x 6 in. (or its equivalent) and over per 100 super. feet.	1s.	(*e*) Elm hubs, with or without metal bands.
(D) Timber, undressed, being Oregon, in sizes of 12 in. x 6 in. (or its equivalent) and over.....per 100 super. feet.	6d. on and after Feb. 28, 1902.	(*f*) Engravers' boxwood. (*g*) Logs not sawn
(E) Timber, undressed, n.e.i., in sizes of 7 in. x 2½ in. (or its equivalent) and upwards, and less than 12 in. x 6 in. (or its equivalent) per 100 super. feet	1s. 6d.	(*h*) New Zealand pine, undressed. (*i*) Shafts and poles, sawn or bent, but not dressed.
(F) Timber, undressed, n.e.i., of sizes less than 7 in. x 2½ in. (or its equivalent) per 100 s. ft.	2s. 6.; and on and after Feb. 28, 1902, 1s. 6d.	(*j*) Spars in the rough. (*k*) Spokes, rings and felloes of hickory, in the rough. (*l*) Staves, undressed or roughly dressed, but not shaped. (*m*) Veneers.
(G) Laths.....per 1,000	5s.	
(H) Palings.....per 1,000	15 s.	
(I) Pickets, dressed.....per 100	4s.	
(J) Pickets, undressed.....per 100	2s.; and on and after Feb. 28, 1902, 1s.	
(K) Shingles.....per 1,000	3s.	
Doors of wood :—		
(L) 1¾ in. and over.....each	7s. 6d.	
(M) Over 1½ in. and under 1¾ in.....each	5s.	
(N) 1½ in. and under.....each	3s. 6d.	
111. (A) Wicker, bamboo, cane or wood—All articles n.e.i., made of, whether partly or wholly finished, including bellows, casks, shooks, sashes and frames, timber bent, n.e.i., wood cut into shape and dressed or partly dressed for making boxes or doors, walking sticks and canes.....ad val.	20 p. c.	Wicker, bamboo, cane or wood, viz.:— (*n*) Bamboo, clouded. (*o*) Buckets, wooden. (*p*) Canes and rattans, unmanufactured. (*q*) Cane, compressed, in sheet and unshaped.
(B) Axe and other unattached tool handles ad val.	20 p. c.; and on and after August 14, 1902, 15 p. c.	(*r*) Last blocks, rough turned. (*s*) Lasts and trees, wooden. (*t*) Wooden type, wooden type cases, and type cabinets and cases.
DIVISION XI.—JEWELLERY AND FANCY GOODS.		
112. Fancy goods (not being partly or wholly of gold or silver), including— Card cases, snuff and match boxes, purses, thimbles, serviette rings, button-hooks, shoehorns and lifts, glove stretchers, toys, ivory and other ornamental figures, ornamental confectionery, feather dusters, paper parasols, articles used for outdoor and indoor games, fishing appliances, pencil cases, pencils and penholders, n.e.i., articles manufactured from pulp, papier maché, or indurated fibre.....ad val.	20 p. c. 		(*ae*) Works of art, being statuary and paintings framed or unframed, also windows for churches or public institutions, under departmental by-laws.

(B.)—TRANSVAAL.

Customs Tariff Amendment Ordinance, No. 22 of 1902, which was assented to by the Governor on October 4, 1902.

The new ordinance amends the rates of duty on various articles imported into the colony, and repeals proclamation No. 3 of 1902, as well as so much of the Transvaal Law No. 4, of 1894, and other laws, as is repugnant to or inconsistent with the present ordinance. The alterations made by the ordinance in the rates of duty on articles other than wines and spirits were to come into force a fortnight after publication in the *Gazette*.

As the new ordinance is to be read with the tariff in force in the Transvaal prior to the outbreak of the war, it has been considered advisable to publish the complete customs tariff at present in operation, embodying all the alterations effected up to and including the date of the present ordinance, as follows :—

A.—IMPORT DUTIES.

Articles.	Rates of Duty.
All kinds of live-stock, except oxen, cows, calves, sheep, lambs, goats and pigs	Free.
All kinds of live-stock belonging to persons coming to establish themselves in the country, and bringing the same with them, draught cattle employed by travellers and transport riders, cattle which are driven to the winterveld and which again return to the colony or *vice versa*	Free.
Bank notes or other paper currency and coin specie admitted as legal tender in the colony	Free.
Reading and music books, maps and printed school requisites, newspapers, pamphlets and periodicals	Free.
Articles obtained in the chase outside the colony	Free.
Products of (except spirits) and cattle bred in the Orange River Colony and the Province of Mozambique, imported under certificate of origin	Free.
Wagons and vehicles in use of persons travelling in the colony and returning with the same, as also wagons and vehicles in use of persons entering the Transvaal with their implements to reside therein	Free.
Tree, flour and vegetable seeds. All agricultural seeds and produce of the earth, specially imported by farmers for themselves for sowing and planting, under affidavits made before a Justice of the Peace, or customs official, with the exception of seeds imported as eatables	Free.
Second-hand furniture and tools belonging to persons intending to reside in the Transvaal	Free.
Rough or alluvial gold from neighbouring gold producing States	Free.
All outside packings which are not sold with the goods, and are not for sale, but only for the protection of the imported goods in transit	Free.
Fencing wire, iron poles, and all other material exclusively required for the fencing of farms and lands	Free (a).
Machinery as follows :—	
All appliances exclusively applied to the production or transmission of mechanical or electrical power	Free (a).
All appliances which are exclusively designed for the crushing and milling of ores, minerals and agricultural produce	
All pumps which are exclusively designed for industrial or agricultural use, hand pumps excepted	
All materials, tools and appliances exclusively designed for the extraction of metals from ores, and for the separation and sifting of metals and ores, and for the manufacture of the chemicals or of acid needed for the extraction of gold	
All appliances and tools exclusively designed for the conveyance and hoisting of ores and minerals, including rails and wagons, exclusively propelled on rails	
All metal and stone pipes exclusively designed for the conveyance of water or tailings from and to gold and other mines, also for agriculture, and for the leading off of water	
All wheels and other appliances for lifting and removing water and tailings and other factory products	
All ground boring machines, and machines for working wood and iron	
Telephone and telegraph connections and apparatus	
All machinery for agriculture, trades and industry, as mowing and threshing machines, sewing machines and printing presses, &c	
All duplicate and minor parts of the above-mentioned articles	
Large chaff machines, chaff and wool presses, and other appliances for the manufacture of goods or produce for trade or exports	

(a) Under ordinance No. 22 of 1902.

A.—IMPORT DUTIES—*Concluded.*

Articles.	Rates of Duty.
Public stores, imported or taken out of bond by and *bona fide* for the sole and exclusive use of the Government of His Britannic Majesty; provided that a certificate be delivered to the customs given under the hand of a principal officer to be approved of by the Director of Customs, setting forth that any duty levied on such public stores would be borne directly by the Government; and provided further that no portion of such stores used or unused shall be sold or otherwise disposed of so as to come into the possession of or into consumption by any parties not legally entitled to import the same free of duty without the consent of the Director of Customs and the payment of the duties to him by the officer so selling or disposing of such public stores.	
Articles imported or taken out of bond for the sole exclusive and personal use of any member of His Majesty's Regular Forces serving on full pay in this colony: provided that such person is receiving no emoluments from the treasury of this colony and subject to such regulations as the Director of Customs may make for the due protection of the revenue; provided that if any such article shall be sold or otherwise disposed of to or for consumption by any person not legally entitled to the exemption, without the consent of the Director of Customs and the payment of duty thereon to the customs according to the tariff then in force, then they shall be forfeited, and the persons knowingly disposing of such articles as well as those into whose possession the same shall knowingly come shall be liable to the penalties prescribed by Section 52 of the Customs Management Ordinance, 1902	Free (a).
Agricultural implements.	
Brass, copper, composition-metal, iron, steel, lead, tin zinc, and other metals, in the following forms:—angle, bar, channel, hoop, rod, roof, plate, sheet, girder, pipe, ingot, disc or block.

Other than sparkling ..... per Imp. gall.	0 4 0 (*a*)
(Wine exceeding 50 p.c. of proof spirit to be classed as spirits.)	

(*a*) Under ordinance No. 22 of 1902.

The importation of guns, pistols, revolvers, ammunition, dynamite, and other explosives, can only take place under permit. In a Government Notice (No. 512 of 1902), published in the same number of the 'Transvaal Gazette', it is stated that 'the existing duty on dynamite has been left unaltered, as certain questions bearing on the conditions of its manufacture in, and importation into, the Transvaal, are still under discussion. This duty will, however, be separately dealt with as soon as possible.'

NOTE.—It must be pointed out that in addition to the import duties, a transit duty of 3 p.c. is imposed on most articles imported into the Transvaal through the Cape of Good Hope, Natal, Orange River Colony, Basutoland, the Bechuanaland Protectorate and Delagoa Bay.

Form of Declaration for ad valorem Goods.

Section 7 of this Ordinance provides that in all cases where the duties imposed upon the importation of goods into this Colony are charged not according to the weight, tale, gauge, or measure, but according to the value thereof, such value shall be ascertained by the declaration of the importer of such goods in the manner and form following, that is to say:—

I, the undersigned A.B ..... do hereby declare that the above is a true and complete return of all the goods contained in the above mentioned packages, and that the values given of the same are the true current values of the same at the place where the goods were purchased for importation into the Transvaal.
The above declaration signed the..... day of.....in the presence of
.. ..
Collector.

Which declaration shall be written on the bill of entry of such goods and shall be subscribed with the hand of the importer thereot in the presence of the officer of Customs, and the said values shall be the sum whereon duty shall be levied.

It is provided by section No. 11, that for the purpose of entry for Customs and collection of duty on goods imported into the Colony by parcels post, any form and label affixed to the parcel under the postal regulations shall take the place of the declation required under section 7 of the Ordinance.

Places through which goods may be imported or exported.

A proclamation (No. 8 of 1902) has also been received, which was issued by the Governor on the 4th ult. in accordance with section 13 of Ordinance No. 23 of 1902, declaring that all goods may only be imported or exported through the following places:—

Kuzaansdrift, Umtonganeni, Middelpuntsdrift, on the Zululand-Transvaal border; De Jagersdrift, Newcastledrift, Volksrust, on the Natal-Transvaal border; De Langesdrift, Robertsdrift, Zandrift, Grobelersdrift, Engelbrechtsdrift, Vereeniging (Viljoensdrift), Lindequesdrift, Rietpoort, Venterskroon or Schoemansdrift, Rietfontein, Koolmyndrift, Commandodrift, Bloemhof and Christiana, on the Orange River Colony-Transvaal border; Grootpan or Wonderfontein, Rooigrond, Ottoshoop, Derdepoort, Buffelsdrift, on the Bechuanaland-Transvaal border; Hendriksdal, on the Rhodesian-Transvaal border; Kotami Poort, on the Portuguese-Transvaal border; Darkton, Bakenkop, Derby, Makyanpad and Mahamba, on the Swaziland-Transvaal border; Pretoria, Johannesburg, Elandsfontein (Germiston), Boksburg, Krugersdrop, Roodepoort, Potchefstroom, Klerksdorp, Wolmaransstad, Schweizer-Reinecke, Standerton, Heidelberg, Barberton, Utrecht, Piet Retief, Ermelo, Middleburg, Lydenburg, Leydsdorp, Pietersburg, Lichtenburg, Zeerust, Rustenburg and Ventersdorp.

(B.)—TURKS AND CAICOS ISLANDS.

An Ordinance of the Legislative Board of the Turks and Caicos Islands

To impose other duties of Customs than those now payable. (No. 8, 1884.)

Whereas it is expedient to impose other customs duties than those now payable. Be it enacted by the Legislative Board of these Islands as follown :

I. That in lieu and instead of the existing Customs duties now by law payable there shall be collected and paid unto Her Majesty, her heirs and successors for the support of the government of the said Turks and Caicos Islands upon all goods, wares and merchandise imported or otherwise landed or brought into any of the Islands within this dependency from any port or place without the same the several duties set forth in the schedule to this ordinance annexed.

II. That all articles imported or supplied out of a bonded warehouse for the Imperial or Colonial service shall not be liable to the payment of any duties whatever.

III. That all duties payable under this ordinance shall be paid and received according to the imperial weights and measures and in all cases where such duties are fixed according to any specified quantity or value the same shall be deemed to apply in tne same proportion to any greater or less value or quantity.

IV. In all cases where the duties imposed upon any goods imported into this dependency are charged according to the value of such goods, such value shall be taken to be the first cost of the goods at their place of shipment without the addition of any shipping or other charges thereon ; and it shall be the duty of the chief or other revenue officer taking the inward entry to require the party making the entry to produce the original invoice showing the cost of the articles at the place at which they were purchased. Provided always, that if it shall appear to such revenue officer that such articles have been invoiced below the real and true value thereof at the place from whence the same were imported, or if the invoice price be not known or cannot be ascertained the value of the same in these Islands shall be determined by two competent persons to be appointed for that purpose by the Commissioner and the duties shall be paid thereon.

V. That whenever any articles subject on regular importation to an *ad valorem* duty shall be brought into this dependency otherwise than by regular importation, or whenever any wrecked or damaged goods, wares or merchandise subject to an *ad valorem* duty shall be imported into these islands (such damage not having occurred on the voyage from the last port of entry) and when the requisite information for perfect entry of the same as to the cost of value in the country of production or place at which they were originally shipped cannot be ascertained or obtained, the value of such articles shall be taken to be the value at the port of entry to be determined as provided in the preceding section or the price which they shall realize at auction when so sold and delivered for consumption therein.

VI. That the following ordinance and parts of ordinances shall be and the same are hereby repealed : Section 12 of ordinance No. 7 of 1849. Sections 1, 2 and 9 of ordinance No 12 of 1868. Ordinance No. 7 of 1869. Ordinance No. 5 of 1881 so far as the said ordinance applies to sections 1, 2 and 9 of ordinance No. 12 of 1868.

VII. This ordinance may for all purposes be cited as the "Tariff Ordinance 1884" and shall come into operation as soon as Her Majesty's confirmation thereof or the provisional assent thereto of His Excellency the governor in chief or other person administering the Government of Jamaica shall have been proclaimed within these Islands.

R. B. LLEWELYN.
President.

Turks and Caicos Islands—No. 165.

Passed the Legislative Board this twenty-fifth day of July, A.D. 1884.

J. C. Crisson,
Clerk of the Board.

I assent to this Ordinance.
H. W. Norman, *Governor.*

King's House, August 9, 1884.

The gracious confirmation and allowance of Her Majesty the Queen proclaimed on December 1, 1884.

R. B. LLEWELYN, *Commissioner.*

TARIFF CHANGES.

(A.)—UNITED KINGDOM.

I.—ORDER OF THE BOARD OF AGRICULTURE, DATED AUGUST 1, 1902, IN REFERENCE TO THE LANDING OF ANIMALS FROM THE ISLAND OF ALDERNEY.

1. The Foreign Animals (Amendment) Order of 1902 shall not apply to the Island of Alderney, or to any animal brought therefrom, and any such animal may be landed in Great Britain in accordance with the provisions of the Channel Islands Animals Order of 1896, except that such Order shall be read as if "the islands or Jersey and Alderney" were therein substituted for "the Channel Islands".

Commencement.

2. This order shall come into operation on the eighth day of August, one thousand nine hundred and two.

Short Title.

3. This order may be cited as the Alderney (Animals) Order of 1902.

II.—FRUIT, CANNED AND BOTTLED, PRESERVED IN THICK SYRUP: REDUCTION OF RATE OF DUTY.

(General Custom Order No. 72, of September 15, 1902.)

The board direct that, on and after 1st instant, duty be charge on fruit, canned and bottle, other than fruit liable to duty as such, preserved in thick syrup, at the rate of 2s. 6d. the cwt. instead of 3s. as heretofore. The necessary adjustment is to be made in the accounts of any importations entered since the 1st instant, inclusive.

III.—RATE OF DRAWBACK ON EXPORTED BRITISH-MANUFACTURED MAIZE STARCH.

(General Customs Order No. 76, of September 30, 1902.)

The board have directed that drawback be allowed on exported maize starch of British manufacture at the rate of $2\frac{3}{4}$d. per cwt

All duly substantiated claims in respect of British-manufactured maize starch exported since May 7 last inclusive will be settled in the usual manner by the collector, London, at that rate accordingly.

(B.)—BRITISH INDIA.

I.—CUSTOMS CIRCULAR N° XII OF 1902, CONTAINING RULES FOR THE IDENTIFICATION OF SUGAR CHARGEABLE WITH AN ADDITIONAL OR SPECIAL DUTY.

(NOTIFICATION.—By the Government of India, Finance and Commerce Department, No. 4439 S. R. dated August 14, 1902.)

In exercise of the powers conferred by section 8 A, sub-section (2), and section 8 B, sub-section (3), of the Indian Tariff Act, 1894 (VIII of 1894), as amended by the Indian Tariff Amendment Act, 1899 (XIV of 1899), and by the Indian Tariff Amendment Act, 1902, (VIII of 1902), the Governor General in Council is pleased to make, with effect from November 1, 1902, the following rules for the identification of sugar chargeable with an additional or special duty imposed under sub-section (1) of the said sections, respectively, and for the assessment and collection of such additional or special duty, namely :

RULES.

1. For the purposes of these rules, unless there is anything repugnant in the subject or context, "customs-port", "chief customs-authority", "customs-collector", "owner" and "public warehouse" have the meanings respectively assigned to them in the Sea Customs Act, 1878 (VIII of 1878).

2. Where any sugar is imported into any customs-port, the owner shall declare to the customs-collector in what country such sugar was produced, and shall furnish him with such other information as may be necessary to enable him correctly to assess the additional or special duty (if any) chargeable under sub-section (1) of section 8A or 8B, respectively, of the Indian Tariff Act, 1894 (VIII of 1894).

3. (1) Where the information required by rule 2 is not furnished, the customs-collector shall deposit and detain the sugar in such part of the customs-house premises as he may deem suitable.

(2) The owner of any sugar deposited and detained under sub-rule (1) may, at any time, clear such sugar on payment of the additional or special duty leviable thereon and of the other charges payable to the customs-collector, whether for wharfage-fees or otherwise, in respect af the same.

3. For the purposes of sub-rule (2) and for the purpose of calculating the surplus payable to the owner under section 88 of the Sea Customs Act, 1878, the additional or special duty leviable upon any sugar deposited and detained under sub-rule (1) shall, if the information necessary for the correct assessment of the additional or special duty leviable thereon has not been furnished, be assessed at such rate not exceeding the highest rate of additional or special duty leviable upon any class of sugar as the Governor General in Council may, by general or special order, fix in this behalf.

4. The customs-collector may accept the information required by these rules in any form which he may consider sufficient; and he shall accept it if given in the form and manner hereinafter prescribed.

5. Where sugar is imported into any customs-port from a bonded warehouse in the United Kingdom, the owner shall furnish the customs-collector with the following documents, namely.

(*a*) A certified copy of the delivery warrant of the British Custom House ;

(*b*) A certified copy of the shipping bill ; and

(*c*) A declaration in writing of the exporter in form A or form B, as the case may be, stating :

(i) The country in which the sugar was produced ;

(ii) The date of shipment from the country (if any) from which the sugar was exported to the United Kingdom ;

(iii) Where the sugar was not produced in the country referred to in sub-head (ii), the date on which it was exported from the country in which it was produced ; and

(iv) Whether the sugar is cane or beet.

6. Where refined sugar, having passed through a refinery in the United Kingdom, is imported from the United Kingdom into any customs-port, the owner shall furnish the customs-collector with the following documents, namely :

(*a*) Declaration in writing by the refiner in form C, or by any person authorized by a power of attorney from such refiner in form D, stating :

(i) The particulars of the raw sugar from which the refined sugar was manufactured ;

(ii) The country from which such raw sugar was imported into the United Kingdom ;

(iii) The date of shipment from the country referred to in sub-head (ii) ;

(iv) Where this information is available at the time of importation into the customs-port, the country in which the raw sugar was produced ; and

(*b*) A declaration in writing by the exporter in form E, or by any person authorized by a power of attorney from such exporter in form F, identifying the sugar entered for shipment with the sugar referred to in the declaration prescribed in clause (*a*).

7. (1) In the case of any sugar :

(*a*) Which, being refined sugar, has been imported, on payment of duty, into the United Kingdom and has been exported thence without drawback to any customs-port ; or

(*b*) Which though nominally imported into the United Kingdom, has merely passed through a port in the United Kingdom in transit to be re-exported thence to any customs-port in the same or another bottom ; or

(*c*) Which has been imported into any customs-port from any country other than the United Kingdom ; the owner shall furnish the customs-collector with one of the following documents, namely :

(i) Where the sugar was produced in the country from which it was exported either to the United Kingdom or direct to India, a certificate by the exporter in form G ;

(ii) Where the sugar was produced in a country other than that from which it was exported either to the United Kingdom or direct to India, a certificate by the shipper in form H.

(2) Where any sugar referred to in sub-rule (1) has been exported from a port in any country other than the United Kingdom or any British possession to the United Kingdom or to any customs-port, the certificate shall be attested by the British consular officer at the port in such country.

(3) Where, in any case referred to in sub-rule (2), the British consular officer so desires, the certificate shall have been approved and communicated to him by a local Chamber of Commerce.

II.—CUSTOMS CIRCULAR NO. XIII OF 1902, CONTAINING PROHIBITION TO TAKE OUT OF BRITISH INDIA BIRDS' SKINS AND FEATHERS.

(Finance and Commerce Department Notification No. 5028 S. R., dated September 19, 1902.)

In exercise of the power conferred by section 19 of the Sea Customs Act, 1878 (VIII of 1878), the Governor General in Council is pleased to prohibit the taking by sea or by land out of British India of skins and feathers of all birds other than domestic birds, except (*a*) feathers of ostriches and (*b*) skins and feathers exported *bona fide* as specimens illustrative of natural history.

(B.)—MAURITIUS.

I.—SURCHARGE OF 4 P. C. ON IMPORT DUTIES AT THE CUSTOMS.

(Ordinance No. 25 of December 30, 1901.)

This ordinance, which entered into force on the 1st August, 1902, provides *inter alia* that on and after the date of its coming into operation, a surcharge of 4 p. c. shall be levied on all sums payable to the Government in virtue of any law now in force or to be put in force hereafter with respect to all customs duties, whether fixed or *ad valorem*, on goods imported into Mauritius. Provided that such surcharge shall not be levied on any surcharge which may hereafter be temporarily imposed on the said customs duties.

II.—AN ORDINANCE TO AMEND ORDINANCE No. 3 OF 1890, ENTITLED AN ORDINANCE TO AMEND THE HARBOUR DUES AND TO CONSOLIDATE THE LAWS RELATIVE THERETO.

(No. 5, assented to July 7, 1902.)

1. Clause (2) *Towage*, of Article 1 of Ordinance No. 3 of 1890 is hereby repealed and replaced by the following :—

(2) TOWAGE.

Towage from roadstead to or from any part of the harbour or from one part of the harbour to another part—

	Rs.
(a) For every vessel not above 100 tons register	20 "
(b) For every vessel above 100 tons and not exceeding 200 tons register	25 "
(c) For every vessel above 200 tons and not exceeding 400 tons—per ton of register	0 15
(d) For every vessel above 400 tons register—for the first 400 tons	60 "
And for every additional ton	0 10
(e) Similar charges shall be leviable for the services of tugs employed in assisting stranded vessels—per hour or part of an hour	
Provided that the masters of vessels agree to use their own tow rope or to make good any damage done to Government hawsers, when used.	
The time to be reckoned from the hour at which the service commences to the hour at which it ceases.	
(f) Towage from beyond Roadstead to Roadstead or *vice versa*—per mile and per ton of register	0 05
Provided in the cases of *(e)* and *(f)* the minimum charge shall not be less than	20 "

2. This ordinance may be cited as 'The Towage Dues (Amendment) Ordinance, 1902':

(D.)—SAINT LUCIA.

AN ORDINANCE TO AMEND THE CUSTOMS TARIFG ORDINANCE, 1895.

(No. 7 of July 4, 1902.)

1. This ordinance may be cited as the Customs Tariff Amendment Ordinance, 1902, and shall be read as one with the Customs Tariff Ordinance, 1895, hereinafter termed the principal ordinance.

2. The duty on malt liquor : ale, beer and porter, in wood—instead of being at the rate of six pence per gallon as specified in the table of duties in the first schedule of the principal ordinance, shall be at the rate of seventeen shillings per hogshead of 65 gallons, Winchester measure ; and the said schedule is hereby amended accordingly.

IV.—COMMERCIAL AGENCIES.

The following Canadian Commercial Agents (whose addresses are given) will answer correspondence relative to commercial and trade matters, and give information to those interested as to local trade requirements in the districts they represent.

Such reports of general interest as have been received from them since the publication of the last monthly report of this department are appended.

J. S. Larke, Sydney, N.S.W., agent for Australasia.

James G. Jardine, Cape Town, South Africa, agent for South Africa.

G. Eustace Burke, Kingston, Jamaica, agent for Jamaica.

Robert Bryson, St. John, Antigua, agent for Antigua, Montserrat and Dominica.

S. L. Horsford, St. Kitts, agent for St. Kitts, Nevis and Virgin Islands.

Edgar Tripp, Port of Spain, Trinidad, agent for Trinidad and Tobago.

C. E. Sontum, Christiana, Norway, agent for Norway, Sweden and Denmark.

A. D. Campbell, Buenos Ayres, agent for Argentine Republic and Uruguay.

A. Poindron, 10 Rue de Rome, Paris, agent for France.

In addition to their other duties, the undermentioned Canadian agents will answer inquiries relative to trade matters, and their services are available in furthering the interests of Canadian traders :—

J. G. Colmer, 17 Victoria Street, London, S.W., England.

Harrison Watson, Curator for Canadian Section, Imperial Institute, London, England.

G. H. Mitchell, 15 Water Street, Liverpool, England.

H. M. Murray, 52 St. Enoch Square, Glasgow, Scotland.

W. L. Griffith, Western Mail Buildings, Cardiff, South Wales.

C. R. Devlin, 14 Westmoreland Street, Dublin, Ireland.

D. Treau De Cœli, 75 Marché St. Jacques, Antwerp, Belgium.

(A.)—AUSTRALASIA.

Report of Commercial Agent.

(Mr. J. S. Larke.)

Sydney, N.S.W., October 7, 1902.

The Honourable
The Minister of Trade and Commerce,
Ottawa,

Sir,—On the evening of the 26th, I received the following cable from the Deputy Minister: 'Wire price oats and probable demand.'

Next morning I replied: 'Eighty-four cents. Probably firm four months. Thin much disliked.'

Before doing this I consulted again leading produce houses and while opinions differed the general opinion was as I cabled. As I have stated in previous reports, this market is a difficult one to gauge, and that for oats is just now affected by two especial considerations—the rainfall and the importation of maize from Argentina. Several cargoes of the latter are on the way, and it was raining as I cabled, but still I deem the demand for oats, unless a very much larger quantity than I think can be landed here in four months will keep the price quoted firm. The price went up a couple of cents that morning and was two more than I quoted. I added 'Thin much disliked' because the samples sent here from Canada, as I have previously stated, have been of this sort and some of them inferior and dirty. They found no favour in the market and an offer could

not be obtained for them. The market wants a full bodied clean white oat, like the Canadian potato oat.

The position of the market just now is that there are some stocks here brought from Victoria and New Zealand. The supplies there are nearly exhausted. There will be naturally no oats from grain raised in New South Wales this year. The Victorian and Tasmanian crop is yet uncertain but cannot come on the market until late in January. The New Zealand crop is likely to be large but cannot come here until the end of March. Some may be harvested in South Australia in December, but not much. I think for this market there will be a certain demand for oats whatever may happen and at prices that I think warrants importations from Canada until the end of December, but the amount is so dependent upon the rainfall and the maize importation, and lacking samples of Canadian oats, and any statement of probable price I could not venture a statement of the probable demand lest it might be misleading. I trust I may have samples and some idea of landed cost by next steamer, and if so I will again cable. The business must be carefully done. If even a cargo of five thousand tons were thrown on the market it would be likely to cause a slump, but if it were stored and sold as required, I think a million bushels could be sold in four months in New South Wales and Queensland at prices I have quoted. As soon as the New Zealand crop can be landed here it is hardly likely Canada could compete. If the crop is large, as it is probable it will be, they can be landed under two shillings per bushel.

It is now four months' ago since I called attention to the prospective openings for grain, &c., in this market, and asked for the addresses of those who were prepared to supply these articles, with samples and prices at earliest moment. So far I have just received one reply to these requests. Already United States firms have arrangements made to take advantage of any opening that may offer and, unless I have some further advices by the next mail it is possible Canada may lose the direct trade she ought to get. I have given all the information I have and some correspondence has been begun by both letter and cable but there should have been much more done. It is a trade that must be done on the moment and hence all the lines of communication should have been arranged before hand. It is not too late for wheat, as millers are holding off from buying and are not likely to buy any quantity until they have fuller knowledge of what the Australian crop will be.

In grains as in flour, Canadians must take some risk and do the exporting. Some importation of wheat is likely to be done by Sydney firms, but it is a very conservative market and not many are inclined to do what they term 'speculative business,' that is to invest in products new to the market or from a new source. In these lines in this market as in most others the seller must seek the market and make it. After he has done so, he will find importers who will seek his products. Unless extra steamers are put on I fear trade will be impeded by lack of accommodation. I am advised the space in the mail steamers has been taken up to nearly the end of the year.

Cables published here announced that the Canadian Government had concluded a contract for a line of steamers from the Atlantic Coast to Australia via the Cape. It was read by those interested with much satisfaction, and I have been asked for information respecting it. I have none to give which created disappointment. A vigorous effort is being made to place Canadian paper on the market and it is impossible to pay charges via Vancouver, but it believed that rates via the St. Lawrence would enable Canadian mills to secure a large share of the Australian trade in news. Other lines would be beneficially affected and it is hoped that arrangements will shortly be concluded which will send the steamers here. It so happens that the south west of Australia is the prosperous side and it is the side most difficult to reach from Vancouver. An Atlantic line would secure that trade.

THE SEASON'S PROSPECTS.

The Canadian, like the English papers, contain exaggerated statements of the drought conditions of Australia. They are bad, very bad in large sections of the country, but Australia is very far from being on the brink of starvation, as has been represented, nor on the verge of bankruptcy. This is a continent, and while one section is being

reduced to a desert another is enjoying the height of prosperity. Queensland's condition is very serious, but Western Australia is exceptionally prosperous. In a single state the contrasts are remarkable. I have just returned from a visit to the south eastern portion of New South Wales. The pastures were verdant and I drove ten miles through a fierce snow storm. On the other hand the little grass left in the western portion of the state was burning up under hot dry winds. It is these contrasts as well as the absence at this time of the year of the actual condition of crops that lead to such contradictory opinions.

The actual condition is bad enough and the last month has not much improved matters. Queensland had some showers, but except on the coast line they have been of little service. Hot dry winds partially neutralized the good rains that fell in August in New South Wales, and except in one or two small areas the rainfall in September has been much below the average. In Victoria the western half of the state is also dry. South Australia is in much the same condition as Victoria, Tasmania good, Western Australia very good and New Zealand hopeful.

Shearing is well under way, but the guesses as to the output vary from a decrease of one hundred thousand to two hundred thousand bales. I still believe that the losses on wool when the year is up will be counterbalanced by the increased production of gold. On the other side there will be heavy losses in grain, butter, frozen and preserved meat and other animal products that must make the year a disastrous one.

This state of things is reflected in the trade. Sydney may be taken as the typical port of Australia, as its trade is so widely extended. For the first nine months of the year the trade was :—

Imports	15,626,617
Exports	11,420,718

A decline of nearly a million and three quarters in imports and a million and a quarter in exports as compared with the same period of last year. These decreases are likely to increase in proportion for the last half of the year and in imports for the first half of next year. These imports nevertheless are surprisingly large under the circumstances as the following figures show :—

Imports.	Total, January 1 to September 27, 1902, inclusive.	Total for corresponding period last year.
	£	£
Apparel and drapery	3,377,735	3,775,427
Beer	132,506	209,332
Boots and shoes	197,168	365,421
Cement	28,988	76,360
Copra	124,027	50,641
Drugs and chemicals	335,202	391,900
Earthenware, &c	157,335	208,680
Flour	45,312	29,656
Furniture and upholstery	281,514	400,791
Galvanized iron	173,160	194,459
Hardware	1,016,695	1,186,191
Iron and steel	228,830	238,373
Jewellery	211,697	352,239
Jute goods	136,888	195,933
Machinery	454,424	618,850
Oilmen's stores	519,487	744,023
Paints and oils	264,512	566,262
Produce	1,346,675	645,880
Spirits	298,426	351,573
Stationery and books	452,033	611,452
Sugar	426,920	454,304
Timber	306,437	398,975
Tobacco and cigars	229,119	267,359
Wheat	85,077	367

This return shows a heavy dimunition in the importation of building material, though in many lines the prices are higher than last year. Though the importations have decreased the re-export of these goods to the other states and the Pacific Islands show increases, so that the houses are not carrying such abnormally heavy stocks as the imports might indicate. Orders are even more carefully given than six months ago and New York firms are especially complaining that their business is falling off. It must not be understood that there is any paralysis. At the worst I cannot think that there will be a decrease of more than twenty per cent in imports this and next year. The Federal Finance Minister expects a considerable increase from the customs returns of New South Wales and Western Australia for the currant year over last year but a decrease in the other states due in part to lower rates of duties.

There have been some considerable failures amongst retail traders in interior towns both of Queensland and New South Wales, but the credit of the large houses is unshaken. A Canadian firm doing business for four years with wholesale and large retail dry goods firms states that its amounts have been so promptly paid that it has never had to draw a draft on any of its customers. So far as I am aware no Canadian firm doing business with such houses has made a bad debt this year. There is reason to hope that Australia will pass through the worst drought in its history without a financial crisis.

EMIGRATION.

I receive callers and some letters asking for information respecting Canada's inducements for settlers. Nearly all are of a desirable class, young men who have had some experience in agricultural or pastoral work. Within the last hour I have had three callers and one letter, representing four families, two having considerable capital. This is the natural consequence of the prolonged drought. I state that Canada is not promoting emigration from Australia, but as many express their intention of leaving Australia, I beg to recommend that some descriptive literature be sent to me. It is sometimes a question whether the destination shall be Canada or the United States, and there can be no hesitation in such cases in using proper means to direct the inquirer to Canada.

BUTTER.

A small lot of butter came to Brisbane in the *Miowera*. To my inquiries the importers, Messrs. J. & T. Heaslop replied as follows :—

Dear Sir,—Yours of the 30th ultimo to hand inquiring re-shipment of butter we recently had from Vancouver. We have much pleasure in stating that the butter arrived in excellent condition, having come over in the cold room of the steamer. If anything, it is rather too rich in colour for the taste of the Brisbane people, but as it arrived on a bare market and kept in a good sweet state for some days, though exposed to the air, it went off quickly.

Our experience is, that butter that has been kept in very cold stores and is then opened and exposed to the atmosphere in Queensland goes off much more quickly than butter which is fresh made.

The get up of it was very satisfactory, some of it was in 28 lb. boxes and some in 56 lb. boxes, each box covered with a piece of sacking. It is evident to us that your people in Canada understand how to ship butter better even than we do in Australia.

We may mention that this order was given only three days previous to the steamer leaving Vancouver, and we presume the butter was kept in the cold stores at that port or somewhere else within reasonable distance.

We shall be glad to hear from you of any other lines that you think would be saleable on this side.

We may mention that the butter in question came from Messrs J. McMillan & Co., and we purpose writing that firm and thanking them for shipping such good quality and with such despatch.

This is an indication of what could have been done had the openings for the past three months been availed of. The price has now declined and in Sydney is too low to pay to import.

FROZEN HOGS.

I cabled to-day 'Frozen hogs fourteen to sixteen cents—Free.'

All frozen meat is free under the present tariff, and it seemed to me that the cold storage capacity of the mail steamers could be utilized in shipping hogs from the North-west for pork the size used is from fifty to sixty-five pounds in weight but for baconers much heavier, up to 175 pounds are in strong demand. For the lighter carcases butchers are paying sixteen cents and for baconers up to eighteen are paid, but I quoted lower rates to cover expenses of handling. A small cargo has just arrived from Chicago which looked well and brought good prices. They should present a good appearance and to this end it would be well to case in cotton as frozen mutton is. The market here and in Brisbane would take four thousand per month if properly handled. There is a prejudice against frozen mutton and beef but pork carries well. So far no business has been done as price quoted in Vancouver, 13 cents is too high, but through shipments from the North-west ought to be had at figures that would warrant importation.

NOTES.

I have received from the government of New South Wales the regulations governing the importation of live stock. Canada is classed with Great Britain as a clean country for all classes of stock. There is a requirement of sixty days quarantine for Canadian as against forty for British stock, due to the longer voyage required of the latter.

I have reason to believe that orders will go forward for wheat and sample lots of barley for malting purposes. Inquiries are active on the part of first-class houses. Orders have already been given for frozen poultry. Potatoes and onions have not advanced in price as anticipated. Onions are surprisingly low for the season and profitable importation is impossible. Potatoes are likely to advance.

I have the honour to be, sir,

Your obedient servant,

J. S. LARKE.

(B.)—SOUTH AFRICA.

REPORT OF COMMERCIAL AGENT.

(Mr. James G. Jardine.)

CAPE TOWN, SOUTH AFRICA, October 10, 1902.

The Honourable,
The Minister of Trade and Commerce,
Ottawa, Canada.

SIR,—The returns for 1900 and 1901, and also for the first six months of 1902, show an unbroken advance for British exports in South Africa, and notwithstanding freight rings, the United States, Austrian and German competition, the British trade in South Africa increases month by month. British goods received at the ports of Cape Colony, Natal and Delagoa Bay during 1900 amounted to over sixty-five million dollars.

In 1901 to upwards of eighty-seven million dollars, and for the first six months of this year have risen to fifty-six million dollars, and before the close of the year 1902 they are expected to reach one hundred and twenty million dollars. It is therefore abundantly evident that South African importers are certain to place a large percentage of their orders with the mother country, and at the same time give the preference to Canada and Australia over the United States and Germany. Even the Dutch are disposed to purchase from the colonials wherever possible. Somehow they have a sincere respect for the courage and physique of our colonial contingents.

Exports of colonial merchandise to South Africa in 1900 amounted to six million dollars; in 1901 to eight million five hundred thousand dollars; showing an increase of two million five hundred thousand dollars over the previous year. Our neighbours to the south are increasing their exports to South Africa in the cheap and light class of agricultural implements (for repatriation and native trade), also builder's hardware and tools, freight and tram cars, cycles, automobiles, boots and shoes, food stuffs such as wheat, flour, canned meats, pickled meats, pork and lard. The imperial authorities at Pretoria have placed large orders with some agricultural firms in the United States for the cheapest kind of ploughs, &c., to be used by the Boer farmers and other repatriated settlers. The commissioner claims that the British and Canadian implement makers don't manufacture this class of stuff. As many thousands more will be required during next year, I should be glad to hear from Canadian firms who are in a position to turn out such goods.

During the next few years upwards of thirty million dollars will be expended by the city council of Johannesburg in a drainage system, water installation, electric tramways, erection of municipal buildings and a large number of dwellings for municipal employees, &c., they have the most up-to-date and progressive council to be found anywhere. These city fathers were chosen by Lord Milner from the very best business men of the Burg, and from the mayor downwards they give their time ungrudgingly to the city's interest without fee or reward. If Johannesburg is fortunate enough to retain men of their 'calibre' it will be a clean and beautiful city in a few years, with magnificent buildings and streets, pure water and modern sanitary arrangements.

Durhan, Pietermaritzburg, Bloemfontein, Pretoria, Port Elizabeth, Kimberley and Cape Town are going to spend millions also in the near future for tramways, harbours, public buildings and other improvements. The various government railways are also compelled to improve their service by the purchase of quantities of locomotives, trucks and passenger coaches, &c. The Johannesburg and other corporations mentioned are exceedingly well disposed to everything Canadian and their manufacturers of builder's materials, tram cars, locomotives, railway coaches and freight cars, sleepers, wind-mills, &c., should be able to secure a share of this business now that an all Canadian direct steamship line is an established fact.

In the Transvaal the port of the future appears to be Delagoa Bay first, and Durban for second place. The main draw back to Durban from the standpoint of a Transvaaler is the peculiarly constructed, cork screw railway leading from it to the interior, with its many sharp curves and deep gradients, which must always be an obstacle to the cheap and rapid conveyance of goods. It is nearly five hundred miles from Durban to Johannesburg over this railway, and the haulage is one hundred miles shorter from Lorenzo Marques without its many sharp curves and deep gradients, and as the journey from Cape Town to Johannesburg is upwards of one thousand miles the gold miners of the rand naturally prefer Delagoa Bay to any other port in South Africa, and are looking forward to the day (they say not far distant) when it will become British territory and the leading port of South Africa.

The imports to the Transvaal during the six months ending June 30, last amounted to twenty-one million dollars; as compared with five million five hundred thousand dollars of the corresponding period of last year; and very soon imports to the Transvaal will exceed those to all other colonies combined in South Africa.

The blocking of materials of all kinds still continues at the various coast ports, but gradually the military authorities are easing the strain and it is to be hoped that very soon now the railways will be in a position to ship the merchandise (which has been

eating itself up in storage charges) to its respective owners and make room for new goods arriving.

I have been asked to send the names and addresses of numbers of persons in the various places that I have visited to Canadian exporters with a view to their acting as agents in South Africa. In several instances I have complied, in others I have not. Many of the applicants are at present representing German, English and American firms, and in such cases I fear Canadian samples would have to be sandwiched in with a score of others, and Canada would be certain in the long run to get the worst of it.

A gentleman informed me a few days ago that his firm represented an association in Canada composed of a thousand manufacturing industries. In the past it might have been possible for these esteemed commission merchants to overtake the business that Canadian exporters were able to do. Circumstances. however, have changed considerably, and now if Canada desires a goodly share of the South African trade, English and American methods for obtaining it must prevail. If manufacturers prefer to have resident agents they had better secure one at least for each of the colonies. The distances are so great and travelling so expensive that very few agents dream of covering the ground or journeying very far from Cape Town. I am of the opinion that there should be resident representatives at Cape Town, Port Elizabeth, Bloemfontein, Johannesburg, Kimberley, East London, Lorenzo Marques and Durban, and that these gentlemen should not be allowed to handle anything but Canadian wares. With the increased facilities for transportation at the present time, industries should unite in sending experienced salesmen and let them make their headquarters at the principal points, with an up-to-date range of samples, with prices figured little (if any) in advance of home quotations; bearing in mind that South African importers buy the best articles at the closest prices prevailing anywhere, and have the gold to pay for them.

Canadian business men have been handicapped sadly in the past for the want of a direct steamship service to South Africa. Business associations have long been agitating and pressing to obtain the boon of a regular service. It now depends altogether upon Canadian merchants and manufacturers themselves to take advantage of the exceptional opportunities Canada has of competing with the neighbouring Republic in many lines of goods in which they now have the monopoly. At present there are only three firms of any note doing business for Canadian houses in South Africa. All are highly respected and of excellent standing in the community, but if Canadian trade is to develop largely in South Africa the number of resident agents of push and energy must be largely increased.

Since I had the honour of addressing the Honourable the Minister of Trade and Commerce a few months ago; on the advantages to be derived by Canada from the proposed Imperial and Colonial Exhibition to be held in Cape Town, October, 1903, two other exhibitions are projected to take place in 1904, at Durban and Johannesburg. The latter to be International in its character. The projector of the Cape Town Exposition is absent in Europe, and until he returns additional information cannot be obtained. It is the general impression however, that, a common understanding will be arrived at shortly to have in 1904 a World's Fair at some central point, easy of access to the whole population of South Africa.

I have the honour to be, sir, your obedient servant,

J. G. JARDINE,

(C.)—AUSTRALIA.

Report of Commercial Agent.

(Mr. J. S. Larke.)

Sydney, N.S.W., November 4, 1902.

The Honourable,
The Minister of Trade and Commerce,
Ottawa.

WESTERN AUSTRALIA.

Sir,—I have not received the detailed statement of the trade of Western Australia for 1901, but the summary shows the following figures for 1900 and 1901.

	1900.	1901.
Imports	£5,962,178	£6,454,171
Exports	6,852,054	8,515,623

Ten years ago the exports were less than a million pounds. The imports were then fifty per cent more, but in 1899, the exports exceeded the imports and the state is now in a healthy and flourishing position. The imports in which Canada could become interested are :—

Meat and fish	£118,833
Bacon, hams and other provisions	524,114
Wearing apparel boots and shoes, &c	734,003
Timber, cement and furniture	129,343
Ammunition and explosives	153,271
Machinery of all kinds	616,770
Flour, grain and potatoes	304,566
Jams, jellies and fruits	118,286
Paper, books and stationery	108,167

Its exports still are chiefly gold, copper and tin though its export of timber, wool and other pastoral products are steadily increasing.

Except in one or two lines Canada has scarcely touched the trade of this State and is not likely to do much until there is connection with the Atlantic Provinces. I have not yet visited Western Australia, but if there is a probability that the South African steamers will extend their voyages to Australia it is advisable that I should do so to enlist commercial men in business from Canada. Its gold output is expanding and its population increasing at a rate of over thirteen per cent per annum, so that there is no reason to doubt that its imports will grow and its trade be in a sound condition.

THE TRADE OF THE COMMONWEALTH.

A summary statement of the trade of the Commonwealth for 1901 has been issued, which gives :—

	Imports.	Exports.
New South Wales	£26,928,218	£27,351,124
Victoria	18,927,340	18,646,097
Queensland	6,376,239	9,249,366
South Australia	7,478,288	8,318,820
Western Australia	6,454,171	8,515,623
Tasmania	1,965,199	2,945,757
	68,129,455	75,026,787

Of these amounts £25,695,608 of the imports came from within the Commonwealth and of exports £25,341,278 went to states of the Commonwealth. The trade beyond the inter-state was, imports £42,433,847, and exports £49,685,509. More than one-half the imports and exports were from and to the United Kingdom. The imports of 1901 were £1,085,156 less and the exports £2,273,386 more than those of 1900.

THE DROUGHT AND MARKETS.

The coastal districts and a large part of the Highlands of Victoria and New South Wales have continued to receive good showers, but the interior of these states and Queensland are yet very dry. All hope of a harvest sufficient to supply Australian consumption has now passed away and it is conceded that grain and flour, oats, corn and barley will have to be imported. As to the extent of the shortage experts are not agreed and vary from one hundred thousand tons to twice that quantity.

So far, the business done in hard wheat from Manitoba is very small, though some four cargoes of wheat from California and a quantity from Oregon have been sold. A great deal of cabling has been done but it has been very much of this nature :—

Sydney cables 'What will you sell one thousand tons or more C. I. F. Sydney' and Canada replies :—'What will you give'? And nothing has come of it. In one instance, where a sale of considerable amount was supposed to have been concluded it failed through misunderstanding over the long and short tons. The cables from California bring fixed offers and business is done, San Francisco has the advantage over Vancouver in being able to more easily secure charters for sailing vessels and at lower rates and the sales are for grain by such vessels. The millers so far have been willing to give Californian prices for Manitoba wheat but not more, and quotations so far, where definite, have been considerably higher than for wheat from San Francisco. Transactions at the present moment are at a standstill, and business will not move to any extent until a fixed price for Australian wheat is arrived at. It is surmised than an ulterior object of the San Francisco transactions was to keep down prices of Australian wheat. South Australian is just now coming, and the price at the newspapers report business done, below four shillings per bushel is below its value. Old wheat is selling at five shillings and two-pence. Based on the value of flour, Manitoba No. 1 Hard should be worth six-pence per bushel more than local wheat, but just now, it is useless to quote even threepence more. I think the millers will yet buy at an advance over local. It must be remembered that while Hard Wheat flour is worth more than that from local wheat, the offal is worth less, and it is from the offal that the Australian millers this year have been making their profit.

FLOUR.

Before the drought, Manitoba flour was selling at four pounds per ton above local flour. To-day the difference is only two pounds. This curious condition of the market is due in part to the large users having bought ahead and the market being fairly well supplied and mainly because Minneapolis Hard wheat flour, via New York, is offered at slightly lower figures than Canadian flour. I have complaints from one or two houses that some of the Canadian mills are slow in filling their orders and frequent inquiries are made for mills capable of producing a high-grade patent. The flour is now regularly quoted on the Melbourne market and its use is spreading to the smaller towns. The high local freight rates are a barrier to its general use. As I write this, I am informed that large sales of Minneapolis flour and some Manitoba wheat have been made to come via New York.

OATS, BARLEY AND PEASE.

Some purchases of Canadian oats have been made for milling purposes and two of the largest firms are negotiating for feeding oats. The hindrance to trade is the absence of a standard sample of oats, so that purchases can be made guaranteed equal to sample

The price was right and though rain has improved the grass, yet the present market rate is likely to be maintained until New Zealand oats arrive in March.

I have repeatedly called attention to the possibility of a market here for barley and pease, and written letters to such firms as I know, without getting a response. Barley for both malting and *pearling* are needed. For the former the Chevalier of California is liked and a sale of nearly a million bushels has been made in Melbourne. I have an inquiry from one firm for twenty thousand bushels of barley for pearling. The same firm wants about twenty-five thousand bushels of white pease for splitting and two or three thousand bushels of Blue Prussian Pease. I should like to get samples and prices. In the case of grain from Ontario, the price should be quoted sacks F. O. B. New York. All grain is preferred in sacks containing four bushels, as these sacks have a marketable value. The two bushel bag is practically unknown here. When quoting, the number of pounds in the bushel or ton should always be stated. In Australia the long ton of 2,240 lbs. is used for everything but flour. I called attention to this matter some months ago, in order that a distinct understanding between Canadian sellers and Australian buyers should be arrived at, so that when the time for action came there would be no doubts as to weights used. Unfortunately the pre-arrangements were not made, and as a consequence there has been much expensive cabling that might have been avoided.

FROZEN MEAT.

As soon as the tariff was passed and frozen meat was made free, I called attention to the possibility of bringing frozen hogs from Canada. A good deal of activity has been shown by a number of firms in bringing about trade. The cold storage space of the steamers has all been taken up, I am informed, and a number of orders have been refused. Whether the space has been secured for Canadian products I am unable to say. Some sales of lard have also been made.

A sample lot of frozen poultry came from Vancouver by the last steamer. It was of excellent quality and arrived in fine condition. Orders have been placed for a quantity to arrive in December.

If it is impossible to find space this year, it is probable that if suitable dressed hogs are stored in Canada that this market will take shipments for half of next year.

APPLES AND POTATOES.

Sample cases of apples from British Columbia proved to be in so good condition and were of such good quality that they attracted a good deal of attention in the fruit market. A full supply of Californian fruit had been contracted for previous to this arrival, but an order for a couple of hundred cases was given, and next year the trade will be largely increased if fruit free from pests and equal to sample can be shipped.

A sample parcel of potatoes also came by the last steamer and arrived in good order, but they were carried in cool storage and therefore furnished no precedent of the manner in which potatoes would carry when shipped in the ordinary way. However, this is not of much consequence at present as the importation of potatoes from America is prohibited in Queensland by an Order in Council issued five years ago, but had been overlooked by importers until some orders had gone to Canada. Only one shipment is, so far as I know, on the way, and no others will be brought over.

FUTURE PRODUCE TRADE.

I have discussed the possibility of buying grains in Canada with every house known to me as likely to entertain a proposition to import, and a number have expended some amounts in cabling with poor results. The majority of these firms complain that they cannot get replies to half their cables, and that the majority of the replies are indefinite. There is no question but that New York is just now beating direct Canadian purchases in the market. It may seem to be of little importance whether the wheat is shipped

from New York or from some Canadian port provided it is Canadian wheat. Shipment via New York is building up a foreign port, giving freight to foreign railways and the profit of the transaction to foreign merchants. This ought not to be, and it seems absurd that North-west wheat should come via New York instead of Vancouver. I am not sufficiently informed of the conditions in Canada to make recommendations of what should be done, but if, as I am informed, that Winnipeg is the nearest point to the Pacific at which inspected grain can be bought, I would suggest that an inspector be at once stationed at Regina or some station further west. Grain from that point would be saved eight hundred miles of railway haul to Winnipeg and back. That officer should have power to grade oats and barley. With standard samples of these grains there is no doubt that Vancouver should compete with New York and secure a large trade.

The completion of the Pacific cable and the probability that it will be opened for business in a day or two will materially lessen the cost of cabling and benefit the Pacific trade.

THE TRADE OF 1901.

The return of the trade of the several states, Tasmania excepted, has been printed. The imports from Canada for 1900 and 1901 are :—

	1900.	1901.
New South Wales	$114,321	$143,599
Victoria	27,895	73,424
Queensland	36,627	49,659
South Australia	25,600	27,832
Western Australia	4,370	13,846
Tasmania. (Returns not printed.)	.....	.....
Total Australia	$208,813	$308,360
New Zealand	32,169	33,538
	$240,982	$341,898

The apparently large increase of imports into Victoria is due to some extent to Canada getting credit for one line of goods hitherto credited to the United States. On the other hand the bulk of Canadian goods coming via New York are still credited to the United States.

I have the honour to be your obedient servant,

J. S. LARKE.

(D.)—FRANCE.

Report of Commercial Agent.

(Mr. Anatole Poindron.)

Paris, France, November 16, 1902.

The Honourable
The Minister of Trade and Commerce,
Ottawa, Canada.

Sir,—I herewith have the honour to forward report on the Trade of France for the year 1900.

Comparative statement showing the Values of the Principal Articles of the Mine Imported into France during the Calendar Year 1900, together with the Exports (Home Produce) of Canada with portion sent to France during the Year ended June 30, 1901, of the Articles mentioned.

THE MINE.

Articles.	Total Value of French Imports.	Total Value of Canadian Exports.	Value of Canadian Exports to France.	Rates of Duty Levied in France.		
				Shipped direct via Canadian Port.	Shipped direct via United States Port.	Shipped via European Foreign Port

(B.)—INQUIRIES RELATING TO CANADIAN TRADE.

Since the publication of the last monthly report, there have been received at this department from the High Commissioner for Canada, London, England, and the Curator, Canadian section, Imperial Institute, London, England, the following inquiries relating to Canadian trade. The names of the firms making these inquiries, together with their addresses, can be obtained from this department, or from the office through which the inquiry was received.

Inquiries from the High Commissioner for Canada.

CANADIAN MANUFACTURERS OF BUGGY HARNESS, ETC.

1. A Scottish firm which buys buggy harness and other specialties for the trotting track, horse boots, &c., wishes to get into touch with Canadian manufacturers of such goods. (Reference No. 64.)

CANADIANS WISHING TO DO BUSINESS IN SOUTH AFRICA.

2. A London firm of shipping and colonial agents, with branches at Cape Town and Durban, desires to correspond with Canadian exporters prepared to do business with South Africa. (Reference No. 64.)

CANADIAN EXPORTERS OF CANNED GOODS, ETC.

3. Canadian houses desiring a representative in England for the sale on commission of canned goods, meats, fruits, &c., and similar produce, can be placed in communication with a gentleman who has had experience in this line. (Reference No. 64.)

CANADIAN EXPORTERS OF FISH.

4. A Hamburg firm already doing an import business in Canadian fish desires to extend their relations with the Dominion, and will be glad to hear from exporters in other lines of produce who require representation in Germany. (Reference No. 64.)

ENGLISH IMPORTERS OF WASHING MACHINES, ETC.

5. A Canadian firm manufacturing washing machines, wringers, tub stands, &c., asks to be referred to English dealers in these lines prepared to import such goods. (Reference No. 64.)

CANADIAN EXPORTERS OF OYSTERS.

6. The addresses of some Canadian oyster merchants have been asked for by a firm desirous of obtaining samples of Caraquet and other varieties. (Reference No. 65.)

CANADIAN SHIPPERS OF OATS.

7. A firm importing oats in large quantities desires to be placed in touch with reliable shippers in Canada. (Reference No. 65.)

CANADIAN PRODUCERS OF FRUIT PULP.

8. Inquiry is made by importers in London for names of Canadian producers of fruit pulp of good quality. (Reference No. 65.)

CANADIAN MANUFACTURERS OF LUMBER.

9. A correspondent asks to be furnished with addresses of Canadian saw millers handling white pine, and sawing small stuff. Sizes to any length from 2 ft. $2\frac{1}{2}$ ins. wide, $\frac{3}{16}$ in. thick free from knots, sap and shakes. (Reference No. 65.)

CANADIAN IMPORTERS OF BELTING.

10. A firm of belting manufacturers in the North of England desires to hear from a first class Canadian firm of engineers' merchants or general merchant importers having a good connection among mills, factories and steam users generally, with a view to the appointment of an agency for the Dominion. (Reference No. 65.)

CANADIAN EXPORTERS OF BACON.

11. A Liverpool firm of produce importers is anxious to secure a consignment agency for Canadian bacon, and wishes to get into touch with a reliable packer. (Reference No. 65.)

IMPORTERS OF HARNESS AND BOOT PREPARATIONS.

12. The proprietors of a certain saddle and harness preparation, boot and shoe blackings and polishes, embrocations and horse powders, are seeking to extend their business with Canada and contemplate appointing a representative in the Dominion. (Reference No. 66.)

CANADIAN MANUFACTURERS OF CARPETS, HOSIERY, ETC.

13. A firm of spinners of carpet, hosiery and coating yarns is desirous of doing a Canadian trade and wishes to get into touch with carpet and hosiery manufacturers in Canada. (Reference No. 66.)

AGENCY IN ENGLAND FOR CANADIAN GOODS.

14. A London firm of general import and export merchants desires to get the representation of a few good Canadian houses whose goods are likely to sell in large quantities if properly pushed. (Reference No. 66.)

CANADIAN EXPORTERS OF FRUIT PULP.

15. Inquiry is made again for names of Canadian exporters of fruit pulp. (Reference No. 66.)

CANADIAN MANUFACTURERS OF BEDSTEADS.

16. A firm of bedstead makers is open to buy wood frames of Canadian manufacture for wire mattresses. (Reference No. 66.)

AGENCY IN ENGLAND FOR OILS, GLUES, ETC.

17. A North of England firm is looking out for a good Canadian house which would take up the agency for a special line in cycle oils in tins, as well as Scotch glue, gelatine, &c. (Reference No. 66.)

Inquiries from the Curator, Canadian Section, Imperial Institute.

CANADIAN MANUFACTURERS OF LUMBER.

1. A timber merchant wishes to arrange to obtain supplies from Canada for direct shipment to South Africa if he can obtain some at prices to compete with the Baltic. The classes of goods in 'Red Baltic deals' 3 x 9, principal size, also 3 x 6, 2 x 6, 2 x 4½, 3 x 4½, 4 x 11, 3 x 11, 4 x 9, 2 x 9, average length $\frac{1}{1}\frac{6}{7}$ feet per cargo. Red floorings tongued and gooved 1 x 6½. Red ceilings tongued, grooved, beaded and centre beaded $\frac{5}{8}$ x 6½, average length per cargo $\frac{1}{1}\frac{5}{6}$ ft. Double moulded doors all sizes, sash doors, front and French casements all sizes, also mouldings of every description and skirtings, shelvings, clear pines and hardwood. (Reference No. 29.)

AGENCY FOR PUMPING MACHINERY.

2. A company manufacturing pumping machinery wishes to secure the services of Canadian resident agents, more particularly in British Columbia. A first class firm desired possessing a connection in the engineering trade. (Reference No. 30.)

CANADIAN MANUFACTURER OF EXCELSIOR.

3. A Bradford house asks to be placed in touch with Canadian manufacturers of excelsior. (Reference No. 30.)

CANADIAN MANUFACTURERS OF LUMBER.

4. A firm of merchants possessing houses both in London and Natal wishes to hear from Canadian manufacturers of deals, doors, mouldings, shelvings and similar lines, who may desire to develop direct trade with South Africa. (Reference No. 30.)

CANADIAN MANUFACTURERS OF LAWN MOWERS.

5. A firm of merchants in London are open to take up a first class Canadian lawn mower and invites correspondence from manufacturers of same. (Reference No. 31.)

CANADIAN DEALERS IN TURKEY QUILLS.

6. A Dublin house asks for names of Canadian dealers who can supply turkey quills in considerable quantities. (Reference No. 31.)

CANADIAN OWNERS OF SLATE QUARRIES.

7. A London house would like to hear from Canadian owners of slate quarries who could ship large quantities of roofing slates of first class quality. (Reference No. 31.)

CANADIAN MANUFACTURERS OF LUMBER.

8. A firm in Cornwall write that they require the subjoined specifications of timber. Same could be shipped via either Liverpool or Bristol direct and quotations made on that basis. It is understood that these shooks are required regularly.

One thousand boxes each $27\frac{3}{4}$ x $20\frac{1}{2}$ x $9\frac{1}{2}$ in. $\frac{9}{16}$ in. timber throughout.

Two x 2 in. triangular corner pieces all planed inside and out and grooved and tongued.

Five hundred boxes each 38 x 19 x 15 in. $\frac{9}{16}$ in. timber except for ends which must be $\frac{3}{4}$ in., all planed inside and out, dovetailed, grooved and tongued.

One hundred boxes each 26 x 26 x 20 in. $\frac{9}{16}$ in. timber throughout, 2 x 2 in. triangular corner pieces, grooved and tongued, planed inside and out. (Reference No. 32.)

(C).—CHARGES IN THE TARIFF OF MEXICO.

The attention of the exporters and manufacturers of Canada is directed to the following cuttings from the *Mexican Herald*, recently received at this department, from His Majesty's Consul, Mexico, giving Decrees of His Excellency the President of the United Mexican States relative to (1) Rebate on the duty to be paid on foreign wheat, and (2) Payment of customs duties.

(1).—Rebate on the Duty to be paid on Foreign Wheat.

(*'Mexican Herald,' Nov. 12, 1902.*)

Porfirio Diaz, constitutional president of the United Mexican States, to the inhabitants thereof, know ye:—

That in order to obviate the damage that might arise from the scarcity that is beginning to be felt in the stock of native wheat, and by virtue of the powers granted to the executive by Art. 2 of the revenue law of May 28th last, I have seen fit to decree the following:—

Art. 1. The wheat imported through the custom houses of the republic from the 15th of the present month until March 31st, 1903, will pay a duty of fifty cents per one hundred kilos gross weight.

Art. 2. From April 1st, 1903, imported wheat will again be subject to the duty set forth in section 146 of the importation tariff.

(2).—Payment of Customs Duties.

(*'Mexican Herald,' Nov. 27, 1902.*)

Porfirio Diaz, constitutional president of the United Mexican States, to the inhabitants thereof, know ye:—

That by virtue of the powers granted to the executive by law of the federal congress, dated 24th inst., I have seen fit to issue the following decree providing a basis for the liquidation and payment of duties in connection with the importation of foreign merchandise:—

Art. 1. On and after the first day of January, 1903, the laws of November 30th, 1888, and May 12th, 1896, creating respectively the two per cent port works tax and the seven per cent stamp tax on import duties, will be abolished.

Art. 2. On and after the same date of January 1st, 1903, the import duties on foreign merchandise brought into the republic will continue to be adjusted in accordance with the rates set forth in the import schedule, but the sum that would be payable according to that adjustment will be reduced by fifty per cent and the amount thus found will be multiplied by the sum fixed by the department of finance for the settlement of duties during the month in question and which in no case will be less than 220 per cent. The product will represent the amount of import duties to be paid by the importer.

Art. 3. In order to determine every month the rate of settlement referred to in the foregoing article, the department of finance will take the average of the rates at which the banks of the capital have sold sight drafts on New York on each of the days comprised between the 1st and 25th of the month in which the announcement of the rate has to be made, making a reduction of 30 per cent (or less if the liabilities of the nation payable in foreign coin increase in future) on the points of difference between the fixed exchange rate of 220 per cent and the average in question. The said department, any day between the 25th and 28th of the month in question will apprise the custom-house through the general custom-house bureau, of the rate adopted and at which duties are to be settled during the following month, said rate being published in the Diario Official.

Art. 4. The rate of settlement for import duties adopted for each month will be applied to merchandise carried in ships anchoring in the port of their destination, or brought in over our frontiers after twelve o'clock on the night of the last day of the previous month and before the same hour of the last day of the current month, even though in either case the adjustment of clearance formalities be effected at a date subsequent to the last day of the month during which the rate of settlement was in force. Goods imported through the mails will be subject to the rate for the settlement of duties in force on the day of their arrival in the country.

Art. 5. The stamp tax payable at the time of their importation by alcoholic beverages and foreign cards, as well as the additional duty for the benefit of the municipalities of the towns where the custom-houses are situated, will be estimated on the basis of the import duties calculated according to the foregoing articles. The pecuniary penalties, provided by the general custom house ordinances, to correct infringements on those ordinances, will be computed in the same manner when those penalties are based on a percentage of the import duties.

Art. 6. Merchandise imported for consumption in the free zone, with the exception provided by Art. 676 of the general custom-house ordinances, will pay only ten per cent of the duties calculated according to the terms of Art. 2 of this decree; but the tax for the benefit of the municipalities as well as the stamp tax payable with respect to alcoholic beverages and foreign cards, imported for use in said zone, will be estimated and paid on the basis of the full duties in question.

Art. 7. Merchandise imported for the free zone and similar merchandise produced in that region, and which is forwarded further inland according to the provisions of section IV, chapter XXII, of the general custom-house ordinances, will pay duties at the rate of liquidation in force at the date when permission for forwarding the goods inland is solicited, and from the total of said duties the ten per cent spoken of in the foregoing article will be deducted, even though the merchandise may have been imported at any prior date. The duties on foreign goods moved from point to point of said zone will be estimated in the same manner either with a view to collecting them when there is room for so doing according to law or with a view to the imposition of penalties provided for infringements of the same law.

a The figures for Mexico include coin and bullion.

II.—COMMERCIAL AGENCIES.

The following Canadian Commercial Agents (whose addresses are given) will answer correspondence relative to commercial and trade matters, and give information to those interested as to local trade requirements in the districts they represent.

Such reports of general interest as have been received from them since the publication of the last monthly report of this department are appended.

J. S. Larke, Sydney, N.S.W., agent for Australasia.

James G. Jardine, Cape Town, South Africa, agent for South Africa.

G. Eustace Burke, Kingston, Jamaica, agent for Jamaica.

Robert Bryson, St. John, Antigua, agent for Antigua, Montserrat and Dominica.

S. L. Horsford, St. Kitts, agent for St. Kitts, Nevis and Virgin Islands.

Edgar Tripp, Port of Spain, Trinidad, agent for Trinidad and Tobago.

C. E. Sontum, Christiana, Norway, agent for Norway, Sweden and Denmark.

A. D. Campbell, Buenos Ayres, agent for Argentine Republic and Uruguay.

A. Poindron, 10 Rue de Rome, Paris, agent for France.

In addition to their other duties, the undermentioned Canadian agents will answer inquiries relative to trade matters, and their services are available in furthering the interests of Canadian traders :—

J. G. Colmer, 17 Victoria Street, London, S.W., England.

Harrison Watson, Curator for Canadian Section, Imperial Institute, London, England.

G. H. Mitchell, 15 Water Street, Liverpool, England.

H. M. Murray, 52 St. Enoch Square, Glasgow, Scotland.

W. L. Griffith, Western Mail Buildings, Cardiff, South Wales.

C. R. Devlin, 14 Westmoreland Street, Dublin, Ireland.

D. Treau De Cœli, 75 Marché St. Jacques, Antwerp, Belgium.

(A.)—AUSTRALASIA.

Report of Commercial Agent.

(Mr. J. S. Larke.)

Sydney, N.S.W., December 1, 1902.

The Honourable
The Minister of Trade and Commerce,
Ottawa.

Sir,—Useful showers have fallen on the coastal and portions of the central districts of New South Wales and over a portion of the coastal district of Queensland. They promote the growth of grass but have little effect upon the harvest. The official estimate for New South Wales is that 1,561,704 acres were sown to wheat, being 143,000 less than sown in 1901. Of these more than half was ruined by the drought. Nearly a

third of the remainder was cut for hay, leaving 476,000 acres to be cut for wheat. No statement is made of the probable yield but the general estimate is about four million bushels. This is eight million bushels below the harvest of last year. The decline in the shipments of wool is pronounced and it is feared that exports of the products of New South Wales this year will be over twenty per cent below those of last year. Queensland will be in even worse case but the other States will not be so seriously affected. Western Australia and Tasmania will have a better trade than last year. The probabilities are, therefore, that the requirements of wheat and flour will be in excess of my estimate of previous reports.

The requirements of other products cannot be foreseen as so much will depend on the summer and autumn rains and the crop of New Zealand which will be known in March. This market will in the meantime take all that Canada is likely to be able to send.

VICTORIA.

The imports from Canada as given in the Victorian returns were :—

1899.	1900.	1901.
£19,380	£56,789	£95,672

The details of the trade as given are :—

	1901.
Bicycles	£ 5,895
Balls	2
Boots and shoes	377
Furniture	1,710
Machinery	250
Implements—Agricultural	28.158
Plated ware	60
Stationery	16
Deals	19,513
Timber—Undressed	5,905
Oregon	28,964
Pickets	2,058
Laths	1,595
Pigiron	1,169

The exports to Canada were as in previous years nominal, consisting only of two items of Victorian produce, Mollases £25 and Saddlery £16.

In the imports from Canada are included items of boots, engines, manufactures of metals and wooden, on which considerable duty was paid, but neither the quantity nor value of the goods are shown.

It is a more accurate statement of the imports from Canada than the department has been able to give in former returns, but is still very imperfect owing to importers giving the United States as the country of origin for large quantities of Canadian goods of which Canada sent considerable amounts, and such articles as canned salmon, cotton piece goods, cheese, silk, ammunition, organs and pianos, and India rubber do not appear on the list of articles from Canada.

SOUTH AUSTRALIA.

The imports from Canada were :—

1899.	1900.	1901.
£ 19,065	£ 25,600	£ 27,832

The exports were nil last year, and but £50 during the previous year. The items of the imports from Canada for two years were :—

	1900.	1901.
Apparels	£ 536	
Mowers and binders	2,642	£ 73
Other agricultural implements	4,129	4,049
Bicycles	633	4,549
Bicycle parts		151
Books		36
Boots and Shoes	293	3
Carriages		30
Cotton	1,131	2,618
Drapery	72	
Fancy Goods	11	
Fish–preserved	489	1,202
Engines–traction		269
Furniture	1	
Lampware		13
Manufactures of metal		28
Plants		7
Plated ware	633	175
Umbrellas	43	
Timber boards		1,778
Deals	1,940	1,470
Sashes	140	251
Palings	150	207
Quarterings	8,495	5,860
Other	4,197	6,015
Woodenware	37	20

QUEENSLAND.

As was to be expected the trade of this state shows a decline as compared with the previous year. The figures are :—

	1900.	1901.
Imports	£7,184,112	£6,376,239
Exports	9,581,562	9,249,566

The exports of 1900 were over two million and a quarter pounds less than those of the year 1899.

The Canadian trade was :—

	1899.	1900.	1901.
Imports	£21,794	£36,627	£49,659
Exports	63,186	1,110	1,476

The imports show a steady increase. The falling off of the exports since 1899 was due to the partial failure of the sugar crop, leaving nothing to spare beyond Australia. The Queensland returns give the detailed imports and in a separate column the place of origin, as far as possible, but as the totals of the goods credited to the places of origin is much below that of the total imports, it is clear that the former is much below the reality. The principal imports from Canada as given in the returns of the country of origin are :—

	1900.	1901.
Agricultural implements		£ 1,541
Machinery	£ 8,990	6,549
Apparel and slops	721	15

	1900.	19
Cartridges	£	31
Art materials		2
Asbestus		15
Beer		13
Bicycles	£ 7,267	8,287
Bicycle parts	1,505	1,394
Books	32	45
Boots and shoes	1,292	1,021
Paint brushes		5
Braids and tapes	157	158
Carriage material	286	183
Canvas	63	32
Carpeting		137
Cheese	215	429
Cottons	2,093	3,251
Drapery	712	258
Sporting goods		9
Drugs	38	6
Engravings	4	
Engine packing		97
Fancy goods	30	21
Fish—preserved	1,011	1,286
" salted	224	90
" frozen	481	12
Flour	16,197	20,806
Fruit	13	
Furniture	254	351
Grain	33	
Hardware	236	278
Hose rubber	49	269
Hosiery		12
India rubber goods		75
Pianos	3,188	3,693
Cabinet organs	292	492
Tubing		35
Jewellery	18	
Linen goods		18
Machinery	1,709	1,222
Millinery		10
Fish oil	13	90
Mineral oil	3	23
Floor cloth		77
Canned goods		3
Onions		226
Optical goods		5
Paints	7	24
Paper	104	17
Parasols		23
Personal effects	117	66
Photo goods		5
Plated ware	23	215
Game—frozen		7
Sewing machines	6	
Sausage skins		74
Silk		24
Soap		13
Spirits—perfumed		2

	1900.	1901.
Stationery	£ 3	£ 44
Corset materials		2
Timber	103	11
Tools		34
Type		5
Varnish		26
Vegetables—preserved		41
Watches		99
Woodenware		45

WEST AUSTRALIA.

In a previous report I gave the trade returns of this state, showing an increase in 1901 of imports of about half a million pounds and of exports of nearly two millions over those of the previous year. The imports from Canada, though small, being only about one fifth of one per cent of the total, are increasing in value. For the last four years they were :—

	1898.	1899.	1900.	1901.
Imports	£977	£5,431	£4,370	£13,846

These imports consist almost wholly of agricultural implements, bicycles, timber and machinery, as the following details of these imports including some samples show :—

Preserved fish	£ 54
Preserved milk	88
Reapers	4,251
Mining machinery	265
Fish oil	2
Mineral oil	1
Furniture	17
Sashes	107
Timber	4,764
Woodware	4
India rubber goods	47
Stationery	12
Bicycles	1,878
Bicycle parts	2,340

I have previously pointed out the possibilities of Canadian trade with Western Australia. There are yearly imported over thirty million dollars worth of goods, the bulk of the lines we have not yet touched. The imports from the United States amounted to three million dollars and were more than double those of the previous year. The direct ships from New York with low freight rates are the chief cause of this rapid expansion. With similar advantages Canada could have supplied flour, meals, oats, canned fruits and vegetables, bacon and hams, plaster, timber from the Eastern provinces besides general manufactures. Under the common tariff and its prosperous developments Western Australia is the most promising field for Canadian enterprise just now.

TASMANIA.

Though the 1901 exports of Tasmania were considerably in advance of those of the previous year, the imports were slightly less. The figures are :—

	1900.	1901.
Imports	£2,073,657	£ 1,965,199
Exports	2,610,617	2,945,757

The return from this state makes no note of goods from Canada, everything from the Western continent being lumped as from America. This island is to-day the most prosperous part of the commonwealth. Last year it had a good season and the misfor tune of its larger neighbours gave its producers high prices for their products. Its exports have doubled in five years and its agricultural, mining and industrial resourses are capable of much greater development.

An examination of the list of articles from Canada sold in the several States will show great variations. A part is explained by the difference that existed in the tariffs of the several states before federation, another fact is attributable to the freight facilities but a good deal is accounted for in the difference in the agents employod.

It will be noted that a large number of items are sold as samples one year but no sales appear in the following. This is due in part to the fact that the trade was found not to be profitable to the exporter or to the agent here. In the latter case it illustrates the necessity of an export company with sufficient capital to purchase the goods outright and to keep them persistently in the market until they have become a fixture in it. Many lines are unprofitable to the manufacturer because of the present high cost of selling them. A company handling many lines and large quantities would have costs of carriage and handling reduced to a minimun and the business would be made profitable.

CAUTION.

I must continue to urge upon Canadian exporters the necessity of a clearly defined agreement with an agent and closely adhering to it. An Australian while recently in Canada made an agreement to handle a line of goods the terms being, as he advises me, a draft at ninety days. The first shipment arrived here with a sight draft attached to the documents. The consignee has refused to accept the goods under these conditions and they now lie here at expense which the consignor will doubtless have to bear. I endeavoured to get the consignee to accept the goods and claim the discount for prompt payment but I did not succeed. If the shippers had advised me and given me the power to deal with the goods in such an emergency, I could have saved him some loss, but as it is I am powerless.

THE PRODUCE TRADE.

Our trade is now hampered for lack of shipping. In my last report I stated that United States flour *via* New York was taking the place of Canadian *via* Vancouver. One firm advertises that it has placed orders for twelve thousand tons of flour from Manitoba wheat. Of this amount less than two thousand will be ground in a Canadian mill and shipped from a Canadian port. The remainder will be ground in Minneapolis and shipped from New York. Even at the present rates it is impossible to get produce bought in Vancouver here by the regular line, and sales in part or whole have had to be cancelled in consequence. With this state of things there is the strange anomaly that I am advised that it is not possible to get sufficient freight at Vancouver to put on an extra steamer. Traders and charterers appear to be mutually waiting upon one another, and in the meantime Canadian trade is suffering the loss. There seems to be no difficulty in getting both steamers and sailers from the United States Pacific ports. The United States organization was prepared for the emergency, ours was not.

Just now the trade is upset by the resolution adopted by the New South Wales Parliament passing a resolution asking the federal government to suspend the duties on food products in order to relieve the suffering from the drought. In case the commonwealth government should not assent to this, and it is unlikely that it will, there is a possibility that the New South Wales government may itself pay three-fourths or the whole of the duty. This is more probable than the other proposition, but there are difficulties constitutional and practical in the way of this course. In the meantime some buying to arrive is suspended and is alleged that orders for loading at New York have been cancelled.

A small lot of Canadian oats arrived by the last steamer and was sold in bond at sixty-two cents per bushel of forty pounds. It was not a first class sample, being thin, a sort not liked in the market. Four cents more were offered if the lot equalled a small lot sent previously, but it was considerably below it. There was a shrinkage in the weight as compared with that stated in the invoice but as they were new this was not unexpected.

I received a cable on the evening of the 26th. 'Cable present price oats duty paid. Stating weight bushel also probable demand agricult.' I intended to reply 'sixty-two C. I. F., forty pounds. Strong till March.' This was to give what I considered the quality of Canadian oats likely to be shipped would net the exporter that is after all commissions and expenses had been paid. Unfortunately in the hurry of copying to get it away before the office was closed C. I. F., was omitted, and the next day I cabled in the terms of the inquiry 'eighty-five forty pounds.'

The variation in oats produces a great variation in the price. As I write the price from the wholesale to the retail trade is quoted 3s. 4d. to 3s. 10d. per bushel, the higher figure being for a good milling sample. The Canadian exporter would sell to the wholesale merchant at about two or three pence per bushel less, and he would require to pay a commission to the commission house of five per cent which commission would cover the cost of weighing and superintending of delivery as well as the charge for selling.

As I have pointed out there is a difficulty in advising as to the future of the market. There is to my mind not much doubt as to the future of wheat and flour. There is a wide difference in the views of authorities as to the amount Australia must import. One advises that importing is already overdone, another that no more will be required for six months. Another publishes that the equivalent of over sixteen million bushels of wheat will be required. If as alleged that three million bushels have been placed, I estimate that more then twice the quantity will be required before the next harvest. How much will come from Canada will depend upon the steps taken by Canada to secure the trade. Just now it looks as if Canada will get the jackal's and not the lion's share as it ought.

With regard to oats, the future is more difficult to foresee as it depends upon the rains and the New Zealand crop. If rains should come and bring on the Maize and Lucerne and make good pastures, the demand for oats will decrease greatly in three months. Therefore, I added firm until March.

Some potatoes came by the *Moana*. Those cased came in fine condition and brought top prices. Those in bags were from fair to good. Those shipped to Brisbane were refused a landing, as I advised would be the case in my last report. They were brought here. The market was not so good as it would have been in Brisbane. The price has fallen below the possibility of export from Canada.

I have the honour, to be,

Your obedient servant,

J. S. LARKE.

(B.) SOUTH AFRICA

Report of Commercial Agent

(*Mr. J. G. Jardine*)

22 and 23 Huguenot Buildings,
Queen Victoria Street,
Cape Town, Nov, 20, 1902.

The Honourable
The Minister of Trade and Commerce,
Ottawa, Canada.

Sir,—Three matters of interest and importance to Canadian exporters to South Africa have occurred since last I had the honour of addressing you,—namely, the adoption of the amended Custom's Tariff of the Transvaal, (an official copy of which was mailed to the department a few weeks ago); the arrival on the 18th instant of the ss. *Ontarian*, the first of the direct Canadian Line of Steamers to South Africa, with a full cargo of food products and manufactures; and, the first meeting for several years at Kimberley of the Associated Chambers of Commerce, comprising delegations of business men from nearly every quarter of the continent.

NOTE OF WARNING.

The president, (a leading importer of Cape Town) in his opening address referred to the inflation of trade in South Africa on account of war expenditure and the expenditure on repatriation and similar objects. He throws out a note of warning by telling his hearers 'that business in South Africa is not on so sound a basis as could be desired.' 'A country must eventually come down to the level of the ordinary individual and pay for what it buys by what it produces, and that is what South Africa is not doing at present as shown by the fact that during the years 1900, 1901 and for the ten months of 1902, South Africa imports through ports of Cape Colony, Durban, and Delagoa Bay amounted to £99,398,000, and the exports for the same period to only £36,050,000 or taking the imports for the ten months of 1902, which total up to £38,642,000, and exports for the same time to only £15,083,000.'

The principal reason for calling together this congress of business men was first and foremost to consider the advisability of the various colonies of South Africa entering into a new custom's union and also to include, if possible, the Portuguese Province of Mozambique, with its port at Delagoa Bay.

PRESENT CUSTOMS UNION.

In 1889 the present custom's union was initiated, the farming community having the majority of representatives in the legislatures of the several colonies, laid heavy protective duties on bread stuffs and other food products, averaging 30 p. c. with the result that living expenses are perhaps higher in South Africa than in any other part of the world, and as the growth of cereals has steadily fallen off since 1892, the growth of wheat to-day in South Africa will not sustain its population for more than one hundred days out of the three hundred and sixty-five, so that this heavy tax on the necessari s of life is not only burdensome to the large body of consumers, but has not proved to be any real benefit to the farming class generally, hence it is expected the Dutch, in whose interest the tariff was originally framed, will consent to a revised custom's union and a tariff framed on the lines of the one now in force in the Transvaal.

FAIR PLAY TARIFF.

The various speakers at the convention, just closed at Kimberley, including delegates speaking both languages, are evidently agreed that a 'fair play tariff' in the interests of the whole of South Africa must first be assured before a federation of the colonies to embrace a United South Africa can take place. The want of an adequate supply of rolling stock on all the railways is troubling the commercial community very seriously at present. Building operations on a large scale are projected in the Transvaal and other inland colonies, but everything is almost at a standstill because enormous quantities of building materials and other supplies are still at the coast ports awaiting shipment to the interior. It will be six months before the congestion is fully relieved, although it must be said in fairness to the military and railway authorities that they have done their best under very trying circumstances, and now that hundreds of thousands of Boers, British soldiers and refugees have mostly returned to their homes, the long suffering civilian engaged in commercial pursuits should now have his innings.

RAILWAY STATISTICS.

It may be of interest to Canadian railway supply companies and others to note that at the present time there are 5,895 miles of narrow gauge railway completed and being worked in South Africa, made up as follows :—Cape Colony 2,628, Natal 612, Orange River Colony 466, Transvaal 957, Rhodesia 1252, and many other extensions are in process of building. Rolling stock, rails, &c., running into the millions will be required in the near future to replenish wear and tear and destruction caused by the war and the probability of a large increase of traffic. I am pleased to learn that one large engine company in Canada is turning its attention to South Africa and some Canadian car companies are doing likewise.

IMPORTS INTO SOUTH AFRICA.

The imports into South Africa in 1900 were £23,700,115 ; and in 1901 were £31,595,335 ; showing an advance of nearly £8,000,000 over 1900 ; and for the ten months of 1902, ending 31st October last, totalled £38,642,000, or an advance over the whole of the year 1901 of over £7,000,000.

The details for the South African trade for 1900 and 1901 are as follows :—

Article.	1900.	1901.
Food products and drinks	£11 210,682	£15,762,712
Live stock	102,714	71,772
Building materials	833,581	1,245,609
Electricity	41,070	136,954
Explosives	117,290	119,379
Hardware of all kinds	1,070,706	1,270,041
Household requisites, including furniture and crockery	1,583,124	1,969,724
Iron and steel	519,298	596,918
Leather, and boots and shoes, &c., &c.	1,421,462	1,394,593
Agricultural, and other machinery	796,241	850,685
Stationery, paper, and books	538,141	689,216
Textiles	1,608,020	2,104,243
Carriages, cycles, motors, wagons, &c.	1,013,150	968,210
Sundries, including undressed timber and musical instruments, drugs, &c., &c.	1,537,221	1,943,465
Post parcels	271,084	520,265
Government stores	1,607,785	2,498,983

IMPORTS INTO CAPE COLONY.

Value of articles imported into Cape Colony 1901 of interest to Canada.

ARTICLE.	VALUE.
Ale and beer	£ 221,929
Wearing apparel	925,108
Bags of all sorts	93,954
Butter	340,209
Candles	88,466
Carriages, carts and other wheeled vehicles	187,961
Cement	80,274
Cheese	95,635

Soaps	5,540
Spirits, all sorts	11,773
Wood unmanufactured	1,100
Wood planed or grooved	1,304
Wood manufactured, other than furniture	848
Woollen goods	7,946

TRADE NOTES.

The details of the Transvaal, Natal and Rhodesian imports for 1901, I am not able to give at present, not having received the official returns from their several depart ments.

The totals as given on another page for the whole of South Africa will give a fairly correct idea of the values of the same articles imported into the Transvaal for 1901.

RETAIL SELLING PRICES IN CAPE TOWN

The following are the retail selling prices of certain articles of food in Cape Town at the present time. In the Transvaal and Rhodesia they are somewhat higher. It must, however, be kept in mind that a very wide margin exists in South Africa between wholesale and retail prices in all descriptions of merchandise. Rents and losses in perishable stuffs and other expenses are greater out here than in Canada, and the retail profit in consequence is more than double what a storekeeper in Canada could get.

Article.	Prices.						
Butter, according to quality	1s.	6d.	to	2s.		per pound.
Cheese, " "	1	4	to	2		"
Flour, " "	0	2	to	0	2½d.	"
Bacon, green and smoked	1	1	to	1	4	"
Hams	1	3	to	1	6	"
Fresh eggs	2	6	to	3	0	per dozen.
Cambridge sausage	0	0	to	1	9	per tin.
Fancy sweet biscuits	1	6	to	2	0	per pound.
Canned fruits, all kinds	0	0		1	3½	per tin.
Canned salmon, Alaska brand	0	0		0	8½	"
" " Morton's	0	0		0	10½	"
" " Cutlets	0	0		1	0	"
" lobster	1	7	to	1	9	"
" kippered herring and bloater	0	0		0	8	"
" finan haddie	0	0		0	10	"
" roast turkey, chicken, or duck	0	0		1	8	"

BUTTER TRADE.

Argentine and Siberian butters are finding their way to South Africa by every steamer, in cases of 52 and 56 pounds containing about 2 per cent of salt, and are beginning to take the place of Australian. If the butter now aboard the *Ontarian* just arrived opens up satisfactorily, the Canadian article will be largely in demand throughout South Africa.

TRADE INQUIRIES.

I am receiving a number of inquiries for green pork, in cases, for smoking and curing here: of side, middle and roll; also pickled pigs and sheep's trotters, tongues, saveloys, and tripe, potatoes and onions, in cases. Potatoes from Canada packed in layers between brown tissue paper in 56 pound boxes arrived here in splendid condition. Onions must be small, not a large growing vegetable, 56 pound boxes preferred for both onions and potatoes, but 100 pound boxes would answer if properly bound at both ends and rope yarn tied round the middle of the case. If Canadian packers will send me *their lowest quotations* for any or all of the articles mentioned in round lots F. O. B., I will send the information to the right parties, when doubtless orders will follow worthy of their attention, but I must again enphasize that this is a very keen market and fancy prices, therefore, are unobtainable.

AGRICULTURAL IMPLEMENTS.

The demand for some years, for agricultural implements will be considerable notwithstanding the enormous quantities of the cheaper grades already disposed of by American firms. I mailed to the department a few days ago a report together with cuts of all kinds of agricultural machinery required for Boer and refugee repatriation, very kindly furnished to me by the Imperial Commissioner of Land Repatriation at Pretoria. This officer is associated with one or two ex-Canadian officers now employed by the Imperial authorities, all of whom are ready to extend something more than cold justice to Canadian manufacturers. I shall be pleased to hear from some of them with all the information they choose to give me, when I will at once communicate (in their behalf) with the Imperial Repatriation Land Board at Pretoria, or they may address the commissioner direct just as it suits them. One the largest Canadian implement manufacturers have sent over a special representative to spy out the land, a gentleman of experience and ability. I have reason to know that his mission will be eminently successful. I hope soon to hear of others coming.

WHEAT AND FLOUR.

Montreal Milling Companies are adding to their already established reputation by the superior article of flour they are sending to South Africa, especially to the Transvaal and Natal. Two of the big concerns whose headquarters are at the commercial capital have a couple of special representatives out here, who are traversing South Africa from Cape to the Zambesi almost, in the interests of their mills, and have booked large orders. The *Ontarian* has brought big consignments of flour, and the steamers to arrive in December and January are also to bring large shipments for these companies. Another firm, also hailing from Montreal, were good enough to send me a few circular letters, well gotten up soliciting orders for food stuffs. They give all particulars, prices, discounts, terms, &c., and these were at once mailed from this office to a number of leading importers in South Africa and business is likely to follow. I shall be glad to hear from other manufacturers sending a dozen or so of just such letters typed when they shall have the same attention.

BOOTS AND SHOES, AND LEATHER

Over 90 per cent of boots and shoes and other leather goods are imported into South Africa. The Americans are slowly but surely taking the lead in some of the expensive men's wear, but for all other kinds Leicester and Northampton are holding their own.

Three or four English factories have retail stores of their own in all the important centres throughout South Africa. For instance there are perhaps sixty retail boot and shoe stores in the various towns doing business as the "Commonwealth" shoe stores. These are owned by manufacturers near Northampton, England. They have a wholesale depot at both Cape Town and Johannesburg, and supply their retail establishments from them. "Cuthbert's Limited" have another set of stores throughout South Africa conducted and supplied in the same manner, and have their factory also in England. Both these concerns have had an established foothold for several years and American salesmen have not been able to make very serious inroads thus far into their sales. If, however, a Canadian Boot and Shoe Association including a number of manufacturers making different lines had courage enough to open up a Central Wholesale Depot in South Africa and establish retail branches in several of the growing cities and towns with a few up-to-date Canadian shoe salesmen looking after them it would only be a very short time before Canadian styles and methods would 'take on'. The retail prices are enormous as compared with those obtained in Canada. The men's and women's fine, medium quality of boots out here are never less, but sometimes more than, double the figures asked for the same qualities by retail shoe dealers with you. It must not, however, be forgotton that rents and salaries are somewhat higher here than in Canada.

TIMBER AND WOODENWARE.

The demand for all sorts of timber in the Transvaal for building and mining purposes is extraordinary. Millions of feet lie at the Coast ports and in time will find its way to Johannesburg, meanwhile the scarcity of this article and all descriptions of woodenware, such as doors and sashes, &c., &c., retard business to a serious extent.

Canadian timber dealers appear to have enough to do do at home, without exploiting this market. The United States and Norway are supplying South Africa to a considerable extent with lumber of various kinds. In doors, sashes and furniture of all sorts several of the Canadian manufacturers, including the Canadian Furniture Association, are turning their attention to the wonderful possibilities for their industries all over South Africa. The two Canadian Commission Firms in Cape Town and Johannesburg deserve every credit for the way they have kept Canada to the front in pushing these articles and often under great difficulties.

PAPER, PAPER-BAGS AND LYNOTYPE MACHINES.

A newspaper syndicate controlling the leading newspapers in Cape Town, Bloemfontein, Johannesburg, Kimberley, Port Elizabeth, &c., is inquiring about Canadian paper industries, and their ability to supply paper in large quantities for press purposes.

Manufacturers of paper-bags should also turn their attention to the growing demand for bags of all sizes and weights, containing the printed names and addresses, &c., of the business men.

Linotypes of Canadian manufacture are being used in several printing offices and appear to give excellent satisfaction. The newspapers in South Africa are increasing in numbers and influence, and the demand for all these articles must necessarily increase. A large explosive company with ramifications all over the continent are inquiring for cartridge paper and shooks made in Canada. They purchase many hundreds of tons annually. Will Canadian manufacturers who are prepared to do business in the above lines send prices current and, if possible, samples, and I will at once place them in communication with inquirers ready to do business at right prices.

CARRIAGES.

A Johannesburg firm of excellent standing wants an agency for Canadian carriages for the Transvaal, Natal and the Orange River Colony. They are in a position to do considerable business for a firm making the lighter grades in various styles and at reasonable prices. Several Canadian carriage manufacturers are now doing business in South Africa. By studying carefully the mode of packing and economizing space for shipping purposes a very much larger bussness in carriages and carrage supplies could be done.

MUSICAL INSTRUMENTS.

Some of our cabinet organ and piano companies have been (from time to time) sending cabinet organs and pianos to South Africa. Musical instrument dealers in Johannesburg, Pretoria, Durban and Cape Town are handling Canadian instruments. It was a pleasure for me to hear from the buyers, of their excellent quality in tone and finish. They predict a very largely increased trade in the near future.

CAPE COLONY EXPORTS FOR 1901 OF INTEREST TO CANADA.

	Quantity.	Value.
Ox and cow hides	2,390,894 lbs.	£ 58,566
Goat skins	3,752,060 lbs.	103,002
Sheep skins	15,107,511 lbs.	286,216
Fleece washed wool	1,368,739 lbs.	42,657
Scoured wool	6,212,019 lbs.	302,774
Grease wool	57,628,941 lbs.	1,143,815
Ostrich feathers	412,337 lbs.	839,049
Diamonds	2,539,059 carats.	4,930,104

TANNERS AND WOOLLEN GOODS.

I would like to call the attention of Canadian tanners, woollen manufacturers and jobbers in wool to the exports by Cape Colony of hides, skins, and dressed and undressed wools as shown in the tabulated statement above. They find a market principally in England, the United States and Germany, and materially assist in supplying their cargo vessels with return freights. Cape wools largely find their way to Canada via England. Cape goat and sheep skins likewise, and when manufactured into dongola, bengola, Indian and imperial kids, are extensively used by Canadian and American shoe manufacturers. Now that a direct line of steamers leaves Canada monthly for South African Ports what is to hinder the Canadian tanners and woollen industries from getting their raw material direct? and thus effect a saving in freights and broker's commissions, and at the same time give Canadian ships a return cargo? I shall be glad to hear from any Canadian industries interested, with inquiries or suggestions along these lines, and if desired place them in communication with the leading exporters of these products at the Cape.

CAPE TOWN EXHIBITION OF 1903.

Mr. A. P. Baker, of London, England, is the manager of the proposed exhibition. He arrived here from England this week.

This gentleman informed me that it is to be a purely British exhibition with ample space reserved for Canada and the other colonies. A very large number of prominent British manufacturers in agricultural implements, mining machinery, food products, textiles, &c., have applied for space and proposed to send carefully prepared exhibits. He expects Canada, Australia and Ceylon to make a specially good display. Mr. Baker has unbounded faith in its ultimate success, and many of the prominent people of Cape Town, I understand, are assisting him. After an interview next week with Sir Gordon Sprigg, the Prime Minister, to invite his co-operation, the managing director of the proposed South Africa British and Colonial Industrial Exhibition goes North to Johannesburg and other points, and hopes to enlist the sympathies and support of their prominent people and afterwards he returns to England, in January, when he expects to hear through the High Commissionner what Canada proposes to do about the exhibition.

I have the honour, to be, sir,

Your obedient servant,

J. G. JARDINE.

(C.)—TRINIDAD AND TOBAGO.

REPORT OF COMMERICAL AGENT.

(*Mr. Edgar Tripp.*)

PORT-OF-SPAIN, TRINIDAD, December 2, 1902.

The Honourable
The Minister of Trade and Commerce,
Ottawa.

SUGAR ESTATES.

SIR,—It is gratifying to report that notwithstanding previous losses, the proprietors of sugar estates who had been able to carry on until the end of last crop, have with hardly an exception, managed to maintain cultivation since. This would probably have been impossible but for the reviving confidence in the industry resulting from the Brussels conference whose finding has now been so happily ratified in the British Parliament. The enormous quantities of bounty fed beet which will be thrown on the English market before the curtain rings down on bounties in September next, will probably defer the good time, for which the planter has so long been vainly hoping for, and the year, but that time is now in sight, and it is no longer hoping against hope.

West Indians have never asked for more than the opportunity to compete openly in a fair field without favour to the foreigner. They are contented to stand or fall if their main product cannot hold its own upon its merits. For the first time within fifty years the chance will now offer. The unfair competition alike of slave grown and bounty fed sugar will have disappeared; and unless those who best know the capacity of the soil of these colonies are strangely mistaken, there is an era of prosperity before them equal if not more abundant than that of the days of long ago, when the name West Indies was synonymous with wealth.

CANE FARMING SYSTEM.

A very interesting and encouraging feature in connection with the sugar industry of late years, has been the extension of the cane farming system. In former times no canes other than those grown by the proprietor were ground at his mill, but gradually it because the custom, thanks to the initiative, 25 years ago, of Sir Nevile Lubbock, chairman of the New Colonial Company, Limited, London, owners of large estates here, to let out small plots of their land to the peasantry and to purchase the canes grown thereon at so much per ton delivered at factory or in field. This division of the agricultural farm, the manufacturing part of the business, has proved successful. There are now ten thousand small farmers, 5,000 West Indian and 5,000 East Indian, who sold between them to the factories last crop 185,000 tons of cane, being half as much as produced on the estates themselves, and received, even in these days of low value, the sum of $327,183. An indirect benefit of the system is the encouragement of a resident peasantry with a stake, however small, in the colony. It is urged by some that if cane farming proceeds too rapidly, the regular estates will be still further deprived of the labour, the want of which is already severely felt. It may, however, be expected that with the more assured future of the cane industry now obtaining, the recent restrictions deemed prudent with regard to East Indian immigration under state control will disappear. The wise introduction of Indian labour saved the colony at a former very critical stage, and upon its uninterrupted current very much in the future will depend.

COAL DEPOSITS.

The prospecting for coal in the center of the Island undertaken by the government on a somewhat large scale, has not, I am sorry to say so far resulted in anything beyond the discovery of a fairly large quantity more or less near the surface. The boring operations continue, but no defined seam has yet been struck.

ELECTRIC TRAM LINE.

The telegraph will have told you of the very successful opening of the first section of the electric tram line by the Trinidad Electric Company which is principally owned in Canada. The excellence of the work which has been done by this company under the able supervision of their representative, Mr. Teele, is universally admitted and instils confidence that the extensive and valuable public concession they have acquired is in good hands.

UNION BANK OF HALIFAX.

The Union bank of Halifax appears already to be obtaining a good share of the business of the place. In the capable charge of Mr. McRae, there is little doubt that the establishment of this branch will bear favourable fruit to the colony and to the bank itself.

POST OFFICE ORDER SERVICE WITH CANADA.

The announcement that a direct post office order service has been established with Canada is welcome, as the previous delay in sending via England caused some inconvenience. It is hoped that this improvement will be shortly followed by another which is equally required, viz. :—the parcel post. It is difficult to overestimate the boon which this has proved with Europe, and, more recently, with the United States, and I trust it will soon be introduced between Canada and Trinidad.

POPULATION.

The population of the colony keeps pace with its commercial progress having increased from 205,000 in 1891, to about 282,000 in 1901. The death rate last year was 24·9, much higher than it would or should be but for the excessive infant mortality which unfortunately prevails amongst the lower classes. Thirty-seven persons died at 95 years old, and 15 were over 100, so that local conditions would appear to compensate in age for the youth which suffers.

PICKFORD AND BLACK STEAMSHIP SERVICE.

Messrs. Pickford and Black have issued a little pamphlet entilled ' A hundred golden Opinions ', being testimonials freely accorded by passengers regarding the excellent accommodation and courteous treatment received on their steamers. This merely confirms what I have always heard regarding the Line from residents here who have travelled by it, and if affords me pleasure to place this additional testimony on record.

CANADIAN FOODSTUFFS—FLOUR.

Canadian foodstuffs are looking up, or perhaps I should say, by getting better know are better appreciated in our market. One large importer states that the order sent for a certain brand of flour could not be executed, the demand being greater than the supply at the time. I learn too that there is frequently a delay of from five to six weeks in executing orders for flour. It must always be remembered that these delays do not occur in New York, and comparisons will be made. In the United States stocks are kept on the

seaboard ready for immediate shipment, and with a market which varies so often time is of course of much object.

BUTTER.

There has been a considerable set back in the butter trade owing to irregularity of quality. Some recently received has been quite unfit for tropical shipment. It may safely be said that the butter business of this colony ought to be in the hands of Canada, and would be if the same attention to detail and standard displayed elsewhere were attended to.

CHEESE.

This is more than holding its own. But a short time ago Canadian cheese was always quoted from 2 to 3c. below American. It has now the same value on the market, and of the two is preferred as indeed it ought to be.

MACHINERY.

The importation lately of £1,000 worth of Canadian machinery formed an unusual item, which it is to be hoped will not be so in the future. The importers were the Trinidad Electric Company. It seems a pity with such large Canadian interests that they had to go to the United States for all else they required. What are your electrical manufactures doing that they let their own people find it advantageous to go elsewhere ?

CORDAGE AND TWINE.

Quantities of cordage and twine are now coming from Canada, but I learn in connection with this trade that one of our largest importers has nearly withdrawn his custom from a leading house on your side owing to being expected to make payment by draft on Canada instead of as usual on London.

EXCHANGE.

The course of exchange so largely favours the remittance from here of paper payable in London in settlement of American and Canadian accounts, that it is generally adopted, as a matter of course, with the United States. So long as the bills are good negotiable documents, it would appear bad policy to hinder a growing trade with an obstacle never presented by an older and still formidable competitor.

The whole question of credit, drafts against documents, and mode of remittance seems in an uncertain stage, but this will probably right itself as the parties get to know each others requirements and customs better. Meanwhile it causes some friction in the trade relations, and business is often diverted in consequence. So many merchants here have referred to this that I think it right to mention it. The usual terms and facilities offered to reputable houses by their suppliers in London or New York are well known, and might with advantage be recognized and adopted, if I may venture to say so, in Canada.

Another little complaint I should mention is, that a direct trade has in one prominent instance been discouraged by the discovery of the merchant here that New York Commission houses were getting a discount of 5 per cent more than allowed to himself on the same goods when sent to him without the intervention of the middle man.

OATS.

Oats I am glad to find are coming more freely by the all Canadian route.

HIDES.

A good trade is springing up in hides, wet and dry salted, which are being principally purchased by the representatives here of the St. John Hide Company, and I am glad to note that this company not only buys the raw material from us but sends back the manufactured article for our use again in the shape of leather.

TRINIDAD SUGAR.

Customs Returns do not tell correctly the extent of our exports to you. A large quantity of trinidad sugar was sold through New York lately to Montreal refiners. It went up on New York steamer, with optional bill of lading, New York or Canada, and I hear also of large lots of Demerara sugar going direct to your refiners, which would be larger still but for the difficulty of the steamers getting over the bar off the Georgetown River. Still there is some lament at the quantity of beet sugar which notwithstanding the tariff preference to cane from the British West Indies, still finds its way amongst your consumers.

BOOTS AND SHOES.

Of Canadian boots and shoes I hear nothing but what is good. Price, quality and appearance are all in their favour, and the demand is steadily increasing. The total imports of boots and shoes for year ending March 31 last, were £42,963, so that it is a business worth cultivating. Canada's share was only £132, but the current year's figures will tell you a different tale, and if the goods continue up to the present standard, and are kept before our buyers, they should show up well in our future returns.

LEATHER GOODS.

Manufactured leather suggests saddlery, of which we have received next to nothing from Canada hitherto. There is an opening there.

GENERAL.

Perhaps the most satisfactory matter to refer to is the fact that the steamers of Pickford & Black nearly always take up full cargoes. This is indeed a healthy sign. Where our produce goes to sooner or later there will come from the varied supplies we require.

I have the honour to be sir,

Your obedient servant,

EDGAR TRIPP.

(D.)—JAMAICA.

Report of Commercial Agent.

(Mr. G. Eustace Burke.)

Kingston, Jamaica, December 22, 1902.

The Honourable
The Minister of Trade and Commerce.
Ottawa.

Sir,—I have the honor to submit for your information the following :—

TRADE EXCHANGE.

It is gratifying for me to be able to report that while statistics are not available to demonstrate the averment, I am satisfied that though slow, yet recently some improvement has manifested itself in trade relations, and a mutual exchange of commercial commodities, between this colony and the Dominion.

FLOUR.

The Canadian Ontario Brands 'Royal' and 'Dainty' are being very successfully handled by one of our local commissions agents, and other milling concerns of the Dominion would also ere this have been sharing an appreciable portion of the Island's custom if they were content to ship on consignment as in the case of the miller of the brands alluded to. One cannot help but thinking it unreasonable of manufacturers in any line of goods desirous of introducing their wares and merchandise in a new market with the intention of capturing a fair share from the already well established brands, and manufacturers who expect that the local merchant already satisfied with their present operations and conditions of their correspondents, must take all the risk of direct importations of the new innovators. I repeat, it is unreasonable commercially, and as other manufacturers of almost all line of goods, both in Europe and the United States, appear by their methods and facilities offered, to fully realize this, so long therfore as Canadian producers and manufacturers expect the impossible, so long will their more enlightened rivals shut them out from having their fair share of this market with its £1,699,525 imports as in the case of the financial year to March 31, 1902, as disclosed in the Collector General's report just issued and which I will refer to later on.

PACKING REQUIREMENTS.

I have so often, (and have as often noticed similar strictures on the point from other commercial representatives of the Dominion) referred to the callousness and unaccountable indifference of the Canadian manufacturers and producers to the demands of the trade regarding packing size of package, prompt attention to orders and special directions, and replying to correspondence of inquiries, &c., also giving quotations F.O.B., and when possible C.I.F., that like others placed in my position I feel almost despaired on the subject.

I will however quote from a report I recently came across from the German Consul General in one of our colonies to his government. The consul commenting on the development of American trade was forced to write thus : 'In seeking for the reason why the imports of United States goods have increased so rapidly, it is not merely the capabilities of the United States factories and the quality of their manufactures that

explain the phenomenon. The United States manufacturers and merchants have pushed their trade with praiseworthy energy and persistence, and this, together with their willingness to meet the wishes of buyers, has led to the great increase of American trade here'.

It is pleasing, however, to be able to state that in one or two instances, especially in the case of butter and cheese and boots and shoes, some attention has been paid to my oft repeated advice, with the only possible result that those few who have been wise enough to realize that it would pay to depart from old-fangled lines and methods, have been, and are still very amply rewarded, and with every encouragement of future expansion.

IMPORTS—FLOUR.

For the financial year referred to above, the colony imported 157,921 brls. of flour valued £142,129 as against 148,818 brls. valued £133,937 for the previous year, thus showing a very appreciable increase in the consumption of the commodity.

BUTTER AND CHEESE.

As previously mentioned, one Halifax firm, has complied with the requirement of the trade, viz: putting up choice creamery in ½, 1 and 5 lbs. tins, also in kegs of 34 lbs., and dairy in 25 lb. tins and kegs; and cheese in strong single boxes of about 25 lbs. each, are doing a very lively increasing business.

For year ending 31st March, 1902, 749,187 lbs. butter valued £20,957 was imported, and of cheese 174,006 lbs. valued £4,350. These figures disclose a falling off in the importation of cheese as compared with the previous year of 13,631 lbs., valued at £340, while butter shows a considerable increase both in quantity and value.

BEEF WET SALTED.

Of the above, 6,540 barrels, valued £17,986 were imported which is a decrease on the previous year by 384 brls., valued at £1,057.

I desire to bring particularly to notice that the cause of this noticeble decrease is to be attributed to the operation of the trusts in the United States, which sent up to importers here of the best brands, family quality, from $7.25 per half barrel to $9.25. To-day it is $9.50 as per cabled market report.

PORK.

So also in the case of pork. While for the similar period 9,460 barrels were imported at a cost of £29,326 for the year under review, but 6,500 barrels were imported, valued at £19,500 thus showing a decrease in importations of 2,960 barrels valued at £9,327 also attributed to the operations of trusts and 'corners' in the United States, which in turn sent up local retail prices to such a pitch that it naturally had the effect of curtailing the usual consumption.

This is therefor an opportune time for Canadian packers to seize the opportunity and introduce their goods in this market. With the best brands of family beef as imported in this island at $9.50 the half barrel in the United States, and pork from $18.25 to $22 per barrel, and hams and bacons at 14 to 16c. per lb., surely Canadian packers ought to be able to successfully compete and capture an appreciable share of the respective imports.

HAMS.

For the year 1902, imports were 152,949 lbs., valued at £5,686; 1901, 161,791 lbs., valued £6,067.

BACON.

1902	33,965 lbs., valued at £1,132
1901	33,059 lbs., valued at £1,202

JAMAICAN IMPORTS.

The total volume of imports amounting to £1,699,525 was £47,598 in excess of the previous year. Of this amount the island's custom was distributed in the following proportion.

United Kingdom	46·8
United States	43·3
Canada	7·0
Other countries	2·9

MANUFACTURED IMPORTS.

I deem it expedient to afford the manufacturers of the Dominion some idea of the class of goods usually imported and the respective annual value of such imports. It will be observed that there has been a general increase in the consumption of all articles under this head, which I venture to think should be encouraging and prove interesting.

LUMBER—WHITE AND PITCH PINE.

It may be interesting to Canadian lumbermen to note that while there has been an appreciable increase in the importation of white pine lumber, there has been a marked decrease in the consumption of pitch pine, as the following figures will show.

White Pine—2,282,073 feet, valued £9,385—represent importations for 1901-02; while for 1900-01 the figures stood 1,901,756 feet, valued £7,987.

Pitch pine—1901-02—3,913,299 feet, valued £14,818; 1900-01—4,566,774 feet, valued £17,315.

It is however, curious that not a single cargo of white pine (a product of Canada) arrived from a Canadian port; all imports coming via New York and other United States ports. I am satisfied that if they care to grapple with the situation and approach such lumber firms as Messrs. Eml. Lyons & Son, D. Henderson & Co., and A. L. Malabre & Co., doing business in this city, they would have no cause to regret their efforts for direct trading.

EXPORTS.

The total exports for 1901-02 are valued at £1,939,142. For 1900-01, £1,563,363 showing a net increase of £142,066.

The principal items exported were:—

Annatto	394,424	lbs.	valued £	1,643

The island exports were distributed as follows:—

United Kingdom	21·1
United States	65·6
Canada	1·6
Other countries	11·7

I should here note that the take of the United Kingdom is an increase on the two previous years, in 1899-1900, her take being 19·2 and 1900-01 being 18·8.

The above noted improvement may be accounted for by the inauguration of the direct line (Elder Dempster & Co.) at the beginning of 1901, which took, in addition to large cargoes of fruit, considerable portions of other valuable products of the island.

SHIPPING.

The shipping returns of the year under review shows that there has been an increase of 172 steamers with a tonnage of 136,337 tons which came to the Island, as compared with the previous year.

During the year 105 steamers arrived from the United Kingdom, being an increase of 24 on the previous year, whilst 89 cleared as against 61 for last year.

634 steamers arrived from United States Ports, being an increase by 166 on the preceding year, whilst 611 cleared, as against 488 of last year, showing an increase of 123.

The above very marked satisfactory increase is unquestionably due to the steady uninterrupted development of the fruit trade with the Mother Country and the United States.

While there are no available authorized published statistics which give the arrivals and departures from and to Canadian Ports, it can be stated with some amount of accuracy that the total certainly does not exceed 20 either way.

THE SUGAR INDUSTRY.

The sugar industry shows encouraging signs of improvement; for although the exports of sugar itself has not increased very much during the six months under consideration, yet the export of rum, which is associated with the industry, increased by over 17 per cent; and the excise duty on rum also shows an increase of £10,000 over a similar period in the previous year, which is an unmistakable sign of an increased circulation of money among the peasantry and labouring classes.

OTHER PRODUCTS.

The figures also demonstrate that the export of pimento has increased over 38 per cent, and coffee which is classed as a staple product by nearly 89 per cent.

FRUIT.

11,000,000 bunches of bananas have been exported as against 8,000,000; and 27,000,000 oranges as against 17,450,000. Cocoanuts also show an improvement from 11 millions to 16½ millions.

DYEWOODS.

Logwood and fustic show an export development of 19 per cent.

TRANSPORTATION.

A monthly Journal published in London and devoted to the development of trade between Great Britain, Canada and the West Indies, in the course of an editorial note

in one of its recent issues remarks that 'the best way of creating a demand for Canadian goods (in the Islands) would be for the Canadians to make extensive purchases of West Indian Products'.

It is only fair, however, to say that whatever may be the desire of Canadian importers and distributors to deal direct with this island, they are certainly debarred as a result of the lack of frequent and 'up-to-date' steamship transportation. To substantiate this, I do not think I can do better than quote from a letter shown me, and which was received from Canada by a house in this city, in reply to an inquiry to supply fruit during the season.

The Canadian firm wrote thus :—

'*Re Oranges and bananas* :—I am the largest dealer in these lines in and could handle about 200 or 300 boxes Jamaica oranges a week, according to price.....

'*Re Bananas* :—I handle from 1,000 to 1,500 bunches a week during the season.. ....., but I do not see that I can do any business by this line (*viz.*: Canada-Jamaica), as I understand they will not give a rate on fruit from Jamaica to St. John.'

Now, no one can blame the owners of the line in question. They see a safe business with ample remuneration, and they naturally, as business men, load the steamers on owners' account, refusing to take outside freight. So remunerative has the venture proved, that I understand that in the spring of the coming year two additional vessels will be added. But it may be regarded as a certainty that the same conditions will prevail.

ORANGES AND BANANAS.

The above conditions being inconvenient and unsatisfactory, and therefore undesirable, little advantage is taken of it. Jamaica oranges therefore which are transported to Canadian centres pass through 'middle men' in New York and other United States centres, which naturally result in greatly enhancing the cost, therefore hampering its popularity and consumption, with the inevitable consequence of restricting trade exchange between the colonies.

Referring to bananas, the situation is even more desperate ; for in compliance with an agreement of the Hamburg-American Co., with the shippers of Port Limon Fruit, the former is debarred in taking bananas from this island. And as all other banana steamers trading here with the various United States Ports, are exclusively loaded for owners or charterers account, it is clearly obvious that under present conditions the development of the fruit trade with Canada which would so incalculably bring about a mutual exchange of commodities is simply impossible.

Rapid steam communication, with its counterpart, economic transportation, bringing the fruit within the reach of the masses, have educated the citizens of the United States, in all stations in life, to regard the banana as fruit and food, while the orange is looked upon almost as a necessary of life. A similar process is now being proceeded with in the United Kingdom with more than a satisfactory outlook. Already it has been found necessary to duplicate the service, by the despatch of weekly cargoes. Similiar methods would within a very short time develop Canada's trade fourfold of its present consumption.

The United States government grants an American Steamship Company a subsidy of $50,000 for a weekly service between this and Boston for ten years. But which as a fact has now merged itself into almost a daily service, as a result of the phenomenal development of the trade which the shipping statistics of the island I have already drawn attention to conclusively demonstrate.

CANADIAN PACIFIC ENTERPRISE.

From a letter from a responsible source in Canada, which I have been afforded the opportunity of perusing, I believe that the superintendent of the Atlantic division, and the executive of the Canadian Pacific Railway have under their consideration the possibilities of promoting exports of Canadian products by their steamers to this island, returning with fruit and general cargoes.

I shall be only too glad to furnish the company with the most detailed particulars they may require, and can even at this moment give every assurance of ample dock facilities, and little fear of not obtaining return cargoes, providing in this latter the boats and conditions will fill requirements.

It is certainly encouraging to find that so great and powerful an organization as the Canadian Pacific Railway directing their attentions to Jamaica.

FRUIT TRADE LAW.

I am pleased to be able to report that a bill has been drafted on similar lines as the Canadian Fruit Trade Law, and which will possibly be put through the necessary stages at the regular annual meeting of the Legislative Council, which takes place in the early part of the coming year.

THAT RECIPROCITY CONVENTION.

As no doubt already learnt, on December 4, the President of the United States remitted to the Senate, among others, the Jamaica Treaty (drawn up some time ago) for extension of time limit.

On its being learnt that the treaties of Barbadoes, Trinidad, and British Guiana had been favourably reported on, on a 20 per cent reciprocity basis, it became evident that some clause in the Jamaica Convention must have been objectionable, and it certainly is not difficult to be assured it must have been that dealing with the entry of fruit.

The sugar planters, as it may well be understood, are urging the government to exercise some activity in the matter, and if necessary dilate the objectionable fruit clause, claiming that a 20 per cent off the duty on sugar in the States would mean to them twenty seven shillings a ton; and justify their suggestion by the statement that fruit already enjoys an annual subsidy of £20,000 per annum from general revenue.

In the course of a reply, however, to inquiries made of His Excellency the Acting Governor, as to the position the government will likely take to secure the ratification of the convention, the Acting Colonial Secretary stated—and it must be admitted with some truth—that 'there is some divergence of opinion as to the advisability of endeavouring to make such a treaty', but 'that all will be done that is practicable to safeguard the interests of the colony'.

CENTRAL FACTORIES.

The Central Factories Law, passed last session, which provided for the government's guarantee of capital as well as interest, in deference to Mr. Chamberlain's instructions will be amended at the next session of the council providing for the government guarantee of interest only, at 5 per cent. There has been already four applications sent in to the government, but only one will receive consideration, same being in compliance with Mr. Chamberlain's views.

CONFIDENCE IN THE FUTURE.

Apart from central factories, it is gratifying to note the confidence of independent proprietors in the future of the sugar industry by the steady stream of improved and expensive machinery arriving by the direct line and other steamers from abroad.

CONFEDERATION OR CLOSER COMMERCIAL UNION.

Within the last two or three months the above subject has fairly occupied the attention of thinkers, both in Canada and this island. The press of both colonies have taken up the subject warmly. The Westmoreland Sugar Planters' Association have also passed a resolution favourable to the idea.

Mr. W. Simpson McCormack, of this city, contributed several letters to the *Daily Telegraph* strongly advocating political confederation, failing which, Commercial Union.

In the course of Mr. McCormack's communication, he called attention to a fact which I consider in the interests of Canadian manufacturers and producers is worth reproducing, the moral of which cannot be but clearly obvious.

The correspondent correctly says : 'it is no secret to the commercial community to be told, for it is proverbial, that a considerable quantity of our import and export trade credited to the United States, in the one case, owes its origin to Canadian and other foreign manufactures, and in the case of export, they simply go via American ports as a matter of convenience of transportation facilities. Is it not known that 9-10th of the oats imported here is of the industry of the Canadian farmer; and what of split peas, soda and fancy biscuits, tallow, tin and enamelled ware, boots and shoes, organs, aluminum goods, knock down furniture, agricultural implements, rope and cordage, paints, lumber and other building materials, metallic roofing, canned goods, butter, cheese, bacon, hams, cereals, and flour also, and other food stuffs and manufactures.'

'But more, I have detected goods imported here from the English market, unquestionably to be of Canadian origin. And to verify this, one only has to look on the published manifest of the foreign shipping journals and note the manifold quantities of the articles shipped from Canada and consigned to well known manufacturers 'putters up' and shippers to these colonies, to be satisfied of the correctness of my statement.'

COTTON GROWING.

The practicability of remunerative cotton growing in the island is at present occupying considerable attention, and through the instrumentality of Sir Alfred Jones, the Cotton Growers' Association of Liverpool have granted £100, to assist in the experiment. The amount will no doubt be placed at the disposal of the Agricultural Society, and will probably be augmented by the funds at the disposal of the society, or a special grant from general revenue.

THE TOBACCO INDUSTRY.

A lively 'spurt' has recently taken place in the export trade of Jamaica cigars to the English Market. The Montpelier Factory and that of B. & J. B. Machado, and the 'La Paloma' manufacturers, as also other concerns receiving increased orders.

HONEY AND FRUIT PRESERVING FACTORY.

A company is being formed as above, with head quarters in Kingston. Shares have been freely taken both here and in the Mother Country. Sir Alfred Jones investing £1,000 in the concern.

THE TOURIST SEASON.

The tourist season may be said to be now on, and will unmistakably be a record one. I do hope many canadians will be numbered among the numerous visitors.

As it is evident, from comments and the criticism of a section of both American and European press, that a misconception exists abroad, to some extent, as to the Geography of these islands, and therefore the effects of the St. Vincent and Martinique volcanic eruptions on the West Indies generally, it may serve a very useful purpose to reproduce the following extract from the opening address of His Excellency the Acting Governor, Mr. Sydney Olivier, to the Legislative Council on November 4, last.

Referring to the tourist traffic and the efforts of Sir Alfred Jones to popularise the Island as a permanent recognised tourist resort, Mr. Oliver pertinently remarked :— 'Jamaica has no volcanoes, actual or extinct, and it has not been disturbed by a serious earthquake for more than 300 years. There are volcanoes near Naples and in Sicily. Both are less than half the distance from the Riviera than Jamaica is from Martinique

and St. Vincent, whose volcanoes have lately caused such awful, albeit purely local, devastation. Yet we are not aware that any winter tourist has ever hesitated to go to the Riveria because Vesuvius once destroyed Pompeii and the eruptions of Etna have often devastated the adjacent regions of Sicily.'

The health of the Island continues excellent. It is also gratifying to note that as a result of improved methods of sanitation there is a marked decrease in the average death rate of the Island as compared with previous years.

TRADE AND COMMERCE.

As a consequence of the increased exports, which is evident in almost every line of the products of the Island, increasing the circulation of money, and therefore the purchasing power of the people, there is a general revival of trade all round.

Canadian producers and manufacturers to make a vigorous and determined effort with all the business energy at their command, for what should be their proper share of the trade of this Colony.

Such a desirable consummation will unquestionably be an important contribution in fanning the embers of British unity, which unmistakably must one day burst forth in that comprehensive flame which is now stirring every British heart, namely, Imperialism.

I have the honour to be, sir,

Your obedient servant,

G. EUSTACE BURKE.

(B.)—INQUIRIES RELATING TO CANADIAN TRADE.

Since the publication of the last monthly report, there have been received at this department from the High Commissioner for Canada, London, England, and the Curator, Canadian section, Imperial Institute, London, England, the following inquiries relating to Canadian trade. The names of the firms making these inquiries, together with their addresses, can be obtained from this department, or from the office through which the inquiry was received.

Inquiries from the High Commissioner for Canada.

CANADIAN MANUFACTURERS OF FLOUR.

1. A London firm wishes to get into touch with new flour mills opening in Canada. (Reference No. 67.)

CANADIAN EXPORTERS OF CANNED GOODS, FRUITS, ETC.

2. A London firm engaged in the fruit trade is desirous of taking up Canadian canned goods, fruits, &c., and has asked to be referred to exporters in the Dominion. (Reference No. 67.)

CANADIAN MANUFACTURERS OF HANDLES, ETC.

3. Particulars are required of Canadian firms in a position to export hickory pick and hammer handles; ash, pine, spruce and bass-wood broom handles; ash hay-fork and rake handles; shovel stoms and D handles; lawn mowers and hay forks. (Reference No. 67.)

CAPITALISTS PREPARED TO INVEST IN WOOLLEN AND COTTON MANUFACTORIES.

4. Inquiry is made for capitalists who might be prepared to invest in a proposed manufactory for woollens or cottons in Canada. (Reference No. 67.)

ENGLISH, GERMAN AND AUSTRIAN MANUFACTURERS OF SILK.

5. A Montreal house asks to be furnished with addresses of English, German and Austrian manufacturers of silk for neckwear makers. (Reference No. 67.)

CONDENSED MILK IN UNITED KINGDOM.

6. A Canadian dairy company makes inquiry respecting the demand for condensed milk in the United Kingdom. (Reference No. 67.)

INQUIRIES RE AGENCY FOR CANADIAN PRODUCE IN SOUTH AFRICA.

7. Inquiries have been received from Commission Agents of Cape Town with connections throughout the Transvaal and Orange River Colony, who desire to obtain Canadian agencies for the sale of butter, cheese, poultry, bacon and canned goods generally. (Reference No. 67.)

Inquiries from the Curator, Canadian Section, Imperial Institute.

CANADIAN AGENCY FOR ELECTRICAL GOODS.

1. A company manufacturing electric fans, light specialties and other lines, asks to be placed in communication with first class Canadian firms prepared to act as the Company's Canadian resident agents. (Reference No. 33.)

CANADIAN PRODUCERS OF BLUE AND GREEN MARBLES.

2. An inquiry has been received for the addresses of Canadian producers of blue and green marbles, &c., suitable for decorative purposes. (Reference No. 33.)

CANADIAN MANUFACTURERS OF BOX SHOOKS.

3. A manufacturing company desires to hear from Canadian manufacturers of box shooks who can quote upon specification for prompt delivery. (Reference No. 33)

PRINCE EDWARD ISLAND SHIPPERS OF BLACK OATS.

4. A London house asks for names of Prince Edward Island shippers of black oats. (Reference No. 33.)

CANADIAN SHIPPERS OF TIMBER.

5. A manufacturer of spools and bobbins, in Ireland, with agencies in Austria and France, desires to obtain supplies of timber suitable for the production of those articles. (Reference No. 33.)

Note.—'Special' means in the case of Imports, 'Imports for Home Consumption,' in case of Exports, 'Exports of Domestic Produce and Manufacture.'

a The figures for Mexico include coin and bullion.

II. TARIFF CHANGES.

(A.)—UNITED KINGDOM.

I.—IMPORT DUTY RATE ON DEXTRINE.

(General Customs Order No. 79 of October 30, 1902.)

On and after 3rd proximo, imported Dextrine shall be charged with duty at the rate of 6½d. the cwt. on the net weight of the article.

II.—BONDING OF CERTAIN ARTICLES LIABLE TO DUTY UNDER THE FINANCE ACT, 1902.

(General Customs Order No. 82, of November 13, 1902.)

According to a decision of the Board of Customs the following articles may be warehoused in bond :—Rice, arrowroot, cassava powder and tapioca, mandioca or tapioca flour, sago, sago flour, quaker oats, rolled oats and articles of a like character; and macaroni, vermicelli and similar preparations of dutiable cereals.

The Board's directions are to be sought before goods claimed as falling within the category of 'articles of a like character' and 'similar preparations of dutiable cereals,' as indicated in the list, are admitted to the privileges of bonding.

III.—ORDER OF THE BOARD OF AGRICULTURE DATED NOVEMBER 10, 1902, REVOKING VARIOUS ORDERS RELATING TO THE LANDING OF ANIMALS FROM THE CHANNEL ISLANDS.

This order revokes, as from November 17, 1902, the different orders referring to the prohibition of importation of animals from the Channel Islands.

(B.)—BARBADOS.

I.—SURCHARGE OF 20 PER CENT ON IMPORT DUTIES.

(Act No. 38 of October 21, 1902.)

In addition to the customs duties levied under the Tariff Act, there shall be raised, levied and collected an additional duty of customs after the rate of twenty per centum on the amount of duty raised, levied, and collected under the provisions of the Tariff Act.

II.—DUTY-FREE ADMISSION OF CERTAIN MACHINERY AND APPARATUS.

(Act No. 34 of 1902.)

Machinery and apparatus imported for the purpose of manufacturing hard bread and crackers from imported flour are added to the list of goods exempted from duty on importation into this colony.

(C.)—BRITISH INDIA.

ALTERATION OP ADDITIONAL DUTIES ON BOUNTY-FED SUGAR, IMPORTED FROM FRANCE.

(Notification Finance and Commerce Department, No. 5502 S. R., dated October 16, 1902—Customs Circuler No. XV. of 1902.)

In exercise of the power conferred by subsection (2) of section 8A of the Indian Tariff Act, 1894 (VIII. of 1894, as amended by Acts III. of 1896, XIV. of 1899 and VIII. of 1902), and in supersession of the rates of additional duty on the kinds of sugar mentioned against France in the notification in this department, No. 5242 S.R., dated October 16, 1901; the Governor General in Council is pleased to declare that the rates shall be revised as follows, with effect from September 1, 1902: Provided that the rates hereby superseded shall apply to any imported sugar for which the bill of lading was signed and given before September 1, 1902:

Kinds of Sugar.	Bounties Bestowed.	Additional Duties to be Levied.
		Per Cwt.
		Rs. a. p.
Raw sugars from 65 to 98 per cent polarization for beet-root sugars, or 65 to 97 per cent for French colonial sugar	9·51 francs per 100 kilograms of refined sugar of 100 per cent of polarization*	2 13 11
Sugar candies	9·83 francs per 100 kilograms	2 15 6
Refined sugars in loaf or crushed, clear, hard and dry	9·83 " "	2 15 6
Raw and refined sugars in grains or crystals of a minimum standard of 98 per cent polarization	9·67 " "	2 14 9

* The output of refined sugar from raw is computed by deducting from the polarization of the raw sugar twice the glucose, four times the ashes, and one and a half per cent for loss in refining.

III.—COMMERCIAL AGENCIES.

The following Canadian Commercial Agents (whose addresses are given) will answer correspondence relative to commercial and trade matters, and give information to those interested as to local trade requirements in the districts they represent.

Such reports of general interest as have been received from them since the publication of the last monthly report of this department are appended.

J. S. Larke, Sydney, N.S.W., agent for Australasia.

James G. Jardine, Cape Town, South Africa, agent for South Africa.

G. Eustace Burke, Kingston, Jamaica, agent for Jamaica.

Robert Bryson, St. John, Antigua, agent for Antigua, Montserrat and Dominica

S. L. Horsford, St. Kitts, agent for St. Kitts, Nevis and Virgin Islands.

Edgar Tripp, Port of Spain, Trinidad, agent for Trinidad and Tobago.

C. E. Sontum, Christiana, Norway, agent for Norway, Sweden and Denmark.

A. D. Campbell, Buenos Ayres, agent for Argentine Republic and Uruguay.

A. Poindron, 10 Rue de Rome, Paris, agent for France.

In addition to their other duties, the undermentioned Canadian agents will answer inquiries relative to trade matters, and their services are available in furthering the interests of Canadian traders :—

J. G. Colmer, 17 Victoria Street, London, S.W., England.

Harrison Watson, Curator for Canadian Section, Imperial Institute, London, England.

G. H. Mitchell, 15 Water Street, Liverpool, England.

H. M. Murray, 52 St. Enoch Square, Glasgow, Scotland.

W. L. Griffith, Western Mail Buildings, Cardiff, South Wales.

C. R. Devlin, 14 Westmoreland Street, Dublin, Ireland.

D. Treau De Cœli, 75 Marché St. Jacques, Antwerp, Belgium.

(A.)—AUSTRALASIA.

Report of Commercial Agent.

(Mr. J. S. Larke.)

Sydney, N.S.W., December 30, 1902.

The Right Honourable
The Minister of Trade and Commerce,
Ottawa.

Sir,—The first three weeks of this month were signalized by remarkable monsoonal rains throughout nearly all the inhabited portions of Australia. They were not only heavy in many districts, but were repeated so that in places more rain fell in these three weeks than in the three years previous. It can scarcely be said that the drought has broken up, time alone can determine that, but it has greatly improved the prospects for the future. It has averted a water famine that threatened many towns and villages as well as stations, and has started the grass well growing in a large section of the droughty area.

FLOUR.

The immediate effect has been to decrease the price of feed stuffs and increase the price of flour. The millers for the past twelve months have been making their profit out of the high price of their offal, but the decline in the price of the latter has created a necessity for increasing the price of flour, and the local is now almost equal to the price of Manitoba flour. The latter has practically not increased in price in months. Considerable stocks were in bakers' hands who resold it below the cost of importation. The low rates of freight still offered from New York has also kept the price of the Canadian article to its relatively low figure.

GRAIN FREIGHT RATES.

The remarkable difference between the shipping rate for grain from Winnipeg via New York and via Vancouver, favouring the former port, still continues so great that it is hopeless to expect the large trade from Vancouver that was looked for. Quotations from Vancouver have been steadily underbidden here. An attempt to fill a sailing vessel with a cargo of wheat in December was a failure, but it is hoped that she will be filled in January. The regular steamers have full cargo, and they are unable to take all offering by that line, but until the freight rates to Vancouver from interior points are lowered, little beyond the steamer's capacity is likely to come. This is to be regretted, as it is a fine opportunity for making Vancouver a port of export for grain lost. Just now the market is pretty fully stocked with both wheat and flour, and the cargoes contracted for will keep it so for nearly six months, but more must come. The Manitoba flour is getting into the markets of all the States, a quantity having been shipped to Perth, Western Australia. It could come much cheaper from the East than via Vancouver and transhipment at Sydney.

AUSTRALIAN WHEAT YIELDS.

The earlier estimates of the Australian wheat yields are not known to be greatly overdrawn. In November the statistician of the Government of New South Wales placed the area saved for grain at 476,190 acres, but he now returns it at only 388,376 acres, out of 1,561,704 acres sown. But even so, he estimates the average crop upon that less than one-fourth of the area sown at only 3·6 bushels to the acre, which is far below the previous worst on record. The year 1888 was the worst season of the previous thirty years, but then the yield was $4\frac{3}{4}$ bushels to the acre, and the crop larger than the estimate of the present one. The yield for three years is :—

	Acres Sown.	Acres Reaped.	Bushels Threshed.	Bushels per Acre
1900	1,862,752	1,530,609	16,173,771	10·6
1901	1,704,612	1,392,070	14,808,705	10·6
1902	1,561,704	388,376	1,411,219	3·6

Instead of nearly three million bushels, as the sanguine estimated, New South Wales will require the equivalent of about nine million bushels in wheat and flour.

Victoria shows a better return. The acre sown was stated to be 2,068,400. Of these 1,439,275 failed or was fed to stock, and the remainder has yielded four and a half bushels per acre or about three million bushels. This state will require to import about three million bushels. South Australia can supply a surplus possibly equal to the requirements of Queensland and Western Australia.

NEW ZEALAND WHEAT RETURNS.

New Zealand so far makes a much better showing. The official returns of the acreage under crop show a net increase of 104,181 acres. The area under wheat for

threshing is 194,274 acres, an increase of 30,812 on last year. Oats: for threshing, 481,462 acres, an increase of 75,537; for chaffing, ensilage and feeding, 204,760 acres an increase of 5,252. Barley, 2,187 acres; maize, 13,433 acres. As antic a is a considerable shrinkage of the quantity of grain on hand, the figures for wheat being 1,230,785 bushels, a decrease of 1,951,222; oats, 1,715,429 bushels, a decrease of 1,055,857 bushels. In view of the reduced stocks there will not be a large surplus of wheat to export, though she should spare a million and a half bushels of oats.

It would appear that three hundred thousand tons of wheat and flour will be needed in Australia, exclusive of other breadstuffs, and it is probable that about one-half of this amount has been contracted for. There is, therefore, a possibility for large shipments as yet from Vancouver if the freight facilities are improved. I am afraid it is too late to do much in oats, except some for milling purposes. Of course should the drought continue there will be a demand beyond even the capability of New Zealand to supply. A million bushels could have been sold for delivery, but the changing quotations sent here and the uncertainty of getting delivery lost the market. In April there may be a demand, and if so I will if necessary advise by cable.

FOODSTUFFS.

Other foodstuffs require but little notice. Potatoes have maintained a very high figure warranting large shipments from British Columbia, but as no space could be had on the steamers nothing could have been done. At one time a lot equal to those received here could have been sold at $40 to $50 per ton. Peas, beans and malting barley continue high. Efforts to get quotations and samples from Canada have been unsuccessful. In view of the high price of beans in Canada it is doubtful if any business can be done in them here.

APPLES

Some Canadian apples arrived here in October, and orders were given for two hundred cases. The shipment arrived by the last steamer, hut were infinitely below the samples shown and were about half rotten. The consignee refused to take delivery, and the result must be a considerable loss. It is claimed that the fruit sent was not Canadian but United States apples reshipped at Vancouver. It is an unfortunate thing that such a shipment should have been made, as it is an injury to what should be an annual business.

FROZEN PIGS.

Some frozen pigs arrived in good condition, but, though shipped from Canada, were from the United States. It is claimed that succeeding steamers will bring Canadian. Offerings from Chicago keep the price down to about 13 cents C. I. F. & E. I believe the demand will continue throughout the next year. I notice that Canadian newspapers in quoting the Australian tariff place a duty of a penny per pound on frozen meat. There is this duty on meats preserved in any other way than by the cold process, but frozen is free.

MANITOBA FLOUR.

The sale of Manitoba flour is not only extending to all the states of the commonwealth and New Zealand, but I have hopes of getting it into the Pacific Islands. It is already known in Suva, but there are large sales of flour made here for New Caledonia, New Guinea and other islands. Much of the trade is for very low grade, commonly known as Sharps. Canada should be able to supply this as well as patent from No. 1 Hard Manitoba. The demand for general merchandise from these islands is yearly growing, and Canada should secure a share of this trade.

TRADE IN THE PACIFIC ISLANDS.

The Commercial Agent of the Government of New South Wales who has visited Eastern Siberia has this paragraph in a recent report which may be of interest to Canadian manufacturers :—

'In consequence of the United States having imposed a duty on Russian sugar, Russia has retaliated by imposing an extra 50 per cent duty on all goods from the United States, so that the extensive import of machinery of all kinds, which has obtained for some years past, is now practically stopped. The firms of Messrs. Clarkson & Co., and Tilhuan & Co., of Vladivostock, have been the principal importers in the past, and I would advise the engineers, foundries, boilermakers, &c., at your end to at once send their catalogues to these firms, who now look to import from England and Germany. A large trade in agricultural implements is done by American merchants with Eastern Siberia. If the makers in New South Wales can compete with the Americans, then they had better send their catalogues to the firms whose names I have given above, and to Messrs. Kunse & Albera, Vladivostock, and to Messrs. Emery & Co., of Blagovestchensk.'

OPPOSITION TO FOREIGN WORKMEN.

Some trouble has arisen over the arrival of a dozen hatters from England under contract to a Sydney manufacturer, and their landing was opposed by the labour union on the ground that their doing so would be a contravention of the Immigration Restriction Act. After some negotiations they were permitted to land. The clause of the Act reads :—

'The immigration into the commonwealth of the persons described in any of the following paragraphs of this section (hereinafter called 'prohibited immigrants') is prohibited, namely :—

'*(g.)* Any persons under a contract or agreement to perform manual labour within the commonwealth. Provided that this paragraph shall not apply to workmen exempted by the Minister for special skill required in Australia, or to persons under contract or agreement to serve as part of the crew of a vessel engaged in the coasting trade in Australian waters, if the rates of wages specified therein are not lower than the rates ruling in the commonwealth.'

Occasionally Canadians have come here under conditions that would have brought them under the terms of this Act. In the future it would be advisable to get permission of the government of the commonwealth to land before leaving Canada.

SYDNEY WOOL SALES.

The Sydney wool sales have closed for 1902. The number of bales catalogued from June to December was :—

1901	295,864
1902	181,637

Showing a decrease of 114,227 bales. It is estimated that the total production of wool in Australia will fall short of last year by three hundred thousand bales or nearly 20 per cent. Owing to the small lambing this year, and the number of sheep which perished since shearing, it is feared that the production next year will be below that of this. In such case the high prices obtained and likely to be obtained will be a considerable compensation.

I have the honour to be,

Your obedient servant,

J. S. LARKE.

(B.)—NORWAY, SWEDEN AND DENMARK.

Report of Commercial Agent.

(Mr. C. E. Sontum.)

Christiana, Norway, January 8, 1903.

The Right Honourable
The Minister of Trade and Commerce,
Ottawa.

Sir,—I herewith have the honour to forward report for the quarter ending December 31, 1902.

Trade in general has continued slack during the past year, which is only a natural consequence of the poor times since the financial crack three years ago, and also on account of the very small crops harvested last year in both of the Scandinavian countries. In the northern part of Sweden the entire crop failure has caused a famine, which only partly can be reduced by large government and private donations.

The depression in the freight market also makes a great difference in the amount of remittances which the shipowners receive.

The industries which supply the home market have had a poor year, probably worse than in 1901, and as building operations have been greatly curtailed and log felling will be restricted also the coming winter, the number of unemployed is unfortunately large. The outlook is thus not a cheerful one, and a revival of trade is not to be expected for some time.

WOOD GOODS EXPORTERS.

The Swedish, Finnish and Norwegian wood goods exporters decided in the autumn of 1901 to reduce their log-get during the following winter by upwards of 40 per cent. In Norway the actual reduction has been found to be 35 per cent. This step had become a necessity, because prices had been demoralized under the weight of the excessive production. Neither could the forests for any length of time have suffered such a depletion. Stocks are now very small and fair prices are obtained.

WOOD PULP.

Wood pulp which in the beginning of 1902, sold at 35 kr. ($9.33) for good ordinary brands of moist mechanical advanced as high as to 40 kr. ($10.67) during the month of March, but has later gradually dropped until recently sales have been made at 29 kr. ($7.60).

Cellulose has been a bad market all through the year, and the price has been declining almost constantly until the position has now become worse than anybody in this trade can remember. I mention the above facts, as it may possibly be of interest to the Canadian exporters in these lines to see just how the market stands at present.

COD FISHERIES.

The returns of the cod fisheries for the past year amount to about 44,000,000 of cod as compared with 40,000,000 in 1901 and about 53,000,000 averagely for the preceding ten years.

RUBBER SHOES.

During the past quarter my firm has besides other Canadian manufactures also had a first trial shipment of about forty cases of rubber shoes from a Canadian rubber

manufacturer. If the prices compare favourably with prices on some kind of goods from United States manufacturers, further and larger business will no doubt result. As to quality, I am perfectly satisfied that the Canadian goods will stand comparison. On account of the heavy duty only lighter and finer grades can be imported to advantage.

NEW INVENTION.

Mr. T. A. Fidjeland, the gunmaker, who is well known outside of this country on account of his late patents for rifle construction, has recently made another invention, which according to the judgment of professionals, is very practical, and which will no doubt be of interest also in Canada. It is a stream motor, which is put in movement by being placed in running water. It frequently happens that there is a river where the stream is strong, but where the fall is divided on a longer distance, so it would be connected with large expences to build a dam or put up turbine pipes. Mr. Fidjeland's invention will save such constructions, when it is desired to procure power at a small expense. His stream-motor, which is constructed similar to a common three-bladed steamship propeller, is placed in the stream and is turned around by the pressure of the running water.

PRACTICAL USE OF INVENTIONS.

Mr. Fidjeland has found out that by placing several such propellers on one axle in a proper distance from each other, the power is multiplied. In this manner sufficient power may be realized for running smaller saw-mills, factories, electrical light plants, threshing machines, &c. The inventor has, since the patent became known, received hundreds of orders from farmers and others, who have seen his own motor at work at his factory. The motors are in every instance said to work very well and give entire satisfaction.

I have the honour to remain, sir,

Your obedient servant,

C. E. SONTUM.

IV.—GENERAL COMMERCIAL INFORMATION.

(A.)—IMPORTS OF PRINCIPAL FOODSTUFFS INTO GREAT BRITAIN.

(B.)—INQUIRIES RELATING TO CANADIAN TRADE.

Since the publication of the last monthly report, there have been received at this department from the High Commissioner for Canada, London, England, and the Curator, Canadian section, Imperial Institute, London, England, the following inquiries relating to Canadian trade. The names of the firms making these inquiries, together with their addresses, can be obtained from this department, or from the office through which the inquiry was received.

Inquiries from the High Commissioner for Canada.

INQUIRY *re* THE SALE OF TABLE SAUCERS IN CANADA.

1. The makers of table saucers make inquiry respecting the sale of their manufactures in Canada. (Reference No. 68.)

CANADIAN EXPORTERS OF CANNED LOBSTERS, FRUITS, FLOUR, ETC.

2. An old established firm of commission merchants in London with an extensive London and British connection would like to be placed in communication with one or two good firms of exporters of canned lobsters, fruits, flour, bacon, hams, cheese, &c. (Reference No. 68.)

CANADIAN IRON AND METAL FOUNDERS.

3. The manufacturers of moulding and core making machines ask to be placed in communication with Canadian iron and metal founders. (Reference No. 68.)

CANADIAN IMPORTERS OF HATTERS' FUR AND MATERIALS.

4. A manufacturer of hatters' fur and materials (trimmings) contemplates opening up a trade with the Dominion, and asks for information regarding the trade. (Reference No. 68.)

CANADIAN MANUFACTURERS OF FOOD PRODUCTS, AGRICULTURAL MACHINERY, ETC.

5. A Johannesburg firm is desirous of taking up agencies for Canadian exporters of food products, agricultural machinery, &c. (Reference No. 68.)

AGENCY IN CANADA FOR BRITISH MANUFACTURES OF DRY GOODS.

6. A selling agent in Montreal is open to represent British manufacturers of the following lines:—Linen and other threads, twines, thread or leather boot and shoe laces, hosiery, woollens, dress goods, quilts. (Reference No. 68.)

CANADIAN SHIPPERS OF FLOUR, CHEESE, ETC.

7. A commission agent in Belfast, with excellent Irish connections, would like to hear from Canadian shippers of flour, cheese, hams, fruit, canned goods, hay, &c., also from manufacturers of furniture, who desire to be represented in Ireland. (Reference No. 69.)

AGENCY FOR CANADIAN WOOD OVERMANTEL MAKERS.

8. The agency in the United Kingdom for a Canadian firm of wood overmantel makers is wanted by a person qualified to undertake this business. (Reference No. 69.)

CANADIAN SHIPPERS OF HAY AND OATS.

9. The names of some reliable Canadian shippers of first-class hay and oats are required by a North of England correspondent who is also interested in the wood-pulp business. (Reference No. 69.)

CANADIAN EXPORTERS WISHING REPRESENTATION IN LONDON, E.C.

10. Application has been made for a list of provision and flour exporters in Canada who require representation in London. (Reference No. 69.)

CANADIAN MANUFACTURERS OF CIDER AND PERRY.

11. A firm of cider and perry merchants desires to get into touch with Canadian manufacturers of cider who may wish to find an outlet for their product in the United Kingdom. (Reference No. 69.)

SCRAP IRON AND STEEL DEALERS.

12. A correspondent in Ontario will be glad to hear from dealers in scrap iron and steel, with price per gross ton delivered in Canada. (Reference No. 69.)

CANADIAN SHIPPERS OF CANNED EGGS, APPLES, ETC.

13. A Glasgow firm has asked to be referred to one or two shippers of canned eggs from Canada, inquiries for these being frequently made by bakers and confectioners. The packages should run from 7 lbs. to 14 lbs. and 28 lbs. The same house is prepared to take gallon apples, dried apples, and other preserved fruit. (Reference No. 70.)

AGENCY IN CANADA FOR TUBULAR RIVETS, STUDS, ETC.

14. A London firm manufacturing tubular rivets and lacing studs for boots and shoes, contemplate appointing an agent to represent them in the Dominion. (Reference No. 70.)

CANADIAN MANUFACTURERS OF FLOUR AND CHEESE.

15. A firm which buys for the South African market asks for quotations for Canadian flour and cheese. (Reference No. 70.)

CANADIAN EXPORTERS OF FOODSTUFFS.

16. A Bordeaux firm is open to take the French agency of Canadian exporters of foodstuffs and articles for every-day use. (Reference No. 70.)

CANADIAN SHIPPERS OF CANNED GOODS ALSO IMPORTERS OF CANNED PINES, ETC.

17. A west of England house has asked to be furnished with names of canners of fruits and meats in Canada who require representation in Great Britain. It also wishes to correspond with Canadian importers of canned pines and pine chunks. (Reference No. 70.)

CANADIAN EXPORTERS OF PRESERVED FRUITS.

18. Inquiry has been made for addresses of first-class exporters in Canada of preserved fruits for jam manufacturing. (Reference No. 70.)

CANADIAN FIRMS WISHING REPRESENTATION IN ENGLAND.

19. A gentleman in the north of England, having a large and old established connection and offering good references, desires to hear from Canadian firms seeking a market in his district. (Reference No. 70.)

CANADIAN EXPORTERS OF FOODSTUFFS.

20. A Glasgow correspondent who has opened a business in imported dairy produce wishes to get into touch with some large exporters in Canada of eggs, butter, canned and fresh meat, &c. (Reference No. 71.)

CANADIAN FIRMS WISHING REPRESENTATION IN HOLLAND.

21. An Amsterdam house is desirous of hearing from Canadian firms wishing to be represented in Holland. (Reference No. 71.)

AGENCY IN CANADA FOR OIL ENGINES.

22. The manufacturers of a line of oil engines are looking out for a good agent able to push the sale of such engines among agriculturists in Canada. (Reference No. 71.)

AGENCY IN CANADA FOR ENGLISH HOUSES.

23. A commission merchant, with good business experience in Montreal, desires that his address may be furnished to English houses requiring an agent in Canada. (Reference No. 71.)

ENGLISH MANUFACTURERS OF STATIONERY, TOYS, CUTLERY, ETC.

24. A Winnipeg firm dealing wholesale in stationery, toys, cutlery, small wares and notions, proposes to send a buyer to England very shortly and asks to be furnished with addresses of important manufacturers in these lines. (Reference No. 71.)

Inquiries from the Curator, Canadian Section, Imperial Institute.

CANADIAN IMPORTERS OF IRISH MOSS.

1. A Dublin house seeks to develop trade in Canada in Irish moss and asks to be placed in communication with importers of the article. (Reference No. 34.)

CANADIAN SHIPPERS OF MICA.

2. A Yorkshire firm desires the addresses of Canadian shippers of mica. (Reference No. 34.)

AGENCY FOR CANADIAN ELECTRICAL GOODS.

3. A London firm possessing experience and claiming a good trade connection wishes to act as agents for Canadian manufacturers of electrical goods seeking to develop trade in the United Kingdom. (Referenee No. 34.)

CANADIAN MANUFACTURERS OF CARBIDE OF CALCIUM.

4. A London house asks to be placed in touch with Canadian manufacturers of carbide of calcium who are in a position to contract for regular export shipments. (Reference No. 35.)

CANADIAN PRODUCERS OF GRAPHITE AND BARYTES.

5. A London firm desires addresses of Canadian producers of graphite and barytes. No. 35.)

CANADIAN MANUFACTURERS OF BUTCHERS SKEWERS.

6. An inquiry has been received for the names of Canadian manufacturers of butchers skewers. (Reference No. 35.)

CANADIAN FLOUR MILLERS.

7. An Irish firm wishes to be placed in touch with a few of the leading Canadian flour millers. (Reference No. 35.)

INQUIRY *re* SALE OF WIRE ROPE FOR YUKON DISTRICT.

8. Inquiry has been received for the names of firms likely to take up the sale of wire rope for the Yukon district, or for addresses of British Columbia houses doing business in that district. (Reference No. 35.)

EXPORTERS OF HORSE HAIR.

9. Inquiry has been received for firms in Canada wishing to take up the export trade in horse hair. (Reference No. 35.)

Note.—'Special' means in the case of Imports, 'Imports for Home Consumption,' in case of Exports, 'Exports of Domestic Produce and Manufacture.'

a The figures for Mexico include coin and bullion.

* Figures are for the Years 1901, 1902 and 1903.

II---NEW TARIFFS.

During the month under review there have been distributed from this department to all the principal Customs-houses and Boards of Trade throughout the Dominion, copies of all foreign and colonial tariffs and supplements thereto, as furnished during that period by the International Customs Tariff Bureau, which are always available for reference by those interested therein, resident at the principal centres of trade. The following British and Colonial are supplemental to those published in the departmental Annual Report, 1893, and the quarterly and monthly reports since published, and comprise all additions thereto or changes therein, so far as the department has authentic advice.

ANTIGUA.

Ordinance No. 3, 1903.

(Assented to on January 8, 1903.)

The present ordinance repeals the Customs Tariff Ordinance, No. 8 of 1901, and the Additional Duty Ordinance, No. 1 of 1902, but at the same time provides for the imposition of duties on goods imported into the Presidency of Antigua, as well as for drawbacks upon goods exported therefrom.

The ordinance may be said to consolidate, to a large extent, the rates imposed by the tariff ordinances previously in force, and it is to remain in operation to December 31, 1903, and thenceforth to the next meeting of the Legislative Council. The tariff of import duties is now given *in extenso* for the purpose of reference :—

FREE LIST.

All samples not of saleable value, of manufactured and other goods, and all articles intended for exhibition only, and not for sale, which the treasurer in his discretion shall allow to be imported, and subject to any rules that may be made.

Goods, being the growth, produce or manufacture of, or raised in any of the islands comprising the colony of the Leeward islands and goods upon which duty shall have already been paid in any Presidency of the colony, except Dominica, with certain provisos.

* Consular articles imported for the official use of the Consulate, of any foreign country or place, provided that a similar privilege in respect of similar articles is accorded by the laws and customs of such foreign country or place to H. M. Consulate therein.

* Naval stores for the use of the Admiralty.

* Public worship and education, articles specially imported for, viz.:—musical instruments of all kinds, lamps, bells, wine and ornaments, and all furniture and articles to be used in the celebration of divine worship, and all goods imported for the use or repair of churches, chapels and duly certified school houses.

* Shipbuilding materials and accessories of all kinds when imported for the construction, equipment or repair of a specific vessel above five tons burden, except rope and cordage of all kinds, including wire rope.

* Steam engines and steam pipes, boilers and boiler tubes, firebars, machinery and apparatus, whether stationary or portable, for agriculture, irrigation or mining, and all necessary parts and appliances for the erection or repair thereof, or for the communication of the motive power thereto, when not imported for sale.

* Stores of every description imported or supplied for the use of H. M. land and sea forces, military uniforms, accoutrements and equipments imported with the authority of the commanding officer by members of the Defence Force for their own use, all goods or stores imported by the St. John's city board for municipal purposes of the board, and all things imported by or supplied for the use of the governor.

If any goods on which duty has been paid at the time of importation be subquently supplied to or for the use of the Governor, or H. M. land and sea forces, the amount of duty paid on the goods so supplied, shall be repaid out of the treasury upon the warrant of the Governor.

* Surgical instruments and appliances imported for the use of the importer.

* Triple effect for manufacturing sugar, all multiple effect machinery and materials, appliances and plant and parts thereof required to erect or enlarge or improve a factory wherein a multiple effect is installed.

Animals, sucking.

Baggage, personal, of passengers, containing apparel and articles of ordinary use.

Books, printed, pamphlets and printed matter; bullion; eggs; fertilisers of all kinds and manures; fish, fresh or on ice; forage; fruits and vegetables not being preserved, except potatoes other than sweet potatoes; furniture for owner's use—the property of persons coming to reside in the Presidency which is imported by them for their personal use and which has been in their use for not less than one year previously to the importation thereof; goats; gold in bars, plate or wire; ice; maps and charts; music printed; packages, viz., boxes, barrels, crates, and inner packages of all kinds, also packages and coverings (except butts, puncheons, hogsheads, tierces and trunks) in which goods are actually imported and returned packages which have been exported with molasses therein; plants, shrubs and seeds of all kinds for planting; poultry.

Repairs.—Articles or goods which are exported for repairs or alteration and are subsequently reimported, provided that notice of the intention to export such articles or goods was given to the treasurer at the time of exportation.

---

*In these cases the importer is required to furnish a certificate to the treasurer specifying the particular purpose for which the goods have been imported, and also stating that they will not be disposed of for any other purpose without the consent of the treasurer.

Salt; sheep; specimens illustrative of natural history; swine; tombstones, tablets and railings for graves; turtle; vegetables, green, other than those specified.

Workmen's tools and professional apparatus when brought by a passenger for his own use.

It is also provided that where any goods imported at one time of a total invoice value of 50*l.* or upwards have been damaged in transit, the treasurer may allow a rebate of duty proportionate to the damage done to be recovered on an ad valorem equivalent which is set out in the ordinance.

Provision is also made (subject to certain conditions) for a drawback of duty to be allowed on the exportation of imported dutiable goods.

III.—COMMERCIAL AGENCIES.

The following Canadian Commercial Agents (whose addresses are given) will answer correspondence relative to commercial and trade matters, and give information to those interested as to local trade requirements in the districts they represent.

Such reports of general interest as have been received from them since the publication of the last monthly report of this department are appended.

J. S. Larke, Sydney, N.S.W., agent for Australasia.

James G. Jardine, Cape Town, South Africa, agent for South Africa.

G. Eustace Burke, Kingston, Jamaica, agent for Jamaica.

Robert Bryson, St. John, Antigua, agent for Antigua, Montserrat and Dominica.

S. L. Horsford, St. Kitts, agent for St. Kitts, Nevis and Virgin Islands.

Edgar Tripp, Port of Spain, Trinidad, agent for Trinidad and Tobago.

C. E. Sontum, Christiana, Norway, agent for Norway, Sweden and Denmark.

A. D. Campbell, Buenos Ayres, agent for Argentine Republic and Uruguay.

A. Poindron, 10 Rue de Rome, Paris, agent for France.

Peter B. Ball, agent for Birmingham, Birmingham, England.

In addition to their other duties, the undermentioned Canadian agents will answer inquiries relative to trade matters, and their services are available in furthering the interests of Canadian traders :—

W. L. Griffith, 17 Victoria Street, London, S.W., England.

Harrison Watson, Curator for Canadian Section, Imperial Institute, London, England.

G. H. Mitchell, Newton Chambers, 43 Cannon St., Birmingham, England.

John Webster, 52 St. Enoch Square, Glasgow, Scotland.

Alfred Jury, Old Castle Buildings, Preeson's Row, Liverpool, England.

C. R. Devlin, 14 Westmoreland Street, Dublin, Ireland.

Edward O'Kelly, 13 Queen's Square, Belfast, Ireland.

D. Treau De Cœli, 75 Marché St. Jacques, Antwerp, Belgium.

(A.)—AUSTRALASIA.

Report of Commercial Agent.

(Mr. J. S. Larke.)

Sydney, N.S.W., January 24, 1902.

The Right Honourable
The Minister of Trade and Commerce,
Ottawa.

Sir.—The rains of November and December have been followed by exceedingly hot weather with scorching winds, which undid the advantages of the rain in many sections of New South Wales. The growing grass has withered and the maize crops shrivelled as by a flame. The other States have not suffered to the same extent. If good rains should fall during the next week, and in February, a great spring of grass will follow and to a large extent the damage will be repaired.

WHEAT AND FLOUR.

The experts are still estimating as to the Australian wheat crop, but the latest figures confirm the view taken in my report of the first of December last, that Australia

would require about ten million bushels to supply its demand. It is supposed that about 130,000 tons of wheat and flour have been ordered, leaving about 170,000 tons yet to be bought. Nearly all the flour purchased is strong wheat flour, but the wheat is largely softer wheat from California. The causes contributing to this is that the local mills are equipped better for grinding the soft wheat, and the offal is more valuable than that from Manitoba hard. The mixture used for bread is about one-third or one-fourth Manitoba flour, balance from soft wheat, and it is easier to mix the flour than to grind hard and soft wheats together. The anomaly noticed in my last report that the space of the regular steamers has been taken for months ahead continues, and yet it is difficult to get loading for an extra ship. This is due to the fact that New York is a cheaper port in which to buy Manitoba wheat, and flour made from it in United States mills, than Vancouver. There is a growing hesitation to attempt business via Vancouver, from the lack of success of experiments made, and some errors committed both here and in Vancouver, but the whole of the blame here is shouldered on the Canadian firms. Large orders yet must be given during the year, and I trust that circumstances will be changed so as to favour the Canadian ports on the Pacific getting a good share of them.

OATS.

A good deal of inquiry both by letter and cable has characterized the past month, but I fear it is too late to do much now. So far the market has been, as my cable of November indicated 'firm till March'. They have risen in price, and for best oats a dollar per bushel has been paid. No quantity can be obtained here from Canada until after March, and when the New Zealand oats come into this market—as they will in March—a heavy reduction in price is expected. The data for calculating the prospects of the market throughout the year are not at hand, but the position just now appears to be that New Zealand will reap sixteen per cent more acres this year than last, but the yield will not be quite so good. She expects a harvest of sixteen to eighteen million bushels. She could if necessary spare about eight million bushels. In 1901, out of a somewhat larger yield, she exported ten and a half million bushels, of which over eight millions went to South Africa, and less than two to Australia. The Australian harvest of 1900-1 was twelve million bushels, this is 'guessed' at six and a half million bushels. Apparently the New Zealand surplus will about meet the Australian requirement. But the Australian maize crop is likely also to be a short one, to what extent is not yet clear. It is reasonable to fear that it may be at least three million less than 1900-1. So will the crop of wheaten and oaten hay, and even if the grass be good the shortage in maize must be made up in hay or oats, and the problem is whether it is to come from Argentine as maize or Canada as oats. Argentine maize is not a first-class article. It is quoted here, duty paid, 4s. 5d. as against 5s. 3d. for good local. Oats are quoted at 3s. 6d. to 4s. 1d. per bushel. It is possible, therefore, that towards the close of the year there may be an opening for a considerable quantity of Canadian oats, but unless there is a poorer crop both here and in New Zealand than is now looked for, there is not much hope until that time.

PREJUDICE AGAINST DIRECT TRADE.

I have alluded to errors which have created a disinclination in some circles to do business with Canada direct. One of these told me that an Australian firm bought a quantity of oats to come by steamer and sent a letter of credit. On receiving the money the Canadian firm found that no space was available on the steamer, and without consulting the buyer shipped by a sailing vessel, which may come here late in March or April. The firm are likely to be compelled to sell at a loss. If this be the case, the Canadian firm has paid no attention to the conditions here, and has blundered (with the best of intentions, no doubt) and thereby created a prejudice against direct trade. This is not applicable all, for there are firms against whose methods of doing business not a complaint has been heard. It illustrates the necessity of studying the conditions

here, and never varying the implied terms of a contract without the consent of the purchaser.

FROZEN POULTRY.

Over ten tons of frozen turkeys and geese arrived here from Smith's Falls by the *Aorangi*. It was perfectly preserved and as sweet as when killed. As a whole it was a very nice lot, a few birds, however, being thin. A morning newspaper said of it:—

'A striking commentary on all our talk of a poultry and other meat export trade was witnessed through the Sydney streets during the past week in the form of a number of lorry loads of frozen pork, turkeys and geese being conveyed from the Canadian steamer to a city cold store. On Saturday last a number of the turkeys were displayed in a King street poulterer's shop, and a splendid sight they were. There have been larger turkeys put on the Sydney markets locally, but the quality of the Canadian outclasses anything yet seen in a Sydney shop. They are birds of, say from 10 to 14 lbs. each, back as well as breast showing a wealth of meat, and which was only brought about by the most careful feeding, as opposed to the system in this state of allowing the turkeys to wander in search of their own living. The birds are offered at 1s. 6d. per lb. retail, a price below that obtaining in Sydney prior to Christmas, and had these importations been available at such time a speedy clearance would have been effected.'

They justified this opinion. Nevertheless there were some criticisms. Some of the turkeys had been plucked badly, large strips of the skin having been torn away in the act. One of the finest birds in the shipment had a strip as large as the palm of a hand thus stripped. This careless work damages the value of the turkey. When four or five dollars are paid for one, appearance is an important element to be considered. The packing cases, though of the right shape, were light. They were scarcely strong enough for the long distance, and should have been reinforced by a wire fastened tightly around each end. A few broke on the way, but not very badly. The Australians who have had experience in long distance transportation, pack poultry in cases very much the shape of the Canadian, but they are lined inside with thin cotton, which, though permeable to the air, stop a good deal of the dust. The broad top and bottom have each an extra layer of cotton with parchment or grease proof paper between. This protects the birds and adds to their appearance at the sale rooms. The openings in the sides are said to be sufficient for the circulation of cold air in the cool chambers. The superiority of the turkeys to the Australian at Christmas time will make shipments for the holiday season profitable for some years to come. For the three years during which I have endeavoured to get such a trade initiated, it certainly would have been profitable.

FROZEN HOGS, &c.

Orders have been given to Canadian firms for continued shipments of frozen hogs. The shipment by the last steamer has been declared by the buyer superior to the hogs from Chicago, though some of them were rather heavy. Owing to the limited space in the cool chambers of the Pacific steamers, shipments have been made from Chicago via New York and England to Australia. Prices are, therefore, kept down to twelve to thirteen cents C. I. F.

Barley, peas and beans are still high, but I have not succeeded in getting a sample from Canada.

PACIFIC CABLE.

Though the cable is getting a good deal of business, it is not getting its full share. As the result of having the special use of land lines and the right to open its own office in this city, the Eastern Extension Company register cable addresses free, while the Government Telegraph Department still charges 2s. 6d. per month or 10s. 6d. per annum for such registration. The Eastern Extension is therefore getting the business

of firms which, were it not for this tax, would send their business over the Pacific Cable. A still greater hindrance to the increase of business is that Australian firms are not aware whether their foreign correspondents are registered with the Pacific Cables agents. They know that they are with the Eastern Extension, and send their messages accordingly. The difficulty respecting sending time of receipt of cable has been overcome. With these exceptions the service is well spoken of.

I have the honour to be,

Your obedient servant,

J. P. LARKE.

SOUTH AFRICA.

Report of Commercial Agent.

(Mr. J. G. Jardine.)

22 & 23 Huguenot Buildings,
Queen Victoria Street,
Cape Town, Jan. 13, 1903.

The Right Honourable,
The Minister of Trade and Commerce,
Ottawa, Canada.

Sir,—Now that Mr. Chamberlan and the Rand Magnates have finally arranged to the satisfaction, at any rate, of the Transvaal, their percentage of the war debt, it is confidently expected that the new colonies will advance with rapid strides, and business everywhere will greatly improve, and that before very long the Cape, Natal, Transvaal, Orange River Colony and Rhodesia will be incorporated into a united commonwealth. The first step leading to federation will be the formation of a customs union. The Cape Colony imposes heavy duties on food stuffs, about $4,000,000 of taxes alone last year were collected on the necessaries of life, a crushing burden to the middle and working classes of the Cape.

PROPOSED CUSTOMS UNION.

The Transvaal Government by their new tariff has done much in the direction of lower duties and the Government of Cape Colony is at last willing to discuss a customs union with her sister colonies. Sir Gordon Sprigg, the Prime Minister, himself is in favour of working on similar lines to Canada's preferential tariff, favouring the Mother Country and giving a preference to the Empire at large.

SEABOARD FREIGHT.

The railway companies are now in a position to move freight from the sea board more expeditiously. This is proving a great benefit to the business community generally.

MORE CANADIAN GOODS WANTED.

In timber, flooring and ceiling boards, doors and window sashes, railway sleepers, &c., the supply is not equal to the demand. A very largely increased want for strong,

medium priced, household furniture and office requisites has arisen and inquiries are coming in for the names and addresses of Canadian manufacturers in these cheaper grades. Our Canadian timber and furniture manufacturers should take note of this fact. In the more expensive furniture including musical instruments and pianos I am told the stock on hand is greater than the sales warrant.

ARRIVAL OF CANADIAN GOODS.

The ss. *Melville*, the second of the Canadian direct line reached Cape Town, January 1, bringing a full cargo consisting of flour, grain, butter, cheese, deals, timber, bran, pease, apples, poultry, canned meats, vegetables, lobster, fodder, sole leather, organs, church sittings, shoes, roofing, railway ties, stoves, earthenware, linotypes, furniture and office desks, carriages and buggies. The perishable goods, including apples, arrived in excellent condition, and are likely to lead to increased exports of these and other articles from Canada. Unfortunately the *Melville* had to await her turn for dockage accommodation, and it will be a few days yet before she leaves for East London and Durban ports. We are daily looking for the arrival of the third vessel, reported to have left St. John, December 18, with a full cargo of food and other Canadian products aboard.

THE TRANSVAAL BUDGET.

The first Transvaal budget was issued by the official 'Gazette' on December 31 for the financial year ending June 30, 1902. The revenue for the year is estimated at $27,863,220 and the expenditure at $27,254,645, showing a surplus of over half a million dollars.

ORANGE RIVER REVENUE.

In the Orange River Colony the year's revenue would be $3,865,000 and the expenditure $3,800,000, leaving a surplus of $65,000. The revenues in both colonies are both largely in excess of what they were in the last year of the old administrations. The figures indicate that trade is expanding in the new colonies. Now that the war is over the people are settling down once more to their industrial pursuits. It should tend to increase trade relations with Canada if her business men are prepared to exploit this market and adopt some of the methods of their neighbours to the south.

COMMERCIAL TRAVELLERS TAX REPEALED.

The Government of the Orange River Colony has been the first to repeal the iniquitous commercial travellers tax and it is to be hoped that all the other colonies will soon follow suit.

SALE OF CANADIAN PRODUCE.

Canadian tinned goods, including salmon, lobster, kippered herring, tomatoes, pease, soda biscuits, &c., are on sale here, and Canadian butter and cheese brought by our direct line are also selling very well. The grocers tell me our butter, out of cold storage, stands the climate better than Australian or Argentine on account of the extra salt it contains. It does not however retail for more than 1s. 6d. per pound in Cape Town, whereas Australian and Argentine, perhaps on account of less salt, or for some other reason sells for 1s. 9d. per pound. Canadian bacon and hams ought to find a good market here. The American article is sold here for the genuine English product at 1s. 4d. to 1s. 10d. per pound.

CANADIAN AGENTS IN SOUTH AFRICA.

One company of extensive Canadian packers have given their agency to a responsible and pushing firm of commission merchants with branches at every important point

in South Africa and very soon the wisdom of their move will be apparent. Other Canadian firms are waking up to the importance of the South African market and have representatives already on the ground.

BRITISH COLUMBIAN ENTERPRISE.

The British Columbians under the leadership of a few keen Vancouver merchants are turning their attention to South Africa. They object to the United States and Eastern Canada doing all the exploiting, and are determined themselves to build up a trade in lumber, woodenware and canned products generally with South Africa; and judging from the correspondence I get from that quarter I take it these Vancouver gentlemen mean business and lots of it.

RHODESIAN PROGRESS.

Rhodesia is making steady progress, if her customs statistics are to be the gauge. In 1895 her imports amounted to $1,050,000. In 1901 they had reached $4,214,815 and for the year ended March 31, 1902, they had increased to $8,032,000. The duties levied averaged 7¾ per cent. The gold output in Rhodesia since September, 1898, to April, 1902, is valued at $7,200,000. So far as I know Canada did not sell anything to Rhodesia last year. I propose to extend my trip to this young province when I leave for the Transvaal next month and shall endeavour to learn the cause.

I have the honour to be, sir,

Your obedient servant,

JAS. G. JARDINE.

IV.—GENERAL COMMERCIAL INFORMATION.

INQUIRIES RELATING TO CANADIAN TRADE.

Since the publication of the last monthly report, there have been received at this department from the High Commissioner for Canada, London, England, and the Curator, Canadian section, Imperial Institute, London, England, the following inquiries relating to Canadian trade. The names of the firms making these inquiries, together with their addresses, can be obtained from this department, or from the office through which the inquiry was received.

Inquiries from the High Commissioner for Canada.

AGENCY IN ENGLAND FOR CANADIAN CANNED GOODS.

1. A firm of commission merchants offering good references is desirous of obtaining the representation for England of Canadian packers of canned goods or other produce. (Reference No. 72.)

AGENCY FOR CANADIAN CARRIAGES, IMPLEMENTS, ETC. (S. AFRICA.)

2. A gentleman with experience about to take up residence in South Africa desires to be placed in communication with Canadian manufacturers of carriages, farm wagons, implements, etc., with a view to securing agencies. (Reference No. 72.)

INQUIRY FOR CANADIAN EXPORTERS OF STURGEON'S ROE FOR CAVIARE.

3. Two further inquiries have been made for names of Canadian exporters of sturgeon's roe for caviare. (Reference No. 72.)

CANADIAN EXPORTERS OF TIMBER.

4. A London firm of wholesale and export cabinet-makers is desirous of being placed in direct touch with Canadian exporters of timber suitable for their trade. (Reference No. 72.)

CANADIAN IMPORTERS OF SCOTCH LIQUORS.

5. A Scotch firm of distillers makes inquiry for Canadian houses importing liquors with which it might do business. (Reference No. 72.)

AGENCY IN GLASGOW FOR CANADIAN CANNED GOODS.

6. An agent in Glasgow wishes to get into touch with first-class Canadian house exporting canned fruits, principally gallon apples. (Reference No. 72.)

CANADIAN EXPORTERS OF MICA AND ASBESTUS.

7. A Scotch firm wishes to open up direct business relations with owners of mica and asbestus mines who are in a position to offer large quantities for export. (Reference No. 72.)

INQUIRY *re* THE MANUFACTURE OF HEAVY JUTE CLOTH.

8. Inquiry is made by a Canadian house for addresses of makers of heavy jute cloth such as is used in the manufacture of brattice cloth. (Reference No. 72.)

BRITISH IMPORTERS OF MAPLE SUGAR AND SYRUP.

9. A Quebec packer asks what opening exists in Great Britain for Canadian maple sugar and maple syrup. (Reference No. 72.)

AGENCY IN BRISTOL FOR CANADIAN PRODUCE.

10. A Bristol firm with large experience in the provision trade desires to take up the agency for the sale of Canadian produce, and asks to be referred to houses needing such representation. (Reference No. 73.)

INQUIRY *re* THE ADDRESSES OF CANADIAN FLOUR MILLERS.

11. The names of leading Canadian flour millers are asked for by a gentleman who is about to join a firm of general merchants at Johannesburg. (Reference No. 73.)

CANADIAN SHIPPERS OF LUMBER, CANNED GOODS, ETC.

12. A business house in Tunis is making inquiry for Canadian firms prepared to ship lumber, canned goods, etc., for which it is open to take up the agency. (Reference No. 73.)

INQUIRY *re* CANADIAN TRADE IN DESSICATED COCOANUTS.

13. A London firm doing business with Ceylon has made inquiry respecting the prospect in Canada for a trade in dessicated cocoanuts. (Reference No. 73.)

Inquiries from the Curator, Canadian Section, Imperial Institute.

CANADIAN MANUFACTURERS OF WOOD PULP, ETC.

1. A Manchester box manufacturer desires names of Canadian manufacturers of wood pulp, sulphite and grey boards. (Reference No. 36.)

CANADIAN PACKERS OF CANNED VEGETABLES, FRUITS, ETC.

2. A London wholesale house is prepared to hear from Canadian packers of canned vegetables, fruits and also of lunch tongues, etc. (Reference No. 36.)

INQUIRY *re* THE ADDRESSES OF FIRMS FOR THE SALE OF WIRE ROPE FOR YUKON DISTRICT.

3. An inquiry has been received for the addresses of responsible firms who would take up the sale of wire rope in the Yukon. (Reference No. 36.)

CANADIAN AGENCY FOR SPONGE CLOTHS.

4. A firm handling sponge cloths, used for cleaning machinery, wishes to get into touch with some Canadian agent who has facilities for introducing same to industrial establishments. (Reference No. 36.)

CANADIAN IMPORTERS OF BOOTS AND SHOES.

5. A firm manufacturing boots and shoes wishes to hear from Canadian jobbers prepared to take up sale of their goods. (Reference No. 37.)

CANADIAN MANUFACTURER OF FLOUR.

6. A Scotch firm of produce brokers wishes to secure the representation of a first class Canadian manufacturer of flour. (Reference No. 37.)

CANADIAN IMPORTERS OF HORSE HAIR.

7. A manufacturer of spun, steamed and cleaned horse hair desires names of Canadian importers of this material. (Reference No. 37.)

CANADIAN SHIPPERS OF BUTTER, EGGS, BACON, ETC.

8. A London firm of produce brokers would be pleased to act for Canadian shippers of butter, eggs, bacon and similar lines. They possess a first class connection. (Reference 37.)

EMIGRATION FROM GREAT BRITAIN TO BRITISH NORTH AMERICA.

* Figures are for the Years 1901, 1902 and 1903.

II.—COMMERCIAL AGENCIES.

The following Canadian Commercial Agents (whose addresses are given) will answer correspondence relative to commercial and trade matters, and give information to those interested as to local trade requirements in the districts they represent.

Such reports of general interest as have been received from them since the publication of the last monthly report of this department are appended.

J. S. Larke, Sydney, N.S.W., agent for New South Wales, Queensland, and New Zealand.

D. H. Ross, Melbourne, Victoria, agent for Victoria, South Australia, Western Australia and Tasmania.

James G. Jardine, P. O. Box 1232, Cape Town, Cape Colony, agent for South Africa.

Peter B. Ball, Birmingham, England, agent for Birmingham.

A. Poindron, 101 Rue Réaumur, Paris, France, agent for France.

G. Eustace Burke, Kingston, Jamaica, agent for Jamaica.

Robert Bryson, St. John, Antigua, agent for Antigua, Montserrat and Dominica.

S. L. Horsford, St. Kitts, agent for St. Kitts, Nevis and Virgin Islands.

Edgar Tripp, Port of Spain, Trinidad, agent for Trinidad and Tobago.

C. E. Sontum, Christiana, Norway, agent for Norway, Sweden and Denmark.

A. D. Campbell, Buenos Ayres, Argentine Republic, agent for Argentine Republic and Uruguay.

In addition to their other duties, the undermentioned Canadian agents will answer inquiries relative to trade matters, and their services are available in furthering the interests of Canadian traders :—

W. L. Griffith, 17 Victoria Street, London, S.W., England.

Harrison Watson, Curator for Canadian Section, Imperial Institute, London, England.

G. H. Mitchell, Newton Chambers, 43 Cannon St., Birmingham, England.

Alfred Jury, Old Castle Buildings, Preeson's Row, Liverpool, England.

John Webster, 52 St. Enoch Square, Glasgow, Scotland.

Edward O'Kelly, 14 Westmoreland St., Dublin, Ireland.

D. Treau De Cœli, 75 Marché St. Jacques, Antwerp, Belgium.

GREAT BRITAIN.

Report of the Canadian High Commissioner

(The Right. Hon. Lord Strathcona, G.C.M.G., &c., &c.)

17 Victoria Street,
London, S.W., February, 1903.

The Right Honourable
The Minister of Trade and Commerce,
Ottawa, Canada.

Sir,—I beg to submit my Annual Report on matters connected with the Trade of the Dominion for 1902, so far as it comes within the purview of my department.

In the first place, it may be stated that the correspondence in the general branch of the office, which deals largely with commercial matters, numbered 8,293 letters

received, and 9,526 forwarded. In addition, our callers during the year numbered about 15,500, of whom 4,150 were Canadians who registered. A considerable proportion of the remainder consisted of persons enquiring about commercial and other questions, members of the Press, and those desiring to consult the Library, to see the newspapers, and to make general inquiries.

The official correspondence—that with the Departments at Ottawa, and with those of the Imperial Government—was also large. Some of it related to the purchase in Canada of supplies for use in South Africa, but the work of this branch of my department has been dealt with in another report.

ADVERTISEMENT DEALING WITH CANADA.

During the year, the following advertisements have been appearing in the various trade papers :—

(1.) Trade with Canada.—Firms or persons requiring any information respecting the import or export trade of Canada, are invited to communicate with the High Commissioner for Canada, 17 Victoria Street, London, S.W.

(2.) Openings for Trade with Canada.—Canada exports live cattle, meats, including bacon and hams, wheat, flour, oats, barley and other grains and cereals, butter, cheese and eggs, fruits and farm and dairy produce of every description. Also the products of the mines, forest and fisheries, and manufactures. The import trade includes all kinds of manufactured goods. Full information on matters connected with both the import and export trade of Canada, and the preferential tariff in operation in favour of British goods, may be obtained at the office of the High Commissioner for Canada, 17 Victoria Street, London, S.W.

(3.) Canadian Wood Pulp Supplies.—Best and cheapest raw material to be had in Canada. Cheap and abundant water power ; cheap transportation facilities. Canada offers unexcelled openings for the investment of capital in the manufacture of wood pulp and of paper. Apply for official pamphlets (illustrated), respecting Canadian wood pulp industry and the forest wealth of Canada, to the High Commissioner for Canada, 17 Victoria Street, London, S.W. Correspondence on all matters relating to Canadian trade is invited.

As the result there are daily many inquiries at the office, both by letter and in person, on commercial matters.

MEDIUM OF INFORMATION.

It is also very generally known in Canada now, that the services of the Department are available for the supply of information and reports to Canadian merchants and shippers, importers and exporters, who are interested in the trade in the United Kingdom and on the Continent. It cannot be too widely understood that we are able to place importers and exporters in this country in communication with importers and exporters in Canada, and *vice versa*, and there is reason to believe, from statements made to me personally and in the course of our correspondence, that our efforts in this direction have been appreciated.

COMMERCIAL INQUIRIES.

For some years past also, it has been my practice to publish a summary of the commercial inquiries we receive each week, both from the United Kingdom, the continent, and Canada, in the newspapers in this country and in the Dominion. Of course, before this is done, many of the inquiries are under investigation or have been dealt with, but it is useful as stimulating correspondence and increasing the list of the names of those in my possession who are interested in such matters.

THE IMPERIAL INSTITUTE.

Similar work, but naturally on a smaller scale, is done at the Imperial Institute; and it is anticipated as the result of the new arrangements by which that institution has been placed under the control of the Board of Trade, and offices opened in the city, that this additional means of obtaining publicity for the resources and capabilities of Canada, both as regards her import and export trade, will be beneficial, and promote the still further expansion of trade.

CORRESPONDENCE INVITED.

While dealing with this branch of the subject, I may say, that the more correspondence that is received on commercial matters, both from Canada and the United Kingdom, the better. There is a growing desire in this country, as shown in our correspondence—to increase the trade exchanges between Canada and the United Kingdom, and to give the preference to the products of the Colonies—all other things being equal as regards prices and quality.

INFORMATION FURNISHED BRITISH PRESS.

In order to attract as much attention as possible to Canadian Trade, a letter was addressed to the Press of the United Kingdom in November last—which was printed in almost every important paper in the country—and it attracted much attention.

The following is the letter in question :—

"You have been good enough, on more than one occasion, to permit me to direct attention, through your columns, to the interchange of trade between Canada and the United Kingdom, and I venture once more to crave your indulgence.

"It is generally well-known that, for some years past, the exports of the produce of the Dominion to the mother country have been rapidly increasing. The following figures (the Canadian fiscal year ends on June 30) bearing on that part of the question, speak for themselves :—

	Total Canadian Exports.	Exports to Great Britain.
1902	$ 196,019,000	$109,348,000
1901	177,431,000	92,857,000
1899	138,462,000	85,114,000
1897	123,959,000	69,533,000
1895	103,085,000	57,903,000
1890	85,257,000	41,499,000

"The exports consist largely of horses, live cattle, meats of all kinds, general farm and dairy produce and fruits. Other considerable items in the trade are the products of the mine, the forest, the fisheries, and the manufactories of the different provinces.

"Prior to 1896, the imports from Great Britain, of its staple manufactures, were decreasing; but owing to the influence of the preferential tariff, abundant harvests, and increased immigration, the trade has since been advancing, as shown by the following figures :—

	Total Canadian Imports.	Imports from Great Britain.
1902	$ 202,791,000	$ 49,215,000
1901	181,237,000	43,018,000
1899	154,051,000	37,060,000
1897	111,294,000	29,412,000
1890	112,765,000	43,390,000

"There is plenty of room for the expansion of Canadian exports to Great Britain, and of British exports to Canada. Canadians believe that, all other things being equal, there is a disposition in the United Kingdom to look favourably on the products of the

Canadian farms, dairies, and orchards—such as wheat, oats, flour, butter, cheese, eggs, bacon, ham and other meats, canned goods of all kinds, and fruits; and also on the other natural products and manufactures to which reference has been made. The trade might be much increased if consumers would inquire for Canadian products among the many kinds that are available.

"My principal object in writing is to state again that the Canadian Government is anxious to facilitate as much as possible communication between British exporters and Canadian importers, and Canadian exporters and British importers; and that correspondence is invited in my department from merchants and importers who are interested. Statistics and other information, relating to the different branches of Canadian trade—both imports and exports—are available; and the various trade journals, daily and weekly papers, official reports, and business directories, are on file in the library and reading room, and may be inspected at any time. I trust the fact of the existence of these facilities may be widely noticed; and am inclined to the opinion that if they are largely utilized it must lead to closer and more extensive commercial relations between the Dominion and the mother country."

PREFERENTIAL TARIFF.

When the blue-book was published containing the report of the Colonial Conference, the discussions that took place on inter-Imperial commercial matters and the resolutions that were passed, attracted much attention. As, however, from some of the comments that were made, it appeared that the working and results of the Preferential Tariff were not thoroughly understood, and that some misapprehension also existed with regard to the nature of the trade exchanges between Canada and the United States, I arranged for the preparation of a memorandum on the subject, which was printed a few weeks ago in the leading daily papers in the United Kingdom. A copy of this memorandum, Appendix A, is attached to this report. (*vide* page 994.)

The usual extracts from the Board of Trade returns, of the trade of the United Kingdom with Canada during the last twelve months, are also enclosed with this report —Appendix B—(*vide* page 997) and will no doubt be of interest in the Dominion.

CATTLE IMPORTED FROM CANADA.

It will be seen from the figures that the number of cattle imported from Canada—93,674—shows an increase over the previous year—88,211—although it did not reach the numbers of 1901. It will be noticed that at the same time there was a falling off in the imports from the United States as compared with 1901 and 1900. No doubt the actual exports from Canada were really larger, as most of the Canadian animals shipped from American ports are treated in the Board of Trade returns as imports from the United States; and it must not be forgotten also that there is now a considerable trade between Canada and the United States in cattle, some of which no doubt finds its way to this country in the form of American chilled beef.

SHEEP IMPORTED.

There is a falling off in the imports of sheep from Canada, as compared with 1901, although the figures are in excess of those for 1900. This trade is by no means as large as it used to be, owing no doubt to the considerable numbers of sheep and lambs that are shipped from the Dominion to the United States annually.

It is gratifying to know that the animals coming from Canada this year are reported to show a much better quality than in previous years. This fact has been remarked upon by several of my correspondents.

RESTRICTIONS AGAINST CATTLE.

The agitation for the removal of the restrictions of the free entry of Canadian cattle into the United Kingdom has been kept very much alive during the year, principally in Scotland. An association has been formed for the purpose of introducing a Bill into Parliament to modify the Act of 1896—under which cattle from all countries are now required to be slaughtered at the port of landing, and there have been many meetings in different parts of the country and in London on the subject.

So far as can be ascertained, the Government has no intention of modifying the existing legislation in any way. I have been careful not to identify myself with the agitation, in order to prevent the impression getting abroad that the movement was being engineered under the auspices of the Canadian Government. At the same time, I have supplied any information that was possible, and have pointed out that the removal of the restrictions would be regarded favourably in Canada, and that it has always been a great disappointment to us that the privilege which Canada so long enjoyed was withdrawn under the mistaken assumption that pleuro-pneumonia had existed in Canada; and further that the animals which gave rise to the difficulties were not suffering from that disease. The Board of Agriculture practically admit that a mistake was made. and that the flocks and herds of Canada have always been free from disease; but the admission is not of much practical value now, in view of the fact that the restrictions against Canadian cattle which, in the first place, were temporary, have been made permanent by the Act of 1896.

The proposal which was under discussion for some time, to increase the limit within which cattle must be slaughtered at the port of landing, has attracted some attention, but the impression seems to prevail that it would not be of much practical benefit either to the Canadian shipper or to the importer here—except at times when the market was glutted, and it might be advantageous not to be obliged to force the animals upon a full market.

SHIPMENT OF PEDIGREE STOCK INCREASING.

It is satisfactory to notice that the shipment of pedigree cattle and sheep to Canada has been increasing in the last few years. It must be beneficial in improving the flocks and herds of the country, and will tend to bring Canadian cattle and sheep up to that high level of quality which must prove of great advantage from every point of view.

IMPORTATIONS FROM ARGENTINE REPUBLIC.

There have been no importations from the Argentine Republic during the last few years, owing to the prevalence of foot-and-mouth disease in that country. The restrictions have however, now been removed, and importations will probably recommence. It will be observed from the returns that while the animals have not been coming over alive, the fresh meat trade from that country has rapidly developed.

FOOT-AND-MOUTH DISEASE IN THE UNITED STATES

In the autumn the report that foot-and-mouth disease had appeared in the New England States caused some consternation, both in this country and in Canada. There was a fear that it might be difficult to prevent its introduction across the international boundary. The importation of cattle into the United Kingdom from the New England States was at once prohibited; and in response to the opinion expressed by the Board of Agriculture, the Dominion Government prohibited for a time the conveyance of cattle by the Canadian Pacific Railway across the State of Maine, for shipment at St. John, fearing that Canadian animals so conveyed might be found infected with the disease on their arrival at British ports. Happily, however, the disease in the United States appears to have been promptly and effectually grappled with; and the same remark may be made in regard to the precautions taken by the Minister of Agriculture at Ottawa, to

prevent the possibility of the introduction of the disease into the Dominion. It is satisfactory to state that not a single case of foot-and-mouth disease has been brought to the United Kingdom from Canada since the outbreak in the New England States was reported.

CANADIAN CATTLE HEALTHIER.

According to special investigations made in the abattoirs of Glasgow, the Canadian animals imported were much healthier than the British animals slaughtered there—those from Canada showing an exceedingly small percentage of tuberculosis, while the contrary was the case in regard to the native animals.

The number of cattle in the United Kingdom at June 30 last showed a reduction of 100,855 from the moderate numbers recorded a year earlier, while sheep were fewer by 773,258 head than in 1901. This would indicate that the quantity of home-fed meats marketed in 1902 was less than usual. In conjunction with the falling off in the imports of live cattle and sheep, and also in fresh beef, this serves to explain partly the higher prices that prevailed, and the possibility of improved markets for imported meat which are anticipated in the near future.

FRESH BEEF.

Although this matter has been attracting much attention in Canada for some years past, it cannot be said—judging from the figures—that the trade has made much progress. The quantity imported from the Dominion appears to have been less in 1902 than it was some years ago. It is worthy of remark that while the trade in live animals has advanced to a limited extent, there has been a great increase in the general imports of beef and mutton and the prices that have prevailed indicate that it is regarded as a more profitable business, especially when the bye-products are taken into consideration. It is computed that the chilled meat imported from the United States in 1902 was equal to 342,000 head of cattle, while the frozen beef from New Zealand, Australia and the River Plate together was equal to about 171,000 head.

HORSES.

There was a considerable falling off in the import of horses from the Uniled States, owing, no doubt, to large shipments to South Africa, and there was a reduction also in the imports from Canada, possibly arising from the same cause. A proposal has been under consideration of His Majesty's Government for some time by which a regular supply of remounts for cavalry purposes and of ordinary horses for artillery and draft purposes would be forthcoming every year from the Dominion, but no definite decision upon the matter appears to have yet been arrived at.

The matter of shipments to the British market will not, it is hoped, be overlooked. There is always a demand here for good working horses at a moderate price, and at the same time higher class animals can always be disposed of if they are of the right quality. This subject has been referred to frequently in recent years, and many special reports have been furnished in regard to the supply and demand of animals of the kind. The trade is one which is now conducted through regular channels, and there will be no difficulty in easily disposing of a much larger number of animals than is now sent over.

GRAIN, ETC.

It is satisfactory to notice that Canada is now the second largest shipper of wheat to the United Kingdom. The imports last year, however, were only 9,526,713 cwt. from Canada, out of a total of nearly 81,000,000 cwt.; in fact not much more than 10 per cent of the whole.

The grain from Canada is very well spoken of, and much enthusiasm has been created by the bountiful harvests with which Canada has been favoured in the last few

years, by the splendid quality of the grain and the quantity that has been shipped. It is much in favour among millers, and more of it, I am informed, would be welcome.

This applies not only to Great Britain but to the continent, and I quote an extract from an interesting report made recently by the Consul-General at Marseilles on the possible development of a large trade at that port in hard wheat from Canada, in connection with the manufacture of the food products which are so popular along the Mediterranean coast :—

'I desire most particularly to draw the attention of Canadian farmers to the following notes on the hard wheat export, and to assure all those whom the subject may interest of my readiness to supply them with the fullest information on any point not yet dealt with, which it may be of utility to them to know. I am even prepared to put them in touch with local importers at Marseilles.

'It will have been seen from the preceding notes how vast is the ground covered by American research ; how numerous the undertakings they are prepared to deal with, and if possible to monopolize. In the matter now about to be dealt with we find American pioneers of trade extension investigating at Marseilles the possibilities of further extending their hard wheat trade with Central Europe and the Mediterranean. In the following chapter, that on Bauxites, we shall again find them pursuing diligent inquiries and making sample shipments. There is truly no limit to this most praiseworthy American "pushfulness".

'During the month of May of the past year a delegate from the United States Agricultural Department came to Marseilles to investigate the local conditions of the hard wheat trade. American hard wheat suitable for the milling of "semola' (granular flour), so much in demand in the Mediterranean and Southern Europe for the manufacture of macaroni and other Italian pastes, can, I am told, only be grown in the neighbourhood of Minneapolis, the soil elsewhere in the United States not being suitable, hard wheat sown producing soft wheat after one or two sowings. To improve the Minnesota crops in order to enable the American grain to compete with Canadian hard wheat, which is so superior to it in quality, the United States delegate went to Algeria, whence comes most of the hard wheat usually milled here, and purchased at Bône, Algiers and Oran about 100 sacks of the best seed wheat grown.

'Marseilles is the leading European market for hard wheat. Sales vary from 5 to 20 tons each for Central Europe, and from 1 to 5 tons for the small Mediterraneau ports. Though the sales are usually small, they aggregate about 150 tons per day.

'Last winter the Algerian hard wheat was very far below the average quality. Great difficulty was experienced here in obtaining grain suitable for semolina. Minneapolis, which holds the north Russian semolina trade, made some shipments to Marseilles, via New York, of American hard wheat. This was used here to improve the inferior Algerian grain, and gave satisfaction.

'Some Ontario and Manitoba hard wheat also came here via New York, and this Canadian grain was found to be altogether superior to the American. This leads me, naturally, to suggest that Canadian millers should inquire into the possibilities of supplying the demand at Marseilles for granular flour (selina).

'There is, as far as I can see, absolutely no reason why Canada should not endeavour to ship granular flour, milled in Canada from home-grown superior hard wheats, direct to Marseilles, either via the Canadian lakes and the St. Lawrence, or via New York. The problem is solely one of freights and of not breaking bulk. The demand for the granular flour exists. The supply should be unlimited in Canada, owing to the nature of the Canadian soil.

'The impression seems to exist in Canada that granular flour cannot travel well. That is a mistake. The sole cause of deterioration in transit is due to a defective process of milling. The grain should not be washed when cleaned. That is the sole secret. It is a very simple one, and "known in Minneapolis."

'I trust that the Canadian Press will kindly give publicity to the above. I shall be happy to place Canadian millers in touch with local importers. Some means will surely be found of starting a trade that may prove advantageous to our Canadian farmers who seek an outlet for their hard wheat which they can grow with such ease ;

and advantageous also to Canadian millers, who in this matter are now in the hands of their enterprising neighbours.

'I have made some further notes on the hard wheat trade which may be of use to Canadian exporters willing to study the problem I have set before them. They may as well be set down here.

'The cultivation of hard wheat was formerly of no interest to the farmer, as this wheat which yields so greater a proportion of gluten than does soft wheat, it had less pecuniary value than the latter, and did not always find a favourable market. In these days the reverse is the case, the consumption of hard wheats and of semolinas is increasing daily, while on the other hand we see the principal countries which exported them turning their attention to other produce. For instance, Italy and Spain, which used to produce hard wheat in great quantities, have now taken up vine-growing in its place, thus becoming buyers instead of exporters. Syria also used to produce a great deal of hard wheat, to-day the farmers there also devote their time to vine-growing. Moreover, with the exception of one or two districts, the Syrian wheats have always had a bad reputation. Russia, formerly the greatest exporter of wheat, is a country more than any other affected by the state of the atmosphere, so that one can never count on the wheat harvest until it is reaped. Occasionally, for months at a time no wheat comes to Marseilles from that country. In winter, from November to March, all trade ceases with the Sea of Azoff, the sea being frozen over.

'Again, Russian wheats do not always arrive at Marseilles in good condition, occasionally they arrive in such a state as to strongly resemble soft wheats, in other words, though the composition of the grain has altered but in a very small degree, the grain no longer gives the same good results.

'The hard wheats in Africa have diminished greatly in quality. For the last two or three years such a thing as a good hard wheat has really ceased to exist! Semolina and macaroni have been made from the best that could be found.

'Judging from the excellent specimens of hard wheat received here from Canada during the past year, there is at Marseilles a splendid opening for Canadian hard wheat. The samples shown to me, to which the name of goose wheat has been given here, were for the most part of a distinctly superior quality, and, I am assured, have given full satisfaction to the semolina and macaroni manufacturers who have used them. These wheats arrived here at a moment when there was a scarcity of other hard wheats at Marseilles. They helped to raise the quality of semolina by the rich clear colour of the Canadian grain.

'The semolinas made from pure Manitoba or Ontario hard wheat are of a fine yellow colour, and very tasty. It is true, they have not the same amount of gluton found in certain Russian wheats; but one can safely say that they are of a superior quality and capable of a good sale if introduced into Europe. The European consumption of semolinas is of 600 to 700 tons a day at the least; there would be an ample market for well chosen Canadian produce.

'If Canadian millers are desirous of going in for the trade in semolina, I shall be only too glad to give them, on application, and free of all cost, all the necessary information as to plant, and as to the personnel required to start the works.

'Marseilles might with advantage be selected as the port of the Mediterranean where operations could be begun. If one or two firms cared to go in for the business, small shipments should at first be made, gradually increased until an important opening will have been secured at small risk, or even without any risk of loss, the first shipments serving as samples, any necessary modification being made as required.

'The charges at Marseilles are low. Goods may be received on payment of 1 fr. per kilo, maximum. This could be considerably reduced in proportion to the amount of goods dealt with. When once on the quay the expenses generally come to 2 fr. 50 c. per ton maximum, including receipt of goods, porterage, carting to warehouse. Warehousing and insurance, maximum, 75 c. per ton per month. Unwarehousing, cartage, commission, and 2 per cent guarantee of payment, would amount to 2 fr. 50 c. per ton,

'In the case of goods arriving at the moment of immediate reshipment, or sold in advance, with consequently no need of warehousing, there is only a charge of 50 c. or 1

fr. per ton cost of porterage if the goods are unloaded near the rails. If, however, they be discharged some way from the rails the extra charge would be 2 fr. 50 c. per ton maximum.

'As to the packing, semolinas are generally delivered under double bagging of Hessian jute cloth, a very cheap article, in bales of 100 kilos, gross for net, packing cloth counted as merchandise. But a packing which I can recommend, and which might prove very successful, would consist of a strong cotton cloth covered by a cloth of strong coarse jute, the outer wrapping serving only to preserve the inner one. The cotton cloth should not add too much to the cost of the packing, it should bear no mark or stamp of any kind save the lead on the seam. The buyers would be much interested in this matter of cotton covering, which would serve for household purposes when emptied; any marking or stamping would depreciate their value. The bales could easily be of 1 cwt. without much increasing the cost of packing. Bales of the smaller size would be more convenient for transport and manipulation, and for the better preservation of the merchandise on the voyage. But all these matters of detail could be altered as experience would render necessary.

'As to semolina mills, all the information available here bears out the facility with which a mill turning out flour from soft wheat only could be transformed into a semolina mill of hard wheat.

'Taking a mill triturating 50 tons of wheat per diem, it is estimated that with a maximum expenditure of £4,000 it could be transformed into a semolina mill capable of dealing with from 60 to 65 tons of hard wheat instead of 50 tons of soft. Increased production would soon make up for the outlay. There are in the United Kingdom several first-class firms who have fitted up semolina mills in this district, and whose machines have given full satisfaction.

'Something could also be done here in feed flours, an article greatly in demand in the neighbouring mountainous regions.

'At Marseilles there is also a considerable demand for bran and other secondary products of hard and soft wheat. The tonnage sold is almost unlimited, Marseilles being the port that feeds a great many countries demanding that article.'

REGISTRATION DUTY ON GRAIN.

The imposition of a registration duty on grain, flour, &c., caused a great deal of discussion in the United Kingdom in the spring of the year. An endeavour was made to work up an agitation upon the subject, and all sorts of evils were prophesied as likely to result from the operation of the new duty. It was felt, however, that the agitation was more political than real, and it never had much effect upon the people. It is very certain that the supplies have not fallen off, and that the prices have not increased, and there does not seem to be any immediate probability of the taxes being removed in the near future.

I endeavoured to induce the Government to exempt the Colonies from the operation of the tax in question. Although unable to obtain the desired result, you will have seen from the correspondence, and the reports of my interviews with various members of the Government, that everything possible was done in the interests of Canada. When exemption proved to be impossible, an endeavour was made to get the incidence of the duties altered, as they were found to be rather against the importer of flour and in favour of the home millers. In this matter I co-operated with the trade to the fullest possible extent. In some minor details the duties were changed subsequently, but the alterations did not affect Canada to any considerable extent.

FLOUR.

There is a gratifying increase in the quantity of flour imported from the Dominion, and it now occupies the second place in the returns, after the United States. The business, however, is in comparatively few hands, and I have had many applications during the year from persons in the trade who desire to obtain the agency of some of the Cana-

dian mills. This is evidence in itself of the popularity of the flour, and of the favour with which it is regarded; and no doubt a much larger business would be possible if the necessary supplies were forthcoming.

IMPORTATIONS IN BOND.

Complaint has been made in the course of the year that Canadian flour imported in bond in the United Kingdom could not be re-exported without payment of duty. Representations were made upon the subject to the Colonial Office and arrangements were made which will, it is believed, to some extent, meet the complaints referred to.

SUPPLIES FOR IMPERIAL DEPOTS.

In the course of the year a representation was made to me that Canadian flour was not receiving fair treatment in connection with the tenders invited for the supply of flour at the Imperial depots in the West Indies, particularly in Bermuda. The matter was taken up with the Colonial Office and with the War Office, and possibly some good may result in the future.

MIXING OF CANADIAN AND AMERICAN WHEAT.

Attention was called during the year to the German customs regulations with regard to the mixing of Canadian with American wheat, requiring all shipments from the United States to show that none of the grain was of Canadian origin. There are no means of getting over the difficulty at present, it is feared, with regard to the interchange of trade between Germany and Canada, until negotiations can be opened with Germany by which Canadian imports may be placed on a better footing than they now enjoy. The disadvantages under which we nominally labour at the present time are, of course, the outcome of the Canadian preferential tariff, and the means that were taken to secure the denunciation of the Belgian and German treaties in 1898.

BARLEY.

Canada has not yet assumed the position in regard to shipment of barley to the United Kingdom which we have always hoped to see. The country is suitable for the production of barley of the highest quality for malting purposes, and also for the more ordinary barleys for distilling and feeding purposes. By far the larger proportion of the shipments come from Russia, from the United States, and from the Danubian countries; and if these parts of the world find the trade profitable, it is not clear why—all other things being equal—Canada should not endeavour to secure a share of it. This important trade, you will observe from the returns, is increasing yearly. The imports last year were of the value of £7,130,000.

OATS.

For some reason or another the imports of oats from Canada have fallen off considerably. There is no question about the demand for suitable oats that exists here, or as to the extent of the market, the imports last year having reached a value of over five millions sterling.

PEASE.

Practically the same remarks made about barley and oats apply in the case of pease. The trade has fallen off very rapidly in the last few years, probably owing to the operations of the insect pest which has been so frequently referred to. An extract from a letter received from Messrs. Griffin & Culverwell, of Bristol, on the subject of the market for pease, &c., in this country, is worthy of consideration:

'We have been very much disappointed to find that Germany is taking away the trade in split peas from Canada. We know that Canada has had bad crops of peas, but surely there ought to be districts in such a vast extent of land where good crops of peas could be secured. Another point is that the Canadian millers of split peas do not polish them and make them bright looking as is done by Liverpool, Scotch and German millers. There is, we believe, a firm in Edinburgh or Leith that makes special machinery for polishing peas. This process adds an attractive appearance to the article, and makes it much more saleable.

'Holland is nearly the only source we have, out of England, for large blue peas for cooking, and this year they have been able to get from 54s. to 59s. per 504 lbs., f.o.b. Holland. The Dutch have had the monopoly of this trade for many years. We do not know what peculiar conditions of soil or climate are required, but it seems almost certain that in some parts of Canada similar conditions could be found. The chief points are, good green colour, large size, and good cooking properties. There is also a large demand for a smaller blue pea similar to the kind grown in Wisconsin, sometimes called "Scotch" also for cooking.

'White peas of good size and cooking quality are also saleable, but only to a small extent in comparison with the blue variety.'

It seems to me that some inquiry might usefully be made as to the falling off both in exports of barley, oats and of peas from Canada, with a view to find out the difficulties that are in the way, and to endeavour to remove them and to increase the trade in these commodities.

INSPECTION CERTIFICATES FOR GRAIN.

The result of the investigation that was made in regard to the issue of inspection certificates for grain shipped from the Dominion, seems to have been on the whole satisfactory. Some complaints, however, are still reaching me from time to time, and the subject is one that requires to be watched carefully.

SUPPLIES FOR SOUTH AFRICA.

During the past year there has been a considerable amount of correspondence with the Department of Agriculture, arising out of the supplies of hay, oats, &c., shipped to South Africa for the War Office under the auspices of that department. With the termination of the war, the shipments came to an end, and although at the request of the Minister, several efforts were made to obtain further contracts, they were not successful, for reasons that will be obvious. The large quantity of Canadian produce sent to South Africa has drawn considerable attention to Canada, as a source of food and other supplies, and I trust that the new line of steamers, which is now plying directly between Canada and the South African ports, will do much to promote the closer connection of those two parts of the Empire.

SUPPLIES FOR BOER FARMS.

In connection with the close of the war in South Africa, I have had correspondence with Mr. Chamberlain, with regard to the purchase of cattle and of supplies in Canada, for re-stocking the Boer farms in South Africa. I also spoke to Mr. Chamberlain on the subject before his departure for South Africa, and he promised me that if anything was to be done the claims of Canada would not be overlooked. As the result, some orders have been given for agricultural machinery in Canada for South Africa, and I hope the Dominion may participate in any further orders for supplies of various kinds that may be needed in the future. The matter will continue to have my attention.

BUTTER.

The butter imports from Canada show remarkable expansion in the last three years, the quantity received from the Dominion having more than doubled. It still, however,

only represents in value £1,347,345, as compared with £9,302,362 from Denmark, £2,233,122 from France, £2,196,234 from Russia, and £1,973,960 from Holland. It will be seen, therefore, as the total imports of butter were valued at £20,527,934, that there is a very large market for the produce of the Canadian creameries. A much greater quantity could be dealt with than at present through the existing channels, and I believe—all other things being equal as to price and quality—that there is a disposition to favour the butter from the Dominion and the colonies in preference to that from foreign countries.

The Department of Agriculture is fully informed as to the position of the butter trade, and to what is stated on the markets with regard to that from Canada, so that it is not necessary to enter into the matter at any length. If some of the difficulties that have been referred to in the course of the correspondence that has taken place on the subject can be removed or modified, there is no reason why, in the near future, the butter trade of Canada should not expand, and become as important in every way as the Cheese trade.

CHEESE.

The enclosed cutting from the *Times* with regard to the cheese trade in the past year, will no doubt be interesting :—

'The strong hold which Canada has secured upon the cheese markets of the United Kingdom is well shown in our next table, from which it appears that in 1902 just over two-thirds of our total imports of cheese were sent from the Dominion. The actual quantity, 1,709,566 cwt., is, we believe, " a record." Furthermore, the position is well earned by the Canadian cheesemakers as a reward for their persistent efforts to send us a genuine unsophisticated article. The bulk of this trade was once in the hands of the United States, but they lost it through shipping to us "filled" cheese, in which the natural fat of the milk had been withdrawn and replaced by inferior and cheaper fats. The authorities in the United States put an end to this nefarious and suicidal business some years ago, but the fact remains that last year for every pound of cheese we received from the United States, more than four pounds reached us from Canada. Our imports of cheese from Holland appear to be slowly diminishing, whilst from France they are, on the whole, fairly well maintained. Australasia is evidently as uncertain a factor in the cheese industry as in the butter trade. As a matter of fact, out of the 52,072 cwt. of cheese which arrived at our ports from Australasia last year, 52,065 cwt. came from New Zealand and only 7 cwt. from Australia. For imported cheese in 1902 we paid a total sum of £6,421,420, of which £4,301,859 went to Canada, £962,112 to the United States, £668,303 to Holland, £131,516 to New Zealand, £113,611 to France, £18 to Australia, and £235,001 to "Other Countries" :—

Annual Imports of Cheese into the United Kingdom, 1899 to 1902.

From	1899.	1900.	1901.	1902.	Per cent.	Per cent.	Per cent.	Per cent.
	Cwt.	Cwt.	Cwt.	Cwt.				
Canada	1,337,198	1,511,872	1,547,739	1,709,566	56·1	55·8	59·8	67·2
U.S.A	590,737	680,583	540,102	390,479	24·8	25·1	20·9	15·3
Holland	328,541	327,382	315,923	284,018	13·8	12·0	12·3	11·2
Australasia	32,294	81,003	79,243	52,072	1·3	3·2	3·1	2·0
France	34,307	35,110	26,833	36,801	1·4	1·3	1·0	1·4
Other Countries	60,992	69,928	76,997	73,448	2·6	2·6	2·9	2·9
Total	2,384,069	2,705,878	2,586,837	2,546,384	100.0	100·0	100·0	100·0

All my correspondents, without almost any exception, state that the cheese sent over last year from Canada was better than that shipped in any previous years. This

is attributed by many of them to the cool season which prevailed, which was favourable both for the preparation and for the carriage of the article.

Some of the communications that have reached me refer to the boxes still not being quite strong enough for the cheeses, and to bad handling on shipment and on unloading, but complaints of this nature are few and far between. One suggestion has been made to me, which is worthy of consideration, viz: that the weights should be stencilled on the boxes and not pencilled, as the latter are liable to get rubbed off.

BACON.

The statistics do not show much expansion in the imports of bacon from Canada. Whether there has been a shrinkage in the trade or not, cannot be said at present, as the Canadian figures are not available to enable a comparison to be made with British figures to the end of the year. The trade, however, is assuming considerable proportions, and as both Canadian bacon and Canadian hams are highly spoken of and much appreciated, there is no reason why the business should not develop to an unlimited extent, if the quality is maintained and if the article can be purchased at a price to compete with that from other countries.

POULTRY.

Canada does not figure in detail, in the Board of Trade returns, in regard to the imports of poultry. The inquiries made into the matter indicate much surprise that more poultry—that is turkeys, fowls and ducks—are not shipped to this country. It is true that the reports of the Christmas trade in Liverpool were not very satisfactory, and the results cannot have pleased the shippers. In London at that time there was little if any, Canadian poultry for sale at all. My correspondents all seem to think that there will be a good market this spring, both for turkeys, fowls and ducks, but they urge careful preparation, careful packing, and careful grading.

The following circular issued by a leading firm in the London markets may be interesting:—

ADVICE CONCERNING POULTRY CONSIGNMENTS.

"Much of the dead poultry consigned to the London markets is sent without regard to a very simple rule, namely:—From the salesman's point of view it is absolutely necessary all poultry should be fasted (i. e. kept without food or water eighteen hours before killing); the necks should be broken close to the head, which is undoubtedly the most humane way of dealing with the birds, for the spinal cord is thus severed, and all life immediately ceases (the apparent struggle afterwards noticeable being due to muscular reaction). The fowls should be plucked, care being taken not to "bark" the skin; they must then be tied loosely at the hocks. Both fowls and ducks should be pressed in the shaping board, remaining there from four to six hours until they have thoroughly cooled. Finally, they should be packed in baskets, or hampers, having some straw or paper between each layer. With some little modification this principle applies also to geese and turkeys. Market value will be considerably enhanced by attention to proper killing, preparation, and careful packing.

HAY.

Canadian hay seems to have obtained a good hold on the markets of this country, and I am assured it is so popular that it often commands a higher price than home-grown hay. The quality of the shipments in 1902 was not perhaps quite up to the mark of 1901; and, on the other hand, there was a very large crop in the United Kingdom last year, which tended to keep down the prices and to diminish the demand for the imported article. So far as I can ascertain Canadian hay is regarded as a well-

established trade, and it is likely to continue to be imported in large quantities—so long as prices are suitable and the regular supplies are maintained.

Hay should always be carefully selected before being baled, and the principal thing to be borne in mind as regards hay and other commodities shipped to this country is that it should obtain a reputation for itself, that its reputation should be maintained, and that the supplies should be regular. These considerations would enable the trade to be done with mutual satisfaction to the shipper and to the importer.

APPLES.

While it is generally stated that the packing of Canadian apples has been better during the last year, and that the grading has been more satisfactory, the quality of the apples shipped has hardly been quite up to the mark. The principal objection has been the spotty and scabby nature of the apples, largely due to parasites. This matter has been fully reported to the Minister of Agriculture by his agents in this country, and it is not necessary within the scope of this report, to go into the matter in detail. Some of my correspondents have complained to me also that the apples received by them during the late autumn and winter have arrived in a frosted condition. This is attributed to delays at the port of shipment and to proper arrangements not being made there for the care of the apples between the time of their being unloaded from the railway and their shipment.

The barrels are reported to be of good quality, with some exceptions, but instances have been reported where the barrels have been defective and where in consequence the prices obtained for the fruit have been lower than they otherwise should be.

The spots and scabs on the apples are believed to arise largely from heating and sweating, and it has been suggested whether this could be prevented in any way by ventilating the barrels, especially now that they are conveyed in compartments which are ventilated and kept cool to a greater extent than was formerly the case.

We still hear a good deal about too many varieties being forwarded in small shipments. This tends to a reduction in price. Much better results would be obtained if the shipments could be sorted in Canada and larger consignments of the same quality and grading of fruit sent over. Whether this is practicable or not I cannot say, but it seems to be worthy of inquiry. Possibly it has already been investigated, as the matter has been mentioned on so many occasions.

CHOICE FRUITS.

The opinion is still expressed that choice fruits of the different varieties would pay much better if sent over in small boxes. Many families are unable to purchase a barrel, or at any rate to consume its contents before the apples begin to deteriorate. This would not apply to small boxes of choice fruits, and I have had many suggestions that fruit packed in this way would command a good sale and bring higher prices than when shipped in larger quantities in barrels.

EARLY FRUITS.

Another matter which has been brought forcibly to my notice is the mistake of shipping too much soft and early fruit to this market at a time when it is glutted with home and foreign supplies. Very often the results are disappointing to the shippers and tend to influence trade for the rest of the year. If the inferior and softer fruit, which will not carry well, could be utilized at home in the manufacture of dried, evaporated and canned articles, I believe if would be of advantage to the industry generally.

EGGS.

The export of eggs is not developing as the trade at one time promised. The total value of the eggs imported last year was about £6,299,000, of which Canada contributed

only £209,000. Canadian eggs are very well spoken of, but it does not appear that the trade is at all well organized. There are numbers of commission agents and others willing to enter into the business, and I shall be happy to furnish any of those engaged in the industry in Canada with the names of suitable firms with whom they can communicate.

CANNED EGGS.

The following is an extract from a letter I have received, relating to canned eggs, which may be of interest to some of the readers of this report :—

'We are very anxious to obtain a shipper who will ship us canned eggs. We believe there is a great future before eggs packed in this condition. We deal largely with bakers and confectioners all over the United Kingdom, and we have repeatedly had inquiry for eggs packed like this. They are imported here from Russia, Germany and Denmark in large packages with some preservative in them, we do not know what it is. Of course, the packages would require to be hermetically sealed, with the air extracted from them, but the eggs would not require to be heated in any way, as this would spoil their properties. We fancy if they were shipped with sugar, to a small extent, it might form an adequate preservative ; but really, as we are not experts in that, we cannot offer any opinion. It is for the Canadian experts to find out the suitable and necessary preservative. Chipped eggs in some parts of Canada can be bought very cheaply, and we fancy a great deal of money could be saved if they were immediately broken and canned. We would strongly advise you to write to your government on this subject, and get this matter looked into. These eggs are sold here sometimes with the yolk and sometimes without the yolk, and the packages should run 7 lbs., 14 lbs. and 28 lbs.'

LARD.

The following is an extract from a letter from Messrs. Bancroft & Co., of Liverpool, upon this trade :—

'The only branch of Canadian trade which interests us is raw lard, and we are pleased that we have been able to do a small amount of business in it during the last month. We are quite sure if the Canadian packers will maintain their quality and have regular shipments of it to this market, they would find a steadily increasing trade, provided that they will compete in price with the United States western lard. Certainly, we shall be happy to give them the preference any time when the quality is right.'

LARD OIL.

Messrs. Griffen & Culverwell have also written me as follows with regard to lard oil :—

'We think there should be a trade done in lard oil now that the packing of hogs and making of lard is growing into large proportions. If you know of any firms who want an outlet for lard oil please let us know.'

CANNED GOODS.

The following is a useful letter from Joseph Travers & Sons, Ltd., of Cannon Street, London, with regard to the importation of canned goods into this country :—

'The quality of Canadian preparations in canned fruit have been, in most instances, equal to the States fruit, but the want of continuity in supplies has led to loss of interest on the part of the distributor, and every fresh shipment has had to open a new market. This to a great extent will be avoided with "dried" fruit, which is sold almost entirely on its own merits, irrespective of brand or country of production.

'The canned meat trade has for various reasons improved considerably, and after making every allowance for the war demand, it must be admitted that this form of preserved food is growing in favour. A few years ago, when new methods of carrying chilled and frozen fresh meat were being introduced, the decline and ultimate extinction

of this article was freely prophesied, but the quality combined with the convenience of being ready for immediate use has quietly re-established the article and given it an independent existence. As far as beef and mutton are concerned, it is the only method of distribution that admits of self-advertisement. Take, for instance, the 6-lb. taper tins of Chicago compressed corned beef—the flat surface of the four sides of the tin is much better adapted for showy labels, and in fact is invariably chosen for window dressing or counter decoration, which at once obtains for it a gratuitous and important advertisement. The large Chicago firms have always recognized the importance of this branch, and their financial position to-day is sufficient evidence of their business acumen in this direction. The Queensland meat companies which commenced on the American system a few years ago have now surpassed their rivals in quality, are able to obtain a better price, and can readily sell all their machinery can produce. The prices now ruling for compressed corned beef in taper tins is from 5s. to 5s. 6d. per dozen for 1-lb. tins, 9s. to 9s. 6d. per dozen for 2-lb. tins and 29s. 6d. to 32s. per dozen for 6-lb. tins, according to quality and brand. There is also a large trade done in boiled beef in 6-lb. round tins, but the package is not growing in favour.

'We would take this opportunity of pointing out what, in our opinion, is a very important question in the salmon packing industry. The quality of the fish packed in the Dominion was, up to the commencement of the combination of packers, in every way superior to the States salmon, and the fact that a wide difference in quality existed in Canadian packs themselves proved the principle that difference was due to the care and efficiency of the packer. The introduction of an all round price, which is a part of the system of selling adopted by the combination, has completely neutralized individual effort in this direction, and the unfortunate result is that the pack as a whole has considerably declined in quality. Should this continue, the high opinion with which the pack has been regarded both by dealer and consumer will be considerably reduced, and the aggregate value of the pack will be less than it was before the combination of packers existed.

'One of the most important features is the increasing popularity of Dried Fruits, such articles as plums and prunes. The quantity imported during last year from the United States would probably turn out to be double any previous year, and the dried variety of apricots, pears and peaches have also had an impetus showing that the people here are beginning to get over their prejudices and are learning to cook the fruit in a proper way. In this direction we may say that Oregon fruit, which is machine evaporated, has been very much appreciated, and as the climate probably compares favourably with that of some parts of the Dominion, it is a development worth watching.'

FRUIT PULP AND TOMATOES.

The following extracts from a letter from another of my correspondents, on the subject of Fruit Pulp and Tomatoes, is worthy of re-production :—

Fruit Pulp for which there is, at times, a large business to be done in this country, should be packed in tins made of best gold lacquered i.e. steel coke plates, such as are used by French packers. Many jam makers in this country refuse to buy any Fruit Pulp which is not preserved in these lacquered cans. We sent out, last autumn, to one packer in Canada, a sample shipment of these gold lacquered plates. They are much more expensive than the tin plate which the Canadian packers generally use, but we believe the increased price packers would get for their fruit, and the reduction of blown and burst tins, would more than cover the extra expense.

'*Tomatoes.* Owing to various causes, Italian tomatoes have taken the place of American almost entirely in this country, and as there appears very little prospect of America being able to ship to England any large quantity of tomatoes in the future, there is a good prospect for Canadian packers, but, in order to get hold of the trade, they should obtain samples of Italian tomatoes, such as are shipped to England, and adopt the same can as the Italian packers use, slightly larger than the American, and better made, without solder. The cases used by the Italians for Tomatoes are much

better made and more suitable for transit than the cases that the Canadians usually send.'

CAVIARE.

Quite a number of persons engaged in the distribution and sale of this product have approached me in their desire to get into direct touch with likely exporters of Sturgeon's roe from which it is prepared. From time to time inquiry has been made into this matter, but we have not succeeded in meeting the wishes of my correspondents to any extent. Your department has been asked to assist me so far as may be possible, and we may hear of some new sources of supply in the near future.

LUMBER AND LUMBER PRODUCTS.

The conditions of the lumber trade in this country are well known. All the leading Canadian houses are represented in London, and the business is largely in their hands. During the year there were several communications from smaller houses in the trade who have not agents on this side, and have been the means of placing them in communication with firms with which they might be able to arrange business. I was able to bring to the notice of the London houses engaged in the Canadian timber trade, the requirements of the railways in the Transvaal and Orange River Colonies, in the way of sleepers and general lumber. Whether any tenders were sent in for Canadian supplies or not is not known to me, but at any rate the necessary information was placed in the possession of those who were interested.

BLOCKS AND WOOD PAVING.

It is a matter of regret to me that Canada does not take a larger share in the supply of the blocks for wood paving, that are so extensively used in London and other British cities. The best has been done to bring the importance of the matter to the notice of those concerned, but for some reason or another comparatively little interest has been taken in the matter in Canadian lumber circles.

BASSWOOD PANELS.

My attention was drawn some time to the demand that exists for basswood panels 48″x18″x$\frac{7}{8}$″ for piano key makers both here and on the continent. A good many of these already come from Canada and there is a strong preference for Canadian wood. As it takes six feet of lumber, costing on an average, 2 cents per foot at the mill, to make a 2s. panel, it will be seen there is an ample margin. The greatest care is, however, requisite in the selection of the wood.

CARRIAGES.

In the early part of the year I wrote you in reference to the possibility of an increased export business being done in Canadian carriages, and submitted to you a proposal from a well-known firm in London who are willing to aid makers of carriages in the Dominion to put their goods on this market. The same people offered to show any specimen carriages that might be sent them for the purpose, at an important show. The exhibits of Canadian made carriages at the Glasgow Exhibition and elsewhere attracted a good deal of attention, and some good sales were effected. Their lightness is admired, as well as their smart appearance, and the business is capable of extension.

WOOD PULP AND PAPER.

The wood pulp importations from Canada seem to be increasing. The feeling prevails that an effort should be made by Canada to prevent the exportation of the raw material, and to encourage the industry in the Dominion.

This gives expression to the feeling that generally obtains, that the matter is largely in the hands of Canada, as the possibility of competition from other sources is decreasing year by year.

MECHANICAL WOOD PULP.

Some surprise is expressed that the development in Canada so far should have been in the direction of mechanical wood pulp rather than in sulphite. The trade in the latter in the United Kingdom is much larger than in the former, the quantities consumed being about the same, viz., 250,000 tons, but while mechanical pulp is shipped containing 50 per cent of water, chemical pulp is shipped air dry, consequently the actual amount of fibre in sulphite is almost double that of mechanical. The following is an extract from a letter received on the subject :—

'We must strongly urge for future developments in Canada properly organized sulphite mills, and there can be no doubt that the future of sulphite making lies in Canada. Our reasons for this statement are the following :

'We have seen that Canadian mechanical pulp mills can compete successfully with Scandinavia.

'The only advantage they have over the Scandinavians is a modern plant and cheap wood, and the disadvantages under which they labour, are the extra freight rates.

'Now the wood necessary to make a wet ton of mechanical wood pulp in Scandinavia costs on the average 11s. per ton ; and in the best situated mechanical mills in Canada is said to cost 6s. a ton. A Canadian mechanical wood pulp maker therefore starts out with an advantage of 5s. per ton wet ; against this he has an extra freight to pay of 5s. to 6s. a ton at an optimistic estimate, and therefore has no present great advantage, except that of modern plants over his Scandinavian competitors.

'But reversing the position to chemical pulp making, the wood necessary to make a ton of chemical pulp costs in Scandinavia 60s., because the bulk of the wood boiled is boiled away ; reckoning the wood costs $3 a cord at the mill, it would cost the Canadian only 30s. for his wood to make a ton of pulp, and leaves him an advantage of 30s. per ton. Against this he would have an extra freight to pay on dry pulp of 7s. 6d., and he starts out making pulp with a certainty that he can get his raw material so cheaply that he can manufacture 20s. to 22s. per ton less than the Scandinavians.

'The answer to this argument is, of course, why don't the existing mills do it, and the reply to that again must be that whereas any intelligent man can become a fairly expert pulp grinder in six months, in sulphite making great experience is required. and many a man who has been a sulphite maker all his life cannot make sulphite when he dies. The sulphite maker, like the paper maker, is born, and the workmen who can be obtained in Canada are not sufficiently experienced, and do not take the care requisite in the manufacture of a good sulphite pulp.

All these are difficulties which can be overcome, and Canada is to-day making no fair share of the sulphite of the world, and it is in this direction that it will be a pleasure for the writer to convince Your Lordship that the future development of Canada in the pulp trade is possible.'

MANUFACTURE OF PAPER.

An extract from another letter I have received from a well-known paper agent in London, on the subject of the manufacture of Canadian paper and its export to this country, will be interesting :—

'* * * As regards pulp and paper—particularly the latter, in which I am more interested—there is very little to report excepting the scarcity of Canadian paper on this market during the last twelve months. Prices have been very low here, and I believe trade has been exceptionally brisk in Canada and consequently makers were largely kept busy on the home trade. This, however, merely shows how small the paper-making industry in Canada is compared with what it might be when a little extra demand on the home market practically monopolizes the output of the Canadian mills.

'What newspaper has been received here ("news" is practically the only grade as yet imported from Canada) has been of good quality and generally liked.

'It is astonishing that developments do not take place more quickly and that a big effort is not made to capture this market. I have, during the last year, had opportunities of comparing the possibilities of Canada in the pulp and paper business with those of Scandinavia, and have been forced to the conclusion that Canada has little or nothing to fear in the matter of quality at any rate from Scandinavia. The wood there is much more difficult to get at, and is, as a rule, of poorer quality and only to be had from trees of small growth. It is much more knotty and generally a great deal more costly to handle.

'So far as Norway is concerned it has practically no forests left, and I should say that in Scandinavia generally the growth is much slower, and, as a rule, the cordage per acre is very small as compared with that of Canadian forests in the eastern provinces. It can be safely said, I think, that within ten years' time, unless conditions change in an extraordinary manner, Norway will be exhausted and Sweden nearly so, as far as pulpwood is concerned.

'I would like to suggest, that in order to attract pulp and paper manufacturers to Canada, the leases of limits should be put upon a permanent basis. The present arrangements of having to renew leases under what is practically a competitive system does not attract capital, and it is absolutely essential to attract the best class of makers to give a permanent security in this way.'

PULP.

At the same it is right that I should quote a communication from another correspondent, who deals largely in pulp, and consequently takes a different view of the matter :—

'We would like to add a word in regard to paper-making. There is much talk of paper-making in Canada, but the difficulties that attend the manufacture of paper in an out of the way place are not understood, or they would never be contemplated for a moment. The damage in transitu alone to paper in reels amounts to something like 15 per cent. Besides this, all that can be urged against the manufacture of sulphite in Canada in the way of lack of experience, can likewise be urged in paper-making, only doubly and trebly so, and it would be possible to show clear figures and absolute proofs that it would be better for a mill to locate its mechanical pulp mill where there is water power, its sulphite mill where there is wood, and the paper mill to convert it into paper, where its market is. Thus, in ventures of this sort we should strongly urge (and could give you good proofs of the argument) anybody desiring to go into the paper trade should make his pulp in Canada and his paper in England.'

SOUTH AFRICAN TRADE.

A large business is likely in importations in South Africa in the next few years. This applies to agricultural implements, to manufactures of all kinds, and to food products ; and endeavours are being made to induce the Imperial Government to allow Canada to participate in any contracts that may be given out officially.

APPOINT AGENTS IN SOUTH AFRICA.

I would strongly advise Canadian houses, however, either to arrange for representation in South Africa individually, or that jointly a number of firms in different branches of business should combine for the purpose of having a suitable agent. In that way only will Conada have the opportunity of sharing in the large trade that is likely to be done in South Africa within the next few years.

I am not certain that this plan might not with advantage be adopted in the United Kingdom, as while the government and government officials can do a good deal in bringing importers and exporters together and in educational work, the actual business must be done by those who are engaged in the trade.

IMPERIAL INSTITUTE.

As already mentioned, in the course of the year the arrangements for the transfer of the Imperial Institute to the Board of Trade have been completed, and the new order of things commenced on January 1. It is proposed to retain the interesting collections, to improve them, to keep them up-to-date, and to renew them from time to time, so that they will give a better idea of the resources and capabilities of the various provinces than at present. Offices have also been opened in the city, in which the same class of work will be carried on as at South Kensington. I hope and believe that under the new organization greater benefits will accrue to Canada than in the past, in connection with the encouragement of emigration and the development of trade. The wish has been expressed that the colonies may continue to make their appropriations towards the expenses of carrying on the work in the future, as in the past, and so far as Canada is concerned the hope is expressed that this will be the case.

FAST ATLANTIC SERVICE.

The discussion that has been taking place during the year, respecting the Fast Atlantic Service, has lead to much correspondence and many personal interviews, largely relating to the claims of various ports in the United Kingdom as ports of call, or as terminal ports for the proposed service. Deputations or representations have been received from the following places: Liverpool, Plymouth, Bristol, Southampton, Milford Haven, Cardiff, Swansea, Newport, Sligo, Blacksod Bay, Lough Swilly, Galway, &c. In each case I have forwarded to the government, for consideration the communications that have reached me from various places.

INCOME TAX ON PROFITS.

Further correspondence has taken place with regard to the charging of income tax on the profits of manufacturers in Canada, on goods shipped by them to their agents, for sale in the United Kingdom. It is claimed that the charge becomes a discriminating duty against shipments carried out in the manner already mentioned. Wholesale houses buying direct from merchants and manufacturers in Canada are free from any such charge; and it is believed also that while one or two Canadian houses have been singled out for the purpose, many of their competitors in other countries have not been pressed in the matter. While the inland revenue authorities admitted, to a certain extent that there was a sense of inequality in the tax, they fell back on the Act of Parliament, under which they were acting; and when pressed upon the matter it was stated that they were not willing to introduce legislation which would place all the shippers on practically the same footing. Since our correspondence there has been a greater activity on the part of His Majesty's Government in their endeavour to collect the tax from the agents of foreign shippers. The opinion prevails that these efforts will be unpopular, that the amount of revenue raised will be comparatively small, and that in the near future it may be possible to bring sufficient pressure to bear upon the authorities to induce them to reconsider their action. In my judgment the tax is one that cannot be defended from any point of view, but in any case it does seem inequitable to charge the tax on shipments through agents of the shipping houses, while shipments to wholesale firms in the United Kingdom are free from any charge of the kind.

ATLANTIC BILLS OF LADING (LONDON CLAUSE.)

I have been in communication with your department with regard to what is known as the London clause in the Atlantic Bills of Lading. This clause applies to London only, and provides for a charge, in addition to freight, &c., for dealing with the traffic when landed in the London docks, a charge which has to be paid by the shipper, and is in effect a practical increase in the freight. The charge applies only to shipments from American and from Canadian ports. Our competitors on the continent are not burdened with a similar tax, which operates therefore to the disadvantage of transatlantic shipments. The steamship companies which have combined for the purpose of imposing the

London clause do not seem prepared to withdraw it, and claim that a similar charge is practically made in other parts of the United Kingdom, but is included under another name. I reported fully to you, in order that the matter might be considered with a view to ascertain whether it was possible to take any steps to relieve Canadian trade from the discriminating influence of the charges in question.

CODFISH—PORTUGAL.

Learning from the newspapers that a convention was under negotiation between Portugal and Newfoundland, by which cod from the latter country would be admitted at a lower rate of duty than was imposed on similar imports from Canada, the matter was brought to your notice. As the result, the Colonial Office was approached with a view to a similar privilege being granted to Canada. In reply, it was stated that Newfoundland had agreed to admit port wine from Portugal at a considerable reduction of duty in return for the concession granted to them; and inquiry was made whether it would be possible to offer any tariff reduction to Portugal in exchange for a lower rate of duty on Canadian cod. The result of my interview was reported to you.

DIRECT SHIPMENTS FROM ITALY.

At the request of a Genoa shipping house, I brought to your notice the date of sailing of a steamer they had chartered, in order that Canadian importers of Italian produce might be enabled to enter into communication with them with the view of direct shipments being arranged.

SILICATE COTTON.

The following communication was made to me respecting the above-named article, but I have been unable to find that it is manufactured in Canada at all, notwithstanding that inquiry was instituted through your department and other quarters:—

'It has been brought to our notice lately that silicate cotton is manufactured in the Dominion, and occasionally orders are placed by English merchants for large quantities. We do not manufacture this article ourselves, though we deal largely in it, and in the circumstances, if you could give us the names of any parties to whom we might apply, we believe we should be able to do a considerable business with them and to our mutual advantage.'

EQUIPMENT OF THE HIGH COMMISSIONER'S OFFICE.

There are many other matters relating to the expansion of Canadian trade, respecting which I have been in communication with your Department and that of the Minister of Agriculture, but perhaps they are hardly of sufficient importance to be referred to in this Report, especially in view of the length to which it has already reached. I will only state, in conclusion, that my office is well equipped for giving the fullest possible information about Canadian trade and the possibilities of its development. All the official statistics come to us regularly; the leading trade and other newspapers are on file and are carefully scanned by my staff, so that their knowledge of such matters may be kept up to date. The directories of the various cities, and the business directories, are also open for inspection; and we have accumulated a list of individuals and firms in the different branches of commerce, both in Canada and in this country, which is of the utmost value in dealing with our large correspondence on such matters. The success which has attended the efforts of the department for many years past, in connection with commercial matters, is shown, not only in the large correspondence and in the considerable number of callers making use of the office on such matters, but in the increase in the export trade of Canada to the Mother Country, with which I venture to believe the efforts of the department have had not a little to do.

I am, sir,

Your obedient servant,

STRATHCONA,

High Commissioner.

APPENDIX A.

PREFERENTIAL TRADE WITH CANADA.

1. While some general interest has been taken in the United Kingdom in the Canadian preferential tariff, very little seems to be known as to its effect upon British trade with the Dominion. Indeed some erroneous impressions appear to prevail on the subject, which could hardly exist were the actual facts known, as explained in the memoranda presented by the Canadian ministers at the colonial conference and published in the official blue book.

2. The following table gives the exports of the United Kingdom to Canada between 1887 and 1897, prior to the adoption of the preference, and shows that the trade steadily declined in that period:

Year.	Dutiable.	Duty Free.	Total.
	$	$	$
1887	35,766,273	9,195,960	44,962,233
1890	33,267,721	10,122,520	43,390,241
1893	31,869,267	11,279,146	43,148,413
1897	20,217,422	9,194,766	29,412,188

3. The Reciprocal Tariff, as it was at first described, came into operation on April 27, 1897—that is, the last two months of the fiscal year ending June 30, 1897. It was 12½ per cent lower than the general tariff. The preferential tariff of 25 per cent in favour of British goods was in force from August 1, 1898, until July 1, 1900, when the preference was increased to 33⅓ per cent. The following table of the exports of the United Kingdom to Canada since 1897 indicates a steady and substantial expansion in the trade :—

Year.	Duitable.	Duty Free.	Total.
	$	$	$
1897	20,217,422	9,194,766	29,412,188
1898	22,556,479	9,944,438	32,500,917
1899	27,521,508	9,538,615	37,060,123
1900	31,561,756	13,227,974	44,789,730
1901	31,701,654	11,316,510	43,018,164
1902	35,062,564	14,143,498	49,206,062

4. A small portion of the increase in dutiable goods relates to articles which do not come under the preferential tariff (wines, malt and spirituous liquors, tobacco, &c.), but the figures seem to prove beyond question that the preferential tariff arrested the decrease in British exports to Canada, which was apparent for some years up to 1897, and that it has also led to a continuous increase from that year up to the present time.

5. At the same time, however, these results have not attracted anything like the attention that has been directed to the expansion of the imports into Canada from the United States, dutiable and duty free, in the same period (1897–1902) from $61,649,000 to $120,814,000. Any general comparison of the Canadian imports from the United States and Great Britain is calculated to give rise to misleading conclusions on the part of those not acquainted with the nature of the trade; but an analysis of the statistics for 1901, taken from the Statistical Year Book of Canada, will perhaps be instructive, as bearing upon this part of the question. The totals are as follows :—

	Dutiable.	Free.	Total.
United States	$ 53,600,278	$ 56,884,730	$ 110,485,008
Great Britain	31,701,654	11,316,510	43,018,164

6. In the first place there are the dutiable exports of the United States to Canada, consisting of articles which the United Kingdom does not export to any extent, or in which she could not very well compete owing to considerations of freight and other reasons with a country contiguous to the Dominion like the United States, such as the following:—Cattle and horses, books, periodicals and other printed matter, bread-stuffs, canes, railway carriages, wagons, drays, &c., cash registers, coal and coal dust, coffee, eggs, express parcels, fish, fish oil, &c., fruits and nuts, gunpowder and other explosives, hay, hops, agricultural implements, malt, mineral and vegetable oils (excluding linseed), marble and manufactures, condensed milk, mineral substances, post office parcels, provisions, ships and vessels and repairs, slate and manufactures, spirits of turpentine, vegetables, wood and manufactures of wood, and sundry other articles in the same category. Of such merchandise the United Kingdom sent to Canada only $1,343,700, as compared with $20,480,500 from the United States.

7. Then there are other articles, subject to duty, which the United States exported in larger quantities to Canada than the United Kingdom. For instance, take the following:—Antiseptic dressings, baking powder, bicycles and tricycles, braces, &c., brass and manufactures, bricks and tiles, brushes, buttons, candles, cement, clocks, cocoa nuts, &c., copper and manufactures, cordage, &c., corsets, drugs dyes and chemicals, electric material and apparatus, fertilizers, furniture, picture and other frames, glass, gold and silver manufactures, gutta percha, India rubber and manufactures, inks, iron and steel and manufactures, jewellery, lead and manufactures, leather dressing, &c., leather and manufactures metal and manufactures, musical instruments, optical instruments, paints and colours, paper and manfactures, pencils, penholders, &c., photographic plates, pocket books, printing presses and machines, seeds and roots, soaps, starch, &c., stone and manufactures, sugar of all kinds, tin and manufactures, trunks, twines, varnish, watches, webbing, &c. Great Britain only sent such goods to the value of $7,575,700, as compared with $29,065,400 exported by the United States. The principal items from the latter country were: drugs, &c., $1,163,600; electrical material, $870,600; glass, $538,600; iron and steel manufactures, $13,845,500; leather manufactures, $1,450,800; paper and manufactures, $1,320,800; and sugar of all kinds, $989,500. The total imports of these last-named articles from the United States being $20,179,800, having increased from $10,718,800 in 1897, notwithstanding the advantages the British shipper has been given under the preferential tariff.

8. In some other manufactures imports from the United Kingdom still have the lead, although competition, on the part of the United States and other countries, is becoming keener. Take, for example, boot and other laces, combs, carpets, cottons, curtains, earthenware and china, elastic, &c., fancy goods, flax and manufactures, furs and manufactures, gloves and mitts, hats, caps and bonnets, jellies and jams, linseed oil, mats and rugs, mustard cake, oil cloth, pickles, sauces, &c., silk and manufactures, spices, spirits and wines, table cloths, &c., tobacco pipes, umbrellas, woollens, &c.—the imports of these articles into Canada from Great Britain were $22,782,100 as against $4,054,100 from the United States. In 1897 the figures were $14,661,000 and $2,765,000 respectively.

9. These figures account for the bulk of the dutiable imports from the two countries. The average rate of duty in 1901 upon all dutiable imports from the United States was 24·83 per cent. The average rate on goods subject to the preferential tariff from Great Britain was 19·40 per cent. In 1902 it appears to have been somewhat lower.

10. The following are the average rates of duty paid on importations in 1901, under the preferential tariff, on the principal lines imported from Great Britain:—Cement 20·7, cottons 20·4, drugs and chemicals 15·1, earthenware 20·0, fancy goods 22·2, flax and jute 17·9, fur and manufactures 11·9, glass 17·1, gold and silver manufactures 20·0, gutta percha manufactures 22·1, hats and caps 20·0, iron and steel 11·6, paints 7·6, paper and manufactures 18·9, silks 20·9, woollens 23·0. The average tariff on dutiable woollens prior to 1897 was 32 per cent and on cottons 29 per cent.

11. That the ordinary tariff, which is one-third higher than the preferential rates, does not discourage importation is shown by the fact that the dutiable imports from countries not entitled to the preference increased from $44,888,000 to $72,558,000

between 1897 and 1901. If any doubt exists in the United Kingdom as to the substantial nature of the preference granted in favour of the British goods, certainly none prevails in the United States, where the manufacturers have found it necessary to reduce their prices to Canada to offset the preference given to British imports.

12. So much for the dutiable imports. In 1901, as already mentioned, the figures of the duty free imports from the United States and Great Britain were $56,884,730 and $11,316,510 respectively. The bulk consists of raw materials for the manufacturing industries and necessaries for the agricultural, mining, fishing and other industries, which Great Britain does not export to any extent or in the trade in which she could hardly hope to compete with the United States. Take for instance the following goods :— Anthracite coal, asphalt, coke, ores, logs and lumber, furs, undressed, hides, grease for soap stock, raw silk, broom corn, green fruit, unmanufactured tobacco, Indian corn, raw cotton, gums of all kinds, rubber, settlers' effects, binder twine material, coin and bullion, &c. The imports of these articles from the United Kingdom were valued at $2,536,300, as against $40,652,800 from the United States. In 1897 the figures were $716,300 and $24,509,900 from the respective countries. The increase illustrates the great industrial development which is being witnessed in every part of Canada.

13. Then in the free list, as in the dutiable list, there are a number of articles, like those given below, in which the United States is a larger seller to Canada than the United Kingdom :—Seeds, fire bricks, clays, cotton waste, cocoa nut and palm oil, duck (for belting and hose), drugs, dyes, &c., fishing nets, &c., glove fasteners, hatters' bands, metals, iron and steel manufactures, newspapers and magazines, rags, resin, surgical and dental instruments, binder twine, paintings, &c. Great Britain only sent goods of these classes of the value of $4,895,900, as against $15,323,900 from the United States, of which drugs and dyes, seeds, binder twine and manufactures of iron and steel amounted to nearly $12,000,000, as compared with about $3,500,000 in 1897. It is hardly necessary to state that the free list is open to all countries alike, and that there are no restrictions.

14. The following articles on the free list come in greater quantities from or through the United Kingdom :—Diamonds, wool, undressed hemp, cotton yarn, No. 40 and finer, jute cloth as from the loom, jute, flax or hemp yarn, plain, dyed, &c., articles for the army and navy, green coffee and tea, salt, noils, &c. Such imports from Great Britain were valued at $3,884,100, as compared with $907,900 from the United States. The figures in this and the two preceding paragraphs account for the bulk of the duty-free imports from the two countries.

15. This analysis of the exports of the United States to Canada, and the deduction from the total figures of the portion of the trade in which the United Kingdom, for the reasons given, could not very well hope to compete, serve to explain the considerable disparity between the imports, both dutiable and free, from the two countries. It is a question, however, whether but for the preferential tariff, the dutiable imports from the United Kingdom, in view of the falling off between 1887 and 1897, and of the intensity of the competition of the present day, would have increased as they have done between 1897 and 1902.

16. Did space permit, it would be possible to deal at greater length with the trade relations between Canada and the Mother Country, but it may not be out of place to quote the following conclusions, relating to the British preferential tariff of Canada, which the Canadian Ministers submitted at the recent Colonial Conference :—

(*a.*) That the preference is a very substantial and genuine one ; (*b.*) that it gives British merchants a material advantage over foreign competitors in the Canadian markets ; (*c.*) that the preferential rates are not too high to shut out reasonable competition with the Canadian producer ; (*d.*) that the preference has resulted not only in arresting the continuous decline in British trade with Canada, but in stimulating the trade. If it had not been granted, it is not very likely that the volume of British imports into Canada would be as large as it is to-day, to say the least ; and (*e.*) that the advantage given by Canada to the British manufacturer is proved beyond all question. If he has not fully availed himself of it that is not the fault of the Canadian Government or of Canadian fiscal policy.

* Grain, flour, starch, &c., became subject to duty on and after April 15, 1902.

† Shown separately from July 1, 1902.

‡ The aggregate totals for the year 1902 are for the six months ended June 30, after which date rice meal is included with 'offals of corn and grain.'

§ Rice meal is included with 'offals of corn and grain,' from July 1, 1902.

a Not registered separately prior to 1901.

b Potato flour was included with 'other farinaceous substances' prior to July 1, 1902.

c Registered by quantity from April 15, 1902, but was shown prior to July as 'farinaceous substances, all other sorts.' Included starch, farina and dextrine prior to 1901, and potato flour prior to July, 1902.

AUSTRALASIA.

Report of Commercial Agent.

(*Mr. J. S. Larke.*)

The Exchange, Sydney, N.S.W., Feb. 23, 1903.

The Right Honourable,
The Minister of Trade and Commerce,
Ottawa.

Sir,—A report from Australia must be monotonous, and it is feared, must continue to be for some time to come.

The weather during January and so far February has been disappointingly dry over a large area of New South Wales and Queensland. The other States are in better condition though portions of Victoria are as distressed as the worst parts of New South Wales. The suffering in this section as in Western New South Wales has become acute.

AUSTRALIAN CREDIT.

It is of importance to those concerned in Australian trade to have some knowledge of how far the drought has effected Australian credit. A warm discussion is now going on in England upon this subject and one writer, deriving his ideas from the gloomy side of the picture sometimes painted here, has predicted that a financial crash is imminent. The statistics to enable a full judgment to be formed upon this subject are not yet available but it is clear that so pessimistic a view is unwarranted.

The results of the drought even in New South Wales or Queensland are not sufficient to precipitate a crisis. The business of this city has been sustained in a remarkable manner. No large house has failed, and while caution is being exercised in loaning and the money market has hardened, there seems to be plenty to be had for legitimate business at moderate rates. Trade has fallen off and in some cases there will be losses instead of profits but under average conditions there will be nothing approaching a crash.

PRODUCTION OF GOLD.

A year ago I stated that I believed that the loss in the value of wool would be compensated for by the increased production of gold in Australia. Though the drought was somewhat severer than expected, the prediction will be nearly realized. The production of gold in Australia was:—

1901	3,874,888 ozs.
1902	4,257,778 "

An increase of 382,890 ozs. valued in round figures at a million and a half.

LOSS IN THE VALUE OF WOOL.

The loss on wool will not be known for some time but to January 31, the shipments had been :—

State.	1901-2. Bales.	1902-3. Bales.		Bales.
New South Wales	427,701	317,655	Decrease	110,046
Victoria	317,468	272,908	"	44,560
South Australia	94,315	80,709	"	13,606
Queensland	63,221	33,424	"	29,797
West Australia, estimated	29,596	24,463	"	5,133
Tasmania	8,738	5,080	"	3,658

A total decrease of 206,800 or a little over twenty-five per cent. Before the season is over the loss may have increased to thirty per cent of last year's clip but the price will be above thirty per cent of the previous year. It is doubtful if the decrease in value will be over a million and a half sterling.

IMPORTATIONS FROM CANADA.

The direct importations of produce from Canada continue disappointingly small. Manitoba wheat is sent from United States mills and flour made from it, and it is shipped from New York, Tacoma and Seattle. There is a great desire to do business directly through Vancouver but there seems always something to stop any large transactions. I trust that it will yet be possible to have an inspection point as far west as possible so that wheat for Australia can be drawn from the most western districts and thus save the carriage to Winnipeg and back. It would make Vancouver a considerable shipping port. A sample lot of bran has been ordered here. The bran from white wheat would be preferred here to that from hard.

OATS FALLING IN PRICE.

Oats are steadily falling in price and it is clear that in March they will be landed here at 2s. 3d. per bushel of forty pounds C. I. F. & E. It is anticipated that they will even go fourpence below this price in a couple of months. This will shut out Canadian.

Inquiries for literature upon Canada and that especially relating to the farm lands of the Western Territories steadily come. In some cases parties telegraph for it. A number of intending settlers have already left for Canada and others follow by succeeding steamers.

I have the honour to be,

Your obedient servant,

J. S. LARKE.

SOUTH AFRICA.

REPORT OF COMMERCIAL AGENT.

(Mr. James G. Jardine.)

P. O. Box 1232.

CAPE TOWN, February 12, 1903.

The Right Honourable,
The Minister of Trade and Commerce,
Ottawa, Canada.

SIR,—The full Import Returns for the past twelve months ending December 31, last for the Transvaal are to hand. The total value runs to no less than $65,335,000, as compared with the year previous of $18,320,000. As fully two-thirds of the former amount is for the period following the conclusion of peace, some idea will be gained of the enormous volume of trade that has set in toward the Transvaal, except when the fact is taken into consideration that tremendous orders are still unfilled on account of the inability of the railways to cope with the traffic.

During 1902, goods valued at $27,000,000 came by Durban, by Cape Colony ports, $32,000,000; by Lorenzo Marques, $6,400,000. The Transvaal Custom's Dues for 1902 amount to $7,400,000, as against $2,400,000 for 1901.

TRANSVAAL IMPORTS.

The principal items were:—

Cattle	$ 540,000
Horses	475,000
Mules	255,000
Poultry	190,000
Chemicals and toilet articles	790,000
Cyanide of potassium	1,240,000
Wearing apparel	4,500,000
Biscuits	315,000
Stationery	590,000
Boots and shoes	2,410,000
Butter	1,020,000
Candles	1,025,000
Cigars and cigarettes	500,000
Coffee	300,000
Confectionery	390,000
Barley and malt	415,000
Mealies	1,255,000
Oat-Hay	360,000
Cotton goods	1,490,000
Eggs	450,000
Fresh fish	90,000
Canned or preserved fish	675,000
Flour	1,175,000
Fresh fruit	170,000
Furniture and cabinet ware	1,865,000
Groceries	930,000

Millinery and haberdashery	$1,400,000
Hardware	2,000,000
Hats and caps	450,000
Galvanized iron	750,000
Jewellery	670,000
Electric machinery	800,000
Electric machinery, (mining)	7,000,000
Preserved meats	1,050,000
Fresh meats	3,100,000
Condensed milk	875,000
Spirits	1,690,000
Sugar	685,000
Tobacco, (manufactured)	190,000
Tobacco, (unmanufactured)	155,000
Vegetables, (tinned and fresh)	575,000
Carriages and wagons	570,000
Bicycles and parts	1,055,000
Wines	1,790,000
Woollen manufactured goods	1,100,000

AMERICAN AND GERMAN ENTERPRISE.

The United States and Germany have perhaps secured a greater proportion of this trade during 1902 than in previous years, especially in the cheaper grades of agricultural machinery and other supplies furnished to the Repatriation Boards in the Transvaal, including the Orange River Colony. Their representatives were posted in all large towns before the close of the war, and tremendous consignments of their stuff were lying at the various coast ports awaiting transportation to the interior, and thus they were enabled to supply the immediate demand for cheap machinery, &c. urgently needed by the Imperial authorities to enable 100,000 returned settlers to commence life once more on the veldt.

CAPE COLONY.

The Revenue for the six months ending December 31, 1902, amounted to $28, 655,000, being an increase over the same period in 1901 of over $8,000,000, but nearly 50 p. c. of this amount comes from the Government railways, namely $14,000,000; 30 p. c. or $9,000,000 from customs; and not a cent comes from excise, although many thousands of gallons of wines, brandies, &c., are produced in Cape Colony annually. The Custom's taxes are born principally by the consumer, the man of moderate means. In Cape Colony wheat is taxed 34 p. c., butter 22 p. c., cheese 43 p. c., jams 46 p. c., matches 49 p. c., coal oil 40 p. c., candles 43 p. c., tea 50 p. c. These heavy taxes on prime articles of food make this Colony one of the dearest places in the world to live in. Only when these taxes have been abolished, or considerably reduced, will emigrants be attracted here. As matters now stand the working classes of England, or white people from other countries, can't improve their position materially by coming here.

I have the honour to be, sir,

Your obedient servant,

JAMES G. JARDINE.

FROZEN POULTRY.

Mr. J. G. Jardine, Commercial agent to South Africa writes to the department, under date of February 7, inclosing a letter received by him from an enterprising dealer in poultry and importer of food products. The letter is as follows :—

BURMESTER'S BUILDINGS, 92 ADDERLEY STREET, CAPE TOWN.

J. G. Jardine,
Canadian Trade Agent,
&c., &c.

SIR,—I desire to express my indebtedness to you, for your kindness in having written about me to your Canadian friends.

I am pleased to be able to inform you that several of them have written to me and are sending me small trial shipments of their respective lines, which I trust may ultimately result in a large business between us.

Referring to our conversation yesterday, in regard to this product, the following are particulars, viz :—

The weight should be not less than $2\frac{3}{4}$ lbs. nor more than $3\frac{1}{2}$ lbs., as the duty is 2 d. per lb. and over this weight, this charge becomes excessive. They should be packed in strong wire bound cases, containing from 20 to 25 birds. The cases should be perforated at each end with five holes of 1-inch diameter.

The open crates in which Australian shippers send us frozen poultry are a complete failure ; half of them being landed here in a damaged condition and many of the fowls being consequently abstracted. Each case must be branded **[C]**, numbered, and each must have marked on it the net weight contained therein ; which information must also be afforded in the invoices for Custom House purposes ; as I am unable to clear the goods without it.

The dealers here are not particular about the sex of the poultry ; but the fowls should be fat and not too old. If the price was right, I could take a large quantity ; probably 4,000 per month. In any orders which I may send I would like ninety per cent fowls and ten per cent ducks.

I may mention, for your information, that I am supplying the contractor to the Military hospitals here ; and receive regular fortnightly shipments from London. This is very superior poultry ; excellently put up ; each fowl is wrapped in paper, and they are not too old. Although coming from London, they are of course not English poultry ; the greater part coming from Russia. They are put up in cases, such as I have described, and arrive here in perfect order.

My London shippers draw on me at 60 days sight adding Bank charges ; and documents are surrendered on acceptance.

You might ask your correspondents to send me over small trial shipments ; and request them to be good enough to let me know their cable addresses ; so that in the event of the shipments turning out satisfactorily, I may be able to cable them for other parcels.

Cables addressed "Carter, Cape Town" will reach me,

Yours faithfully,

(Signed). G. M. CARTER.

POULTRY IN THE OTHER COLONIES.

Mr. Jardine further states :—

In the Transvaal, Natal and Orange River Colony there is a much larger demand for poultry than in Cape Colony. The J. W. Taylor Co., Ltd. of Johannesburg and Natal would be glad to hear from Canadian exporters with a view to handling turkeys, geese and fowls, to be sent monthly in our direct line of steamers.

RAILROAD SUPPLIES.

Mr. Jardine under date of February 10, writes that he addressed a communication to the General Manager of the Cape Government Railways at Cape Town in which he explained the position of the Canadian manufacturers of railroad supplies and their desire to tender for future requirements.

Mr. Jardine has reported that in reply he was informed that: 'the Agent Genera for Cape Colony, London, transacts all the business of this nature for the railways and that he is apparently, very willing to place orders with Canadian exporters, other things being equal.' Mr. Jardine wishes to call the attention of exporters of railway and building materials generally to this fact. He states that 'Time would be saved by communicating with the High Commissioner for Canada at London and informing him of their ability to tender for such articles.'

MR. JARDINE'S MOVEMENTS.

Mr. Jardine has informed the Department of Trade and Commerce under date of March 9th, that he purposed leaving Cape Town on the tenth of March for Bloomfontaine to attend the sessions of the Union Customs Congress for South Africa. Mr. Jardine intends visiting all points of importance immediately upon the adjournment of the Congress and expects to be absent for some months from Cape Town. Intending correspondents may direct letters to Box 1232, Cape Town, whence they will be promptly forwarded.

III.—GENERAL COMMERCIAL INFORMATION.

INQUIRIES RELATING TO CANADIAN TRADE.

Since the publication of the last monthly report, there have been received at this department from the High Commissioner for Canada, London, England, and the Curator, Canadian Section, Imperial Institute, London, England, the following inquiries relating to Canadian trade. The names of the firms making these inquiries, together with their addresses, can be obtained from this department, or from the office through which the inquiry was received.

Inquiries from the High Commissioner for Canada.

SHOWROOM FOR CANADIAN ENGINEERING GOODS (LONDON).

1. A London firm having accommodation in a central position is willing to let space in its premises for the purpose of showing the goods of any Canadian engineering firm which may require such facilities. (Reference No. 74.)

CANADIAN IMPORTERS OF SILK GOODS.

2. An English manufacturer of silk goods (handkerchiefs, mufflers, neck-wear silk, &c.) is desirous of doing business with Canadian houses importing these lines. (Reference No. 74.)

INQUIRY *re* CANADIAN PRODUCERS OF CAVIARE.

3. Inquiry has again been made for Canadian producers of caviare or for their English representatives. (Reference No. 74.)

CANADIAN IMPORTERS OF WOOL OR TOPS.

4. A Bradford firm has asked for the addresses of Canadian importers of wool or tops made from English wool. (Reference No. 74.)

CANADIAN IMPORTERS OF IRON OR STEEL.

5. Inquiry has been made respecting the opening in Canada for business in constructional iron and steel work, columns, stanchions, staircases, floors, girders, bridges, tanks, &c. (Reference No. 74.)

EXPORTERS WISHING REPRESENTATION IN GERMANY AND AUSTRIA.

6. A firm in Dresden (Germany) with good business experience, and offering excellent references, wishes to hear from Canadian exporters desiring representation in Germany and Austria. (Reference No. 74.)

CANADIAN EXPORTERS OF FLOUR.

7. A Liverpool flour importer wishes to establish a connection with some first-class exporters of Canadian flour. (Reference No. 75.)

CANADIAN SHIPPERS OF FLOUR.

8. An important London house is also looking out for Canadian flour millers prepared to do an export business. (Reference No. 75.)

INQUIRY *re* CANADIAN BUTTER AND CHEESE MANUFACTURERS.

9. Inquiry has been made for the addresses of butter and cheese manufacturers in Canada. (Reference No. 75.)

INQUIRY *re* CANADIAN WOOD-PULP MAKERS.

10. Inquiry is made for the names of wood-pulp makers in Canada turning out large quantities of boards for papermakers and for use in the shoe trade. (Reference No. 75.)

CANADIAN MANUFACTURERS OF WATERPROOF GARMENTS.

11. A Glasgow house desires to correspond with Canadian manufacturers of India-rubber waterproof garments in a position to cater for the British market. (Reference No. 75.)

CANADIAN SHIPPERS OF LARD OIL.

12. A Bristol firm inquires for names of Canadian shippers of lard oil. (Reference No. 75.)

CANADIAN MICA PROPERTY FOR SALE.

13. A Canadian owner of a mica property desires to get into touch with persons prepared to purchase it, or to assist him in its development. (Reference No. 75.)

CANADIAN IMPORTERS OF PERFUMES.

14. A firm of manufacturing and export perfumers is desirous of extending their Canadian connections and makes inquiry to this end. (Reference No. 76.)

CANADIAN IMPORTERS OF WOOLLEN YARNS.

15. The names of Canadian hosiery manufacturers or other importers of woollen yarns are asked for by a firm in the Midlands. (Reference No. 76.)

CANADIAN IMPORTERS OF TEXTILES.

16. A Manchester house has asked to be furnished with a list of importers and traders in Canada interested in the purchase of textiles and soft goods. (Reference No. 76.)

INQUIRY *re* IMPORTERS OF CHINA CLAY IN CANADA.

17. Inquiry is made for the principal buyers and importers of China clay in Canada. (Reference No. 76.)

CANADIAN SHIPPERS OF WOOD CHIMNEY-PIECES, ETC.

18. A London importer wishes to get into touch with a Canadian shipper of wood chimney-pieces, &c. (Reference No. 76.)

Inquiries from the Curator, Canadian Section, Imperial Institute.

CANADIAN SHIPPERS OF BUTTER AND CHEESE.

1. A London firm asks for the addresses of the principal Canadian shippers of butter and cheese. (Reference No. 38.)

CANADIAN IMPORTERS OF SAUSAGE CASINGS.

2. A Liverpool firm wishes to be placed in touch with Canadian importers of sausage casings. (Reference No. 38.)

CANADIAN PRODUCERS OF PEAT.

3. A Scotch correspondent seeks information about the development of the Canadian peat industry and wishes to hear from producers. (Reference No. 38.)

CANADIAN EXPORTERS OF HOG BRISTLES.

4. An inquiry has been received for the names of Canadian houses who can supply hogs bristles as used by brush manufacturers. (Reference No. 38.)

CANADIAN SHIPPERS OF PRODUCE FLOUR, ETC.

5. A Manchester produce broker wishes to get into communication with Canadian shippers of produce, flour, &c. (Reference No. 38.)

CANADIAN MANUFACTURERS OF LAUNDRY MACHINERY.

6. A London firm invites particulars and quotations from Canadian manufacturers of laundry machinery and supplies such as maize, starch powder, alkali, &c. (Reference No. 39.)

AGENCY IN CANADA FOR LINENS (IRISH).

7. A firm of linen manufacturers in Ireland wishes to develop trade in Canada and asks to be placed in touch with a first-class importing house which would be prepared to act as selling agents. (Reference No. 39.)

CANADIAN SHIPPERS OF FLOUR.

8. A Liverpool firm asks for addresses of Canadian shippers of flour. (Reference No. 39.)

CANADIAN PRODUCERS OF CHARCOAL.

9. An important London house asks to be placed in touch with Canadian producers of charcoal and who are in a position to undertake export trade upon a considerable scale. (Reference No. 40.)

CANADIAN PRODUCE SHIPPERS.

10. A firm of provision and produce importers at Newcastle-on-Tyne invites correspondence from Canadian produce shippers wishing to develop trade in that district. (Reference No. 40.)

CANADIAN MANUFACTURERS OF DOORS, ETC.

11. A timber merchant in Hull asks for the addresses of Canadian manufacturers who can supply doors, skirtings, mouldings and general joinery. (Reference No. 40.)

ASBESTUS PROPERTIES FOR SALE.

12. Particulars are desired of any first-class asbestus properties at least partly developed, for which a purchaser is sought. (Reference No. 40.)

CANADIAN SHIPPERS OF PEA AND OTHER SEEDS.

13. A firm in Angers (France) wishes to be placed in communication with Canadian shippers of pea and other seeds, particularly those who have resident agents in France. (Reference No. 40.)

EMIGRATION FROM GREAT BRITAIN TO BRITISH NORTH AMERICA.

* The total production of pig iron in Canada in 1902, from Canadian and foreign ores amounted to 357,903 tons, valued at $4,243,545, of which it is estimated 71,665 tons, valued at $1,043,011, should be attributed to Canadian ore and 286,238 tons, valued at $3,200,534, to the ore imported.

(*a.*) Quantity or value of product marketed. The ton used is that of 2,000 lbs.
(*b.*) Copper contents of ore, matte, &c., at 11·626 cents per lb.
(*c.*) Lead contents of ores, &c., at 4·069 cents per lb.
(*d.*) Nickel contents of ore, matte, &c., at 47 cents per lb.
(*e.*) Silver contents of ore at 52·16 cents per oz.
(*f.*) Oven coke, all the production of Nova Scotia and British Columbia.
(*g.*) Gross return from sale of gas.
(*h.*) Includes crude oil sold to refiners and oil sold for fuel and other purposes.

TRADE OF CHILI.

a The figures for Mexico include coin and bullion.

* Figures are for the Years 1900, 1901 and 1902.

II.—TARIFF CHANGES.

UNITED KINGDOM.

I.—Order of the Board of Agriculture dated November 28, 1902, intituled: 'Foreign Animals (amendment) Order of 1902 (No. 2)' prohibiting the landing in Great Britain of Animals from certain States in the U. S. of America.

This Order which came into operation on December 5, 1902, provides that unless and until the Board otherwise order, it shall not be lawful to land any animal brought from the following States in the United States of America, namely: the States of Maine, New Hampshire, Vermont, Massachusetts, Connecticut, and Rhode Island, and the First Schedule *(Prohibited Countries and Parts of Countries)* to the Foreign Animals Order of 1896 shall be read and have effect as if the said six States were included in the list of prohibited countries and parts of countries mentioned in that Schedule.

II.—Grain duties: List of general rates of drawback on certain articles manufactured in Great Britain or Ireland.

(General Customs Order No. 88, of December 10, 1902.)

The following List of general rates of Drawback to be allowed, provisionally, under the Second Schedule to the Finance Act, 1902, on certain articles of British or Irish manufacture, is circulated for the information of Officers and others concerned:

Articles.	Rate of Drawback per net Cwt. *d.*
On flour, and the meal or milled products (other than offals) of: wheat, barley, oats, rye, buckwheat, peas (not fresh), beans (not fresh), lentils	3·5
On the meal or milled products of maize (other than maize starch)	1·5
On offals (as defined in the First Schedule to the Finance Act, 1902) produced in Great Britain or Ireland, except offals from maize starch and rice starch	1·5
On whole rice on which import duty of 5*d.* per cwt. has been paid, if re-cleaned and polished in Great Britain or Ireland	5·75
On whole rice, cleaned in the United Kingdom, upon which import duty of 3*d.* per cwt. has been paid	3·64
On broken rice resulting from a cleaning or milling process in Great Britain or Ireland	3·0
On mixtures of such cleaned whole and broken rice if the mixture contains not less than 90 per cent. of whole rice	3·64
And a proportionate rate when the whole rice is less than 90 per cent of the bulk.	
On rice bran or meal resulting from a cleaning or milling process in Great Britain or Ireland	1·5
On rice flour	3·0
On rice starch	3·81
On offals or bye-products from rice starch	3·0
On maize starch (corn flour)	2·75
On offals or by-products from maize starch	0·75

All duly substantiated claims in respect of these articles, exported, or deposited in a bonded warehouse for use as ships' stores, or removed to the Isle of Man, since May 7 last, inclusive, will be settled by the collector, London, accordingly.

General Order 76, 1902 (Maize Starch) is hereby cancelled.

General Order 59, 1902 is to be noted.

III.—Classification of Mixtures containing Saccharin.

(Circular Secy. Customs No. 22,874, of December 31, 1902.)

The full Saccharin Duty of 1*s.* 3*d.* the ounce is charged on all mixtures containing Saccharin or other substances of a like nature or use.

BRITISH INDIA.

I.—CLASSIFICATION OF PETROLEUM WITH FLASHING POINT AT OR ABOVE 150°.

(Notification Finance and Commerce Department, No. 5,754, S.R., dated October 27, 1902.—Customs Circular No. XVII of 1902.)

In excercise of the power conferred by section 23 of the Sea Customs Act, 1878 (VIII of 1878), and in supersession of the Notification in this Department, No. 5,536 S.R., dated December 22, 1897, the Governor General in Council is pleased to exempt from the whole of the Customs duty in excess of five per cent *ad valorem* leviable thereon on importation into British India, petroleum which has its flashing point at or above one hundred and fifty degrees of Fahrenheit's thermometer, and which is proved to the satisfaction of the Customs Collector to be intended for use exclusively as fuel.

II.—MODIFICATION OF COUNTERVAILING DUTIES ON DUTCH SUGAR.

(Notification Finance and Commerce Department, No. 6,460 S.R.. dated December 5, 1902.—Customs Circular No. XVIII of 1902.)

In exercise of the power conferred by sub-section (2) of section 8 A, of the Indian Tariff Act, 1894, (VIII of 1894, as amended by Acts III of 1896, XIV of 1899 and VIII of 1902), and in supersession of the rates of additional duty on the kinds of sugar exported from Holland, mentioned in the notification in this Department, No. 817 S.R., dated February 7, 1902, the Governor General in Council is pleased to declare that the rates shall be revised as follows, with effect from December 6, 1902:

Kinds of Sugar.	Bounties Bestowed.	Additional Duties to be levied. Per Cwt.		
		R.	A.	P.
Raw sugar produced in Holland from beetroots.	1.16 florins per 100 kilograms of hard refined.*	0	11	9
Sugar refined from beetroot raw sugar produced in Holand.	1.31 florins per 100 kilograms.	0	13	3
Sugar refined from imported raw sugar.	0.15 florin per 100 kilograms, in addition to bounty, if any, allowed on the raw sugar by the country of production.	0	1	6 in addition to countervailing duty, if any, on the raw sugar.

*The output of refined sugar from raw is computed by deducting from the polarization of the raw sugar twice the glucose, four times the ashes, and one and a half per cent for loss in refining.

SOUTH AFRICAN CUSTOMS UNION.

I.—Rebate of Customs duty allowed in Cape Colony upon goods removed overland beyond the limits of the Customs Union.

(Government Notice No. 794, of November 6, 1902.)

Under and by virtue of section 5 of the Customs Union Tariff Act No. 1, of 1889, His Excellency the Governor, with the advice and consent of the Executive Council, has directed it to be notified that on and after November 7, 1902, Government Notice No. 303 of March 28, 1901, shall be cancelled, and that on and after that date rebate of customs duty to the extent shown in the schedule hereunto annexed shall be allowed on goods imported or warehoused on importation into this colony, whenever such goods shall be removed overland to any colony, state or territory outside the Customs Union, in accordance with the regulations from time to time prescribed in that behalf.

By order,

HENRY DE SMIDT,

Assistant Treasurer.

SCHEDULE.

1. On all goods, wares, or merchandize chargeable with duty under the Customs Amendment and Tariff Act, 1898, classes I., III. and IV., rebate shall be allowed to the extent of the difference between the duties specified in schedule B. to the said act, and a transit duty of three pounds sterling for every one hundred pounds of the value of such goods, &c., and such transit duty of 3 per cent *ad valorem* shall be the 'duty, less rebate,' to be paid on such goods, &c., except as to the following articles, viz. :—

Cigars, spirits and wine, on which such a rebate shall be allowed as to grant the importer the option of paying the transit duty of 3 per cent *ad valorem*, or sixpence per pound weight on cigars, and sixpence per gallon on spirits and wines.

Battery cloth, gauze, matting, sieving and screening ; cement ; chain ; cranes, elevators and sheers ; crucibles and cupelling furnaces and cupels, cyanide of potassium and other materials exclusively intended for the separation of metals from ore and for the sorting and sifting of metals and ore, and for the manufacture of chemicals or acids necessary for gold extraction, except sulphuric acid ; electric cable or wire, and posts for same, and their fittings ; lamps and switches (electric), not including fancy or ornamental lamps, switches and fittings for indoor lighting ; lamp posts (electric), and their fittings ; felt, covering ; flour, wheaten and wheaten meal, including pollard ; furnaces for roasting minerals ; galvanized corrugated iron ; gaspipes, lamp posts (gas), and their fittings, including lamps ; gums of all description ; hose, steam suction and armoured, for use in connection with machinery, but not including garden ; India rubber for machinery and mining apparatus and appliances ; lead foil ; machinery, including spare parts, not enumerated in the free list attached to the Customs Union tariff, not being for domestic use ; moulds, ingot ; mules and geldings ; ores and minerals, crude ; plates of iron and steel combined ; potatoes and onions (not preserved) ; retorts ; rivets and bolts and nuts (metal) ; second-hand furniture and tools of mechanics and persons about to reside in the Transvaal ; shafting ; steel and iron chimneys (smoke stacks) ; tanks and vats, suitable and intended for mining purposes ; tin and zinc, in blocks and discs ; tramway equipment requisites, such to mean the following, cars, trolleys, water-tanks and turntables ; valve hide ; wire, bells and gongs ; signalling, for use in and about mines ; wood, unmanufactured, including planed, tongued or grooved, plain boards unshaped ; on which rebate shall be allowed on the whole customs duty.

2. On all goods, articles and things of every description imported or taken out of bond by or for the use of either of the administrations of the Transvaal or Rhodesia, rebate of the whole Customs Union duty shall be allowed : Provided that, whenever

such rebate be claimed, a declaration under the hand of proper officers appointed by the Administrations of the said territories shall be delivered to the customs, showing that the goods, &c., are bona fide for the sole and exclusive use of one of these Administrations, and not to be sold or otherwise disposed of, and that any duty levied thereon would be borne directly and permanently by either of the treasuries of the said territories.

3. On goods imported through the letter post, rebate of the whole Customs Union duties shall be allowed.

4. In case any goods shall be under-entered in value, whether or not they be specially rated articles, the provisions of section 5 of Act No, 6 of 1898 shall apply.

II.—Protocol to the Customs Union Convention of 1898, which came into operation from January 3, 1899.

In virtue of this protocol, the period over which article XV. of said convention is to have effect has been extended to five years reckoned from the date of the taking effect of such convention.

III.—Proclamation of the Governor of Natal in Council, No. 92, dated November 11, 1902, granting rebate of duty on goods removed outside the Customs Union.

On and from November 1, 1902, there shall be allowed, as regards goods, wares or merchandize, chargeable with a duty under the 'Customs Union and Customs Duties Act, 1898,' and removed either direct from the importing ship or from a bonded warehouse within the Customs Union to any colony, state or territory outside the Customs Union, such a rebate of the customs duty as will reduce that duty, in each case, to the relative rate specified hereunder :—

	£	s.	d.
Wines and spirits, all sorts, sweetened or perfumed, or otherwise, liqueurs and cordials of an original value of 16s. 8d. per gallon and upwards, per gallon	0	0	6
Wines and spirits of an original value under 16s. 8d. per gallon, for every £100 value	3	0	0
Manufactured tobacco and cigars of an original value of 16s. 8d. per lb., and upwards, per lb	0	0	6
Manufactured tobacco of an original value under 16s. 8d. per lb., for every £100 value	3	0	0
Guns, double-barrelled, of an original value in Europe of £8 6s. 8d., or upwards, per gun	0	5	0
Guns, double-barrelled, of an original value in Europe under £8 6s. 8d., for every £100 value	3	0	0
Guns, single-barrelled, of an original value in Europe of £4 3s. 4d., or upwards, per gun	0	2	6
Guns, single-barrelled, of an original value in Europe under £4 3s. 4d., for every £100 value	3	0	0
Pistols of an original value in Europe of £4 3s. 4d. or upwards, at per barrel	0	2	6
All other classes of goods, wares, and merchandize, not hereinbefore specially enumerated, not prohibited to be imported, not included in the free list, class II. of second schedule to Act 50, 1898, and not included in the following list of goods on which, in transit, a rebate of the whole duty is allowed, for every £100 value	3	0	0

On any of the following goods, similarly removed, the rebate allowed shall be the whole of the customs duty :—

Battery cloth, gauze, matting, screening and sieving.

Cement.

Chain.

Corrugated iron.

Cranes, elevators and sheers.

Crucibles and cupelling furnaces and cupels.

Cyanide of potassium, and other materials exclusively intended for the separation of metals from ore, and for the sorting and sifting of metals and ore, and for the manufacture of chemicals or acids necessary for gold extraction, except sulphuric acid.

Electric cables, or wire and posts of same, and their fittings; lamps and switches, electric, not including fancy or ornamental lamps, switches, and fittings for indoor lighting; lamp-posts, electric, and their fittings.

Felt, covering.

Flour, wheaten, and wheaten meal, including pollard.

Furnaces for roasting minerals.

Gas-pipes, lamp-posts (gas) and their fittings, including lamps.

Gums of all descriptions.

Hose, steam suction and armoured, for use in connection with machinery, but not including garden.

India rubber for machinery and mining apparatus and appliances.

Lead foil.

Machinery, including spare parts not enumerated in the free list, Class II. of Second Schedule to Act 50, 1898, not being for domestic use.

Moulds, ingot.

Mules and geldings.

Ores and minerals, crude.

Plates of iron and steel combined.

Potatoes and onions (not preserved).

Retorts.

Rivets, bolts and nuts (metal).

Second-hand furniture and tools of mechanics and of persons about to reside in the Transvaal.

Shafting.

Steel and iron chimneys (smoke stacks).

Tanks and vats, suitable and intended for mining purposes.

Tin and zinc, in blocks and discs.

Tramway equipment requisites, such as to mean the following:—Cars, trolleys, water-tanks and turn-tables.

Valve-hide.

Wire, bells and gongs, signalling, for use in and about mines.

Wood, unmanufactured, including planed, tongued or grooved, plain boards unshaped.

On all goods, articles and things of every description imported or taken out of bond by or for the use of the government of the Transvaal Colony or Rhodesia, a rebate of the whole customs duty shall be allowed: Provided that, whenever such rebate be claimed, a declaration under the hand of the proper officer appointed by the government of the Transvaal Colony of Rhodesia, as the case may be, shall be delivered to the customs, showing that the goods, articles or things are bona fide for the sole and exclusive use of his government, and not to be sold or otherwise disposed of, and that any duty which might be levied thereon would, if levied, have to be borne directly and permanently by the treasury of the said colony or territory.

Provided always that clearance and removal of any of the above goods must be in accordance with the regulations from time to time prescribed in that behalf.

Proclamation No. 102 of 1899, dated October 4, 1899, is cancelled from November 1, 1902.

TRINIDAD AND TOBAGO.

EXPORT DUTIES LEVIABLE DURING THE YEAR 1903 IN AID OF IMMIGRATION FUNDS.

In virtue of Ordinance No. 30 of 1902, there shall be raised, levied, collected and paid for the use of His Majesty, His Heirs and Successors in aid of immigration upon the several kinds of produce hereinafter mentioned which shall have been raised or manufactured in the Island of Trinidad and which shall be shipped for parts or places

beyond the limits of the Colony on any day between January 1 and December 31, 1903, both inclusive, the several taxes, rates and charges hereinafter mentioned, that is to say :—

		s.	d.
On sugar	1,000 lbs.	3	6
" molasses	100 gallons	2	10
" rum	"	8	6
" cocoa	100 lbs	0	7
" coffee	"	0	7
" cocoanuts	per 1,000	0	7
" copra	1,000 lbs.	1	10

And in each of the above cases on lesser quantities in proportion

III.—COMMERCIAL AGENCIES.

The following Canadian Commercial Agents (whose addresses are given) will answer correspondence relative to commercial and trade matters, and give information to those interested as to local trade requirements in the districts they represent.

Such reports of general interest as have been received from them since the publication of the last monthly report of this department are appended.

J. S. Larke, Sydney, N.S.W., agent for New South Wales, Queensland, and New Zealand.

D. H. Ross, Melbourne, Victoria, agent for Victoria, South Australia, Western Australia and Tasmania.

James G. Jardine, P. O. Box 1232, Cape Town, Cape Colony, agent for South Africa.

Peter B. Ball, 16 Bennett's Hill, Birmingham, England, agent for Birmingham.

A. Poindron, 101 Rue Réaumur, Paris, France, agent for France.

G. Eustace Burke, Kingston, Jamaica, agent for Jamaica.

Robert Bryson, St. John, Antigua, agent for Antigua, Montserrat and Dominica.

S. L. Horsford, St. Kitts, agent for St. Kitts, Nevis and Virgin Islands.

Edgar Tripp, Port of Spain, Trinidad, agent for Trinidad and Tobago.

C. E. Sontum, Christiania, Norway, agent for Norway, Sweden and Denmark.

In addition to their other duties, the undermentioned Canadian agents will answer inquiries relative to trade matters, and their services are available in furthering the interests of Canadian traders :—

W. L. Griffith, 17 Victoria Street, London, S.W., England.

Harrison Watson, Curator for Canadian Section, Imperial Institute, London, England.

G. H. Mitchell, Newton Chambers, 43 Cannon St., Birmingham, England.

Alfred Jury, Old Castle Buildings, Preeson's Row, Liverpool, England.

Bruce Walker, 52 St. Enoch Square, Glasgow, Scotland.

John Webster, 14 Westmoreland St., Dublin, Ireland.

Edward O'Kelly, 13 Queen's Square, Belfast, Ireland.

D. Treau De Cœli, 75 Marché St. Jacques, Antwerp, Belgium.

IMPERIAL INSTITUTE.

(Report of Mr. Harrison Watson.)

IMPERIAL INSTITUTE,
LONDON, S.W., March 20, 1903.

The Right Honourable
The Minister of Trade and Commerce
Ottawa.

SIR,—I have the honour to submit my annual report in connection with the commercial work conducted by the Canadian Section of the Imperial Institute during the year ending December 31, 1902.

The year 1902, embracing as it did the historical Coronation festivities, in celebration of which were congregated in London representatives from every section of this vast Empire, will long be remembered as marking an important era in the consolidation of Imperial interests. To Canada, individually, the past twelve months have been of vital importance, for they have witnessed the commencement of what can be best described as the 'boom' in everything pertaining to the Dominion, which happily is still in full swing in the United Kingdom.

EXHIBITIONS.

There is good reason to suppose that the excellent displays made by the Dominion at the Glasgow and Wolverhampton, and also at the Royal Exchange Exhibitions, have contributed materially to the increased public interest now being evinced in Canadian matters. As mentioned in previous reports, we are constantly receiving applications from the promoters of temporary exhibitions held in the neighbourhood of London and in the provinces, for the loan of specimens of the resources and products of Canada. To these, so far we have unfortunately been unable to adequately reply, owing to the absence of the necessary materials. As the results of these exhibitions are often far-reaching, for they constantly advertise the natural wealth of the Dominion to different sections of the population, it is to be hoped that future arrangements made by the Canadian Government will include the provision of facilities for doing this work.

WORK OF THE CANADIAN SECTION.

Work has continued much on the usual lines. There is a constant application for the addresses of exporters of produce and provisions, grain, timber and other lines of which the Dominion is a considerable natural producer. Inquiries also come in to a considerable extent as to Canada's capabilities for furnishing supplies of partly manufactured materials and for completely manufactured goods. In many cases it is possible to furnish information immediately, but in others it is found desirable to supplement the same by instituting a special inquiry in Canada for more special details. On the other hand, the phenomenal development of the Dominion is constantly increasing the scope of products both natural and industrial for which an export outlet is desired, and this office is in receipt of applications from all parts of Canada for information as to the practicability of establishing trade in the United Kingdom in various kinds of goods.

THE PREFERENTIAL TARIFF.

In addition to the causes indicated, I am of opinion that the moral effect of the preferential tariff has indirectly been a great factor in developing Anglo-Canadian trade. It has promoted a cordial feeling towards Canada and induced many important business men to devote an attention to Canadian conditions and requirements which was previously lacking.

There have been for some time a number of applications from British manufacturers and shippers seeking to develop a market in Canada, and the volume has increased as a result of the closer association of this office with the department of the Board of Trade. In certain instances these British houses decided to send a representative out to Canada to personally examine into the ruling conditions. To such, not only general information is furnished, but letters of introduction are given. It is quite certain that most of these gentlemen who visit Canada, return with a knowledge of her commerce and resources which often produces very important results. The number of Canadian business men visiting this side is also markedly increasing and we are often able to assist them with preliminary information affecting their particular branch of trade. The custom of supplying items of commercial inquiry to the press both in Canada and this country has been continued.

APPLICATIONS FOR TRADE INFORMATION.

As usual, applications for information about the trade possibilities for certain goods which had not previously been dealt with by this office came up, and the following may be cited among subjects of special investigation: Roofing slates, horse hair, oysters, fish glues, hog's bristles, butcher blocks, drawing boards, clog soles, Canadian carpets. With the present development of the hog industry and similar enterprises, Canada apparently will soon become a shipper of various by-products which are in steady demand in this market.

MANUFACTURES.

Canadian exports of partly and wholly manufactured goods are steadily growing both in volume and variety. It is apparent that the trade in wholly manufactured goods, apart from articles for the production of which the natural resources of the Dominion furnish peculiar facilities, is one attended by special circumstances. The investigation of the details often intricate can only be satisfactorily carried out by the manufacturer himself or his representative who is personally familiar with every feature of the particular industry. It has before now been urged in these reports that the only royal road for the Canadian manufacturer to follow who seeks to establish a market over here, where investigation shows prospects to be promising, is to come over and be prepared to spend not only a few days but often several weeks in carefully studying conditions and requirements.

The experiences which constantly come under my notice of individual visitors, tend to confirm this view. Raw materials and partly manufactured goods are undoubtedly the primary requirements of this country and there is often a market for articles which have attained a stage of manufacture almost complete save as to actual finish, but which admit of transportation in a 'knock down' or compressed shape when the same article wholly finished is either not in request or cannot be laid down at a return profitable to the shipper. Moreover the wants of the Canadian manufacturer and the British importer run often in different channels. Nearly all Canadian industrial enterprises were originally established for supplying the wants of the domestic market without, in most instances, any particular attention to the possibilities of export. That was a later phase. As a result, whereas capital has naturally been forthcoming for ventures from which local markets promised an immediate and profitable return, investment in other industries, the product of which is more particularly suitable for outside markets, has been, until recently, restricted.

CANADIAN POSSIBILITIES.

There are evidently many varieties of goods in steady demand in this and other countries which Canada does not as yet produce to any large extent, and yet for the manufacture of which the Dominion obviously possesses remarkable natural resources and facilities. A large proportion of Canadian manufacturers can naturally have no expectation of developing export trade, and many others have no wish to do so. On the other hand, some who would like an outlet for surplus production are not always in a position to establish such trade on a basis remunerative to themselves without the provision of special and extra facilities for dealing with foreign requirements.

Briefly summed up, the situation is that the Canadian manufacturer often offers one article and the outside demand is for another. The opinion has frequently been expressed by business men who have visited Canada for the purpose of endeavouring to arrange for regular supplies of goods in established demand that, in most lines, those manufacturers who possess the necessary organization for conducting export trade have invariably orders on hand in advance of their existing output capacity. Now however, that the question of export trade has assumed such importance, it can be reasonably anticipated that capital will be more readily available for developing such industries, and indeed the last year or two have witnessed several phenomenal instances of the development on a large scale of enterprises the product of which is largely destined for the world's markets.

METHOD OF 'SPECIALIZATION.'

It is apparent that the method of 'specialization' so universally in vogue in the United States must be of great advantage in connection with foreign trade. The smaller population of Canada has hindered its adoption to any great extent but the reduced cost of production resulting from devoting the whole capacity of a plant to the production of a very few lines instead of running at odd times on a wide range of articles, must be

considerable. Great Britain is just beginning to awaken to the industrial possibilities of the Dominion, and the forthcoming visits to Canada of members of the British Parliament and of leading business men in connection with the Congress of the Chambers of Commerce of the Empire should be taken the fullest advantage of so that visitors may obtain not only a knowledge of existing enterprises but also an appreciation of the splendid opportunities awaiting the investment of British capital.

MINERALS AND METALS.

During the past few months a considerable volume of applications have come to hand from United Kingdom houses who import regular supplies of minerals and metals from various countries and are open to handle shipments from Canada provided that they can make the necessary arrangements. These inquiries have included Copper, Graphite, Felspar, Molybdenite, Charcoal, Calcium Carbide, Mica, Asbestos, Marble and Decorative Stones. A good and steady demand exists for most minerals of economic value which Canada is known to possess to a large extent. If Canadian owners of deposits of good quality and favourably situated as regards shipping facilities could locally obtain sufficient capital to place their property in the shipping stage, there can be no doubt that they could often arrange with people over here of financial strength to contract for their total output and often to take a financial interest in the venture.

ROOFING SLATES.

Quite recently a very favourable opportunity for developing trade in an article which Canada possesses to a considerable degree has come to my notice. There is in the United Kingdom a very large consumption of roofing slates, many of which are imported. At a time when roofing slates were practically not used in the United States, the quality of slate deposits in that country was so suitable that several quarries were developed and worked solely for export purposes. In 1896 the American slate trade with the United Kingdom amounted to some 46 million slates. Gradually, however, the utilization of roofing slates in building operations in America has been adopted, and between the domestic demands and the consequent increase in prices demanded by American slate producers, this export trade has steadily fallen away until at the present time it has almost ceased. Welsh slates, owing to labour troubles, have been also scarce, and United Kingdom buyers have been obliged to look temporarily to France for supplies. The French slate is inferior to American but it is cheaper. A company which has developed and established the trade in American slates in Great Britain applied to me for information as to the possibilities of being able to secure suitable supplies from Canada. Upon inspection of a number of samples of roofing slates from Canadian deposits, the expert informs me that the quality of the Canadian slate is very good and equal to, if not better than, the average American. The company, therefore, state that if they can arrange for regular supplies of the quality equal to that examined by them, they are prepared to contract for large quantities for which they would pay cash.

Provided that further investigation confirms the impression that large deposits of a suitable quality of roofing slate exist in Canada only awaiting development, the establishment of the industry would appear to offer a most profitable investment for capital which will, it is hoped, appeal to Canadian enterprise. The sizes most in demand here are 24″ x 12″, 22″ x 12″, 22″ x 11″, 20″ x 12″, 20″ x 10″, 18″ x 12″, 18″ x 10″, 18″ x 9″, 16″ x 12″, 16″ x 10″, 16″ x 9″, 16″ x 8″. They should measure 18 to 19 inches per 100 slates piled up in the flat. Quarrying is a fairly simple matter, the cost of the necessary equipment being less than in connection with most kinds of mining. As to labour, it is pointed out that a large number of experienced slate workers are at present idle owing to labour troubles in this country, and many would readily go to Canada for reasonable wages.

Canned and Preserved Goods.

Last autumn more Canadian gallon apples were to be seen in grocers' shops and elsewhere than ever noticed before, but there are still few signs that Canadian packers are doing any definite trade in other canned fruits and vegetables. One large firm here offered the opinion that Canadian canners would do well to specialize more and instead of each producing twenty or thirty different lines, confine their individual attention to half a dozen or less. This method apparently is adopted by some of the most successful American packers, with the result that the quality of the goods is better and more uniform, and the cost of production is reduced.

Reference has often been made to the very general prejudice against canned or tinned goods existing in this country, and a feature worth noting is the marked increase in both fruits and vegetables now being put up in glass, a trade in which quite a number of United Kingdom producers are participating. From inquiries made at the Grocers' Exhibition it was ascertained that such goods as peaches and pears have to be imported largely and it is a question whether Canada might not develop a trade in response to their requirements by shipping the fruit in large packages ready for the use of the British packers.

Another feature has been the large increase in the importation of Californian prunes and apricots which are now to be met with everywhere. The prunes in particular are being received with much favour and must be displacing a large volume of goods formerly imported from France and elsewhere. Great care evidently is taken in the selection and packing and although somewhat different in flavour, the prunes are finer and larger than the ordinary continental variety. These are both lines which Canada should be able to produce successfully and in large quantities, and the cultivation of the suitable varieties for this industry is a matter deserving study and careful consideration on the part of Canadian fruit-growers. Ontario is only half the distance from this country that California lies. Indeed the firm establishment of the prune trade in competition with older sources of supply possessing every geographical advantage is a distinct tribute to American enterprise.

The subjoined letter received from a leading firm of wholesale grocers since the above lines were written is of some interest :—

"I am sorry that I cannot report favourably of the progress of Canadian canned fruits and vegetables during the past year. I do not know that any particular section is to blame, but the trade generally has been very slow and without any special feature of interest. The high price of tomatoes, owing to the failure of the American crop last year, has improved the trade in Italian, French and other continental countries, but the supply of Canadian unfortunately was small. We hear from very good sources that the supply of American will be abnormally large, and it is probably a good time to warn your friends in the event of their expecting a continuance of present prices.

"The increase in the consumption of the dried varieties, such as apricots, pears, plums and prunes is an important pointer for growers, and the fact of Californian fruit, having in so short a time established a large trade, should be sufficient encouragement for Canadians to persevere in producing similar fruit. Of course, the continental countries may produce up to their usual quantities in the coming year, which will make competition for the business very keen, but the taste for Californian fruits seems to have now taken a deep root, and will require a good deal of shifting.

OYSTERS.

In consequence of an inquiry made by a London firm possessing a considerable connection in the oyster trade, the possibilities of sending over Canadian oysters to this country were examined into. In view of the very high prices obtained for the most popular British natives, it would appear that a profitable market could be created for some of the Canadian varieties. Investigation shows, however, that a ready market exists already in Canada and the United States for all the oysters which Canada at present produces ; indeed the demand is stated to be in excess of the supply. A con-

siderable advance in price has taken place in consequence, but even these enhanced values fall far below the level of British quotations. As Canadian oysters, however, differ both in appearance and flavour from the kinds in highest favour in the United Kingdom, it would as a preliminary be necessary to investigate, by means of trial shipments, the degree of popularity accorded to each particular variety. Should the results be satisfactory, the production of the oysters realizing the highest prices in this country ought to be capable of large development by the adoption of the scientific methods of artificial cultivation in general use at the leading European oyster beds. As matters stand, the Canadian oyster trade flows in certain established channels from which it will not easily be diverted.

RAILWAY SLEEPERS.

Some inquiries were made relative to the supplying of Canadian railway sleepers in connection with the construction of several new lines in the Transvaal and Orange River colonies. It is certain that extensive railway development will take place as the new colonies settle down, and it was felt that possessing such vast supplies of suitable timber, Canada should be able to furnish a proportion of the sleepers or ties which would be needed. The establishment of the direct steamer service will have given additional impetus to the matter, but the absence of any creosoting plant in Canada was primarily an obstacle of considerable weight.

DRAWING BOARDS.

An important stationery manufacturing firm desired me to inquire whether Canada could not furnish at least a portion of the considerable volume of drawing boards, &c., which they had been obtaining from continental sources. It would appear, however, that these goods are not produced at present to any extent in Canada.

CORRESPONDENCE INVITED.

This office is always pleased to hear from Canadian manufacturers and shippers who require preliminary information and advice about trade matters, and also from firms who may wish to take action in reference to the numerous applications from British firms who seek to develop trade in or with Canada.

I have the honour to remain, sir,

Your obedient servant,

HARRISON WATSON.

AUSTRALASIA.

Report of Commercial Agent.

(Mr. J. S. Larke.)

The Exchange, Sydney, N.S.W., March 24, 1903.

The Right Honourable
The Minister of Trade and Commerce.

Sir,—Some rains have fallen during the month which have been productive of good results in many sections of all the States. Though the drought has not been broken the prospects are much better than at this time last year. In the larger portion of the agricultural areas the farmers are able to plough with a prospect of putting in the seed

in good condition. There has, in the favoured areas, been a growth of grass which is sufficient to carry the stock and, unless an extraordinary dry season is experienced, carry it over the winter with the minimum of hand feeding.

Business is necessarily restricted, but is as good as could be expected under the adverse conditions of the country. There are a considerable number of men out of work. The number is increased by the high rates demanded for money, which restricts government expenditure on public works. In some of the drought sections of this State and Victoria there is considerable distress and liberal funds have been raised for the relief of those who have lost their all and are unable to buy food.

EMIGRANTS INQUIRING ABOUT CANADA.

These unhappy conditions must lead to emigration and the inquiries, chiefly personal, at this office for information have greatly increased. A cable to the effect that the Premier of Ontario was taking steps to promote the immigration of 5,000 skilled mechanics into that province led to an offer of a party of 500 such men provided the Government of Ontario would prepay their passages and take a lien on their wages as security for repayment of the loan. I have replied that so far as I am advised neither the government of Canada nor of the Province of Ontario is offering inducements to emigrants from Australia, and to do so would not be regarded here as a friendly act. The regular steamers, I believe, for the next three months have all their passenger space bespoken. The large majority are going to Canada to settle on the land, and some have considerable capital, while others intend to seek employment on farms. In spite of the difference of climate and conditions they are likely to make a desirable class of settlers.

DEMAND FOR FLOUR.

The demand for known brands of Manitoba flour is good, though United States flour from Manitoba hard wheat is quoted lower and has a large sale. Unknown brands must fight their way into the market, and cannot secure the best prices until their reputation has become established.

WHEAT.

Importers have been speculating in wheat from the Pacific Coast states of the United States, India and Argentina as well as from Canada. The proportion of Manitoba is much below the amount expected. This is due to the difficulties in grinding, less value put on the bran, and the desire to get as cheap a grain as possible. It is believed that the quantities of soft wheats ordered is in excess of the demand, and a break in prices is confidently looked for. There is little Manitoba hard wheat in stock. The *Ansgar*, which left New York with 4,163 tons of Manitoba wheat and 750 tons of flour, has now been posted as lost. A little time ago, if hard wheat could have been obtained from Vancouver, it would have brought good prices, but nearly all the efforts failed, and the fair market price cannot now be got for future deliveries. This is due not only to the expectation of a fall from over-importation, but the unfortunate incidents connected with the Vancouver experiments.

Some little time ago a cable made an offer of a thousand tons of wheat, the recipients had purchasers quickly and cabled to Vancouver accepting the offer. Vancouver replied that the wheat could not be delivered and withdrew the offer. Some time afterward the Vancouver firm found it could get the thousand tons and repeated the offer, but the Sydney house could not get takers. At the same time several offers of wheat from Vancouver and a number of firms were seeking to place it. This led millers to think that a decline in price was about to set in and they refused to buy at the lowest figures offered. If, as I have advised, a Canadian firm had chartered the steamer on the best terms and placed an offer of the cargo with an agent here I think the whole would have been speedily disposed of. The offer of bits of the cargo to half a dozen people here simply set them competing with one another and stopped business.

These methods and the delays in supplying orders have very much discouraged direct shipments from Vancouver. Notwithstanding the heavy orders that have been placed for both wheat and flour, I think there will be a demand for Manitoba wheat for mixing, but the business will be done only by firms capable of handling cargoes.

NEW ZEALAND OATS CHEAPER.

New Zealand oats are quoted at twelve cents per bushel below the best prices I have from Canadian, and trade in this grain from Canada is over for the present. Some now on the water, through delays in shipment, will bring a heavy loss on the Australian buyers.

CANADIAN BARLEY.

I have endeavoured to secure samples and prices of barley and other grains, but none have reached me. I am informed that a cargo of Canadian barley has been purchased in New York, and a good sample lot in Vancouver.

FISH.

I have in previous reports pointed out the fact that Australia imports nearly a million and three-quarter dollars worth of fish, and that outside of canned salmon Canada gets a very small share of the trade. Some additional interest is being taken in salted and smoked herring, halibut, as well as salmon, and good samples have come here which it is hoped will lead to an increase in the trade. The business in fish in brine has had a repetition of the old trouble of the barrels and kegs leaking, the brine running away and the fish spoiling. No trade can stand this defect. If a trade is to be built up fish must be shipped to arrive here in condition. It is no value to have it in good condition when placed on board ship. It is essential that it reaches this port as sound as when it left.

TIMBER.

Notwithstanding the drought building operations have been brisk and the demand for timber good. British Columbia fir, known here as 'Oregon,' is now $14 at the mill, instead of $7.50 at which it was once sold. California redwood, sold largely for doors, sashes and inside work, has advanced nearly 33⅓ per cent in a year and is quoted at $24 at the mill. Every now and then it has been proposed to introduce cedar and some of the cheaper timbers of British Columbia into this market, but no determined effort has been made. The market it timbers, as well as in other lines, is conservative and no demand for a new timber can be created in a day. The high prices now ruling affords an opportunity to introduce the Canadian, that may not occur again for a decade.

One of the timbers practically unknown here is the hemlock, and in connection with the cutting of that timber there would be a market for the extract of the bark. There is a prejudice against hemlock, tanned leather mainly on account of its colour and some poor samples of that tannage that have been offered on this market. Wattle, which is the Australian bark used for tannage, has gone up in price and as a result there is a demand for a cheaper tanning material. This demand is likely to continue for some time as the drought has killed a good many wattle trees and stopped the growth of more.

I have the honour to be,

Your obedient servant,

J. S. LARKE.

JAMAICA.

Report of Commercial Agent.

(Mr. J. Eustace Burke,)

Kingston, Jamaica, April 14, 1903.

The Right Honourable
The Minister of Trade and Commerce.

Sir,—It is gratifying to be able to advise that, as predicted in my report of December 22 last, and also the one previous in which the opinion was expressed that official figures at the end of the financial year, viz., to March 31, 1903, compared with the previous year, would show a remarkable increase in the exports of this colony to the Dominion of Canada, has been fully realized.

GROWTH IN THE FRUIT TRADE.

The statistics to the date mentioned above are not yet obtainable, but I have gathered that for the eleven months to February 28 last, as compared with the previous eleven months, while the exports of bananas for the 1901–2 period was but 7,955 bunches, that for 1902–3 is represented by no less a number than 72,531 bunches. The quantity of oranges also shipped to Canada doubled her former demand for the similar period. When one takes into consideration the multiplicity of drawbacks referred to from time to time in my several reports regarding transportation facilities, the remarkable increase is indeed surprising.

THE PROPOSED SUBSIDIZED STEAMERS.

I have had two interviews with the Hon. Sydney Olivier, C.M.G., the Colonial Secretary, regarding the above subject. Mr. Olivier sails from hence on the 20th prox. for England, via the United States and Canada, on leave. It is understood that Mr. Olivier, while in Canada, will obtain all necessary information which would warrant this government complying with the terms of the resolution recently unanimously adopted in the Legislative Council of this colony, appropriating £2,500 for an improved steamship service with Canada. I may add that, as in all other measures concerning the welfare of this colony, the Colonial Secretary is deeply interested in the subject, and, I am persuaded, will do all in his power to achieve the desired end to the mutual benefit of both colonies.

Business men and agriculturists seem almost impatiently awaiting the consummation of the idea, if I am to be guided by the eager inquiries being continually made to me regarding development of the situation.

OUTLOOK OF THE ISLAND'S PROGRESS.

Latest available figures unmistakably demonstrate that there has been a general all-round increase of exports of the island's produce, as compared with the previous eleven months to the 28th February last.

BANANAS.

Last year we exported to the United Kingdom 956,711 bunches of bananas, being an increase of about one-third. The United States figures stand at 12,546,936 bunches, as against 9,397,505 for the similar period of the previous year, and to all other countries (Canada has already been dealt with), 5,204 against 3,165.

ORANGES.

The eleven months before, 80,998,387 was exported, while a similar period for 1902-3 is represented by 98,595,237, an increase of nearly 18,000,000, which shows a steady advance. Of the above numbers the United States took 84,640,587, as against 69,522,155; the United Kingdom, 6,048,450, a decrease of about one million, and, as previously stated, Canada's direct trade doubled.

COFFEE.

As in fruits, so in coffee, the United States was the island's principal customer. Of the 98,261 cwt. shipped as against 87,469 of the previous period, the United Kingdom took only 18,639 cwts., a smaller proportion being divided among other countries.

SUNDRIES.

There has also been a considerable increase in the export of cocoa, cocoanuts, grape fruit, ginger, pimento and rum; and sugar has also made a slight step in advance. The demand for pine apples has not been maintained, while dyewoods also show a decrease.

IMPORTS AND EXCISE.

As most likely to be expected, the imports of the colony also show an all round-steady increase, while the excise collections on rum, cigars, cigarettes, &c., have given a very substantial increase of revenue on previous years.

REVENUE.

At the commencement of the financial year 1902-1903 the estimated revenue was placed at £350,000. Later developments, however, warranted a revised estimate for £375,000, while on March 31 last, which is the close of the financial year, it stood at £380,000, being a very appreciable increase on its immediate predecessors.

CANADIAN VISITORS.

I am pleased to be able to state that Canadian visitors arrived in marked increased numbers, among whom were several business men, most of whom called and had several interviews with me on various points of commercial and agricultural interests. To many the manifold resources of the country and the possibilities of a lively exchange of commodities between Canada and Jamaica were a complete revelation.

INCREASED CORRESPONDENCE.

Correspondence from all parts of the Dominion, as also from local country districts here, is increasingly heavy, seeking inquiries on Canadian matters, but no one ever goes without the fullest information, and I have substantial reasons of entertaining great hope of appreciable mercantile and agricultural developments between the two colonies in the near future.

CHAIRS, FURNITURE, ETC.

An Ontario furniture company, through a local firm which has been appointed sole agent, has recently been making quite heavy shipments to the island, doing a remunerative business. There is certainly room for others in this and other lines of Canadian manufacture.

TENDERS FOR FLOUR.

For the first time I think in the history of the colony the military authorities in advertising for tenders for the supply of baking flour for His Majesty's troops stationed here have invited local tenders for Canadian as well as United States millings. Samples with brands have to be submitted, but in consequence of the irregularity and delay in filling orders at Canadian points, it is hardly probable the local contractor will refer to the Canadian article in making his bid. The penalties of the contract have to be counted with.

GOODS NOT UP TO SAMPLE.

In my December report I made mention of the fact that the local firm handling two Canadian brands has been very successful in placing them. The agent, however, *bitterly* complains of the drawback above referred to, as also the system of supplying grades not corresponding with order. This certainly should not exist, and there is no excuse for such unbusinesslike methods.

I have the honour to be, sir,

Your obedient servant,

G. EUSTACE BURKE.

NORWAY, SWEDEN AND DENMARK.

REPORT OF COMMERCIAL AGENT.

(Mr. C. E. Sontum).

GRUBBEGD No. 4, CHRISTIANIA, NORWAY, April 7, 1903.

The Right Honourable
The Minister of Trade and Commerce,
Ottawa.

SIR,—The correspondence carried on with Canadian manufacturers and exporters have been livelier during the past few months than for a long time before, and it has resulted in, that I now have several sample shipments on the way, and I have good hopes of coming to business at least with some of the firms.

As I have mentioned before, Canadian manufacturers are getting highly esteemed in these countries, and where the prices are not prohibitive, I have now no difficulty in obtaining orders. At present, however, the times are not very encouraging, and the wholesalers are not placing large orders, but are only buying for the nearest future. Much depends now on how the present fisheries turn out, as with these, in many parts of Norway business stands or falls.

HERRING FISHERY.

The fat herring fishery may now be considered finally over with a return at the end of the season of 232,000 barrels, against 166,000 in 1901. For the spring-herring fishery, prospects are very promising notwithstanding the stormy weather, which has prevailed almost continuously for the past couple of months. As to the cod-fisheries, the weather has greatly interfered, and the outlook is a gloomy one at present.

IRON COMBINE.

The following may be of interest: Two large Swedish iron ore mining companies, owning the well known iron ore deposits in Swedish Lappmarken, are probably going to be amalgamated as the 'Trafikaptiebolazet Grängesberg-Oxelösund' has made a preliminary contract for the purchase of the controlling influence in the said two companies. The business, it is reported, has been arranged on the basis of a value of 50 million kroners or nearly £3,000,000 for the two ore deposits. The contract is now to be submitted for the approval of the shareholders in the Grangesberg-Oxelösund Company. As this last named company is the proprietor of the largest iron ore deposits in middle Sweden, the transaction will create a practical monopoly of the important iron ore deposits of Sweden.

WOOD TRADE.

As to the wood trade, it may be said that the market is in a very healthy condition at present. Inquiries for large shipments for Cape, at improved prices have had to be declined by shippers here on account of the difficulty of supplying desired specifications. Sales are going on regularly to England at the full prices £9–10–0 for mixed and £11–10–0 for reds c. i. b. cheap ports, which prices have now come to be accepted as the value for the season.

WOOD PULP.

Of wood-pulp there can not be full production for another four or six weeks on account of the water supply. The market for mechanical remains unchanged, and buyers hold back in hope of obtaining very cheap supplies, while sellers are determined to get prices, which shall leave a moderate profit. Cellulose is somewhat better than some time ago, as the American demand has helped to clear away stocks.

HARVEST YIELD.

In the official report recently issued by the Agricultural Department of Norway on the harvest yield in 1902, the final returns show the following per centum shortage of the crop all around:—

Hay	about	23	per cent	estimated at.....	557,725	tons.
Wheat	"	21	"	"	24,652	hectolitres.
Rye	"	13	"	"	41,733	"
Barley	"	36	"	"	433,286	"
Oats	"	32	"	"	1,122,579	"
Corn	"	39	"	"	103,201	"
Potatoes	"	29	"	"	1,715,927	"

MARKET FOR CANADIAN BREADSTUFFS.

Considering that with the exception of hay, also in regular years considerable of all of these products have to be imported, there is going to be, until a new crop comes in, a very large import of feed and breadstuffs. Even if the coming harvest yields good, it will not be able to balance the shortage of last year, and we may look for a continued import for some time to come.

I have the honour to be, sir,

Your obedient servant,

C. E. SONTUM.

TRINIDAD AND TOBAGO.

REPORT OF COMMERCIAL AGENT.

(Mr. Edgar Tripp.)

PORT OF SPAIN, TRINIDAD, April 23, 1903.

The Right Honourable,
The Minister of Trade and Commerce,
Ottawa.

SIR,—The map showing the steamship routes between Canada and the British West Indies issued by your department is much appreciated, and the copies which you were good enough to forward have been distributed and now are seen prominently in most of the leading offices and stores.

PORT OF SPAIN RIOT.

The recent unfortunate riot in Port of Spain has had a most disturbing and depressing effect upon trade, of which all classes of dealers are complaining. Whoever may be at fault, it is most lamentable to reflect upon the loss of life and property which occurred. Apart from the value of the public buildings and furniture, approximately £60,000, there was the irreparable loss of the official records of the colony since 1797 when it first came under British rule. The whole of the maps and plans in the Crown Lands Office, showing the disposition of all lands alienated, were destroyed, and there cannot possibly be sufficient duplicates elsewhere to replace them. All the Court records of past and existing litigation were also burned, and the confusion and inconvenience arising may be understood. The people of Trinidad have hitherto been so easily managed and law-abiding that it is difficult to account for this sudden outburst of unbridled frenzy. The inevitable result must be the putting back of the Colony for no inconsiderable time.

TRADE WITH THE UNITED STATES.

Direct trade with the United States by the three large steamers of the Trinidad line of late has been rapidly increasing, so much so that they hardly have been able to cope with it, and it is now announced that some steamers of the Italian Royal Mail Steamship Company will be put upon the route and leave monthly touching only at Barbados.

THE MANJAK INDUSTRY.

The rapid development of the Manjak industry will afford to this line, which appears to have offered special inducements to secure it, a fair proportion of freight. The first steamer will carry away some three hundred tons of this new product of our mines, in addition to shipments of about 200 tons by other opportunities about the same time. Up to very recently it was believed that Manjak was only applicable to the manufacture of high class varnishes, and the demand, like the supply, was limited. It was said, and on more than one occasion proved to be the case, that 50 tons at any time would flood the market, but since the discovery of the extensive mines of this article here, and the certainty of a regular and large supply at a moderate price, other uses it appears have been discovered for it, and a single order for 5,000 tons to be taken within one year has just been placed.

A SUBSTITUTE FOR INDIA RUBBER.

This, it is understood, comes from a firm who believe that in Manjak there will be found a marketable substitute for India rubber, and who have erected a special plant for its treatment. This matter is one which might be well worth the early attention of any of your manufacturers interested in the production of insulating material, and I should be very pleased to forward samples for experimental purposes to any one desirous of having them. So far no Manjak that I can hear of has been shipped to Canada, although sales to both the United States and Europe are rapidly increasing.

PROGRESS OF TOBAGO.

I am pleased to report the continued steady progress of our small dependency, Tobago. Cultivation there is being opened up in every direction, and the conditions of trade, which but a few years ago were so much depressed, are now slowly but surely being restored.

CANADIAN COAL FOR TRINIDAD.

During the past few months when men of war of all nationalities have been much in evidence the capacity of the Port of Spain as a coaling station has been somewhat severely tested, but on no occasion has the supply failed or have the rates proved to be excessive. As before stated, there is no reason why Canadian coal should not have its share of this market, the greater part of which is now supplied from the United States, and the balance from Great Britain.

I reserve comment upon general trade pending the issue of the yearly statistics of the Customs expected daily.

I have the honour to be, sir,

Your obedient servant,

EDGAR TRIPP.

SOUTH AFRICA.

REPORT OF COMMERCIAL AGENT.

(Mr. James G. Jardine).

P. O. Box 1232, Cape Town.

The following report from Mr. Jardine is written from Bulawayo, Rhodesia, under date of April 4, 1903 :—

The Right Honourable
The Minister of Trade and Commerce,
Ottawa, Canada.

Sir,—Since my last communication from Bloemfontein, I am able to state that a customs union has been agreed upon, and also a railway agreement has been concluded. The customs convention was signed on the 24th ult. by the representatives of Cape Colony, Transvaal, Orange River Colony, Natal and Rhodesia. The intransit dues have been abolished and it is agreed that the convention and the agreement shall be ratified by the legislatures of the various colonies and that the parliaments of Cape Colony and Natal and the legislative councils of the Transvaal, Orange River Colony and Rhodesia shall be called together in special session for that purpose.

LIBERAL TARIFF EXPECTED.

I am informed by parties who know what they are talking about that the tariff will be a much more liberal one in respect of all kinds of foodstuffs. Flour and wheat are especially favoured. A preference of 10 per cent has been arranged in favour of the mother country and her colonies as against the rest of the world.

RAILWAY RATES REDUCED.

As regards railway rates, sweeping reductions have been made and as a result the cost of living throughout South Africa will be greatly reduced.

DETAILS NOT YET PUBLIC.

The details of the convention and the new tariff will not be made public until submitted simultaneously to the legislatures of the several colonies and therefore is not likely to come into force for six months.

PROPOSED COMMONWEALTH OF SOUTH AFRICA.

A resolution was also passed unanimously by the united delegates before separating expressing the hope that the day may not be far distant when it may be possible to summon a conference to endeavour to provide for the union under one federal administration of the whole of the colonies under British rule, and the establishment of the commonwealth of South Africa. No more important congress of representative men ever before met in South Africa, and these gentlemen have rendered yeoman service to their country, sinking race jealousies and adopting a conciliatory attitude one towards another after the example of the Right Hon. the Secretary of State for the Colonies in his wonderfully successful visit to South Africa. Their conclusions open up a new chapter for South Africa.

CANADA'S REPRESENTATIVE WELL RECEIVED.

On my way to Rhodesia I spent several days in Kimberly and Mafeking. I have been most kindly received here as elsewhere by all classes of people. At present business is very dull and stocks are large owing to the serious drought in Orange River Colony and around Kimberly ; but now that customs and railway rates are placed on a more liberal basis by the customs union, importers are under the impression that Great Britain and Canada will largely benefit by increased trade in the near future.

CANADIANS IN SOUTH AFRICA.

There are several Canadians in Kimberley and Bulawayo, with such familiar names as Redpath, McCallum, Graham, James, Ramsay, &c., all of whom are highly respectable citizens of these towns. In company with some of them I visited the battlefields of Paardeberg and stood by the graves of Canadian heroes whose names ought to be graven " as with the point of a diamond " on the hearts of every Canadian boy and girl. These dear lads asleep on the African veldt and their comrades still spared to us have, in my opinion, done more to advance the claims of the Dominion in the " dark continent " than a thousand Canadian agents or missionaries could do in 50 years.

ARRIVAL IN RHODESIA.

Having only just arrived in Rhodesia I will defer expressing any opinion of this province and its commerce from a Canadian standpoint until I have spent a little time visiting its principal business centres.

I have the honour to be, sir,

Your obedient servant,

JAMES G. JARDINE.

IV.—GENERAL COMMERCIAL INFORMATION.

IMPORTS OF PRINCIPAL FOODSTUFFS INTO GREAT BRITAIN.

QUANTITIES of Butter, Cheese, Bacon, Hams, Fish, and Eggs, Imported into Great Britain during the *months* of March and the *three months* ended March 31, 1901, 1902 and 1903. (*From British Returns.*)

INQUIRIES RELATING TO CANADIAN TRADE.

Since the publication of the last monthly report, there have been received at this department from the High Commissioner for Canada, London, England, and the Curator, Canadian Section, Imperial Institute, London, England, the following inquiries relating to Canadian trade. The names of the firms making these inquiries, together with their addresses, can be obtained from this department, or from the office through which the inquiry was received.

Inquiries from the High Commissioner for Canada.

Canadian Producers of Wood-pulp.

1. A Glasgow firm interested in wood-pulp is looking for a new source of supply and asks to be referred to Canadian producers not already represented in the United Kingdom. (Reference No. 77.)

Agency for Canadian Leather Goods, &c. (Midlands).

2. Inquiry is made for names of Canadian firms requiring an agent to represent them on commission in the Midlands, by a person offering good references, who has had experience in selling manufactured leather goods, stationers' sundries, fancy goods, &c. (Reference No. 77.)

Canadian Importers of Tools.

3. A Sheffield firm of tool makers have asked to be placed in touch with Canadian buyers of such goods as they manufacture. (Reference No. 77.)

Canadian Importers of Oakum and dry spun Yarn.

4. A north of England firm desires to get into touch with Canadian importers of oakum and dry spun yarn. (Reference No. 77.)

Agency for English Makers of Cotton Duck.

5. A Montreal firm of manufacturers' agents and importers are anxious to secure the representation of English makers of cotton duck. (Reference No. 77.)

Inquiry *re* Canadian Seed Pease.

6. An inquiry for Canadian seed pease has been received from a correspondent at Angers, France. (Reference No. 77.)

British Importers of Canadian Cheese.

7. A correspondent at Kingston, Ontario, has asked to be referred to some of the principal importers of Canadian cheese at London, Liverpool, Bristol and Glasgow. (Reference No. 77.)

British Dealers in Casein.

8. A Canadian firm makes inquiry respecting the demand in the United Kingdom for casein. (Reference No. 77.)

Investors and Operators in the Pulp and Paper trade.

9. The person having a controlling interest in some large tracts of timber land in Quebec and on the Labrador coast, desires to get into touch with investors and operators in the pulp and paper trades. (Reference No. 77.)

Canadian Exporters of Weaving and Spinning Bobbins.

10. A Huddersfield firm asks for names of Canadian exporters of weaving, spinning and twisting bobbins. (Reference No. 78.)

Commission Merchants.

11. A London firm of export and import commission merchants having an agent in the Dominion calling on wholesale houses, is prepared to execute indents for Canadian firms, charging a small fixed commission for the service. (Reference No 78.)

Importers of Bottled Ale and Stout.

12. Inquiry is made for the names of firms at Montreal, Toronto, Halifax, St. John and Hamilton willing to take up the agency for bottled ale and stout. (Reference No. 78.)

English Importers of Labrador Pickled Salmon.

13. A west of England firm asks to be placed in touch with importers of Labrador pickled salmon in either London, Liverpool, Bristol or elsewhere. (Reference to No. 78.)

Inquiry *re* Supply of Dimension Timber.

14. Inquiry is made by a firm of furniture makers and upholsterers for the names of parties able to supply dimension timber. (Reference No. 78.)

Manufacturers of Porcelain Jars.

15. A Canadian firm ask for names of porcelain makers able to supply small jars suitable for packing preserves for retail purposes. (Reference No. 78.)

British and European Importers of Fish (Salted).

16. A firm at Vancouver, British Columbia, desires to hear from British and European agents who will be prepared to buy green or dried salt fish such as cod, halibut, salmon, herring, &c. (Reference No. 78.)

Canadian Importers of Raw Sugar.

17. The names of sugar refiners in Canada are asked for by an exporter in British Guiana. (Reference No. 79.)

Canadian Millers of all kind of Maize products.

18. A Liverpool firm asks for addresses of Canadian millers engaged in the preparation of all kinds of maize products. (Reference No. 79.)

Inquiry *re* Canadian Hemlock for Railway ties.

19. Inquiry has been made respecting the suitability of Canadian hemlock for railway ties, and the supplies of this timber available. (Reference No. 79.)

Canadian Shippers of Sheepskins (Raw).

20. A north of England firm wishing to buy Canadian sheepskins (raw) asks to be referred to shippers or receivers of same. (Reference No. 79).

Agency in Canada for a Belting Preservative.

21. The proprietors of a belting preservative wish to hear from a party in Canada willing to take up their wholesale agency for the Dominion. (Reference No. 79.)

Canadian Owners and Operators of Asbestos Mines.

22. A Glasgow importer asks to be placed in touch with asbestos mine owners and operators in Canada. (Reference No. 79).

Agency in Canada for Steel Rails and Supplies.

23. A Canadian firm of commission agents is seeking an agency for steel rails and waste for railway supplies. (Reference No. 79.)

Purchasers of Spoolwood and Excelsior Packing.

24. The names of users of spool-wood and 'excelsior' packing are required by a party in Canada who is taking up the manufacture and export of these goods. (Reference No. 79.)

Canadian Exporters of Poultry.

25. A Manchester firm wishes to get into direct touch with large Canadian exporters of poultry to Great Britain, especially turkeys for the winter market. (Reference No. 80.)

Canadian Exporters of Slate.

26. An inquiry has been received for addresses in Canada of slate quarry owners in a position to export slate to Great Britain. (Reference No. 80.)

Canadian Importers of Biscuits.

27. A firm of biscuit makers asks to be referred to one or two responsible wholesale houses in Canada who could handle their goods. (Reference No. 80.)

Canadian Producers of Foodstuffs.

28. A London firm has asked to be furnished with names of Canadian producers of foodstuffs, canned as well as dry, including wheat, flour and products thereof. (Reference No. 80.)

Agency for Canadian Provisions, &c. (Australia.)

29. A Sydney (New South Wales) agency is looking out for Canadian exporters of cured bacon and hams, canned fish, fruits, &c., who desire representation in Australia. (Reference No. 80.)

English Importers of Cider Vinegar.

30. A Canadian exporter of cider vinegar is desirous of being placed in communication with importers prepared to purchase car lots of at least sixty barrels. (Reference No. 80.)

Agency for English Exporters of Sulphur, (Ottawa.)

31. An agent at Ottawa offering good references desires to obtain the representation of an English firm exporting sulphur to Canada for wood-pulp mills and other users. (Reference No. 80.)

Importers of Copper-Amalgam.

32. A Canadian shipper of copper-amalgam desires to hear of firms in South Africa and Australia who handle dental supplies. (Reference No. 80.)

Inquiries from the Curator, Canadian Section, Imperial Institute.

Canadian Importers of Machinery, &c.

1. A Company manufacturing machinery, tools and contractors' plant, wishes to get into touch with influential Canadian firm in a position to introduce their goods (Reference No. 41.)

Canadian Shippers of Produce.

2. A Lancashire firm of provision merchants desires addresses of a few Canadian shippers of produce. (Reference No. 41.)

Canadian Importers of Jute and Linen Goods.

3. A Scotch manufacturer of jute and linen goods wishes to be placed in communi cation with Canadian importers of their lines. (Reference No. 41.)

Canadian Exporters of Wool.

4. A Manchester house possessing a connection among flannel manufacturers asks for addresses of Canadian shippers of wool. (Reference No. 42.)

Inquiry *re* Agents in Canada for Hair Belting.

5. A Company manufacturing hair belting for driving purposes is prepared to appoint Canadian resident agent possessing the necessary connection. (Reference No. 42.)

Canadian Agent for Asbestos, India Rubber, &c.

6. A firm manufacturing asbestos, india rubber and engine packing in all varieties, seeks responsible Canadian residents agents. (Reference No. 42.)

Canadian Importers of Machinery and Engineers' Tools.

7. A Company manufacturing machinery and engineers' tools, &c., wishes to be placed in communication with a few Canadian importers. (Reference No. 42.)

Canadian Exporters of Butter, (South Africa.)

8. A London house asks to be placed in touch with reliable Canadian butter packers who are prepared to ship supplies direct to South Africa. (Reference No. 43.)

Manufacturers of Chair Materials.

9. A firm of timber merchants desires the addresses of Canadian manufacturers of chair materials. (Reference No. 43.)

Canadian Agent for Leather Manufactures.

10. A firm of manufacturers of leather travelling bags, trunks, harness and other lines, wishes to get into communication with an influential Canadian house prepared to act as their representatives. (Reference No. 43.)

Canadian Exporters of Spool Wood.

11. A London house seeks large supplies of spool wood and wishes to hear from Canadian shippers of same. (Reference No. 43.)

Canadian Importers of Textiles.

12. A manufacturer of worsted and woollens wishes to be placed in correspondence with Canadian wholesale importers of textiles. (Reference No. 43.)

EMIGRATION FROM GREAT BRITAIN TO BRITISH NORTH AMERICA.

CANADIAN CHEESE.

SUGGESTIONS TO THE TRADE IN CANADA UPON PROPER METHODS OF EXPORTING.

The Right Hon. Lord Strathcona, under date of April 6, forwards the subjoined report to the Department of Trade and Commerce. The report was made to the High Commissioner by the cheese committee of the Home and Foreign Produce Exchange.

QUALITY.

'Fewer complaints than usual have been made this season of the quality of Canadian cheese. Speaking generally, it may be said that the average shows a distinct improvement over previous years. This may be due to some extent to the climatic conditions prevailing during the cheese making season. Temperature plays an all-important part in the making and curing of cheese, and due emphasis should be given to this point. Markets, too, have not been such as to lead to accumulations of stocks, giving time for flavour to develop. But after making allowances for these considerations, the fact remains that Canadian cheese has shown a higher degree of quality this season, and it will be for the farmers to see that this is maintained.

BOXES.

'The condition of the boxes still gives rise to comment. Exceptionally heavy cheese have not been coming forward in anything like the same number as they were,

and the boxes should have proved sufficiently strong to carry this year's lighter weights. There is still room for improvement. The lids appear to be strong enough, but it is essential that the hoops or sides should be made stouter.

MARKING OF WEIGHTS.

'The old fashion of scribbling the weights upon the boxes with a pencil is gradually falling into disuse, and the more practical method is employed of marking weights either with stencil or rubber stamp. Here and there the antiquated system is still adhered to, but it is hoped that by the time this committee makes its next report the practice will have died out altogether.

CARRIAGE.

'On the whole the steamship companies have done their work well and have shown themselves more alive to the peculiar requirements of this class of traffic. An agitation was set on foot some time ago in favour of the installation of cool air ventilators on vessels carrying cheese from Montreal to London. Ship owners obtained promises of support from importers, and several vessels were equipped with the necessary apparatus. As a consequence, an extra freight charge of 10s. per ton was imposed, but it was felt that the advantages would outweigh the cost. The experience of the past year, however, has not been such as to convince importers that any benefit whatever has accrued. Indeed instances have not been wanting to show that cheese carried in the ordinary manner and in the same vessel, have turned out better on arrival. It may perhaps be urged that it is not altogether a fair test owing to the exceptionally cool weather prevailing last summer, and that under normal circumstances the advantages would become more apparent. A further trial will be given of the system during the coming season, but unless better results are forthcoming importers will not be prepared to give it their support. That it ought not to be difficult to prove the advantages is exemplified by the very satisfactory way in which New Zealand cheese is carried in vessels fitted in a similar manner.

PARAFFINED CHEESE.

'Some interest has been excited by the experiment being carried out in Canada, of coating the outside of cheese with paraffin wax. This is done shortly after the cheese is made, and its effect is to prevent the moisture from exuding, which would lead to loss in weight. To this extent makers gain by the process, but judging by the quality of of the comparatively few cheese that have come forward, the effect of paraffining is also to retard those necessary actions which allow the cheese to mature and to become solid. Instead of the moisture evaporating gradually and naturally, it is retained in the cheese, and adversely affects the flavour. This is distinctly noticeable, and would become more pronounced with long keeping. Importers, therefore, are far from impressed with the desirability of continuing the treament. Further, the practice is open to another grave disadvantage, as the cheese have no rind and remain soft on the outside. Not only are the goods thus likely to go out of condition, but should the boxes containing these cheese become broken in transit, there would be every probability of the cheese itself being damaged, and in any case, the risk of handling is very largely increased. In these circumstances the verdict of the trade here must be taken as adverse to a continuance of paraffining.

'Signed by order and on behalf of the cheese committee.

'C. S. HIGGINSON,

'*Secretary.*'

March 28, 1903.

IMPORTS.

The value of the total imports of merchandise, exclusive of Inter-Settlement trade, was for the calendar year 1901 $283,093,003 as against $279,861,571 for the previous period 1900, showing an increase of $3,231,432, but when compared with the year 1897, the increase in the importations for 1901 shows much larger, the increase

over the year 1897 being $95,575,976. The increase, by countries, in the value of the imports of $95,575,976 and $3,231,432 was distributed as below :—

Countries.	Calendar Years.			Increase +, or Decrease −.	
	1897.	1900.	1901.	1901 compared with 1897.	1901 compared with 1900.
	$	$	$	$	$
Great Britain	24,076,246	29,398,636	30,594,749	+ 6,518,503	+ 1,196,113
British Possessions	46,681,718	71,230,801	70,592,327	+ 23,910,609	− 638,474
Foreign Countries	116,759,063	179,232,134	181,905,927	+ 65,146,864	+ 2,673,793
Totals	187,517,027	279,861,571	283,093,003	+ 95,575,976	+ 3,231,432

Thus it will be observed from the above table that the value of the imports from Great Britain was for 1901 $30,594,749 as against $29,398,636 for 1900, representing an increase of $1,196,113 ; for the same period the imports from British possessions were for 1901 $70,592,327 as compared with $71,230,801 in 1900, a decrease of $638,474 ; while the value of importations from foreign countries was $181,905,927 during the year 1901, showing an increase of $2,673,793 over the previous year. The value of the imports from Canada for the year 1897 was $12,350, 1898 nil, 1899 $80, 1900 $280, and for 1901 $4,748, whereas the importations from the United States were for the year 1897 $576,022, 1898 $962,203, 1899 $1,331,875, 1900 $1,875,195, and for 1901 $1,361,062.

Foodstuffs, Live Animals, Drinks and Narcotics.

The value of the total imports under this head was $114,199,640, for the calendar year 1901, as compared with $87,439,150 in 1897, $93,565,512 in 1898, $97,237,101 in 1899, and $109,916,789 in 1900, showing a substantial increase over the preceding periods. Importations of animals living, fish, rice, spirits and sugar show increases in value, while small decreases are noted in the importations of curry stuff, flour of wheat, malt liquors, provisions, wines, tobacco and other minor items. Coffee shows a considerable falling off, the decrease in value being about $750,000.

Raw Materials.

The value of the raw materials imported into the Straits Settlements for the year 1901 shows a decrease of $266,903 over the year 1900, the value of the imports for 1901 being $112,547,885, for 1900 $112,814,788, and for 1899 $99,166,787. Some of the principal items of import are, coals, raw textiles (such as cotton, hemp and silk), tin and oils.

Manufactured Articles.

The imports of manufactured articles for the year 1901 were $66,062,642, and for 1900 $67,663,075, representing a decrease of $1,600,433.

(*a.*) Textiles Manufactured.

The value of manufactured textiles imported in 1901 was $39,735,834, of which amount cotton goods are responsible for $23,534,519. The imports of cotton goods for the years 1897–8–9–1900–1901 were as follows :—

	Years.				
	1897.	1898.	1899.	1900.	1901.
	$	$	$	$	$
Cotton goods :—					
Plain, coloured and printed	11,164,940	13,396,781	13,052,117	14,789,301	14,823,497
Yarns	2,010,070	2,255,258	2,066,571	1,754,138	2,581,789
Sewing thread	519,221	503,503	517,204	463,493	509,961
Handkerchiefs	52,365	89,359	77,418	129,257	169,495
Sarongs and slendings	2,882,196	3,820,125	3,971,724	5,654,716	5,147,199
Blankets	220,307	206,742	210,739	287,908	302,578
Totals, cotton goods	16,849,099	20,271,768	19,895,773	23,078,813	23,534,519

The other items of manufactured textiles, which combine to make up the difference of $16,201,315, consist in a large measure of apparel, drapery, haberdashery, hosiery, millinery and piece goods (silk and woollen).

(*b.*) Metal Manufactured.

The imports of manufactured metals show a decrease of $933,000 for the year 1901 when compared with 1900, the value of the former being $9,125,000 and the latter $10,058,000. The following table sets forth the principal items of metals (manufactured) imported during the years 1897–89–1900–1901 :—

	Years.				
	1897.	1898.	1899.	1900.	1901.

(C)—Other Manufactured Articles.

The importations under this head also show substantial increases. In the year 1901 the value of the imports was $17,202,252 as against $11,847,181 in 1897; $13,258,464 in 1898; $15,369,068 in 1899, and $16,854,789 in 1900. The leading items of imports consist of carriages, bicycles, cement, cabinet ware, clocks and watches, explosives, earthenware, fancy goods. glassware, leather manufactures, paints and dyes, musical instruments, paper and stationery, soap, soda, &c.

EXPORTS.

The total value of exports of merchandise, exclusive of Inter-Settlement Trade, was for the year 1901, $245,069,572, showing an exceedingly large increase over the preceding periods, 1897 to 1900, the increase over the year 1897 was $83,733,171; 1898, $60,099,051; 1899, $29,187,665 and 1900, $5,448,950.

The increase in the export values for the year 1901 as compared with 1900 representing a value of $5,448,950 is accounted for under the head of live animals, foods, drinks and nacotics and manufactured articles, while raw materials show a falling off.

TRADE OF URUGUAY.

FOOD ADULTERATION IN PORTO RICO.

NEW LAWS AND REGULATIONS TO GO INTO FORCE ON JULY 1ST, 1903.

The British Consul at Porto Rico has forwarded the following copy of a communication to the Department of Trade and Commerce for general information :—

DEPARTMENT OF THE INTERIOR,

Office of the Superior Board of Health of Porto Rico,

SAN JUAN, P.R., April 29th 1903.

To the British Consul,

San Juan.

SIR,—I have the honour to inform you that the new laws and regulations as to food adulterations will go into force on July 1st, 1903, and that one of the leading features of these regulations is the necessity of correctly marking in Spanish the nature and quality of all food supplies. It is not intended to require the specification of purely trade names, many of which cannot be translated, but it will be insisted by the Board that every label shall be of such a nature that there can be no deception of the purchaser.

All articles sold as "Pure" must strictly conform to the standards of the Board, and all articles of a compound or artificial nature must be marked plainly in such a way as to indicate their real nature.

It is therefore respectfully requested that you will take immediate steps to notify as fully as possible the exporters of food products as to the requirements of the law.

Copies of the laws and regulations will be furnished from this office on demand.

Very respectfully,

(Signed) R. M. HERNANDEZ, M.D.,

Director of Health.

a The figures for Mexico include coin and bullion.

* Figures are for the Years 1900, 1901 and 1902.

II.—TARIFF CHANGES.

UNITED KINGDOM.

I.—GRAIN DUTIES—ALTERATIONS IN LIST OF GENERAL RATES OF DRAWBACK.

(General Customs Order, No. 18, of March 2. 1903.)

The Board direct that the following alterations be made in the List of General Rates of Drawback circulated by General Order No. 88, of December 10, 1902.

ARTICLES.	Rate of Drawback per net cwt.
Amendment—	
On Rice, upon which import duty of 3d. per cwt. has been paid, cleaned in Great Britain or Ireland, if containing more than 50 per cent of whole.	3.64
Or, if the Rice contains 50 per cent only, or less, of Whole, at the rates of 3.64d. and 3d. respectively on the proportions of Whole and Broken.	
In lieu of—	
On Whole Rice, cleaned in the United Kingdom, upon which import duty of 3d. per cwt. has been paid	3.64
On Mixtures of such cleaned Whole and Broken Rice, if the mixture contains not less than 90 per cent of Whole Rice.	3.64
And a proportionate rate when the Whole Rice is less than 90 per cent of the bulk...	
Addition—	
On Rice, upon which import duty at 4d. per cwt. has been paid (par. 2 of G. O. 54, 1902,) cleaned in Great Britain or Ireland, provided the Rice contains more than 50 per cent of Whole	4.69
Or, if the Rice contains 50 per cent only, or less, of Whole, at the rates of 4.69d and 3d. respectively on the proportions of Whole and Broken.	
In § 4 of the Schedule in the General Order, for "Whole Rice" read "Rice (Whole and Cleaned)."	

II.—BONDING OF CERTAIN ARTICLES LIABLE TO DUTY UNDER THE FINANCE ACT, 1902.

(General Customs Order, No. 22, March 7, 1903.)

Complete list of articles admitted to bonding, under "General Customs Order" No. 22, of March 7, 1903, substituting Order No. 82, of 1902.

Arrowroot, Cassava Powder and Tapioca, Farina, Mandioca, or Tapioca Flour, Potato Flour, Rice, Sago, Sago Flour, Starch, Macaroni, Vermicelli, and similar preparations of dutiable cereals, and Quaker Oats. Rolled Oats, and articles of a like character.

The Boards directions are to be sought before goods claimed as falling within the category of "articles of a like character" and "similar preparations of dutiable cereals," as indicated in the list, are admitted to the privileges of bonding.

III.—ORDERS OF THE BOARD OF AGRICULTURE, PROHIBITING OR RESTRICTING THE LANDING IN GREAT BRITAIN OF ANIMALS, ETC., FROM CERTAIN COUNTRIES.

Title and Date of Order.	Subject.	Commencement.
1. 5. Foreign Animals (Amendment) Order of 1901, (No. 2), dated July 4, 1901	Prohibiting the landing of: (1) a carcass of an animal which has been carried alive from a port in a prohibited country; or (2) the dung of any such animal; or (3) any partly consumed or broken fodder that has been supplied to any such animal; or (4) any litter that has been used for or about any such animal	August 4, 1901.
6. Importation of Dogs Order of 1901, dated December 12, 1901	Restricting the landing of dogs brought from any country, except Ireland, the Channel Islands and the Isle of Man	January 1, 1902.
7. Foreign Animals (Amendment) Order of 1902 (No. 2), dated November 28, 1902	Prohibiting the landing of animals from the following States in the United States of America, namely, the States of Maine, New Hampshire, Vermont, Massachusetts, Connecticut, and Rhode Island	December 5, 1902.
8. Foreign Animals (Amendment) Order of 1903, dated February 6, 1903	Prohibiting the landing of any animal from the Republic of Mexico	February 9, 1903.

*Does not extend to Ireland.

BAHAMAS.

AN ACT TO IMPOSE AN EXPORT DUTY ON PINEAPPLE PLANTS.

(Assented to 14th May, 1902.)

I. This Act may be cited for all purposes as "The Export Duty Act, 1902."

II. In this Act the words "Pineapple Plants" means slips, suckers or tops of pineapples to be used for purposes of planting.

III. There shall be levied and paid to the use of His Majesty his heirs and successors in aid of the Government of these Islands an export duty at and after the rate of ten shillings for the first hundred and an additional ten shillings for every hundred or part of a hundred of pineapple plants that may be hereafter exported from these Islands.

* * * * *

VI. This Act shall continue in force for two years from the passing hereof and from thence to the end of the then next Session of Assembly.

III.—COMMERCIAL AGENCIES.

The undermentioned Canadian Commercial Agents (whose addresses are given) will answer correspondence relative to commercial and trade matters, and give information to those interested as to local trade requirements in the districts they represent.

The Department of Trade and Commerce also invites correspondence from Canadian exporters or importers upon all matters pertaining to trade, and will cause special inquiries to be made by the Commercial Agents into any subject of general interest when so desired.

Such reports as have been received since the publication of the last monthly report of this department are appended.

These reports will be sent free to points in Canada upon application to: "THE DEPARTMENT OF TRADE AND COMMERCE, OTTAWA."

COMMERCIAL AGENTS.

J. S. Larke, The Exchange, Sydney, N.S.W., agent for New South Wales, Queensland, and New Zealand.

D. H. Ross, Melbourne, Victoria, agent for Victoria, South Australia, Western Australia and Tasmania.

James G. Jardine, P. O. Box 1232, Cape Town, Cape Colony, agent for South Africa.

Peter B. Ball, 16 Bennett's Hill, Birmingham, England, agent for Birmingham.

A. Poindron, 101 Rue Réaumur, Paris, France, agent for France.

G. Eustace Burke, Kingston, Jamaica, agent for Jamaica.

Robert Bryson, St. John, Antigua, agent for Antigua, Montserrat and Dominica.

S. L. Horsford, St. Kitts, agent for St. Kitts, Nevis and Virgin Islands.

Edgar Tripp, Port of Spain, Trinidad, agent for Trinidad and Tobago.

C. E. Sontum, Grubbegd, No. 4, Christiania, Norway, agent for Norway, Sweden and Denmark.

In addition to their other duties, the undermentioned Canadian agents will answer inquiries relative to trade matters, and their services are available in furthering the interests of Canadian traders :—

W. L. Griffith, 17 Victoria Street, London, S.W., England.

Harrison Watson, Curator for Canadian Section, Imperial Institute, London, England.

G. H. Mitchell, Newton Chambers, 43 Cannon St., Birmingham, England.

Alfred Jury, Old Castle Buildings, Preeson's Row, Liverpool, England.

Bruce Walker, 52 St. Enoch Square, Glasgow, Scotland.

John Webster, 14 Westmoreland St., Dublin, Ireland.

Edward O'Kelly, 13 Queen's Square, Belfast, Ireland.

D. Treau De Cœli, 75 Marché St. Jacques, Antwerp, Belgium.

AUSTRALASIA.

Report of Commercial Agent.

(Mr. J. S. Larke.)

The Exchange, Sydney, N.S.W., April 20, 1903.

To the Right Honourable,
The Minister of Trade and Commerce,
Ottawa.

Sir,—The past months have been characterized by some good rains. Many sections still suffer from drought and in agricultural areas some of the land is too dry to be ploughed. The prospects are, on the whole, favourable and promise feed for the stock. As the result the price of flour, wheat and nearly all lines of produce is lower. Manitoba flour is quoted at £12.10s. as against £13.10s. for flour in store a month ago. There is just now no market for wheat at a price at which it can be imported. Millers would rather sell than buy and transactions are reduced to a minimum. The demand for flour from Manitoba hard wheat will contiuue, and later there may be a demand for some hard wheat.

CANADIAN HOGS TOO HEAVY.

Nearly all lines of produce are affected. It is doubtful if butter can be shipped at a profit in June from Canada as was anticipated. The market for frozen hogs has been over-supplied for the moment from Chicago, though the demand is likely to continue. The hogs from Canada are too heavy and too fat for the butcher, and the average one also too heavy for the bacon curers.

NEW ZEALAND OATS CHEAPER.

New Zealand oats have possession of the market at a price which renders it impossible to import Canadian, which will not bring within 3d. per bushel of good New Zealand. The Canadian appear mixed Danish and Tartarian, and not too clean. This prevents their being sold for seed for which there is a demand. The New Zealand is the old Canadian potatoe oat with a full body. It is possible there may be some demand for milling oats in November next; but the milling oats which arrived here by the ship *California* were very disappointing in quality, and it will be difficult to get oatmillers to place orders unless at figures much below the present quotations. Hulled oats sent here have been of good quality and given satisfaction.

WHEAT AND FLOUR SITUATION.

A well-recognized authority has summed the situation at the middle of this month as follows :—

	Requirements. Bushels.
New South Wales	8,000,000
Victoria	5,000,000
Queensland	2,500,000
Western Australia	1,000,000
Total	16,500,000
Less South Australian surplus	3,500,000
Net requirements	13,000,000

As against these needs, the imports up to date at Sydney and Melbourne have been as follows :—

	Bushels.
Sydney imports, net	2,429,872
Melbourne imports	1,139,587
Total imports, net	3,569,459

The quantities of wheat either afloat, loading, or ordered for Australian ports are as follows :—

	Bushels.
From Argentina	2,899,200
From San Francisco	1,529,600
From Oregon	2,616,000
Total	7,044,800

These figures represent wheat only. In addition there is a quantity of flour to come forward. Exactly what this quantity is it is difficult to say, but no doubt it will go far to make good the two and a half millions of bushels that the above figures show still to be deficient. The following summary may be made :—

	Bushels.
Already imported	3,569,459
To arrive	7,044,800
Total supplies	10,614,259
Requirements	13,000,000
Deficiency	2,385,741

This deficiency should be reduced by the amount of the arrivals at Queensland ports and by the quantity of flour on the way or ordered. It would thus seem that the quantities of grain and flour already ordered are ample for many months to come, if not for the entire balance of the season.

This is only approximation. The South Australian surplus is given at half a million more than the estimate of the Government of that State, and the imports given must include grain and flour from other Australian ports which should not be included. The estimate of flour and wheat on order is made up from the reports of interested people and it is not possible to get them accurately. Something of the grain yet to be bought will depend upon the harvest of of next season. If it promises to be good the local stocks to the last bushel will be used before the new wheat can come into the market. Certainly, there is no demand for wheat and but little for flour at the present moment, but in three months there is likely to be a movement for hard wheat from Vancouver if it be possible to get it at the right price.

DROUGHT LOSSES.

The returns are coming in which give a fair estimate of the losses by drought last year. The stock returns at the end of the year for three years were :—

—	December, 1900.	December, 1901.	December, 1902.
Sheep	40,020,506	41,857,099	27,114,587
Lambs, marked	5,299,453	10,457,696	2,870,288
Cattle (all)	1,983,116	2,047,454	1,735,257
" dairy only	420,148	417,835	351,027
Horses	481,417	486,716	448,850
Pigs	256,577	265,739	192,662

Not taking into account the rise in value of the remaining stock it would show a loss of forty million dollars. The deficiency in the grain crop is placed at over thirteen million bushels, a loss of nine million dollars. So far the exports of wool have fallen off by 180,000 bales, another ten million dollars to add to the reduced output of hay, dairy products, fruit, &c. Allowing for increases in value the net loss can well be put at fifty million dollars. And this is in comparison with a year that itself was simply one of the best of several drought years. The full returns for Queensland are not yet available, but will be in about the same proportion. Victoria also suffered, but not to the same extent. The other States were rather advantaged. The South Australia harvest of wheat and hay was about twenty per cent below that of the previous year, but in value it was worth nearly seventy per cent more. The export of wool from Australia for the past nine months of the wool year shows three hundred thousand bales less than that for the same period last year. The difference in value will not be nearly so great. The shipments from New Zealand show an increase of nearly fifty thousand bales.

BUSINESS IMPROVING IN QUEENSLAND.

As the result of the more favourable season business is improving and is considerably brighter in Queensland. Notwithstanding the losses of the past years, if better seasons set in, the recovery will be rapid, and there is little fear of the financial crisis that some feared.

PUSHING CANADIAN TRADE.

Canadian manufacturers are showing a renewed interest in this market, and intimate that shortly they will be able to undertake business here. The most vigorous attempt yet made to place the better classes of Canadian furniture on the market has just begun. The samples are very attractive, but the effort has been marred by a considerable percentage of the shipment being damaged by bad packing and bad handling *en route*. Several of the cases were broken, which is not unusual by the New York route. It is hoped that direct shipment from Montreal will make an improvement in this direction, but many of the lines were broken where the cases were whole and failed to show signs of rough handling.

GOODS BADLY PACKED.

The only conclusion is that the goods were badly packed. I saw copies of the shipping directions given to the Canadian exporters. They were specific and full, but unfortunately had not been strictly observed. Not only are the goods on arrival practically useless as samples, but arrival in bad condition is a great obstacle in the way of securing trade. Importers very naturally object to give orders where there is a fear of goods not arriving in proper condition. I am not sure that the experiment even under the active management it has, can be a great success.

BULKY GOODS HARD TO PACK SECURELY.

The heavy freight and duty and the damage that under the very best conditions that must ensue in shipping, will, I fear, make the trade unprofitable for bulky goods. There is, I am persuaded, a large field for export of these goods machined and fitted, shipped in the knockdown and put together and finished here. There is now a trade in frames and other partially completed forms which Canadian manufacturers should exploit and secure. Some of the designs are not suitable to this market. Wardrobes are in larger demand here than in Canada. Those sent from Canada are in one piece, following the United States pattern. The English and French, even in the small sizes, have base, body and top in distinct parts, and in the larger sizes, the body is in three pieces. The ease with which the latter are handled gives them the preference.

INQUIRIES ABOUT CANADA.

The request for information respecting Canadian lands for settlement continue unabated and come from every part of Australia. The steamers have their full capacity taken in advance.

I have the honour to be your obedient servant,

J. S. LARKE.

FRANCE.

REPORT OF COMMERCIAL AGENT.

(Mr. Anatole Poindron.)

101 Rue Réaumur,
Paris, May 15, 1903.

The Right Honourable,
The Minister of Trade and Commerce,
Ottawa.

POOR CROP PROSPECTS.

Sir,—Crop prospects do not look so well owing to excessive frosts and rains. The price of bread has advanced owing to the high quotations prevailing for wheat and flour. Such high quotations do not appear to depend upon prospects of short-home supply, but principally, upon the impossibility to mill the grain kept in ricks on the fields, owing to the continuous rains. Frosts in the last part of the month have also greatly injured, in many districts, potatoes, beans, peas, rye, fruit trees and vines. The damage done to fruit trees cannot be recovered, and the short supply contemplated will offer an excellent opportunity for Canadian green apple packers, dried apples, peaches and apricot packers and fruit canners to try to get an important and paying trade on the French market.

THE LUMBER TRADE.

A large development of the lumber and timber exports to France could be obtained if Canadian exporters were to appoint direct agents in France. In fact the most important of them are dealing with France through the firms in England that they have entrusted with their general agency for United Kingdom and the continent. In spite of the reason of which I am aware that Canadian exporters could state, in favour of their present organization as to exports of lumber and timber to Europe, I am afraid the Canadian export trade of lumber to continental Europe in general, and specially, to France will develop at a slow rate until they try direct connections with agents in continental European countries.

As regards France, the agents of Canadian exporters in the United Kingdom have to give to their own representatives in France a part of their commission, and they feel inclined to work preferentially the English market at full rates of commission.

On the other hand, their representatives in France give also their preferences to business done at full rates of commission and as they are generally entrusted with direct agencies of exporters from other foreign countries, like Baltic countries, United States and others, and as they are often born in such foreign countries, they carry the Canadian lumber import business in France with less care and energy than Canadian or French direct agents would do.

As to square timber, oak, birch, maple, elm, ash, are in very large demand in France. Oak planks and flooring, maple flooring, pine deals, staves and blocks could get a largely increased trade. As to spruce deals, in Paris, Rouen, Le Hâvre, Alger, Oran, Marseilles, the size 3-in. x 9-in. look the largest demand with an approximate proportion of 3-in. x 8-in. and 3-in. x 7-in. specified by every order. Quality—1st, 2nd, and 3rd Quebec—Average, 2nd Quebec. Average length 14 feet.

In Bordeaux and Nantes, the demand is chiefly for 3-in. x 7-in. and an approximate proportion specified by the orders of 3-in. x 9-in. and 3-in x 8-in. Quality—1st, 2nd and 3rd Miramichi and Quebec—Average 2nd Miramichi and Quebec. Average length 14 feet to 15 feet. Important deal ends orders 6 feet to 9 feet would be also available in all of the places referred to.

I have the honour to be, sir,

Yours respectfully and faithfully,

A. POINDRON.

ST. KITTS, NEVIS AND VIRGIN ISLANDS.

REPORT OF COMMERCIAL AGENT.

(Mr. S. L. Horsford.)

St. Kitts, West Indies, April 30, 1903.

The Right Honourable,
The Minister of Trade and Commerce,
Ottawa.

Sir,—Trade with Canada has not only been fully maintained, but so far as our exports are concerned, there has been a very marked improvement during the last two years.

SUGAR SHIPMENTS TO CANADA INCREASING.

While hitherto the bulk of our sugar has been shipped on consignment to New York, and only comparatively small parcels have been forwarded to Canada for sale, during the last and present seasons the conditions have been entirely changed. Last year nearly 54 per cent of our sugar was shipped to Halifax against 36 per cent to New York and only 7 per cent to the United Kingdom, while this year the Canadian proportion promises to be very considerably increased, and the capacity of the subsidized steamers is being taxed to the utmost to find space for the ever increasing demand. This is extremely satisfactory, and should the existing conditions continue, there is every hope that the trade thus established will prove to be a permanent one. As, however, the Halifax market is regulated almost entirely by that of New York, the price paid by the refiners there being in fact the New York price of the day for Muscovado, less the difference in duty, it will be seen that the advantages which Halifax offers, and which have so far attracted this trade, are of a purely local and incidental character, namely, the lower rate for handling of the shipments in the latter port as compared with the charges in New York. In New York the charges on a shipment, exclusive of the duty, average about 25 to 30 cents per 100 lbs., while in Halifax these come to only 18 to 20 cents, so that the difference in favour of Halifax is not in itself large, while the market is decidedly smaller and less expansive.

SUGAR PRICES MANIPULATED.

When the preferential abatement of 33⅓ per cent off the tariff was accorded to imports from British possessions, it was hoped that a very decided advantage would have been thus assured to our sugar in Canadian markets, but prices have been so manipulated that this advantage is almost entirely retained by the buyers under the arrangement by which the price is now arrived at. Thus, notwithstanding the supposed preferential treatment, we get precisely the same in Canada for our sugar as we would get were it shipped to the United States, and with the keen competition of your neighbours, it seems hardly safe to count on the small difference in the handling charges alone as a means of permanently retaining this trade. I refer to this matter as I am impressed with the belief that we are by no means getting the advantages which the Government contemplated when the preferential rate was so generously conceded.

CANE DISEASE DISAPPEARING.

Thanks to the untiring energy and most excellent work which is being done by the Imperial Department of Agriculture, cane disease which did such havoc on our plantations some years ago, has now almost entirely disappeared from this Island. New varieties of canes have been introduced which are giving everywhere most excellent results. Last year the out put of 16,624 tons sugar was considerably above the average of recent years, and while this year's crop will not reach these figures owing to unfavourable weather conditions, we still hope to attain the average.

DEMAND FOR MOLASSES IMPROVING.

I am glad also to report an improved demand for our molasses which had in late years become quite a drug. The article has been in active requirement at 12 cents and there seems every prospect of an advance.

IMPORTS OF USUAL CHARACTER.

In the matter of imports there is little to note. In addition to the usual importations, boots and shoes and other manufactured goods are being more largely introduced.

I have the honour to be, sir,
Your obedient servant,
S. L. HORSFORD.

NORWAY, SWEDEN AND DENMARK.

REPORT OF COMMERCIAL AGENT.

(Mr. C. E. Sontnm.)

GRUBBEGD, No. 4,
CHRISTIANIA, NORWAY, May 2, 1903.

The Right Honourable,
The Minister of Trade and Commerce,
Ottawa.

SIR,—Confirming my report for the quarter ending March 31, I herewith have the honour to forward report for the month of April.

NORWEGIAN TRADE.

The trade values of Norway for the months of January and February compare as follows with the corresponding period of last year:—

	Imports.	Exports.
Jan. and Feb. 1903	Kr. 46,384.600	Kr. 21,351.600
" " 1902	Kr. 39,377.400	Kr. 20,725.200

TARIFF CHANGES.

The following changes in the Norwegian Customs Tariff may be of interest:—

	Per Kilogramme.
Tallow and Oleomargarine increased from..	4 oeres to 5 oeres.
Rubber boots and shoes and other rubber foot-wear	80 " 100 "
Gloves made from skins	Kr. 6.00 to Kr. 8.00
Glove-skins collored and uncollored	Kr. 1.00 to Kr. 1.25
Butter-collor	4 oeres to 6 oeres.

(1 Dollar=Kroner (Kr.) 3.75—1 Krone=100 oeres.)

TRADE OF DENMARK IN 1902.

The value of goods imported to Denmark from foreign countries in 1902 amounted to 435·5 millions of kroner, and the export reached 320.3 millions of kroner. Compared with the year 1901 the import has increased with 38.6 millions and the export with 28.2 millions of kroner. Among the articles which show a rising import are: Skins, hides, lumber and paper.

RUSSIAN MATCH EXPORTS.

An article appeared in a Danish trade-paper, which may possibly interest Canadian match manufacturers. It was stated that the imports of Russian matches to Persia is of considerable dimensions. Four years ago the imports amounted to only five millions of boxes, while in 1902 it had grown to thirty millions, and according to the present prospects the imports during this year seem as if they are going to be still larger.

MECHANICAL WOOD PULP.

The bad collapse of the market for mechanical wood pulp, after a protracted period of shortage of production, strongly points to a considerable overproduction, and as the bids now coming to hand are even kroners below the cost price, the Norwegian pulp-makers fully acknowledge the desirability of, or rather the necessity for a large restriction of the output. The management committee of the Norwegian Wood-pulp Association is in active correspondence with the Swedish section in this question, and it is to be hoped that at the general meeting of both sections to be held in the near future an agreement may be arrived at.

CANADIAN COMPETITION FELT.

According to the leading trade paper here, competition from Canada also now must be taken into consideration on the European market, and it looks as if the manufacturers on this side are becoming well aware of Canadas increasing pulp production and chances for competing for the European trade.

I have the honour to be, sir,

Your obedient servant,

C. E. SONTUM.

IV.—GENERAL COMMERCIAL INFORMATION.

IMPORTS OF PRINCIPAL FOODSTUFFS INTO GREAT BRITAIN.

QUANTITIES of Butter, Cheese, Bacon, Hams, Fish, and Eggs, Imported into Great Britain during the *months* of April and the *four months* ended April 30, 1901, 1902 and 1903. (*From British Returns.*)

INQUIRIES RELATING TO CANADIAN TRADE.

Since the publication of the last monthly report, there have been received at this department from the High Commissioner for Canada, London, England, the Curator, Canadian Section, Imperial Institute, London, England, and Canadian Commercial Agents, the following inquiries relating to Canadian trade. The names of the firms making these inquiries, together with their addresses, can be obtained from this department, or from the office through which the inquiry was received.

Inquiries from the High Commissioner for Canada.

CANADIAN PRODUCERS OF LEATHER BOARD.

1. Inquiry is made for addresses of Canadian mills in a position to furnish regular supplies of leather board. (Reference No. 81.)

CANADIAN IMPORTERS OF FLOOR AND GLAZED TILES.

2. A firm manufacturing all classes of floor and glazed tiles have made inquiry respecting the extension of their business relations with Canada. (Reference No. 81.)

CANADIAN PRODUCERS OF WOOD PULP AND CHEMICALS.

3. A general broker in the north of England who is interested, among other things, in wood pulp and chemicals, is seeking connections with Canadian producers. (Reference No. 81.)

ENGLISH IMPORTERS OF FEED MADE FROM GRAIN.

4. A Canadian grist-mill owner desires to establish connections with English firms importing feed made from grain. (Reference No. 81.)

IMPORTERS OF HARDWOODS.

5. A Quebec lumber exporter wishes to get into touch with a few houses dealing in hardwoods such as maple, birch, red oak. ash, &c.; also with importers of box-shooks, handles and other small wooden-ware. (Reference No. 81.)

INQUIRY RE CANADIAN EXPORTERS OF ZINC ASHES.

6. An inquiry has been received for the names of Canadian exporters of zinc ashes to Great Britain. (Reference No. 81.)

CANADIAN EXPORTERS OF SPADE AND SHOVEL HANDLES.

7. An inquiry has been received from the north of England for names of Canadian lumber houses in a position to export 32-inch spade and shovel box or D handles (English pattern); also shovel stems 32, 29 and 34 x $1\frac{1}{2}$ inch diameter. (Reference No. 82.)

CANADIAN DEALERS IN WHIPS, RATTAN FURNITURE, ETC.

8. Application has been made by a London firm for the addresses of the leading houses in Canada dealing in whips, rattan (reed) furniture, and brushes. (Reference No. 82.)

AGENCY IN CANADA FOR LONDON TEA FIRM.

9. A London firm of tea buyers and shippers wishes to find agents in Canada open to do business in this line. They are also prepared to act as buying or selling agents for good Canadian firms. (Reference No. 82.)

LEADING CANADIAN SADDLERS AND SADDLERS' HARDWARE DEALERS.

10. An English firm asks to be referred to leading saddlers and saddlers' hardware dealers in Canada with a view to introducing a patent article likely to be adopted. (Reference No. 82.)

AGENCY IN CANADA FOR ENGLISH DRUG GOODS.

11. A Canadian drug firm having connections throughout Canada and Newfoundland wishes to take up the representation of English manufactures of fruit ethers, vanillin, essential oils and proprietary articles. (Reference No. 82.)

CANADIAN SHIPPERS OF BOX SHOOKS.

12. A wholesale seed firm requiring large supplies of wooden boxes, cut to specified sizes, has asked to be placed in touch with Canadian shippers of box shooks. (Reference No. 83.)

CANADIAN PACKERS OF LOBSTERS.

13. A London firm of agents and brokers for the sale of provisions asks to be furnished with names of packers of lobsters in the Maritime Provinces of Canada. (Reference No. 83.)

CANADIAN MANUFACTURERS OF CASEIN.

14. The addresses of casein manufacturers in Canada are asked for by a firm in Scotland. (Reference No, 83.)

CANADIAN SHIPPERS OF WHEAT, FLOUR, FRUITS, ETC.

15. An import and export house at Malmo (Sweden) has asked to be furnished with a list of leading Canadian shippers of wheat, flour, fruits, cheese and salmon. (Reference No. 83.)

INQUIRY RE MANUFACTURERS OF KNIFE BLADES.

16. Inquiry has been made by a Canadian firm for the addresses of manufacturers of knife blades (pocket and table). (Reference No. 83.)

BRITISH IMPORTERS OF MEAL AND CEREAL PRODUCTS.

17. An Ontario firm of manufacturers of meal and cereal products desires to establish agencies in the United Kingdom, but require that persons undertaking their representation must hold a limited amount of stock in the concern. (Reference No. 83.)

Inquiries from the Curator, Canadian Section, Imperial Institute.

AGENCY IN CANADA FOR GRAIN-WEIGHING MACHINERY, ETC.

1. A manufacturer of grain-weighing machinery, sack stands and other specialities wishes to be placed in touch with a responsible Canadian firm prepared to handle same. (Reference No. 44.)

CANADIAN MANUFACTURERS OF DOORS, SHELVING, ETC.

2. A London timber merchant desires names of Canadian manufacturers who can supply doors, shelving, carpenters' clear pine, poplar, &c. (Reference No. 44.)

CANADIAN PRODUCERS OF MICA.

3. A Dundee firm of mica merchants wishes to be put into communication with Canadian producers of mica. (Reference No. 44.)

CANADIAN PRODUCERS OF CHAIR MATERIALS.

4. A London firm of manufacturers' agents possessing a long experience and large connection would like to represent a first-class Canadian producer of chair materials. (Reference No. 44.)

CANADIAN MANUFACTURERS OF FRUIT BOX SHOOKS.

5. A firm of fruit shippers require a large quantity of box shooks cut to dimensions and wish to hear from Canadian manufacturers who can fill orders. (Reference No. 45.)

CANADIAN PRODUCERS OF BROOM HANDLES.

6. A Bristol house is prepared to contract for supplies of broom handles and invites correspondence from Canadian producers. (Reference No. 45.)

AGENCY (LONDON, ENG.) FOR CANADIAN PRODUCE.

7. A firm of London brokers already engaged in the Canadian trade and able to furnish Canadian references, seeks additional agencies in evaporated apples, canned lobsters, fruit and vegetables. (Referenced No. 45.)

CANADIAN MANUFACTURERS OF BASSWOOD PIANO KEY BOARDS.

8. A London manufacturers' agent asks to be placed in touch with Canadian manufacturers of basswood piano key boards. (Reference No 45.)

CANADIAN SHIPPERS OF HAY AND POTATOES.

9. A London firm wishes to hear from Canadian shippers of hay and potatoes. First class references. (Reference No. 45.)

AGENCY FOR CANADIAN MANUFACTURES.

10. A gentleman representing an important house in London is desirous of securing the agency of Canadian manufacturers of builders' hardware, machinery, and manu facturers of wood, in which he possesses a large connection. (Reference No. 45.)

Inquiries from Canadian Commercial Agent, Birmingham, England.

EXPORTERS OF RED PINE DEALS.

1. A large user of Canadian red pine deals would like to form a connection with saw millers in Canada. (Reference No. 1.)

CANADIAN LEAD MINE OWNERS IN CANADA.

2. A firm using 5,000 to 10,000 tons of lead from time to time, would like to be put in touch with lead mine owners in Canada. (Reference No. 1.)

CANADIAN EXPORTERS OF CHEESE, BUTTER, EGGS, &C.

3. A firm in Manchester would like to be placed in direct communication with exporters of cheese, butter, eggs and bacon; open to act as agent, or sell on commission, or would purchase. (Reference No. 1.)

CANADIAN MANUFACTURERS OF SHOVEL, AXE AND MALLET HANDLES.

4. Two firms wish to purchase quantities of shovel, axe, mallet and other handles. (Reference No. 1.)

EXPORT OF POTASH.

5. A firm using about 2,500 barrels of potash per annum, would like to hear from exporters. Must be best sort. (Reference No. 1.)

CANADIAN EXPORTERS OF FLOUR.

6. A firm who can handle 250 to 300 barrels of flour per day, would like to hear from a mill who could supply that amount. (Reference No. 1.)

CANADIAN EXPORTERS OF CANNED GOODS, &C.

7. A firm of commission merchants wishes to handle for the Midlands, all sorts of canned goods, fruit pulp, pickles in bulk, catsup and maple syrup. (Reference No. 1.)

MISCELLANEOUS.

NOTE.—'Special' means in the case of Imports, 'Imports for Home Consumption,' in case of Exports, 'Exports of Domestic Produce and Manufacture.'

a The figures for Mexico include coin and bullion.

* Figures are for the Years 1900, 1901 and 1902.

TARIFF CHANGES

CEYLON.

INCREASE OF EXPORT DUTY ON TEA.

According to Ordinance No. 13 of 1902 which came into operation on June 1, 1902, there shall be raised, levied, and paid upon all exported tea, the produce of the Island of Ceylon, a duty not exceeding ten cents per one hundred pounds, the rate leviable to be determined by the Governor in Executive Council from time to time.

This Ordinance shall cease to be in force on June 1, 1905.

COMMERCIAL AGENCIES.

The undermentioned Canadian Commercial Agents (whose addresses are given) will answer correspondence relative to commercial and trade matters, and give information to those interested as to local trade requirements in the districts they represent.

The Department of Trade and Commerce also invites correspondence from Canadian exporters or importers upon all matters pertaining to trade, and will cause special inquiries to be made by the Commercial Agents into any subject of general interest when so desired.

Such reports as have been received since the publication of the last monthly report of this department are appended.

These reports will be sent free to points in Canada upon application to: "THE DEPARTMENT OF TRADE AND COMMERCE, OTTAWA."

COMMERCIAL AGENTS.

J. S. Larke, The Exchange, Sydney, N.S.W., agent for New South Wales, Queensland, and New Zealand.

D. H. Ross, Melbourne, Victoria, agent for Victoria, South Australia, Western Australia and Tasmania.

James G. Jardine, P. O. Box 1232, Cape Town, Cape Colony, agent for South Africa.

Peter B. Ball, 16 Bennett's Hill, Birmingham, England, agent for Birmingham.

A. Poindron, 101 Rue Réaumur, Paris, France, agent for France.

G. Eustace Burke, Kingston, Jamaica, agent for Jamaica.

Robert Bryson, St. John, Antigua, agent for Antigua, Montserrat and Dominica.

S. L. Horsford, St. Kitts, agent for St. Kitts, Nevis and Virgin Islands.

Edgar Tripp, Port of Spain, Trinidad, agent for Trinidad and Tobago.

C. E. Sontum, Grubbegd, No. 4, Christiania, Norway, agent for Norway, Sweden and Denmark.

In addition to their other duties, the undermentioned Canadian agents will answer inquiries relative to trade matters, and their services are available in furthering the interests of Canadian traders :—

W. L. Griffith, 17 Victoria Street, London, S.W., England.

W. T. R. Preston, 11 and 12 Charing Cross, London, England.

Harrison Watson, Curator for Canadian Section, Imperial Institute, London, England.

G. H. Mitchell, Newton Chambers, 43 Cannon St., Birmingham, England.

Alfred Jury, Old Castle Buildings, Preeson's Row, Liverpool, England.

Bruce Walker, 52 St. Enoch Square, Glasgow, Scotland.

John Webster, 14 Westmoreland St., Dublin, Ireland.

Edward O'Kelly, 13 Queen's Square, Belfast, Ireland.

D. Treau De Cœli, 75 Marché St. Jacques, Antwerp, Belgium.

AUSTRALASIA.

Report of Commercial Agent.

(Mr. J. S. Larke.)

The Exchange, Sydney, N.S.W., May 18, 1903.

To the Right Honourable,
The Minister of Trade and Commerce,
Ottawa.

GOOD RAINS.

Sir,—The rainfall of the last three weeks has been widespread and abundant. In scattered localities there have been some floods but as a rule there have been a succession of showers which the land has been able to absorb. The grain growing lands of nearly all Australia have been either sown and the grain is doing well or are in a condition to be sown, and this renders it probable that next year Australia will reap a good harvest.

The pastoral regions with some exceptions have been blessed with good downfalls, and as the weather has been warm there has been an excellent spring of grass, furnishing feed for the winter. The prospects for the year have completely changed for the better. The depleted flocks and herds cannot be replenished in a day, but it is hoped that this is the begining of better seasons with a consequent improvement in trade.

WOOL.

As the wool year draws to a close the shipments confirm the prognostication that the output of Australian fine wool will be about three hundred thousand bales short of that of last year. The wool sales of London and Antwerp show a steady rise in values and the prices are higher than for several years with the exception of the years 1899–1900, but the average of this year so far is higher than of either of the calendar years of 1899–1900. The probability is that the short supply in sight for next year will keep prices firm and further that Australia will obtain as much for the reduced yields of 1902–3–4 as it secured for the larger amounts of previous years.

Imports are necessarily restricted, but with a good harvest and a fair return for wool, trade must expand within the next six months, more particularly as stocks in hand are not excessive.

BREADSTUFFS.

The market for Manitoba wheat and flour has been peculiar. The delay in the arrival of sailing vessels from New York made high prices for both in store but the large quantities on the water of wheat and flour has made it impossible to sell for future delivery. The Argentine so far tried is reported well of by the millers and as it is lower in price than Manitoba is quoted at, they hope that they can use the cheaper grain as a substitute. Some thirty-five cargoes of wheat and flour are reported en route for Sydney alone and the feeling is general that the orders have been given too freely. The reduced price of Manitoba flour has given an opportunity for its larger use and wider dissemination. It is being freely used in both Melbourne and Adelaide. With direct shipments from the St. Lawrence it should meet with larger sales in Western Australia. With the present prospects of a good grass and grain year there is no likelihood of any demand for other grain from Canada.

FISH.

I have referred more than once to the failure to land fish in brine in good quality from British Columbia, owing to the faults in the cask, allowing the brine to leak out on the voyage. A recent shipment came out in excellent condition and the fish was appreciated on the market. It was carried in the cool chamber of the ship and possibly the cooperage was better. There should be less difficulty in landing fish from British Columbia than from Europe, which requires nearly double the time on the journey.

Of the million and a half dollars which Australia pays for imported fish, Canada directly gets but a small percentage, but firms are now becoming interested in the business here that have the facilities of placing frozen and cured fish on all the leading markets of Australia. Establishments for the curing of fish are at work in British Columbia who are now putting up smoked, dried and salted fish nearly equal in quality to some of the best European brands. If they take pains in getting their product here in good condition, and the cool chambers on the mail steamers afford the means, I hope shortly to see the fishermen of British Columbia get the share of this market that they should have. The difficulty here is an inefficient system of distribution which I hope to see overcome, and in British Columbia it is here thought there are too many middlemen used which brings the cost up too high.

DIFFICULTIES IN THE WAY OF TRADE EXTENSION.

It is to be regretted that so much space has to be devoted in these reports to the mistakes made by Canadian exporters, but it is the only way to get them cured. There is not a ship that arrives that does not produce a series of complaints. Here are some of the recent ones :—

DELAYED SHIPMENTS.

A ship arrived with oats that were expected by a steamer long before. The market for oats had gone to pieces and the importers netted a heavy loss. It was hoped that as a high grade had been ordered that some would have brought a good price for seed for which there was a demand. The oats were inferior, mixed and contained so many seeds of weeds as to make them unfit for the purpose. The quantity of foul seeds in the wheat received here has also prevented Canadian from being used for seed as otherwise would have been.

MOULDY GRAIN.

Another lot of grain was refused by the purchaser on the ground that it was mouldy. The explanation of this is that the lot sent was the only sample that could be got on board the vessel owing to strikes and accidents on the railway preventing the shipment from getting to Vancouver in time.

NO ALLOWANCE FOR EXCHANGE.

Where goods are sold C. I. F. & E. often no allowance is given for exchange at all where payment is arranged for in Canada. The full price is collected and the buyer finds the exchange charged up against him at his bank here. As this amounts to $2\frac{1}{2}$ per cent it is a considerable item. Again where credit is given for freight to be collected at this end the credit commonly is at the rate of a pound sterling for $4.86, but all the shipping companies collect at the rate of $4.80 to the pound, a loss to the buyer of three pence in the pound.

SUBSTITUTION OF OTHER GOODS.

Another is the substitution of other goods for those ordered. Until the exporter is thoroughly acquainted with the conditions of trade here it is at a great risk that this

can be done. A law suit is now threatened over an instance of this sort. A Canadian built machine was ordered and it was discovered that the order was filled by shipping a United States machine from which the nameplate had been imperfectly chipped. The United States machine is claimed to be inferior and at all events is sold in this market at five hundred dollars below that paid for the Canadian article.

BAD PACKING.

The complaint of bad packing is a perpetual one. Some United States lines are quoted price at factory with charges for packing and freight to New York given as extras. Canadians sometimes do so too. In a recent instance the United States charge was seventy-five cents for two dozen chains while the Canadian was $1.92 for the same number. It is evident the Canadian exporter is charging too much or paying too much for inferior work.

It is necessary that some study must be given to packing in order that it shall be well and yet cheaply done. In cases I have seen the defect was due both to wrong methods and great carelessness. One box would be packed very well and the other loosely. The conclusion came to was that a man with some common sense and knowledge of the conditions had done one and the other had been turned over to a boy without supervision. It must be remembered that as most of the goods coming *via* New York are probably handled ten times between the factory and the consumer, and that by men not the most gentle in their treatment, besides being tossed on the sea for two months, anything likely to damage by friction must, therefore, be so firmly packed that there may not be sufficient motion for shock or abrasion.

IRRIGATION MACHINERY.

The striking results obtained by irrigating comparatively small areas during the recent drought is certain to attract wider attention to the necessity of making larger provision for the dry seasons and create a demand for the machinery for this purpose, including pumps and other appliances for raising water and motors for them. The latter include wind-mills, steam, oil and hot air engines. Some Canadian wind-mills are in use in various parts of Australia giving, I am informed, great satisfaction.

The sale has not been steady owing to lack of arrangements for handling them. To do the work to the best advantage they must be sold as agricultural implements by canvassers directly to the user and put in place by the seller. There are a few firms who handle wind-mills as ordinary merchandise, but these firms have arrangements with some manufacturer and it will require evidence of the superiority in quality or price to induce them to change to a new line, which the ordinary manufacturers' agent is rarely able to give.

A thoroughly informed traveller is necessary to introduce a new line and it would be necessary to put up some plants and thus demonstrate their value. There appears to be an excellent opening for a Canadian firm to take up this work.

PROVISIONS.

The large shipment of frozen hogs from Chicago has cut prices below the cost of importation. There is one branch of the trade that has scarcely been touched, the supply of porkers to the butcher. The class of hogs brought here has been too heavy and too fat for this purpose. They should weigh from 65 to 90 pounds. A fever is prevalent amongst the herds of both Queensland and New South Wales and where it is known it is creating a disinclination to use pork. The good feed has increased the price of mutton and beef as there is now feed for all the stock. As this is likely to continue for a year or more prices for pork are likely to go higher and make it possible to bring over frozen hogs of the weight I have given if they can be obtained in October and November. Just now the prices are too high in Canada to permit of this being done.

There is some inquiry for butter and eggs, but the duty on these articles prohibits importation and is likely to continue to do so throughout the year. Even should prices rise New Zealand is likely to supply the quantity of butter that may be needed and China the eggs.

EXPORTS.

The exports of canned meats has been resumed and some quantities are likely to go forward mainly for the Klondyke trade.

Some experiments have been made with binder twine made in Sydney from New Zealand flax. The results were so satisfactory that the trade in future years may become one of some magnitude to points a little beyond Calgary.

Another new line is salt from South Australia. It is thought that in certain brands it can be laid down in British Columbia at prices to compete with Liverpool.

If direct purchases of wool hides and skins could be established it would do much to solve the problem of exchange which now troubles the Canadian export trade and it would also better freight conditions by giving cargoes both ways.

THE PACIFIC CABLE.

The Postmaster General of New Zealand was authorized by the Cable Board to put on canvassers to meet the efforts of the Eastern Extension Co., and he reports that as a result the business of the Pacific Cable has been largely increased.

The employment of similar means is needed in Australia and would produce like results.

I have the honour to be, your obedient servant,

J. S. LARKE.

SOUTH AFRICA.

REPORT OF COMMERCIAL AGENT.

(Mr. J. G. Jardine).

Address:
P. O. Box 1232,
Cape Town.

JOHANNESBURG, May 9, 1903.

The Right Honourable,
The Minister of Trade and Commerce,
Ottawa.

SIR,—I had the honour of addressing my last report to you from Bulawayo, on April 4. Since then I have visited Gwelo, Salisbury and Umtali, in Rhodesia, interviewing the various chambers of commerce, newspapers and business men generally.

SOUTH AFRICA INTERESTED IN THE GERMAN SURTAX.

Everywhere in Rhodesia, as in the other colonies, I find manifested a growing desire to obtain information as to the possibilities of Canada furnishing many of the materials hitherto imported from Germany and the United States. That portion of the Honourable the Finance Minister's budget speech which was cabled to the South

African press 'relating to the proposed sur tax on imported German goods into Canada' has given the most unbounded satisfaction to all classess of people here, and will certainly help largely to increase the South African trade with Canada, if only Canadian exporters are prepared to take advantage of the opening.

RHODESIAN POSSIBILITES.

Rhodesia (unlike the country as viewed from a railway carriage on the journey from Cape Town to Bloemfontein and again from Bloemfontein to Mafeking) has abundance of trees and the grass is green and nutritious after you strike the northern portion of Basutoland and enter Matabeleland and Mashonaland. The farms, however, are few and far between, but what there are, I understand, belong to the very best class of farmers to be found in South Africa and average 6,000 acres apiece.

The native population here, as elsewhere in South Africa, do very little agricultural, or any work, when at their kraals, apart from growing mealies and raising a few fowls and a cow or two to sustain life. At every stopping place along the railways scores and, sometimes, hundreds of both sexes scantily clothed are at hand to sell curios and Kaffir trinkets. The golden harvest is great but the labourers are few, hence scarcity of money, business depression and a keen sense of disappointment felt everywhere by many of the newcomers who emigrated to South Africa after the close of the war.

CATTLE SCARCE IN RHODESIA.

Rhodesia gives one the impression that it ought to be a good stock-raising country, but here again comes in the scarcity of water and the terrible red water cattle disease, The whole of Rhodesia to-day is about denuded of cattle by this scourge. Dr. Koch, the eminent German savant, has set up his laboratory at Bulawayo and remains for two years in South Africa making experiments with a view to finding a cure, and great hopes are being held out of a remedy being found. Meanwhile her business and mining men are full of energy and hope and have great faith in Rhodesia becoming in time the fairest and richest of all South African Colonies.

MINING MACHINERY IMPORTS.

Rhodesia produces at present about 20,000 ounces of gold per month, and her mining machinery admitted free of duty for the year 1901–1902 amounted to over $800,000, and agricultural machinery and tools, $50,000.

INDUSTRIAL GOODS, &C.

Industrial goods, such as boots and shoes, $145,000, and Kaffir cotton blankets and rugs, $130,000; building materials and wood are also admitted free of duty and amounted to $300,000 for the same year. Furniture of all kinds and household equipments in 1901–1902 amounted to over $250,000 and are subject to duty.

FREE ARTICLES.

The duty-free articles comprise the great majority of the items of food as also of drink, such as canned meats, fish, fruits, potatoes, onions, poultry, frozen and preserved meats, eggs, &c.

DUTIABLE GOODS.

Articles of all kinds paying duty for 1901–1902 amounted to $2,500,000, and the duty collected was $615,000. This works out an average percentage of 25 per cent, but as a matter of fact the great bulk of these goods pay an average of only $8\frac{1}{2}$ per cent, while 60 per cent of the total importations into Rhodesia are duty free.

IMPORTATIONS FROM CANADA.

It may be asked what percentage of these importations come from Canada? A very trifling amount—hardly anything direct. Via Great Britain a few thousand dollars worth of flour, bacon, cheese, canned products, furniture, doors, sashes, &c., come by British vessels to Beira and Cape ports, but are car marked 'English products.' If a few more representatives to South Africa were sent out by manufacturers of timber, furniture, shoes, implements and stoves, food products, &c., to exploit South Africa from the Cape to Zambezi, Germany and United States pushers, at any rate, would not have quite so much their own way as at present in the particular lines above mentioned.

RHODESIA'S NATURAL PORT.

Beira and Lourenco Marques, in Portuguese territory, are dull, slow places and only of importance on account of their harbours. The former is the natural port for Rhodesia, being only 374 miles from Salisbury, the capital, by the Beira and Mashonaland Railway now completed, and 1,164 miles by railway from Cape Town. At present, however, the freight charges from Beira to Salisbury are about the same as from Cape Town to Salisbury.

Lourenco Marques is, perhaps, the safest harbour in South Africa when storms arise, but like all other ports, except Cape Town, there is no wharfage and only lighter equipment. The authorities, however, are providing some wharfage accommodation and expect to have shortly 330 yards of deep water dockage completed. The distance from Delagoa bay by rail to Johannesburg is 396 miles, while from Durban, the nearest South African port to the Rand, it is 483 miles.

CANADIAN ENTERPRISE.

Before leaving Lourenco Marques for Pretoria, through the courtesy of the managers of the Lingham Timber and Milling Company, I was taken up the river to Matolla, the river front terminus of their branch railway line, with pier accommodation and direct connection with the main railway line to the Transvaal. This enterprising Canadian company, of which Mr. Lingham, a native of Belleville, Ontario, is the president; (the McLaren company of Buckingham and Ottawa also have an interest) have erected splendid timber mills with machinery of the newest design, every part of which was manufactured by a Toronto firm, and, besides they have just completed an up-to-date flour mill, the valuable machinery of which was made by a Galt, Ontario, firm. The managers are Canadians, besides a number of employees all hailing from Canada, and principally from the old county of Hastings.

It was pleasant as the 'shadow of a great rock in a weary land' to spend a couple of hours piloted by the esteemed manager of this great Canadian company and view the logs being cut into planks of all sizes and shapes, and afterwards transported to all parts of Africa on cars loaded at their depot close to the mills. I could hardly realize that I was not on the banks of the Ottawa, instead of the shores of the Indian Ocean. I was sorry to learn that only a small proportion of their immense output of timber came from Canada. The United States (Puget Sound) and the Baltic, furnishing most of their raw material, and not because the company desire to discriminate against Canada, quite the reverse. What are our friends in British Columbia doing to exploit this market?

The manager will be pleased, I am quite sure, to give information and reply to every bona fide Canadian enquiry, by addressing Manager, Lingham Timber Co., Ltd., Lourenco Marques.

AGRICULTURAL MACHINERY FOR THE COLONIES.

Mr. Henry Birchenough, who was sent out to South Africa by the Board of Trade as British Trade Commissioner, has reported to the Board, 'as a pressing matter,' on the opportunity offered to British manufacturers for re-stocking the Orange River Colony

with farm tools and the cheaper kind of agricultural plant. Mr. Birchenough thinks the agricultural development of the Colony, as soon as the railway extensions are carried out, will be 'very striking,' and a clean sweep having been made of agricultural implements and machinery the farmers have to start again from the beginning.

CHANCE FOR CANADIAN EXPORTS.

'As they are by nature extremely conservative,' Mr. Birchenough's letter, says 'I am assured they will continue to use and re-order for many years to come the types of machinery and implements they now adopt.' If British manufacturers allow their American competitors to occupy the field they will, the writer warns them, have infinite difficulty in dislodging them in the future. The repatriation supplies meet only immediate needs and leave a very large field for private enterprise.

The letter continues :—'As a guide to manufacturers and exporters, let me point out that the majority of farmers in the Orange River Colony will for some time be very poor, even when the various compensation claims have been paid. They will be short of oxen, horses and labour, and for that reason will not be able to cultivate large tracts of land, such as warrant the use of expensive and elaborate machinery. They will, however, require farm tools of all kinds, light ploughs, harrows, small dairy plant, &c. Heavy ploughs are useless, as the farmers will not for some time have oxen to work them.

'The Americans, as is well known, have obtained the strongest possible hold upon this branch of trade. They have, of course, been assisted by the fact that the agricultural problems they have had to solve at home are in many respects similar to those the South African farmer has to face, so that their manufacturers are better prepared at the outset to meet the South African demand. Still, there seems to be no reason why British manufacturers, if they will study the agricultural conditions of the country, should not be able to compete successfully with their American rivals. Now is the time to be on the alert and to lay themselves out to meet the demand which will assuredly accompany the coming agricultural development of the Orange River Colony and the Transvaal. If they let slip this opportunity I fear it is not likely to recur.'

I have ventured to include this capital letter of the British Trade Commissioner in this report. It is quite as applicable to the Transvaal, and indeed to most of the other Colonies in South Africa *re* the description of implements required now and for some time to come. Canadian manufacturers are in as good a position as either Great Britain or the United States to furnish these articles.

TINNED DOMESTIC SARDINES.

If put up in $3\frac{1}{2}$ and 5 ounce tins in good oil, and laid down in South Africa at a price to enable the retailers to sell at about 9 and $12\frac{1}{2}$ cents a tin, the demand will be large. A very common article in 2 ounce tins comes from London and is sold to the Kaffirs for a tickey or 6 cents a tin. The real French article (about 5 ounce tins) retails for thirty cents.

TINNED OR CONDENSED EGGS.

This article is now put up in England and is beginning to attract a large sale throughout South Africa, where fresh eggs sell from 3s.6d. to 7s.6d. a dozen. I am told it consists of ordinary eggs with some of the superfluous water extracted, and sugar added. In appearance it looks like 'Redpath's syrup or treacle,' by adding a little water and beating briskly, it is hardly possible to tell it from the ordinary fresh egg.

They are packed for this market in hermetically sealed tins containing one pound and upwards, a one pound tin being the equivalent of fifteen new laid eggs. In Canada where eggs are so plentiful and cheap in the summer season there ought to be capital openings for this new venture of egg condensation for export purposes, at any rate.

CAPE TOWN EXHIBITION.

The postponements of the Cape Town exhibition until the end of 1904 is a move in the right direction. Mr. Chamberlain, I understand is taking some interest in it and when here used his influence with the governing authorities at Cape Town to have the exhibition held on Green Point Common, a magnificent sight a mile from the centre of the city only, and fronting Table Bay, with the glorious mountain in the background. The British manufacturers are certain to put up a good exhibit provided the exhibition is well managed and as the Duke of Argylle, our own High Commissioner, Duke of Cambridge and Westminster, Lord Milner and many other magnates are giving it their patronage, it should succeed.

On my return to Cape Town in August I will obtain all particulars possible and send them to Ottawa.

CANADIAN EXPORT TO SOUTH AFRICA.

The Canadian Direct Line is bringing monthly full cargoes of Canadian products, including timber, wheat, flour, butter, (apples in season) biscuits, bacon and hams, canned provisions, furniture, doors, sashes, church pews, desks, organs, agricultural implements, boots, shoes, flannelettes, carriages, &c.

On the whole the importers I have thus far interviewed are fairly well satisfied with their purchases, but complain of the long delays of many months before the stuff reaches them, delays in Canada and at coast ports here, and afterwards the long railway haulage to the Transvaal on our narrow gauge rails. Frequently many weeks, and sometimes months, go by ere the owners see their consignments. Meanwhile the goods have been paid for, and if on examination, as frequently happens, the materials are not according to order it causes bad blood and great disappointment to all concerned.

BAD BUILDING MATERIAL FROM CANADA.

Let me give one instance out of several I have met with. A Canadian firm of commission merchants in Johannesburg ordered several thousand pounds sterling worth of building materials for the Government railways, after some months about £3,000 worth arrived, and on examination the Government refused to take it and cancelled balance of the order as not being first quality as ordered, but the commission firm had already accepted sight draft and paid the figures for first quality wood. I saw both the timber and the Government purchasing expert, and repeat the remarks of this gentleman, 'I am surprised that a reputable firm in Canada or anywhere else would send out such stuff.'

Meanwhile it is eating itself up in expenses awaiting a buyer. And although timber of all kinds is in great demand at present in Johannesburg no one can be found to take this lot, at any price. Most of the timber and building men here know all about it and whence it comes.

WARNING TO CANADIAN EXPORTERS.

If this sort of thing is to be often repeated by Canadian exporters it would be well for the Right Honourable the Minister of Trade and Commerce to seriously consider the advisablility of abolishing the Commercial Agency, at least in South Africa, as under these circumstances its usefulness will be gone.

I have the honour to be, sir,

Your obedient servant,

JAS. G. JARDINE.

JAMAICA.

Report of Commercial Agent.

(Mr. G. Eustace Burke).

Kingston, Jamaica, June 1, 1903.

The Right Honourable,
The Minister of Trade and Commerce,
Ottawa.

Sir,—Since I had the honour of addressing you on April 14, statistics disclosing the total exports of the Island for the fiscal year ending March 31 last have been published.

INCREASED EXPORTS—CANADA'S CUSTOM.

While it is pleasing to observe the continued increase in the exports of the colony generally, it is gratifying to be able to report that the direct exports to Canadian ports have materially improved and, in some items, may be termed remarkable, as the following analysis will show :—

COCOANUTS.

For the years under consideration (1902–'03) 2,778,205 went to the Dominion direct, while but 1,712,637 were shipped the previous year. The total quantity exported was 26,239,686, of which the United States took 19,900,661.

BANANAS.

The increase in direct shipments of this fruit was phenomenal, for while in 1902 but 12,608 bunches were shipped, for the year under consideration no less a quantity than 120,868 bunches went direct, the greater portion taken by the s.s. *Ask* of the Canada–Jamaica line, the s.s. *Beta* of Messrs Pickford & Black also taking increased quantities on previous years.

While a very material increase was foreshadowed in previous reports as a result of the advent of the first mentioned steamship line, I calculated on no such remarkable difference of figures. When it is considered that the *Ask* is a nine days' boat to Halifax, and a comparatively very small craft, declining to accept outside bananas on freight, (and at times oranges, cocoanuts, &c.) being loaded entirely, as far as satisfactory fruit room is concerned, by growers, the above results surely demonstrate, beyond room for speculation that, with subsidized up-to-date transportation facilities, my laboured contention all these many years—trade exchange between this colony and the Dominion would develop by leaps and bounds, surprising even the most enthusiastic advocates of the oft suggested enlightened conditions.

The total exports were 14,660,582, beating the record by over $3\frac{1}{2}$ million bunches.

ORANGES.

Here again is additional proof. Shipments in 1903 very nearly doubled those made in 1902, the figures being 7,545,600 and 4,058,050 respectively.

The total exports were 99,241,697, the United States being a constomer for 84,782,-437, and the United Kingdom for 6,068,310 ; the number of 845,350 going to other countries.

It will thus be seen that direct shipments to Canada exceeded that to the United Kingdom. The exports to the United States noted above was an increase of some 12,000,000 on the previous year.

GRAPE FRUIT.

The total export of this not too well known fruit, amounted to 11,371 barrels while in the preceding year but 9,932 were shipped. The United Kingdom taking 1,344 ; the United States 8,724 against 8,401 for 1902, and Canada 1,251 barrels against the insignificant number of 152 barrels for the previous year, showing a remarkable development approaching 800 per cent.

To all appearances this fruit has a good future, and when better known throughout Canada, a lively demand is assured.

GINGER.

		1902-1903.	1901-1902.
United Kingdom	Cwts.	10,085	11,287
United States	"	15,873	10,545
Canada	"	1,137	621
Other countries	"	188	29
Totals		27,283	22,482

It will be noticed that there has been an all round increase in shipments to the Island's various customers, but none is so significant as that relating to Canada, the figures showing an increase of over 82 per cent.

PINE APPLES.

The increase of shipments to Canada developed close on 600 per cent, the figures being : 1903, 2,229 dozens ; 1902, 373 dozens.

It is interesting to note that, while shipments to Canada increased so phenomenally, shipments both to the United States and to the United Kingdom fell off very appreciably, especially as regarding the latter outlet.

The United States in 1902 took 4,565 dozens, while last year her take was but 4,175 dozens, and 9,609 dozens went to the United Kingdom in 1902 ; shipments in 1903 dwindling down to 2,609 dozens.

With the remarkable increase to Canada, I can only conclude that improved carrying factors facilitated the delicate fruit arriving in encouraging order, stimulating the forwarding of orders to the Island instead of dealers importing through United States channels. This certainly must have been the case, for while prices were barely nominal in New York and Boston, there was no unusual demand for the fruit in Canada.

RUM.

		1902–1903.	1901–1902.
United Kingdom	Galls.	1,586,616	1,528,756
United States	"	104,539	19,916
Canada	"	12,458	9,723
Other countries	"	171,429	97,604
Totals		1,875,042	1,655,999

SUGAR.

		1902–1903.	1901–1902.
United Kingdom	Tons.	2,193	1,527
United States	"	14,779	13,206
Canada	"	904	512
Other countries	"	896	598
Totals		18,772	15,843

DECREASES.

Although the total Island's exports for coffee, cocoa, dyewoods and pimento, show very appreciable increases, shipments to Canada fell off somewhat as compared with the previous year. There are many factors which may account for this. For instance, during the first portion of the year 1901–1902, I do not think that appreciable quantities of the respective products, excepting perhaps dyewoods, were shipped on through freights via Canada.

Again, the Canadian demand generally might not have been up to the usual standard and prices realizable not encouraging ; or probably, lower freights and expediting consideration might have induced shipments destined for Canadian Ports. Of course it is distinctly impossible to furnish anything absolutely accurate to account for the falling off, but it is more than probable that one or the other of the foregoing reasons may be responsible.

HONOURABLE SYDNEY OLIVIER'S MISSION TO OTTAWA.

The Honourable the Colonial Secretary of the Colony, Mr. Sydney Olivier, is expected to sail to-morrow via Boston for Ottawa *en route* to Great Britain on six months leave of absence. The object of his mission to Canada I have already dealt with in a previous despatch.

Guided by correspondence received from various commerical centres of activity in the Dominion, especially in the Maritime provinces and Montreal, it would appear that Canadian manufacturers and producers are taking quite an interest in Mr. Olivier's visit. It is also to be noticed that influential sections of the Canadian press are also commenting on the potentialities likely to accrue to both Canada and Jamaica as the outcome of his mission.

As far as Jamaica is concerned, there is but one opinion if his visit results in a well equipped fast direct service ; and as it is well known that both Mr Chamberlain, the Secretary of State for the Colonies, and His Excellency Sir Augustus W. L. Hemming, G.C.M.G., the Governor of the Colony are very keen on the subject of closer commerical relations between the two Colonies and Mr. Olivier is also very favourably impressed with the importance of achieving such a consummation, it is confidently looked for that something definitely progressive will shortly be learnt.

THE AMENDMENT IN THE CANADIAN TARIFF.

Needless to say, the announcement that Mr. Fielding, the Canadian Finance Minister had made certain amendments in the customs tariff which would permit of West Indian sugars entering at a still further advantage over German beet, was received with much satisfaction, inspiring hope of some advantageous outlet for the coming crop. Opinions are much divided as to what will be the outcome of the abolishing of the bounties to take place as from September 1, next, many planters contending that relief in that direction has come too late.

WEST INDIAN SUGARS GOING TO CANADA.

Messrs. Gillespie Bros. and Co., of London and New York, decided authorities on all commerical and agricultural matters affecting the West Indian Islands, and who have very appreciable financial interests at stake in most of the islands, in a recent circular dated from their New York house announces that the bulk of the West Indian sugars are now being marketed in Canada. It reminds those interested that the Dominion at present cannot take the entire output, but with a good deal of candour, impresses upon the planters and manufacturers that it is more than probable that at no far distant date Cuba will be a component part of the United States, and then together with the increased output of Porto Rico, the Phillippines and the Hawaiian Islands, and their domestic output, there will certainly be no room for the foreign article. The circular obviously points out that if they (the planters) study their true interest, while taking all present advantage of the American markets they must seek and endeavour to pave the way and cultivate new outlets for remunerative demand.

WEST INDIES LOOKING TO CANADA

No doubt the Westmoreland Sugar Planters Association, a very influential organisation of the sugar interests in the Island, will take advantage of the timely advice, and doubtless the other Islands of the group have been made fully alive to the possible and probable coming situation. Trinidad at least appears to have fully realized the future outlook, and are to all appearances 'hustling' for what I may term the Canadian option. At present, she certainly has one advantage in that direction over this Island, for in addition to Halifax, she enjoys, I understand, a fortnightly service to and from St. John.

TORONTO ALL-CANADA EXHIBITION.

The agricultural society at its last meeting voted a credit so that Jamaica may be fittingly represented at the all-Canada exhibition to take place in August next. Mr. Olivier has also promised to pay a visit to Toronto and will no doubt forward a communication here for publication pointing out his impressions of the potentialities that may accrue thorough representative exhibit of the Island's exporting possibilities.

I have endeavoured to impress on possible exhibitors the importance of this particular exhibition, pointing out that it is an all-Canada exhibit, and in which but the West India Islands and Newfoundland will be permitted to take part, outside of Canada, for the success of which the Dominion Government have supplemented the funds with a grant of $50,000. Again, I have drawn to notice the fact that it will be about the time when some 200 representatives of British Commerce and Industry from all parts of the world will assemble at Montreal attending the Congress of the Chambers of Commerce of the Empire, most of whom will assuredly visit the exhibition. Then again, several members of the British Parliament are expected to visit Canada about that time, making the possible benefits to arise, and the opportunity for advertising the Island generally a unique one.

I hope to induce the Planters' Association of Westmoreland in making a special representative exhibit. And as the old truism still stands good today, that 'where you sell there you are most likely to buy,' if an unusual interest be aroused here in connection with this exposition, resulting in a marked development in the island's exports to the Dominion, it is inevitable that increased imports from Canadian centres of industrial and manufacturing activity must follow.

CANADIAN BUTTER AND CHEESE WANTED.

The Canadian 'Blue Nose' brand of Nova Scotia still enjoys a lively demand. What astonishes me in consideration of the very appreciable output, this market offers for both butter and cheese, especially the former, that other butter and cheese sections

throughout the Dominion do not make a determined bid for the trade, notwithstanding the conditions existing in their favour, as against imports from the United States and the United Kingdom. I do not hesitate to say, that if Canadian factories can be got to pay some attention and show some interest in meeting the conditions of the demand, and dealers and exporters will reasonably co-operate in making an energetic effort to cultivate the Canadian demand, that the time would not be far distant when the Canadian article would practically monopolize the best trade.

There has been a very appreciable falling off in the imports of oleomargarine and other butter substitutes, while on the other hand, the imports of butter has correspondingly increased, demonstrating conclusively consumers' 'leaning' to the genuine article. While fairly large quantities of both creamery and dairy description are being at present shipped from Halifax to this market, I hardly think a single pound arrives by direct order from an Ontario or Quebec factory or shipping house, although efforts at this end have been made to accomplish this, but have always failed to result in anything appreciably practical, and for the strange reason—I use the term 'strange' advisedly—that both Canadian producers and exporters practically cannot be induced in taking a genuine interest in complying with the requirements of the demand as to size and method of packing, &c.; but when approached suggest such impossible unusual terms and conditions. as if they were the only producers of the articles in question in the world.

FLOUR IMPORTS FROM CANADA.

It is pleasing to turn to a more promising situation regarding flour, and it would seem that at last some Canadian millers are beginning to realise that this market is worth capturing, and this too, at the sacrifice of probably cherished conservative methods. I mentioned in a previous report that two brands from a St. Thomas, Ontario mill had fairly 'taken,' but complaint was made of delay in shipments when ordered, and also not strictly complying with grade and other instructions.

I am glad, however, to report that there has been an all-round improvement in this, with the result that two other brands (grades) from the same mills promise also to be successfully placed. A Chatham, Ontario, brand is also making headway through a specially uppointed sole agent, as in the previous case mentioned. Occasionally other small lots of Manitoba grades drop in. It is, however, necessary to explain that while I have written as I have done, Canadian millers in the aggregate have by no means made any appreciable inroad on the 170 thousand barrels imported annually on an average from the United States; still it is encouraging to note that practical efforts to get a substantial 'footing,' is at last receiving serious attention.

TRANSPORTATION VIA NEW YORK.

As there will shortly be published official detailed statistics of the entire imports of Jamaica for 1902–1903, giving supposed country of origin, it is necessary for me to point out that while there will be a marked 'showing' in direct shipments both ways, still this will in no wise give an accurate idea of the actual trading conditions between the two colonies. For I am in a position to state that consignments of flour, furniture, oats, canned goods, &c., of Canadian origin have been arriving in increasing quantities via New York.

LUMBER AND READY-MADES.

Sectional returns available show a marked increase in the importation of white pine lumber and deals, also in ready-made sashes, blinds, doors, buggy, wood materials, &c., which I have satisfied myself is of Canadian origin; yet the probability is that the credit to Canada for these commodities will be insignificant.

COMING CROPS.

Reports from all parts of the island give the welcome announcement that the recent drought has been completely broken, and that the rainfall has been all that can be desired, assuring (if nothing unforeseen happens) good coming crops. This is particularly so in the case of oranges, bananas, sugar, pimento, ginger, cocoa and coffee. Apart from depressed prices, the sugar planters particularly have had a very trying time of it, suffering considerable loss by drought. Taking everything together, future prospects however, cannot be altogether said to be discouraging. The Vere Irrigation Works (one of the largest sugar districts in the Colony) will very shortly be completed. This certainly will be a boon to the planters of the district.

The health of the island is excellent.

I have the honour to be, sir,
Your obedient servant,
G. EUSTACE BURKE.

TRINIDAD AND TOBAGO.

REPORT OF THE COMMERCIAL AGENT.

(Mr. Edgar Tripp.)

PORT OF SPAIN, TRINIDAD, May 29, 1903.

The Rt. Honourable,
The Minister of Trade and Commerce,
Ottawa.

SIR,—The commission of inquiry into the recent riots has come and gone. There was not the slightest disturbance during its deliberations nor indeed has there been since the lamentable occurrences of March 23.

The report of the commission is anxiously awaited and it is earnestly hoped that the finding will tend to diminish the friction which unhappily now exists between the authorities and the people.

BETTER RELATIONS WITH VENEZUELA.

A short time ago the Chamber of Commerce learnt that there had not been included amongst the matters for settlement with Venezuela the old standing and serious grievance of the 30 per cent extra duty imposed by that Republic upon goods imported from the British Colonies. They immediately represented this to the government, who telegraphed to the Secretary of State for the Colonies, and there is now reasonable ground for belief that the subject will not be overlooked.

CANADIAN GOODS BECOMING BETTER KNOWN.

I am pleased to report that as the result of a visit paid this morning to the heads of the leading dry goods firms in Port of Spain, I find that Canadian manufactures are gradually becoming more known and appreciated, and although much remains to be done to raise this trade to the volume which it should command, things seem to me very hopeful and promising. Under this head I shall go more into detail when I have the official figures before me.

I have the honour to be, sir,
Your obedient servant,
EDGAR TRIPP.

Under date of June 17, Mr. Tripp also sends the following information to the Department of Trade and Commerce :—

NO COMMERCIAL TRAVELLERS' TAX.

In answer to your query on the subject, I may state that there is no commercial travellers' tax imposed in this Colony. All facilities are given to such travellers. Their samples, if liable to duty, are allowed to be landed and removed on a deposit sufficient to cover the duty, which is refunded when the goods are reshipped.

IN FAVOUR OF MR CHAMBERLAIN'S PROPOSAL

At a meeting of the Chamber of Commerce held yesterday to receive the opinions of the members in regard to Mr. Chamberlain's proposals for preferential trade within the Empire, for the information and instruction of the Chambers' delegates at the Montreal Congress in August, the following resolution was unanimously carried, viz :—

'That this chamber heartily approves of the Right Honourable Joseph Chamberlain's proposals to still further consolidate the British Empire by means of preferential tariffs between Great Britain and her Colonies ; also, that the delegates representing this Chamber at the Congress of Chambers of Commerce of the Empire, to be held in Canada this year, be instructed to support any proposals or motions tending towards the formation of an Imperial Zollverein that may be brought forward.'

In proposing the above resolution, Mr. Randolph Rust, who is well known in the Dominion, made special reference to the fact Canada had ever been in the van in the efforts made to consolidate the Empire, and his remarks under this head met with much approval.

NORWAY, SWEDEN AND DENMARK.

REPORT OF COMMERCIAL AGENT.

(Mr. C. E. Sontnm.)

GRUBBEGD, No. 4,
CHRISTIANIA, NORWAY, June 3, 1903.

The Right Honourable,
The Minister of Trade and Commerce,
Ottawa.

SIR,—The Swedish statistics just out contains a comparison of the imports and exports for the months January–March 1902–3, of which I mention the following articles as being of most interest to Canadian manufacturers and exporters:

IMPORTS INTO SWEDEN, JANUARY TO MARCH.

Articles.	For the year 1902.	For the year 1903.
Brandy and spirits in bbls.	83,400 litres	160,000 litres
Pork, all kinds	2,615 tons	2,821 tons
Seeds of clover and other kinds	1,278 "	1,489 "
" " hemp	2,343 "	1,559 "
Hides and skins unprepared	1,482 "	1,243 "
" " prepared	250 "	224 "
Hops	56·6 "	54 "
Machines and tools (not including) engines or sewing machines	value 2,592,000 kroners *(a)*	value 2,750,000 kroners
Cheese all kinds	52 tons	55 tons
Paper "	387 "	392 "
Oats	1,047 "	20,338 "
Wheat	25,515 "	32,764 "
Barley	73 "	2,414 "
Corn	2,105 "	1,478 "
Rye	3,030 "	22,987 "
Wheat-flour	1,524 "	1,785 "
Rye-flour	58 "	294 "
Sewing and knitting machines	value 162,000 kroners	value 101,000 kroners
Tallow	906 tons	1,033 tons
Cigars and cigarettes	62·9 "	64·4 "
Bicycles	2,345 pieces	500 pieces
Eggs	12,000,000 "	9,202,000 "

(a) One dollar=3·75 kroners.

MARKET BARE OF FLOORING.

It is reported that the entire Scandinavian market is bare of floorings, suitable for the Cape market, for shipment before end of July; some houses quote for August, and several mills are unable to take contracts for this year at all. As the Cape demand is far from satisfied, prices are ruling very stiff.

COD-FISHERIES SEASON OVER.

The Norwegian cod-fisheries for all districts south of Finmarken may now be considered as practically over, the aggregate volume for the whole country up to May 23 being estimated at $39\frac{1}{10}$ millions as compared with $36\frac{8}{10}$ millions in 1902.

CROP PROSPECTS ENCOURAGING.

As to the crop-prospects it may be said, that at present they are very encouraging, and it is to be hoped, that the crops throughout the Scandinavian countries will be such, that to some extent they will balance the poor results of last year.

I have the honor to be, sir,

Your obedient servant,

C. E. SONTUM.

BIRMINGHAM.

REPORT OF COMMERCIAL AGENT.

(Mr. P. B. Ball.)

16 BENNETT'S HILL,
BIRMINGHAM, ENGLAND, June 10, 1903.

The Right Honourable,
The Minister of Trade and Commerce,
Ottawa.

SIR,—Since the opening of my office I have had 52 absolute inquiries from people desirous of doing business with, and from Canada. This, of course, does not include the very large number of people who have written for information, and others who have called to discuss trade matters.

CANADIANS REMISS IN CORRESPONDENCE.

I have a number of complaints from people here who have tried to do business with Canada in former years, and the statement is general that the Canadian manufacturer is very remiss in his correspondence. If he writes at all, it is usually to say that he is so busy with the home markets that he cannot attend to their wants. If the manufacturers of certain articles in Canada would take the trouble to come to this country to go over the markets, they would find an almost inexhaustible demand, and certainly better prices could be obtained than at home.

Among other articles that have been brought before my notice, and to which I have given considerable attention, are:—

WOOD HANDLES.

These are required in very large quantities for hammers, shovels, picks, &c. I have had a bundle of samples sent on to Canada, so that all the manufacturers there may have a chance of looking them over and sending in quotations. This should be a very large trade. The Americans have been handling it principally, but with the eight manufacturers of these goods in Canada the Dominion certainly should be able to get a portion of the trade.

FRUIT.

In going through the wholesale and retail markets, I find that Canada is much behind Australia and Tasmania. This may perhaps be due to the fact that it is not our fruit season. In speaking to a number of the large dealers they claim that although Canadian fruit is packed much more carefully than was the case formerly, still much is to be desired. The method of handling here is, Canadian shippers consign to Liverpool, where they are auctioned three times a week, and the large Birmingham handler goes to Liverpool and purchases what he wishes, then brings them to Birmingham and auctions again, supplying the wants of Wolverhampton, Walsall and the surrounding district. There must be something radically wrong in the handling of a trade when the retailer has to pay at least 6d. per pound for a decent eating apple. Tasmanian and Australian fruit coming in here now is not to be compared in flavour to Canadian. The Canadian apples shown on this market are not a fair sample of what Canada produces. This matter I shall go into more fully later.

CANNED GOODS SUCH AS VEGETABLES, FRUITS, ETC.

I have not seen a can of Canadian goods in the dozens of shops I have been into. In vegetables and meats, the Americans seem to have almost entire control; in fruits, the Germans and the French, together with Californian canned goods, seem to have the market. The Germans and French do theirs up in a very nice way, nearly all in glass, and I should advise Canadian shippers when sending over first consignments of goods, that no matter what they cost, a certain proportion should come out in glass, being of course, absolutely the same as the goods to be put in tins. There is a certain prejudice here against what they call 'tinned goods' and the wealthier people would pay two prices for goods put up in glass to what they would pay for goods in tins, but the poorer people are taking considerably to canned goods. In speaking on this matter to a very large importer he told me that if the Canadians could put up pork and beans so that they may come into this market a little lower in price than Heinz (who is the most expensive manufacturer in the United States), there is an enormous market in the Midlands, and so with every class of vegetables.

CHEESE.

A large quantity of Canadian cheese is used here, but I see that quantities of it which I am absolutely certain comes from Ingersoll and other points, are sold as English Cheddar and Cheshire.

BUTTER.

I have seen almost nothing of Canadian goods.

EGGS.

I have seen a few cases here, and they are from Strathroy and Trenton, and ten cases in one lot from Owen Sound. The sellers seem to think very well of the way they are packed and the quality.

BACON.

It is very difficult to trace. I saw one dray load coming from a large factory near Toronto, but within half an hour it was on the counter as British goods. The packers in Canada have exploited the market well. Still I should think there could be a great deal more sold if they could produce it.

FLOUR.

Most of the Canadian goods is shipped to Liverpool and Bristol. They have their exchange here every Wednesday, but I have not been able to get closely enough in touch to find out their methods of selling.

BREAKFAST FOODS.

I find almost no breakfast food known here except oatmeal.

It would strike one coming here from Canada that our Flake Wheat and other breakfast foods would have a good sale if they were placed on this market. A few special things have been sent over from the United States, and one American firm has a small mill here for flaking wheat. I understand that the demand is such that he intends enlarging his plant at once.

AN IMPORTANT QUESTION.

I can only say again, sir, that it will be the fault of the Canadians themselves if they do not sell a much larger amount of goods in this country than they have been doing. There is a considerable prejudice in favour of Canadian goods, but the question is always asked 'how are we going to get them?'

I have the honour to be, sir,

Your obedient servant,

P. B. BALL.

FRANCE.

REPORT OF COMMERCIAL AGENT.

(Mr. Anatole Poindron.)

101 RUE RÉAUMUR, PARIS, June 17, 1903.

The Right Honourable,
The Minister of Trade and Commerce,
Ottawa.

PROSPECTS FOR CANADIAN FRUIT EXPORTERS.

SIR,—Grain crop prospects have substantially improved during the month of May and returns would promise quite satisfactory if dry and warm weather were to prevail. The fruit crop will be very short in cherries, peaches, prunes, pears and early apples. This would afford a very good chance to Canadian fruit exporters to get their share on the French import market Besides, owing to considerable shortage in the fruit crop in general, apples are likely to be kept at high prices, in France, next fall, the effect of which will be to better the margin for Canadian apple exporters, whether green, evaporated, chopped, dried or canned. Nuts and almonds have been damaged in some districts, but fortunately, prospects for Grenoble walnuts look very promising and lower prices than those quoted for last year are anticipated.

SURTAX ON GERMAN GOODS.

In accordance with the circular issued by the Canadian Customs Department, dated at Ottawa, April 17, 1903, I have sent a letter to all Presidents of the Chambers of Commerce and all principal traders and manufacturers associations in France and Algeria, to inform them of the extra duty to be levied in Canada from July 1, 1903, on German goods, and to give them the wording of the additional certificate to be added on invoices of goods exported to Canada.

FRENCH TRADERS BECOMING INTERESTED IN CANADA.

As a result of my letter, an intercourse of correspondence with all the principal traders and manufacturers bodies throughout the country and Algeria is now established, which will, no doubt, benefit in the future to the Franco-Canadian trade relations, and both imports and exports. French exporters are paying more and more attention to Canadian market and French importers to Canadian resources. According to connections promoted, manufacturers and exporters of various Canadian specialties seem quite desirous to get acquainted with the outlet afforded to them by the French market. I may add that a certain development of Canadian exports to France should shortly result. Such is the opinion expressed to me, in their letters, by some of the leading Canadian manufacturers and exporters of the specialties inquired for in France.

I have the honour to be, sir,

Yours faithfully and respectfully,

A. POINDRON.

ST. KITTS, NEVIS AND VIRGIN ISLANDS.

REPORT OF COMMERCIAL AGENT.

(Mr. S. L. Horsford.)

ST. KITTS, June 22, 1903.

The Right Honourable,
The Minister of Trade and Commerce,
Ottawa.

SIR,—I have the honour to acknowledge the receipt of your despatch of the 27th ultimo, inquiring whether any commercial travellers' tax is imposed in St. Kitts.

NO COMMERCIAL TRAVELLERS TAX.

I am pleased to be able to reply that no tax, charge or restriction of any kind is imposed by our authorities on commercial travellers. On the contrary, every facility is afforded them for prosecuting their business, and exhibiting samples of their wares among the trading community.

SHOULD SEND TRAVELLERS.

In a former report I recommended that the visits of these gentlemen should be encouraged as much as possible, as the best means whereby Canadian manufactures could be brought to the direct notice of our importers and as a means also of bringing

us in closer touch with your people, and as one traveller can easily embrace in his operations a variety of manufactures, the expenses of his visit can readily be divided between the several interests concerned. Importers are much more likely to buy goods, samples of which they can see for themselves, than to indent for them simply from a catalogue, and especially is this the case when a new trade is being opened up. The personal influence of the traveller also counts for much in obtaining orders, and this fact is well appreciated, and is utilized to its full by your neighbours across the border.

The visits of these men have also the advantage of familiarizing your manufacturers with the wants and special requirements of our markets, a feature of no mean consideration when catering for our trade.

ISLANDS HAVE INDIVIDUAL PECULIARITIES.

In each of the islands there are special peculiarities; each has its particular favourite as to style and quality, method of putting up and packing, &c., all of which can be best learnt by personal study, and my experience has proved that in every case where travellers have taken the trouble to come out and personally canvass for their wares a steady and permanent trade has resulted.

I am myself always very pleased to afford these gentlemen all information and assistance in my power.

I have the honour to be, sir,

Your obedient servant,

S. L. HORSFORD.

TENDERS FOR RAILWAY SUPPLIES IN SOUTH AFRICA.

Mr. James G. Jardine, writing from Johannesburg, under date of May 9, forwards a letter received from the chief railway storekeeper of Cape Colony with reference to tenders in Canada for locomotives, carriages, sleepers, &c. The chief storekeeper states that all orders for rolling stock and fittings, also for permanent way materials, are sent to the Agent General for Cape Colony, 100 Victoria Street, London, S.W.

In his opinion, however, he states that there is very little probability of Canada being able to compete for the requirements in the direction mentioned, owing to the fact that the chief supplies of deals, ceiling and flooring boards are principally of red Swedish timber, which are also ordered through the Agent General. Large quantities of timber are also purchased locally but only those on the spot.

TRADE OF ARGENTINE REPUBLIC.

*The imports from Hong Kong, come originally from, and the exports to that colony are further carried on to, Great Britain, America, Australia, India, &c., and coast ports of China. In addition to the imports, to which the values given in the above table are confined, the South of China is supplied with opium and other articles imported from Singapore, Siam and other foreign places in native vessels.

NEW TARIFFS.

During the month under review there have been distributed from this department to all the principal Custom-houses and Boards of Trade throughout the Dominion, copies of all foreign and colonial tariffs and supplements thereto, as furnished during that period by the International Customs Tariff Bureau, which are always available for reference by those interested therein, resident at the principal centres of trade. The following British and Colonial are supplemental to those published in the departmental Annual Report, 1893, and the quarterly and monthly reports since published, and comprise all additions thereto or changes therein, so far as the department has authentic advice:

UGANDA PROTECTORATE CUSTOMS TARIFF.

I.—The Uganda Customs Regulations, 1900, as Amended by the Uganda Customs Ordinance, No. 3, of 1902.

1. The following customs duties shall be collected in respect of all goods imported into the Protectorate, 5 per cent on the value of all goods imported.

2. In the case of goods imported by water, the value shall be taken as the value at the first port in Uganda reached by the ship or vessel in which they are borne.

3. In the case of goods imported by land, the value shall be taken as the value at the nearest frontier post to the point at which the goods enter the Protectorate.

4. Until further orders no rebate or allowance shall be made in respect of any import duty previously paid at any place outside the limits of the Protectorate.

5. These duties are in addition to the road and wharfage dues now payable on imported goods.

6. The following goods are exempted from import duty:—

(a) All goods imported with the sanction of His Majesty's Commissioner and Consul-General for the service of the administration, inclusive of railway and telegraph plant, material and stores.

(b) Letters and newspapers, and books by post, under the value of 30 rupees.

(c) Coins current in the Protectorate.

(d) Wearing apparel at the time in the use of the importer.

(e) All goods imported by land from the East Africa Protectorate, in respect of which the importer shall produce at the frontier customs post a receipt showing that the import duty has been paid at Mombasa.

(f) Caravan equipment in use, fire-arms and ammunition excepted.

The following customs duties shall be collected in respect of goods exported from the Protectorate:—

(1) Ivory, 15 per cent ad valorem, to be valued at $4\frac{1}{2}$ rupees per pound.

(2) Copal, 15 per cent ad valorem.

(3) India-rubber, 15 per cent ad valorem.

(4) Semsem oil, 8 per cent ad valorem.

(5) Hides, 10 per cent ad valorem.

(6) Rhinoceros horn and hippo teeth, 10 per ceut ad valorem, to be valued at 2 rupees per pound.

(7) Native tobacco, 5 per cent ad valorem.

(8) Chillies, 10 per cent ad valorem.
(9) Ground nuts, 12 per cent ad valorem.
(10) Indian corn, caffre corn, mawele, lentils and all other similar grains and legumes, at 11 a. 11 p. per gisla of 360 pounds.
(11) Rice in husk, 8 annas per gisla of 360 pounds.
(12) Chiroko. rupees 2 : $3\frac{1}{5}$ per gisla of 360 pounds.
(13) Cattle, 2 rupees each.
(14) Sheep and goats, 8 annas each.
(15) Donkeys, 2 rupees each.
(16) Skins, 10 per cent ad valorem.
(17) Barks and fibres, 10 per cent ad valorem.
(18) Cotton, 5 per cent ad valorem.
(19) Coffee, 5 per cent ad valorem.
(20) Castor oil, 8 per cent ad valorem.

7. The value of the goods for the purposes of calculating export duties shall be taken as the value of the goods at the place at which the duties are paid.

TABLE OF PROHIBITIONS AND RESTRICTIONS.

First Part.

Goods absolutely prohibited to be imported :—

(a) False money or counterfeit coin or any coin not of the established standard in weight or fineness.

(b) Indecent or obscene prints, paintings, books, cards, lithographic or other engravings, or other indecent or obscene articles.

(c) Provisions, meat and vegetables unfit for human food.

(d) Articles of foreign manufacture bearing the name, address or trade-mark of any manufacturer or dealer, or the name of any place in the United Kingdom or any British possession, and calculated to impart to them a special character of British manufacture.

Second Part.

Goods prohibited to be imported except subject to the restrictions herein con tained :—

(a) Fire-arms and ammunition, as defined in 'The Uganda Fire-arms Regulations, 1896,' except in accordance with the provisions of those regulations.

(b) Explosives, as defined in 'The Uganda Explosives Rules, 1898,' except in accordance with the provisions of those rules.

(c) Petroleum, as defined in 'The India Petroleum Act, 1886,' except in accordance with the provisions of that Act.

(d) Infected cattle, sheep or other animals, and hides, skins, horns, hoofs or other parts of cattle or other animals, seeds or grain, or any other thing whatsoever which the Commissioner may by order prohibit in order to prevent any disease liable to affect horses, cattle or other domestic animals, or liable to affect coffee or other cultivated plants.

II.—The Uganda Road and Wharfage Dues Ordinance, 1902.

(No. 4, of Novewber 1, 1902.)

1. Road dues upon all goods imported into the Protectorate by road, and wharfage dues upon all goods imported into the Protectorate by water, shall be paid at the rate specified in the schedule hereto.

SCHEDULE.

1. Upon the following goods :—

Cement,	Lime,
Corrugated iron,	Rice,
Dates,	Ridging, guttering and water piping,
Doors and windows,	Salt,
Flour,	Sugar,
Furniture,	Timber, planking and boarding,
Machinery,	

the road dues shall be 8 annas for 1 cwt. or less ; the wharfage dues shall be 8 annas for 1 cwt. or less.

2. Upon all other goods the road dues shall be 8 annas for each load weighing 60 lbs. or less ; the wharfage dues shall be 8 annas for each load weighing 60 lbs. or less.

TARIFF CHANGES.

BRITISH EAST AFRICA PROTECTORATE.

THE EAST AFRICA LIQUOR ORDINANCE, 1902.

(No. 27, of November 12, 1902.)

1. From and after the date hereof, no distilled or alcoholic liquors shall be imported into or sold or dealt in within the Protectorate otherwise than in accordance with this ordinance.

2. Distilled liquors may be admitted for the use of the non-native population only.

Importation.

3. No person shall import any distilled or alcoholic liquors into the Protectorate for the purposes of sale without a license.

4. (1) Licenses to import distilled or alcoholic liquors into the Protectorate for sale may be granted by such licensing authority and upon such terms and conditions as the Commissioner may by rules prescribe, provided that the fee for such license for the period of one year shall not exceed 1,000 rupees.

(2.) No person shall be entitled to demand a license as of right.

5. Distilled and alcoholic liquors may be imported into the Protectorate without license for the purpose of being consumed by the importer; but in the event of any question being raised as to the character of any importation of such liquors, it shall be deemed to be an importation for the purposes of sale unless and until the contrary is proved.

6. From and after the date of this ordinance, a duty at the rate of 2 rupees the gallon at 50 degrees of the Gay-Lussac alcoholometer, at the temperature of 15 degrees centigrade, shall be paid on all distilled liquors which are imported for sale, consumption, or use in the Protectorate. The said duty shall be augmented proportionally for each degree above 50 degrees, and shall be diminished proportionally for each degree below 50 degrees.

Provided that all such liquors consigned to importers in the Protectorate, and actually in transit at the date of this ordinance coming into force, shall be admitted at the rates and in the manner previously existing.

7. The duty upon wines, beers and other fermented alcoholic liquors will be payable at the rate of 5 per centum upon their value as heretofore.

8. The Commissioner may make rules for the bonding of any distilled or alcoholic liquors, and for the testing of any distilled liquors imported into or manufactured in the Protectorate.

CANADA.

I.—CUSTOMS TREATMENT OF IMPORTED NURSERY STOCK.

(*Customs Circular* No 1197 *B*, of August 1, 1902.)

The following Consolidated Regulations, with the Acts appended, are substitued for Memos. 976 *B*, 981 *B*, 1089 *B*, 1090 *B*, and 1130 *B*, for the guidance of Customs Officers in regard to Nursery Stock imported into Canada *through the mails*, or by railway, vessel or other conveyance :—

1. Under "The San Jose Scale Act," passed March 18, 1898, the importation into Canada of any trees, shrubs, plants, vines, grafts, cuttings or buds, commonly called Nursery Stock, from any place to which the Act applies, is prohibited.

2. By an Order in Council approved 18th March, 1898, the said Act prohibiting the importation of Nursery Stock is declared to apply to Nursery Stock from the following countries, viz.: United States of America, Australia, Japan, Hawaiian Islands.

3.—By an Order in Council approved 18th March, 1898, plants exempted from the operations of the above mentioned Act are as follows:—

(*a.*) *Greenhouse plants with the exception of roses*, (such as Palms, Ferns, Orchids, Cacti, Chrysanthemums, Azaleas, Begonias, and Carnations, but not roses or any other woody plants.)

(*b.*) *Herbaceous perennials*, (the tops of which die down in winter, such as Perennial Phlox, Dielytra, Peonies, Perennial Sunflowers, etc.)

(*c.*) *Herbaceous bedding plants*, (such as Geraniums, Coleuses, Verbenas, Pansies, etc.

(*d.*) *All conifers.*

(*e.*) *Bulbs and tubers*, (such as Lilies, Hyacinth, Narcissi, and all other true bulbs, Gladioli, Caladium, Irises, Cannas, Dahlias, etc.)

4.—By an Order in Council approved 25th April, 1900, permission is given for the importation of *roses in leaf and in a growing condition which have been propagated under glass.*

5.—By an Order in Council approved 5th January, 1901, Nursery Stock may be imported if fumigated at the following Customs ports *during the periods undermentioned*, viz.:—

At St. John, N.B.; St. Johns, Que.; Niagara Falls, Ont.; Windsor, Ont.; Winnipeg, Man.: From 15th March to 15th May in the spring and 7th October to 7th December in the autumn.

At Vancouver, B.C., during the winter months only, from 15th October to 15th March.*

II.—Delivery of Warehoused Goods as Ships Stores.

(*Customs Circular* No. 1214 *B*, of January 12, 1903.)

List of articles which may be usually ex-warehoused free of duty as Ship's Stores:

Bread and biscuit; Butter; Coal for steamers on outward voyage to British or foreign ports; Coffee and cocoa or cocoa paste; Chocolate; Dried or canned fruits; Meats, salted, dried or canned; Flour and meal; Lard; Molasses or syrup; Rice; Sugar; Split peas; Tea; Vinegar; Illuminating oil; Lubricating oil; Tobacco.

Wines and Spirituous liquors may also be delivered ex-warehouse as Ship's Stores in the following special instances, viz.:—

(1.) To Steamers bound on a voyage to an ocean port outside of Canada.

(2.) To Yachts of not less than 50 tons register, belonging to a recognized Yacht Club bound on a voyage to an ocean port outside of Canada.

III.—Cessation of British Preferential Tariff in Canada for New South Wales.

(*Customs Circular* No. 1217 *B*, of January 23, 1903.)

By Order in Council dated January 23, 1903, New South Wales has been removed from the list of British Colonies entitled to the benefits of the British Preferential Tariff.

---

* In virtue of the Order in Council dated January 15, 1903, the importation of Nursery Stock is permitted in Vancouver from the 15th October to the 15th April. (*Customs Circular* No. 1215 *B.*)

IV.—Prohibition to import Animals and Animal products from certain States in the United States of America.

(*Customs Circular* No. 1220 *B*, of February 10, 1903.)

The Order in Council quoted in Memo. 1211 *B*, of 15th December, 1902, as amended on 7th February, 1903, now reads as follows:—

Owing to the prevalence of an infectious disease affecting animals known as 'Foot and Mouth' disease, it is ordered that the introduction or importation into Canada of cattle, sheep or other ruminants or swine, or their skins, hides, horns, hoofs, wool or bristles coming from the States of Maine, Vermont, New Hampshire, Massachusetts, Connecticut or Rhode Island, forming part of the United States of America, shall be prohibited until otherwise ordered, *except* that animals not previously having been in any of the said quarantined States may pass from one part of Canada through the said State of Maine by the Canadian Pacific Railway to another part of Canada: provided said animals be so carried in bonded cars sealed, that they cannot be removed from said cars while within the said State of Maine.

Provided, however, that the dried or pickled or salted green cured skins or hides, and the horns, hoofs, wool and bristles of cattle, sheep or other ruminants or swine may be imported into Canada when originating outside of the said six States and not produced from animals grown or slaughtered in any of the said six States, although shipped through the said six States (subject to Regulations made by the Minister of Customs, approved by the Minister of Agriculture.)

V.—Amendment of the Customs Tariff.

(*Customs Circular* No. 1227 *B*, of April 17, 1903.)

The following resolutions for the Amendment of the Customs Tariff, 1897, introduced by the Minister of Finance in Parliament on April 16, 1903, are to be observed as in force, until otherwise ordered, viz.:—

That it is expedient to further amend and Customs Tariff, 1897, to the following effect:

A.—That the following Sections be added to the said Act:

The Governor in Council may by Order in Council direct that a duty of seven dollars per ton shall be imposed in Schedule *A* on all iron and steel railway bars, or rails, in any form for railways, imported into Canada; and from and after the publication of such Order in the *Canada Gazette* such duty shall be levied, collected and paid on all such rails; and thereafter item 238 in Schedule *A* and item 585 in Schedule *B* shall be repealed:

Provided, however, that such Order shall not be passed until the Governor in Council is satisfied that steel rails of the best quality, suitable for the use of Canadian railways are being manufactured in Canada, from steel made in Canada, in sufficient quantity to meet the ordinary requirements of the market.

Articles which are the growth, produce or manufacture of any foreign country which treats imports from Canada less favourably than those from other countries may be subject to a surtax over and above the duties of Schedule *A*, such surtax in every case to be one-third of the duty as fixed by such Schedule *A*;

Such surtax shall also apply to any articles the chief value of which was produced in such foreign country although it may have been improved, or advanced in value, by the labour of another country-notwithstanding the provisions of the British Preferential Tariff and Regulations thereunder.

. . . . . .

Such surtax shall not apply to any goods actually purchased on or before the 16th of April, 1903, by any corporation, firm or person in Canada for immediate transportation to Canada.

B.—That the period of exemption from duty of machinery of every kind and structural iron and steel for use in the construction and equipment of factories for the manufacture of sugar from beet root, be extended to the 30th day of June, 1904.

C.—That item 409, in Schedule *A*, respecting duty on ships and other vessels built in foreign countries and applying for Canadian register, be repealed.

D.—That machinery and appliances of a kind not made in Canada for exclusive use in alluvial gold mining be added to the free list, until June the 30th 1904.

NOTE.—In connection with Tariff item 409, which is no longer in force, Collectors are reminded :

(*a.*) That a duty of 25 per cent *ad valorem* is to be collected on foreign built British ships applying for License to engage in the Coasting Trade as set forth in Mem. No. 1203 *B* ;

(*b.*) Also that Gasoline Yachts, Electric and Steam Yachts and pleasure boats of all kinds unregistered, or foreign built, are to be rated for duty at 25 per cent *ad valorem* on importation for use coastwise in Canada.

N.B.—Notice will be given when the duty on Steel Rails comes into effect.

Surtax on goods imported from Germany.

The Minister of Customs has decided that the goods of Germany are subject to surtax in Canada under the terms of the Tariff Resolutions.

The Tariff Resolutions contain the following proviso regarding the Surtax, viz. :

'Such surtax shall not apply to any goods actually purchased on or before the 16th day of April, 1903,* by any corporation, firm or person in Canada for immediate transportation to Canada.'

Goods claiming exemption from surtax under the above proviso should be imported or taken out of Warehouse and *entered for duty* on or before 30th June, 1903.

SOUTH AFRICAN CUSTOMS UNION.

I.—THE ANGORA EXPORT DUTY ACT 1901, IMPOSING DUTY ON ANGORA RAMS AND EWES EXPORTED FROM NATAL.

(No 12, dated July 30, 1901.)

Under this Act, every Angora ram or ewe exported from Natal is liable to a duty of £100. Provided always, that no such duty will be payable on the export of any such ram or ewe to any South African State which shall, by its own Legislature, have imposed a duty not less than the amount fixed by this Act.

The present Act is to take effect from a date to be fixed by Proclamation, which shall not be made until the Governor shall have ascertained that the Governments of the Colony of the Cape of Good Hope (†) and of the Province of Mozambique have made similar provision for prohibiting or restraining the export of Angora rams and ewes.

II.—CUSTOMS DUTY ON BEER IMPORTED INTO NATAL FROM ANY COLONY OR STATE IN THE CUSTOMS UNION.

(Act No 37 of 1901, dated August 27, 1901.)

This Act provided for a Customs duty of 2d. per gallon upon beer brewed in any Colony or State which is a party to a Customs Union with Natal and imported into Natal by land or sea.

* By notification of the High Commissioner for Canada, German goods purchased by an importer in Canada prior to the 17th April 1903, for immediate transportation are to be exempt from the surtax if imported before the 1st October of same year.

(†) The Cape of Good Hope Government has already made provision by an Act (No 21 of 1899) which was promulgated on 13th October 1899.

By Proclamation No 11 of 1903, published in the *Natal Government Gazette* January 27, 1903, the above Act was to take effect as from 1st February, 1903.

III.—Proclamation of the Governor of the Colony of the Cape of Good Hope, dated March 20, 1903, preventing and regulating the introduction of certain goods into Cape Colony.

(*Cape of Good Hope Government Gazette* of April 3, 1903.)

This Proclamation provides :

I. The introduction into Cape Colony of trees, plants and portions thereof—such as cuttings, roots, tubers and bulbs—and of fruit of all kinds, grown elsewhere than in South Africa is prohibited, save and except by sea through the Ports of the Colony or by Post.

2. The importation of the following articles is hereby absolutely prohibited :—

(*a.*) Grape vines or any portion or fruit of any grape vine, with the exception of vines or portions thereof imported by the Government under such precautionary measures as it may deem necessary.

(*b.*) Coffee plants or any portion thereof, with the exception of seed.

(*c.*) Eucalypt plants or any portion thereof, with the exception of seed.

(*d.*) Stone-fruit trees or any portion thereof, including seeds, that were grown or produced in any state, province or territory of the United States of America or the Dominion of Canada, in which either of the diseases known as Peach Yellows or Peach Rosette exists.

(*e.*) From and after the 1st day of January, 1904, peach stocks and peach stones from any country whatsoever.

3. From and after the 1st day of January, 1904, the importation of any fruit-tree or portion thereof, with the exception of fruit, seed, seeding stocks for budding or grafting purposes, and blight-proof stocks for apples, shall be allowed only by special permission from the Minister of Agriculture. No permit shall be granted for the introduction of more than ten trees or one hundred cuttings of any one variety, nor shall permits be issued for more than an aggregate of one hundred trees or one thousand cuttings to any party during one year.

IV.—Abolition of transit duty on goods imported through Cape Colony in destination of the Transvaal.

(*Cape of Good Hope Government Gazette* of April 14, 1903.)

Under and by virtue of Section 5 of the Customs Union Tariff Act No. 1 of 1889, His Excellency the Governor, with the advice and consent of the Executive Council, has directed it to be notified that on and after the 24th April, 1903, the 'Transit Duty' on goods imported through Cape Colony for the Transvaal will be abolished.

V.—Abolition of transit duty on goods imported through Natal into the Transvaal Colony.

(*Natal Government Gazette* of April 24, 1903.)

By Proclamation No 47, dated April, 24, 1903, the Governor in Council proclaims and makes known that from and after the 24th April 1903, the transit duty payable on certain goods imported through Natal into the Transvaal Colony is abolished.

COMMERCIAL AGENCIES.

The undermentioned Canadian Commercial Agents (whose addresses are given) will answer correspondence relative to commercial and trade matters, and give information to those interested as to local trade requirements in the districts they represent.

The Department of Trade and Commerce also invites correspondence from Canadian exporters or importers upon all matters pertaining to trade, and will cause special inquiries to be made by the Commercial Agents into any subject of general interest when so desired.

Such reports as have been received since the publication of the last monthly report of this department are appended.

These reports will be sent free to points in Canada upon application to: 'THE DEPARTMENT OF TRADE AND COMMERCE, OTTAWA.'

COMMERCIAL AGENTS.

J. S. Larke, The Exchange, Sydney, Australia, agent for New South Wales, Queensland, and New Zealand.

D. H. Ross, P. O. Box 140, Melbourne, Australia, agent for Victoria, South Australia, Western Australia and Tasmania.

James G. Jardine, P. O. Box 1232, Cape Town, Cape Colony, agent for South Africa.

Peter B. Ball, 16 Bennett's Hill, Birmingham, England, agent for Birmingham.

A. Poindron, 101 Rue Réaumur, Paris, France, agent for France.

G. Eustace Burke, Kingston, Jamaica, agent for Jamaica.

Robert Bryson, St. John, Antigua, agent for Antigua, Montserrat and Dominica.

S. L. Horsford, St. Kitts, agent for St. Kitts, Nevis and Virgin Islands.

Edgar Tripp, Port of Spain, Trinidad, agent for Trinidad and Tobago.

C. E. Sontum, Grubbegd, No. 4, Christiania, Norway, agent for Norway, Sweden and Denmark.

In addition to their other duties, the undermentioned Canadian agents will answer inquiries relative to trade matters, and their services are available in furthering the interests of Canadian traders :—

W. L. Griffith, 17 Victoria Street, London, S.W., England.

Harrison Watson, Curator for Canadian Section, Imperial Institute, London, England.

G. H. Mitchell, Newton Chambers, 43 Cannon St., Birmingham, England.

Alfred Jury, Old Castle Buildings, Preeson's Row, Liverpool, England.

Bruce Walker, 52 St. Enoch Square, Glasgow, Scotland.

John Webster, 14 Westmoreland St., Dublin, Ireland.

Edward O'Kelly, 13 Queen's Square, Belfast, Ireland.

D. Treau De Cœli, 75 Marché St. Jacques, Antwerp, Belgium.

AUSTRALASIA.

Report of Commercial Agent for New South Wales, Queensland and New Zealand.

(Mr. J. S. Larke.)

The Exchange,
Sydney, Australia, June 15, 1903.

AUSTRALIAN TRADE RETURNS.

The Right Honourable
The Minister of Trade and Commerce.

Sir,—The returns of the trade of Australia for the last year have been published. The figures for that and the previous year are ;—the figures being for merchandise only and include the interstate shipments :—

Total.....	£56,296,484	£51,796,895	Dec., £	4,499,589

Until the details of the trade are obtainable an analysis cannot be made and a fair estimate of the effects of the drought be obtained. A very prominent feature of the export is that of gold, amounting to nearly twenty million pounds, an increase over that of the previous year. All the States show decrease in exports except Tasmania, which had a very prosperous season. The unusual importations of breadstuffs will reduce the importations of other goods to much lower figures than those given above would indicate.

NEW ZEALAND.

The total trade of New Zealand for the same periods was :—

	1901.	1902.
Imports	£11,817,915	11,132,348
Exports	12,884,424	13,663,357

These figures show the sound position of business in this colony.

NEW SOUTH WALES AND QUEENSLAND.

The trade of New South Wales and Queensland is in rather more than its usual winter torpidity. In the latter not so much so as in the former where the effects of the drought are in reality beginning to be felt. The travellers in the country of many houses have been recalled as the amount of the orders do not cover expenses. There is a strong feeling of hope for a great improvement after the next harvest. The past month has been favoured with heavy and widespread rains covering nearly all Australia. The crops are reported to be in a promising condition and grass in good supply. There will be a short crop of wool owing to the diminished flocks, but a good lambing is anticipated which in a couple of years will greatly improve the pastoral position. Fine wool promises to bring high prices next season and may reach record figures. If so, the short crop will bring nearly as large a sum as the better yields of a few years ago.

FOODSTUFFS.

The market for wheat has continued to be nominal throughout the month, sellers being much more numerous than buyers. For the five months of the year ending with May the arrivals of foreign wheat and flour for Australian consumption, since the beginning of the year, amount to 6,499,703 bushels wheat and 51,360 tons flour—together equivalent to 8,694,983 bushels, or 240,133 tons of wheat. The total of 8,964,983 bushels includes 3,282,755 bushels at Melbourne and 4,901,764 bushels at Sydney. The amount contracted for and not yet to hand cannot be definitely ascertained, but if three hundred thousand tons were needed to carry the country to November next it appears as if the whole quantity had been arranged for. Prices are lower and Manitoba flour has dropped to £12 per ton.

HIGH RATES FROM VANCOUVER.

The demand for oats is being fully supplied from New Zealand at prices too low for Canada to compete, particularly at the prevailing rates of freight from Vancouver. Cargoes of Argentine maize had been contracted for but in view of the diminished demand and lowering of prices the importers have paid a stiff penalty to have the contracts cancelled.

BACON.

Provisions have been affected by the improved outlook and bacon, hams, butter and frozen hogs are just now too low to be imported. Bacon has fallen from a shilling per pound to eight pence.

GOLD.

The yield is increasing. The returns for the first five months of the four principal States are :—

1903	1,738,953 oz.	1902	1,444,549. oz.

A gain of nearly twenty per cent. The good rains enable both mining and prospecting to be carried on more extensively and the results will help materially in tiding over the present bad time.

CANADIAN TRADE.

This is largely featureless. Little direct effort is being made from Canada, and Australians who have gone there in search of connections report but little success, and this state of things is likely to continue until the Canadian manufacturers' catch up with the home demand. The houses established here report good business. There has been sharp competition in agricultural machinery with cutting of prices in some lines to an unremunerative basis. Collections have necessarily been poorer in consequence of the drought. There are brighter prospects ahead. In some lines the sales have been very good, in a few, increased trade being reported.

FREIGHT RATES.

Freight rates from New York are reported steady, being very much lower than rates from England. Canadian shippers need to carefully watch this item of cost, as now and again I receive information that United States goods are landed at lower charges. The importance of freight is illustrated in the movements of grain to this port from the Pacific Coast. I am advised that cargoes recently arrived from San Francisco were carried at ten shillings per ton while at the time these were loaded double the rate was asked from Vancouver. The United States Sound ports had nearly as great advantage at times over Vancouver, and this together with the inability to load promptly when orders could be secured lost that city the trade it should have had. The difference was equal to from three to four cents per bushel of wheat and no amount of activity or sentimental desire to try British products here would overcome so great a margin. It has frequently occurred that the cost of landing a United States and a Canadian article via New York has been from five to ten per cent, in favour of the former. Often the United States shipment from an established trade has been in car lots to New York, and the Canadian in less. In such cases the difference is even wider. I have more than once suggested that a first-class Canadian firm could find a profitable opening in making a speciality of export shipping.

THE PACIFIC CABLE.

The Postmaster General of the Commonwealth, like the Postmaster General of New Zealand, has been empowered to employ canvassers to push the business of the Pacific cable. If my information is correct that this provision is for only three months it is a very imperfect one. The difficulty will be to get suitable persons to undertake the work for so short a period and in three months even a competent man would scarcely get in touch with the business. The business in New Zealand is estimated to amount to £88,000. At the old rates that Colony would have had to pay £142,000 for the same volume. The *Trade Review* of this city estimates the saving effected to Australia at over £150,000 through the operations of the Pacific cable. Australia has, therefore, a large reduction to compensate for its share of the losses in the working of the cable and can look with more equanimity upon them than Canada can. I am satisfied that to get the best results the Pacific cable must have officers under its own control to push its business. The Post and Telegraph officials of the Commonwealth are so fully occupied with their own arduous duties that they cannot be expected to give the special attention to the interests of the Pacific cable that they require.

I have the honour to be,

Your obedient servant,

J. S. LARKE.

AUSTRALIA.

Report of Commercial Agent for Victoria, South Australia, Western Australia and Tasmania.

(Mr. D. H. Ross.)

Melbourne, Australia, June 13, 1903.

The Right Honourable
The Minister of Trade and Commerce,
Ottawa.

Sir,—The Right Honourable C. C. Kingston, P.C., the Minister of Trade and Customs, granted me a pleasant interview, in which he asked me to 'assure the Canadian government that he would only be too happy to afford its commercial agent in Melbourne every facility in his power to secure any required information.'

CHANCE FOR CANADIAN AGRICULTURAL MACHINERY.

Considerable interest was manifested at Port Melbourne a few days ago, when 250 tons of agricultural machinery were being loaded on the R.M.S. *Omrah*, for shipment to Buenos Ayres (South America) via London. The shippers were a Melbourne agricultural machinery firm, who make the 'complete harvesters,' and they are to be used in the Argentine during the coming season. The complete harvester is a purely Australian production, being a local invention. Last year the machines sent to the Argentine gave excellent satisfaction. The manufacturers sent a similar shipment this year to San Francisco, so that already 500 tons of Australian machines have been shipped to North and South American markets. It is likely that the manufacturers would be glad to entertain proposals from manufacturers for making their machines in Canada, and I will be glad to be of service in this connection.

'NEWS'—PAPER ON ROLLS.

Yesterday a contract totalling over $90,000 per annum was made by the proprietors of a leading Melbourne daily, with a representative of a large U.S.A. paper company. The amount in question involves scarcely half of the paper required by this newspaper alone. If Canadian manufacturers of paper will send me samples and quotations upon a C.I.F. & E. basis, (in other words 'ex ship slings' including exchange) I will be glad to interest buyers throughout the territory allotted to me. Payments for paper are generally made 'on demand' against documents, in London.

TRADE IN VICTORIA DEPRESSED.

General trade in the State of Victoria is rather depressed, being the result of the long drought, which is now, happily, at an end. Splendid rains have fallen all over Australia—except in a few isolated instances—and the area under cereals is much larger than usual.

TASMANIA.

Owing to its regular rains, Tasmania has reaped much benefit during the long drought on this continent. Trade conditions on 'The Island State' are in an exceedingly prosperous condition.

SOUTH AUSTRALIA.

South Australia promises to have wheat for export after the coming harvest if the season continues as favourable as at present.

WEST AUSTRALIA.

West Australia is the one state in the Commonwealth where trade conditions have continued to steadily advance. The output of gold promises to be a record this year.

CORRESPONDENCE INVITED.

It is my intention to visit Tasmania, South and West Australia, later on in the year, closely studying the various classes of goods which Canada should export. Any information supplied to me by your department—or direct by manufacturers or exporters, is assured of being circulated in the best channels.

I have the honour to be, sir,

Your obedient servant,

D. H. ROSS.

Mr. Ross forwards a copy of a minute issue from the Department of Trade and Customs, relative to 'charges shown on invoices,' which is printed elsewhere, under 'General Commercial Information.'

NORWAY, SWEDEN AND DENMARK.

REPORT OF COMMERCIAL AGENT.

(Mr. C. E. Sontum.)

CHRISTIANIA, NORWAY, June 30, 1903.

To the Right Honourable
The Minister of Trade and Commerce,
Ottawa.

COMMERCIAL TRAVELLERS TAX.

SIR,—I have below the honour to reply to your inquiry of May 27, in reference to the Commercial Travellers Tax in Norway.

The law referring to this tax is of July 27, 1896, and reads, translated:

1. Foreigners or in foreign countries living and not in Norway tax-paying Norwegian subjects, who with or without samples travel throughout the country and for own account or as somebody's representative, offer, start or close a deal for merchandise. which is later to be delivered from foreign countries, shall on their arrival to this country take out a pass of commerce at the nearest police-court.

This rule does not apply to Swedish subjects, who in the same manner offer or close a deal in Swedish natural produce or manufactured goods, as long as Norwegians enjoy the same privilege in Sweden.

'2. The pass is to be paid in advance with kroner 100 ($1.00 = Kr. 3.75) per calendar month and is not made out for less than one month, but it may be made out for a longer period at once, however only for full months, and the whole tax is then to be paid in advance. The money which thus comes in goes to the state treasury.'

'3. It is the duty of the police authorities in the different parts of the country to control that commercial travellers are in possession of such pass, and every such traveller is under duty to present his pass for the police in all places, where he is trying to do business. The police shall testify to the pass being presented without any extra charge.

'4. Trespassers against this law are liable to fines from kroner 100 to kroner 500, and besides, the tax mentioned in No. 2 is to be paid for the whole time during which the unlawful trade has been carried on.

'5. The form and text of the pass and other reglementary provisions, which are made necessary by this law are stipulated by H. M. the King.'

WOOD PULP PRICES WILL IMPROVE.

At a meeting of the Traemasseforenings (wood-pulp-association) on Monday, June 22, the following resolution was passed.

'The increased demand generally lacked at this season of the year induces to hope that, owing to the restriction of the output, prices will soon improve to the benefit of those settlers who are presently holding off.'

I have the honour to be, sir,

Your obedient servant,

C. E. SONTUM.

TRINIDAD AND TOBAGO.

REPORT OF COMMERCIAL AGENT.

(Mr. Edgar Tripp.)

PORT OF SPAIN, TRINIDAD, June 30, 1903.

The Right Honourable
The Minister of Trade and Commerce,
Ottawa.

REMOVAL OF SUGAR BOUNTIES.

SIR,—In a review of the trade and commerce of this or any other West India colony for the twelve months ending March 31, all else pales into insignificance beside the one most important fact that, thanks to the Secretary of State for the Colonies, it has at last been agreed by all the Powers interested that the incubus of bounties which has so long weighed down these islands is to be finally removed from September next.

REVIVING SUGAR INDUSTRY.

Once more placed upon fair and even terms with the products of other lands, the sugar industry for which the soil and climate of these islands are pre-eminently fitted will probably, if not certainly, reassume its former importance. It is an acknowledged

fact that no other agricultural industry is capable of supporting in proportion to the value of the finished product so many people engaged in ordinary or skilled labour. Trinidad, fortunately, has other large and remunerative industries which have enabled her to continue in a career of steady progress through the stress of adverse weather which has wrought such grievous ruin upon some of her once prosperous neighbours. But the sugar planters of Trinidad and the merchants and proprietors in the old country interested in estates here have sorely suffered during many years. Few of them have been brave enough or wealthy enough to continue the struggle. It may fairly be hoped however, that the survivers will reap their long delayed reward.

EXPORTS AND IMPORTS LARGE.

Apart from the product of sugar, the value of which was less by £140,000 than the previous year, and by £210,000 less than the average annual value of the preceding ten years, the import and export trade of the colony was exceptionally large. This is in a measure to be accounted for by the fact that during the recent trouble with Venezuela the British squadron altogether, and the German and Italian ships to a certain extent, made Port of Spain the headquarters of their blockade operations against the coast of the opposite republic. But apart from this circumstance, the actual increase in value of general exports from the colony justifies and explains the increase in the value of imports.

IMPORTS.

	1900.	1901-2.	1902-3.
Total value	£2,500,258	£2,651,600	£2,672,087
of which were received from U.K..	881,894	920,509	983,216
British colonies	169,344	213,689	286,607
Foreign countries	1,449,020	1,517,402	1,402,264

INCREASE WITH CANADA.

It is very satisfactory to note that the decrease in trade with foreign countries has been more than compensated for by the increase with the mother country and our sister colonies, and it is specially gratifying to me to note that proportionately the most marked increase in our imports has been from the Dominion of Canada, as follows :—

1899	£ 62,629
1900	66,245
1901–2	98,958
1902–3	132,962

the last figures showing an increase of 100 per cent in three years.

IMPORTS FROM THE UNITED STATES.

We received from the United States in corresponding periods :—

1899	£628,324
1900	605,405
1901–2	674,147
1902–3	702,189

COMPARATIVE STATEMENT OF IMPORT TRADE.

	Total.	U. S. A.	B.N. America.
Books &c., printed	£ 6,127	£ 1,061	£ 41
Boots and shoes	62,945	23,944	911
Bicycles	3,319	2,310	.. ..
Bread	7,410	3,126	1,312
Butter	33,424	2,001	2,009
Carriages	1,784	1,065	309
Cheese	8,752	5,295	1,389
Cordage and twine	12,612	3,010	4,274
Fish	85,657	9,460	67,385
Flour	182,321	170,764	11,173
Fruit	2,133	729	134
Furniture	14,912	6,859	86
Hay	3,551	2,551	840
Horses	8,787	3,320	105
Hardware, unenumerated	97,733	24,946	260
Live stock, unenumerated	7,809	283	702
Manufactured articles, unenumerated	87,521	22,004	1,462
Meats	96,782	85,795	636
Musical instruments	1,592	372	39
Oats	22,811	7,591	13,620
Oxen, bulls, &c	26,298	.....	16
Paper, not writing	8,280	1,089	142
Potatoes	13,500	437	9,251
Paint	6,445	1,403	264
Peas	12,052	8,464	713
Soap	35,995	3,452	41
Timber	47,266	38,058	7,492
Textiles, wearing apparel	59,993	4,716	74
Meal, not wheaten	6,803	6,074	135
Tobacco, unmanufactured	20,719	20,062	100
Leather, unmanufactured	9,908	2,168	1,021
Machinery	45,037	14,707	4,306
Medicines, not spirituous	13,947	3,876	503
Whiskey	11,555	466	21
Oil, not kerosene or creosote	5,867	1,568	411

Improvement is noticeable in the following, from Canada :—

	1901-2.	1902-3.
Potatoes	£ 8,721	£ 9,251
Fish	52,035	67,385
Oats	4,728	13,620
Peas	612	713
Bread	1,082	1,312
Butter	1,721	2,009
Cheese	1,044	1,389
Cordage and twine	1,151	4,274
Boots and shoes	132	911
Hay	331	840
Meat	253	636
Live stock, unenumerated	469	702
Paper, not writing	42	142

GRATIFYING INCREASES SHOWN.

The above figures indicate that the value of fish imported has approximately doubled within the last three years, the total for 1900 having been £39,245, but the considerable advance during the past year is probably attributable in some degree to the falling off of the importation of oxen for slaughterage purposes owing to the troubles in Venezuela rendering the price of beef to the poorer classes to a certain extent prohibitive. The considerable rise in the value of oats may also be due partly to the fact of direct importation in place of shipments via New York. The steady advance in butter and cheese is satisfactory as being the undoubted result of the growing appreciation in our markets of these articles. The improvement generally in manufactured articles other than foodstuffs is gratifying. Canadian cordage and twine and boots and shoes have evidently come to stay. What is known as Patent Manilla rope, although not quite equal to the real article, is much cheaper and good value. Formerly all this came

from the United States, but I learn from importers that the Canadian manufacture is now preferred. Canadian boots and shoes are, as the figures prove, growing in favour, and repeat orders are being despatched. They are acknowledged to be strong and of good value, but I still hear that they lack the finish of similar articles from Europe and the United States. Some attention under this head would go far to materially increase the already expanding trade. Unmanufactured leather has also, except in one instance, been found of good value, and an increasing trade may, with proper care, be anticipated. Some trial shipments of umbrellas are also very well spoken of, and one or two trial shipments of Scotch tweeds have proved to be satisfactory, the weight and value being good. Canadian ladies' corsets are also becoming quite a feature in the trade here.

DECREASES REPORTED.

In the following items a falling off must be reported:—

	1901-2.	1902-3.
Flour	£12,726	£11,173
Timber	9,150	7,492
Soap	168	41
Furniture	102	86
Horses	195	105
Musical instruments	204	39
Paint	344	264

CANADIAN FLOUR IN FAVOUR.

The slight falling off in flour after the considerable jump of the previous year is not easily explained, as there can be little question that the Canadian article has gradually outgrown the former prejudice and is generally acknowledged to be excellent. The total importations were 207,847 barrels against 200.569 in the previous year, Canada's contribution being 12,428 barrels, so that there remains ample room for considerable extension of business in this special product of the Dominion.

THE SOAP TRADE.

I have before pointed out how important the soap trade of the colony is. Our total imports for year under review amounted to 4,384.440 lbs. of a value of £36,035, being an object lesson which I trust will commend itself to your manufacturers whose total shipments came to £41.

FURNITURE.

Canadian furniture, as far as one can judge from the insignificant quantities so far received, is well made and very suitable both as to price aud quality for the local trade.

PAINTS.

Paints received from Halifax have turned out well and have satisfied those who have given them a trial. There is no reason why this trade should not have extended instead of shrunk, beyond the fact that European manufacturers have more persistently 'hustled' for the sale of similar wares. In the course of conversation on the subject with several of our leading dealers, I was struck with the unanimity of their opinion that other lines of manufactures could be introduced if persistent efforts were made.

MORE ENTERPRISE NEEDED.

It seems the general opinion that up to the present time the attempts to promote Canadian trade have been spasmodic. In contrast to this, one prominent importer instanced the fact that in addition to regular visits from commercial travellers representing American houses, some of these firms are now sending by each steamer samples of all new goods they are placing in the market with special code words to enable all or any of them to be ordered by telegraph, if necessary.

BROOMS.

Canadian brooms are spoken well of everywhere, and have taken a firm hold of the trade.

TRADE STATISTICS MISLEADING.

As remarked in previous reports, the statistics of trade given cannot be relied upon as representing the total business actually done, inasmuch as considerable orders for goods from the Dominion still go through the hands of agents in New York, and the goods are shipped from United States ports. It has again been stated to me, and it is a circumstance worth the consideration of your exporters, that a saving is effected as a rule by importing through New York, as the merchants there obtain discounts from Canadian manufacturers which are not granted when the goods are purchased direct.

EXPORTS.

For year ending March 31, the total value of exports from this colony was	£2,472,181
Less bullion and specie	34,338
	£2,437,843

Against values in three previous years as follows :—

1899.	1900.	1901–2.
£2,418,975	£2,475,023	£2,372,150

Transhipments are included in above figures. These for 1902–3 only amounted to £264,933, owing to partial cessation of trade with Venezuela during the blockade, compared with £519,530 in 1901–2, so that apart from transhipments the export trade indicates healthy progress.

INTERESTING DIAGRAMS,

Some interesting diagrams with explanatory tables have been published by the collector of customs, from which I gather the following averages of exports for periods named, viz. :—

1881–5, annual average value	£1,614,378
1886–90 " "	1,748,276
1891–5 " "	1,836,426
1896–1900 " "	1,956,052
1901–2 " "	1,981,553
1902–3 " "	2,301,810

(Certain deductions made from transhipments for comparative purposes.)

IMPORTS GREATER THAN EXPORTS.

The value of exports has been below that of imports by from 5 to 10 per cen during each period except 1886–90.

EVIL OPERATION OF BOUNTIES.

The evil operation of bounties is evidenced by the table in respect of sugar, especially in comparison with the statistics of our cocoa trade which has been happily free from the same unfair competition.

	Sugar.	Cocoa.
1876–80 annual average	£800,621	£306,973
1881–5 "	755,305	344,560
1886–90 "	715,299	485,968
1891–5 "	658,097	550,677
1896–1900 "	620,814	664,293
1901–2 "	452,210	847,416
1902–3 "	410,000	907,531

These figures form a very eloquent illustration of the pitiful tale of the harassed sugar industry, before which, however, it is now confidently hoped a brighter time is dawning.

NEW YORK SUGAR MARKET.

It is significant that notwithstanding the countervailing duties against beet-root sugar imposed by the United States, the bulk of our sugars have since 1901 gone to the United Kingdom. Whether this is due to the action of trusts or to increasing home supplies in America, it is hard to say, but the fact remains that New York is not improving as a market for West Indian cane sugar.

COCOA.

On the other hand there is an increasing demand for cocoa in the United States, which in 1902-3 for the first time received more of this product than Great Britain, the figures being 12,500,000 lbs. and 8,500,000 lbs. respectively.

ASPHALT.

Asphalt was exported in 1902-3 to the value of £170,563—a record. Twenty years ago the average was under £40,000.

EXPORTS TO CANADA.

The steady progress in the volume of exports to Canada marked since 1896, received a check in the year under review when the value sank to £31,545 from £47,098 the previous year.

DECLINE IN CANADIAN PURCHASES.

This is at once accounted for by the falling off in sugar from £31,340 to £6,488. A change for the better will probably result from the recent tariff measures in respect to Canadian imports from Germany, but it is not easy to explain why in face of a preferential rate, so heavy a decline in Canadian purchases of Trinidad cane sugar should have occurred. One large exporter gives as the reason that matters are so arranged amongst the limited number of buyers in the Dominion that prices there are the exact equivalent of those obtained in New York. The latter market is preferred for the reason that account sales are received in half the time compared with returns from Canada or the United Kingdom.

COCOA EXPORTS.

Exports of cocoa to Canada, over and above a quantity via New York, were 1,910 bags valued at £8,464, against 1,125 bags valued at £6,260 in 1901-2. Canada does not seem to take so kindly to this article as might be expected. The consumption elsewhere is increasing rapidly, and one would have thought it specially suitable in many respects to the Canadian climate and the tastes and conditions of the people.

ASPHALT IN CANADA.

I am sorry to note that we only sent 274 tons of asphalt to British North America in place of 3,438 tons the previous year. The total exports from the Colony were 159,136 tons.

TONCA BEANS.

Tonca beans figure in our Canadian list to the value of £2,500, but I learn from the shipper that the destination was New York, advantage of freight offering via Canada having been taken. These beans are used largely in America and the continent of Europe for flavouring tobacco, &c., but do not seem so far to have made headway in the Dominion.

MOLASSES AS A CATTLE FOOD.

The value of molasses shipped to Canada fell from £3,500 to £1,931. In this connection a new and perhaps more remunerative outlet for molasses as an ingredient in cattle food has been found. The inventor of this food, which is called 'Molascuit,' is Mr. George Hughes of 155 Fenchurch Street, London. It is composed of 20 per cent dry sugar Uegass meal and 80 per cent molasses minimum 40° B. The shipments already made to Great Britain give fair prospects that there will be a large demand for this article for feeding and fattening cattle. With a view to encouraging the new industry the West Indian Committee urged upon the Chancellor of the Exchequer that the sugar duty in the case of foods manufactured from molasses should be remitted. Mr. Ritchie dealt with the matter most promptly, and in the course of discussion on the Finance Bill announced that molasses containing less than 50 per cent of sweetening matter is to be admitted duty free. I commend 'Molascuit' to the attention of persons interested in the Dominion.

HIDES AND SKINS.

The most noticeable feature in our exports to Canada is in hides and skins. The total value in 1901–2 was £12,609, of which the United States took £3,945, and Canada £1,042. For 1902–3 the total was £21,981, but of this £10,091 went to British North America against £6,321 to the States. This increase is due to the keen interest some of your buyers are taking in the trade. One firm has a special representative on the spot to purchase solely for their account.

MANJAK EXPORTS CONTINUE.

The new product of the mine, Manjak, continues to find a good outlet both in the United States and Great Britain, where its use for insulating and other purposes is recognized. Looking at the increasing scarcity and value of India rubber, the demand for manjak is not likely to diminish. There are two mines here, Vistabella, whose agents are Messrs Arkell & Douglas, New York, and Marbella, which is represented solely in Canada by Messrs. Robert Crooks & Co., Montreal, to whom all inquiries can now be made.

COCOANUTS.

10,631,628 cocoanuts comprise the year's shipments, but only 3,800 of these for Canada. Probably Jamaica offers a nearer and therefore better market for your requirements, The manufacture of cocoanut oil is becoming an important industry here, thanks to the imposition of an import duty upon this article, which formerly came almost altogether from abroad. There is a large local consumption of this oil amongst the East Indian population, but I note that an export trade is also being built up, e.g. :

1901-2.	1902-3.
15,944 gallons = £1,660.	25,885 gallons = £3,224.

nearly all going to the United States.

COPRA.

Copra, the product of the cocoanut, is now also quite an item in our trade, the shipments for the past two years amounting to 2,487,032 lbs., value £9,537, and 1,536,065 lbs., value £8,435, respectively. The United Kingdom, Germany and Holland are the principal customers. I do not find that any oil or copra has gone to Canada. Is there no demand for either?

TONNAGE OF IMPORTS.

An interesting statement has been obtained by the new Colonial Company, Ltd., of which they have furnished me with a copy, giving the tonnage of goods brought by steamers during 1902, as follows :—

	Tons.	Tons.
From New York, by Trinidad line	38,046	
" " by La Veloce line	843	
		38,889
From United Kingdom, by London direct line	16,395	
" " " by Fredk. Leyland "	9,370	
" " " by Glasgow direct "	5,658	
" " " by Royal Mail "	11,151	
" " " by Harrison "	5,024	
		47,598
From Holland, &c., by Dutch line		3,107
" France, by Comp. Gen. Transatlantique line		1,640
" Germany, by Hamburg-American line		51
" Various countries, by sundry steamers		23,202
" Canada, by Pickford & Black line		5,336
Total		119,823

It will thus be seen that nearly one-third of the general tonnage coming to this port is from the United States. Above statement merely refers to general cargoes which are landed into the steamers' warehouse, but is exclusive of coal, which has been received in several steamers and has not passed through the warehouse, being landed on the open wharf, or discharged direct into hulk.

I have the honour to be, sir,

Your obedient servant,

EDGAR TRIPP.

FRANCE.

Report of Commercial Agent.

(Mr. Anatole Poindron.)

101 Rue Réaumur, Paris, June 30, 1903.

The Right Honourable
The Minister of Trade and Commerce,
Ottawa.

Sir,—The month of June has proved very profitable to all kinds of grain, fodders and meadows. Quantity will likely be below last year returns, but the quality is expected to be much more satisfactory.

POOR FRUIT CROP.

On the contrary, the poor fruit crop prospects, in pears and apples, are being realized day after day. As a consequence of it, business men in Paris, Bretagne, Normandie and Vendée, are very eager to get connected with Canadian exporters of choice table green apples and pears in cases, table green apples in barrels, cider green apples, dried and canned apples, and one amongst them is now on his way to Canada to try purchases of dried apples. I am, on my part, paying keen attention to the matter, and I hope to succeed satisfactorily to take opportunity of the actual mind of French importers to promote durable and profitable connections with Canadian exporters, and to induce some purchasers to take a trip to Canada. In fact I am in a situation to realize that the interest paid in France to Canada's import and export possibilities is steadily increasing, and I feel more and more confident in the results of the correspondance, quotations and trial orders which I have already succeeded to promote.

DUTIES ON CATTLE.

Before adjourning, the French Parliament has passed a law advancing the duty's rates to be levied on cattle, sheep and pork alive, and on fresh and salt meats of same, as follows :—

Tariff Items.	Articles.	Tariff Rates.	
		General.	Minimum.
Numbers.		Fcs. c.	Fcs. c.
4	Oxen (per head)	30 00	20 00
5	Cows (per head)	30 00	20 00
6	Bulls (220 lbs.)	30 00	20 00
7	Bullocks, heifers (alive weight)	30 00	20 00
8	Calves (alive weight)	40 00	25 00
9	Sheep (alive weight)	45 00	30 00
10	Lambs, weighing 10 kilos and below (per head)	4 00	2 25
11	Goats and she-goats, (per head)	4 50	3 00
11 bis	Kids, (per head)	2 00	1 50
12	Swine, per 100 kilos (220 lbs. alive weight)	30 00	30 00
13	Sucking pigs, weighing 15 kilos and below, (per head)	4 00	2 25
.....	Mutton, (per 100 kilos)	50 00	35 00
.....	Fresh pork, (220 lbs.)	40 00	25 00
16	Meats, beef and others, (220 lbs.)	50 00	35 00
17	Salt pork, (220 lbs.)	50 00	30 00
.....	Meats, beef and others, (220 lbs.)	50 00	30 00

The above rates have not yet been put into force by the French Government, and probabilities are that they will not be before October next.

I have the honour to be, Sir,
Yours respectfully and faithfully,
A. POINDRON.

INQUIRIES RELATING TO CANADIAN TRADE.

Since the publication of the last monthly report, there have been received at this department from the High Commissioner for Canada, London, England, the Curator, Canadian Section, Imperial Institute, London, England, and Canadian Commercial Agents, the following inquiries relating to Canadian trade. The names of the firms making these inquiries, together with their addresses, can be obtained from this department, or from the office through which the inquiry was received.

Inquiries from the High Commissoner for Canada.

CANADIAN SHIPPERS OF BOX SHOOKS.

1. Inquiry is made for the addresses of Canadian shippers of box shooks by a London firm in a position to place large orders. (Reference No. 86).

CANADIAN EXPORTERS OF MANUFACTURED HORSE HAIR.

2. A north of England correspondent has asked to be placed in communication with Canadian exporters of manufactured horse hair. (Reference No. 86).

CANADIAN FLOUR MILLERS.

3. A London export merchant has requested to be referred to large flour millers in Canada, who are interested in the South African market. (Reference No. 86).

INQUIRY *re* IRON AND STEEL MANUFACTURERS IN THE DOMINION.

4. Application has been received for the names of the leading iron and steel manufacturers in the Dominion. (Reference No. 86).

AGENCY FOR CANADA FOR ELECTRIC LAMPS AND LIGHT ACCESSORIES.

5. A London house has asked to be referred to Canadian firms who might be open to take up the agency for electric lamps and electric light accessories. (Reference No. 87).

NEW PATENT ELECTRICITY METER.

6. The manufacturer of a new patent electricity meter is desirous of bringing it to the notice of those in Canada who are interested in such goods. (Reference No. 87).

CANADIAN CHEESE EXPORTERS.

7. A Zurich (Switzerland) firm asks to be placed in touch with Canadian cheese exporters. (Reference No. 87).

INQUIRY *re* CANADIAN MAKERS OF BRICK MAKING MACHINERY.

8. Inquiry has been made for the addresses of Canadian makers of brick making machinery. (Reference No. 87).

AGENCY IN CANADA FOR SHEFFIELD TOOL STEEL.

9. A Sheffield firm of tool steel manufactures is desirous of falling in with a reliable wholesale hardware dealer in Canada who can hold a stock of best quality tool steel as used by engineers, shipbuilders, &c. (Reference No. 88).

CANADIAN EXPORTERS OF CIDER.

10. An English firm of cider manufacturers and bottlers are desirous of hearing from Canadian exporters who will be in a position to ship large quantities of next season's production. (Reference No. 88).

Inquiries from the Curator, Canadian Section, Imperial Institute.

EXPORTERS OF BOX SHOOKS AND EXCELSIOR.

1. A north of England house possessing a large connection in box shooks and excelsior, asks to be placed in touch with Canadian manufacturers of same who can fill orders. (Reference No. 49).

CANADIAN MANUFACTURERS OF EXTENSION DINING TABLES.

2. A manufacturing firm wishes to hear from Canadian manufacturers of extension dining tables. (Reference No. 49).

CANADIAN WHOLESALE IMPORTERS OF TEAS AND COFFEES.

3. A company dealing in teas and coffees asks to be placed in correspondence with Canadian wholesale importers. (Reference No. 9).

SHIPPERS OF SEEDS, PEASE, &C.

4. A Bristol firm desires addresses of Canadian shippers of seeds, pease, &c. (Reference No. 49).

CANADIAN PRODUCERS OF EXCELSIOR.

5. A firm in Hull, Eng., would like to get into touch with Canadian producers of excelsior. Price for ordinary quality £3.15.0. per ton c.i.f. Liverpool or London. Finer grades are worth from £5 to £6.10.0. (Reference No. 50).

SHIPPERS OF APPLES.

6. A firm in Rennes (France) reports a considerable demand for apples suitable for the production of cider, and asks to be placed in correspondence with Canadian shippers of apples. (Reference No. 50).

CANADIAN OWNERS OF MANGANESE DEPOSITS.

7. A correspondent wishing to acquire a first class manganese deposit would like to hear from Canadian owners of properties. (Reference No. 50).

CANADIAN SHIPPERS OF BOX SHOOKS TO SOUTH AFRICA.

8. A Liverpool firm invites quotations from Canadian shippers of box shooks for direct shipment to South Africa in lots of from 10,000 to 20,000 boxes each shipment. Dimensions as follows: Inside measurement, $14\frac{1}{2}$ x $11\frac{1}{2}$ x $8\frac{1}{2}$ inches. Ends $\frac{3}{4}$-in thick. Tops, bottoms and sides $\frac{3}{8}$-in thick. Sides and ends in one piece each. Tops and bottoms in two pieces each. Packed in shooks and bundles by wire. Price, cost, insurance, freight, Durban, Natal. (Reference No. 50).

AGENCY IN CANADA FOR RAILWAY SUPPLIES.

9. The selling agents for several manufacturers of railway supply lines seek the services of a first class Canadian firm in close touch with railway, tramway and similar enterprises, as their Canadian representatives. (Reference No. 50).

AGENCY IN LONDON FOR CANADIAN PAPER MILLS,

10. A London paper agent who claims an established connection among buyers of all classes of paper, is desirous of acting as London representative of Canadian paper mills of good standing. First class references supplied. (Reference No. 50).

CANADIAN SHIPPERS OF TALLOW, HIDES, ETC.

11. A Liverpool firm invites correspondence from Canadian shippers of tallow, hides, skins, mica, plumbago and other lines who wish to be represented in Liverpool. (Reference No. 51.)

AGENCY IN LONDON, E. C., FOR CANADIAN PAPER MILLS.

12. A London paper agent with established connection among buyers of all classes of paper is desirous of acting as London representative of Canadian paper mills of good standing. (Reference No. 51.)

CANADIAN IMPORTERS OF BOOT BLACKINGS, CREAMS, ETC.

13. A firm manufacturing boot blackings, creams, etc. and furniture polish, desires to develop trade in Canada in these articles. (Reference No. 51).

CANADIAN MANUFACTURERS OF BARREL SHOOKS.

14. A correspondent wishes to hear from Canadian firms who can supply fish barrel shooks. (Reference No. 51.)

CANADIAN MANUFACTURERS OF HICKORY HANDLES.

15. A firm in Staffordshire wishes for the names of a few Canadian manufacturers who can supply hickory handles. (Reference No. 51.)

CANADIAN IMPORTERS OF ESSENCES, CORDIALS, ETC.

16. A House manufacturing essences, cordials, crystals, mineral waters and similar lines, asks to be placed in communication with Canadian firms prepared to take up sale of same. (Reference No. 52.)

CANADIAN DEALERS IN COLOURED PRINTS, SHOW CARDS, ETC.

17. A company manufacturing coloured prints, show cards, almanacs and other specialties wishes to hear from Canadian dealers in their goods. (Reference No. 52.)

SHIPPERS OF CIDER.

18. An inquiry has been received for the names of Canadian shippers of Cider suitable for United Kingdom trade. (Reference No. 52.)

AGENCY.

19. A firm with offices in Constantinople, Cairo and Alexandria, is open to represent manufacturers of goods suitable for those markets. (Reference No. 52.)

Inquiries from Canadian Commercial Agent, Birmingham, England.

CANADIAN MANUFACTURERS OF CHISELS, AWLS, ETC.

1. A firm using large quantities of handles for chisels, awls, etc., wish to place themselves in communication with firms who can supply their demands. (Reference No. 4.)

MANUFACTURERS OF GENERAL HARDWARE.

2. A firm of shippers in Birmingham doing a large trade to South Africa inquire for firms manufacturing general hardware such as hammers, saws, etc., roofing material in galvanized iron, building materials, agricultural implements, including ploughs, harrows, hoes, shovels, picks, rakes, and anything made in Canada for general South African trade. (Reference No. 4.)

EXPORTERS OF CIDER APPLES.

3. A firm manufacturing large quantities of cider would like to be placed in communication with a firm who can export regular cider apples, or any apples Canada produces to take their place. (Reference No. 4.)

MANUFACTURERS OF SOAP BOXES.

4. A firm in Liverpool wish to purchase large quantities of soap boxes, inside measurement to be $14\frac{1}{4}$ x $11\frac{1}{2}$ x $8\frac{1}{2}$, ends $\frac{3}{4}$ thick, tops and bottoms and sides $\frac{3}{8}$ thick, sides and ends in one piece, tops and bottoms in two pieces, to be packed in shooks and bundles by wire. (Reference No. 4.)

SHIPPERS OF MICA, PLUMBAGO OR GRAPHITE.

5. A firm in Liverpool wishes to get into touch with shippers of mica and plumbago or graphite. (Reference No. 4.)

CANADIAN FLOUR MILLERS.

6. A firm of flour merchants would like to arrange with a Canadian mill for regular supplies from 200 to 250 barrels per day. (Reference No. 4.)

SHIPPERS OF SALMON, GAME AND POULTRY.

7. A firm of salmon, game and poultry salesmen would like to make arrangements for regular shipments, can handle large quantities, can also handle large quantities of salmon from British Columbia. (Reference No. 4.)

MANUFACTURERS OF TRACTION ENGINES, ETC.

8. A steam plough manufacturer wishes to open up connection with manufacturers of traction engines, etc., in Canada, for the purpose of disposing of the new plan on which the steam plough works, or would ship. (Reference No. 4.)

AGENCY.

9. A firm who are the British agents for the West Australian Karri & Jarrah woods would like to open up with a firm in Canada. These woods are particularly suited for paving. (Reference No. 4.)

AGENCY IN CANADA FOR PAINTS.

10. A firm manufacturing paints, etc., wishes an agent. (Reference No. 4.)

AGENCY IN CANADA FOR SANITARY TUBES, FIREBRICKS, ETC.

11. A firm manufacturing sanitary tubes, firebricks, glazed bricks and sanitary specialities wishes an agent. (Reference No. 4)

AGENCY IN CANADA FOR SYRINGES AND HORTICULTURAL SUNDRIES.

12. A firm making syringes and horticultural sundries wants an agent. (Reference No. 4.)

MINUTE *re* CHARGES SHOWN ON INVOICES IN THE AUSTRALIAN COMMONWEALTH.

The Department of Trade and Commerce has received through the office of Mr. D. H. Ross, Canadian commercial agent, for Victoria, South Australia, Western Australia and Tasmania, a copy of a Minute (Order No. 17, 1903) *re* charges shown on invoices as issued by the Acting Minister of Trade and Customs for the Commonwealth of Australia to the Collector of Customs, which reads as follow :—

COMMONWEALTH OF AUSTRALIA.

DEPARTMENT OF TRADE AND CUSTOMS, MELBOURNE, APRIL 9, 1903.

Charges shown on Invoices.

The following minute by the Acting Minister relative to the above is forwarded for your instruction :—

'In view of the fact which is evident that in a very large number of invoices the charges are largely increased so that the value of the dutiable goods may be reduced and less duty paid thereon, it has been determined that the practice which has been followed of reducing the charges to an amount which is considered reasonable shall be discontinued, and in future, when the department is satisfied that the charges are too high, no allowance whatever will be made, unless conclusive proof of the actual amount paid is furnished.

'The production of such an invoice is an offence under the Act, and a prosecution will be instituted and the goods forfeited in every case, unless very satisfactory explanation is given.'

GEORGE TURNER,
for Minister for Trade and Customs.

Publicity is to be given to this Order in the press.

HENRY PASSMORE,
for Comptroller General.

The Collector of Customs.

NON-BRITISH IMPORTS TO SOUTH AFRICA.

The Central Bureau for Preparing Commercial Treaties, of Berlin, publishes the following, under date of June 15, 1903.

It has already been pointed out in the press that the impending differentiation of non-British imports to South Africa is even more severe on America than on Germany.

In the fiscal year ended June 30, 1902, America exported to South Africa goods to the value of £5,300,000 ($25,792,500). In this amount the shipments which found their way to South Africa via Portuguese harbours on the east coast were not included.

Compared with the previous year, this means an increase of exports amounting to 36·8 per cent. A considerable part of those consists, however, of agricultural products (breadstuffs and live animals), in which Great Britain does not enter as a competitor ; but if all the values of this class are added together, they do not amount to quite one-third of the total exports. More than two-thirds (£3,792,259 = $18,455,028) of the total exports are wares in which America appears as a competitor of England in the South African markets.

During the fiscal year 1901-2 this part alone of the American exports to South Africa increased 29·4 per cent compared with the previous year.

The following figures show the classes of goods in which American competition is especially dangerous to England.

Compared with the previous year, American exports increased as follows:

Iron goods	£108,538 =	$527,237
Machinery, including plows, other agricultural implements typewriters	42,000 =	204,393
Household goods	22,719 =	110,562
Boots and shoes	18,483 =	89,947
Textiles	12,500 =	61,831

The preferential tariff on British goods to Canada was viewed with indifference by America, as it was believed that American trade in Canada could not be arrested by the preferential tariff. With South Africa, however, far distant from the United States, the case is entirely different. The tariff treatment of American imports there is of more weight for America than in Canada.

PROVISION TRADE OF CANADA, GREAT BRITAIN AND UNITED STATES.

REGULATION *re* CUSTOMS INVOICES IN THE AUSTRALIAN COMMONWEALTH.

MELBOURNE, AUSTRALIA, June 12, 1903.

The Right Honourable,
The Minister of Trade and Commerce,
Ottawa, Canada.

SIR—I am informed by the Right Honourable, the Minister of Trade and Customs that "the regulation noted" has not yet been enforced, but is under the consideration of his Department.

D. H. ROSS.

FORM OF CUSTOMS INVOICE.

The following notice with respect to the form of invoice for presentation to the department has been issued :—

The Minister directs that in regard to all goods upon which duty is charged according to the value thereof, and which shall be ordered after July 1st, 1903, the invoices of such goods presented to the Customs must comply in all respects with the requirements of the Customs Act, 1901, and show clearly the gross value of the goods and all charges made in connection with the same, which it may be sought to deduct for payment of duty from the gross value, clearly and separately set out in the invoice. Such deductions should be in the same handwriting as the body of the invoice. Should such charges not to be so shown no deduction thereof can be allowed in estimating the value of the goods for duty. In cases where the invoice is typewritten and charges are shown in manuscript, or where such charges have been inserted in a different handwriting to the body of the invoice, the entry relating to the charges must be signed by the person making the same, with the addition of the date and the place where made. Unless such addition be made in the manner above mentioned by the seller or his authorized employe, it will not be recognized by the Customs. In the case of discounts being shown on the invoice as having been allowed for any reason whatever, it is to be distinctly understood that such discounts cannot be allowed by the customs, unless such are *bona fide*, and have been actually given, and the benefit thereof obtained by the purchaser. The department reserves to itself the right of requiring proof of the correctnesss of any changes, discounts, or deductions shown on the invoice, and may at any time refuse to recognise any discounts set out on any invoice unless accompanied by clear proof of their correctness. After the goods have passed out of the control of the customs no alteration can be made in regard to the value for duty as shown by the invoice upon which the entry was passed, and no refund of duty can be allowed, the claim to which is based on the fact that certain charges had not been allowed for in any invoice.

CANADIAN EXPANSION OF TRADE

The marvellous growth of Canada, since confederation in 1867, in every branch of trade and commerce, has not been equalled, per capita, by any other British colony or foreign country in that period.

Year.	Total Imports.	Total Exports.	Total Trade.
	$	$	
1871.	96,092,971	74,173,618	170,266,589
1881.	105,330,840	98,290,823	203,621,663
1891.	119,967,638	98,417,296	218,384,934
1901.	190,415,525	196,487,632	386,903,157
1902.	212,270,158	211,640,286	423,910,444
1903.	241,211,770	225,849,724	467,061,494

CANADA'S PERCENTAGE OF GROWTH THE HIGHEST.

The following statement shows the relative position of Canada with respect to the total volume of trade (merchandise only) with ten other countries for five years, that is to say, for the years from and including 1897 to the close of 1902.

In the case of Canada and the United States the fiscal years end June 30, 1898 and 1903, and hence the figures for that period are shown. In the case of all others the figures for the calendar years for 1897 and 1902 are shown, being the only figures available.

The figures in each case include the imports for consumption and exports of domestic produce (merchandise only) unless otherwise stated.

—	1897.	1902. (Unrevised.)	Increase, Year 1902 over 1897.	Percentage of Increase, Year 1902 over 1897.

(a) Years ended June 30, 1898 and 1903. *(b)* Includes total imports, not imports for consumption.

CANADA'S CONTINUED PROSPERITY.

In further evidence of the continued growth of Canada's foreign trade, the following statement of recently published information is added :—

	Month of July.		Twelve months ended July 31.	
	1902.	1903.	1902.	1903.
IMPORTS FOR CONSUMPTION.	$	$	$	$
Dutiable goods	8,987,688	11,117,192	119,361,072	138,922,378
Free goods	4,738,898	7,597,372	76,801,555	90,882,212
Total (Mdse)	13,726,586	18,714,564	196,162,627	229,804,590
Coin and bullion	346,696	761,079	6,324,548	9,385,096
Total Imports	14,073,282	19,475,643	202,487,175	239,189,686
EXPORTS.				
Home produce	15,612,783	16,356,417	198,600,302	215,145,308

Duty collected	2,406,053	2,937,492	32,657,410	37,641,156

CANADIAN EXPORTS.

The following brief summaries, by decades, of the more important of Canada's exports give a fair idea of the substantial growth of the Dominion. The figures given in each case are for the twelve months ending June 30th, Canada's fiscal year, and the years chosen for comparison are the census years since confederation, together with the last two fiscal years ending June 30th, 1903. The figures for 1903 are 'unrevised,' though no appreciable change will result from the revision.

ANIMALS AND THEIR PRODUCE.

Canada's greatest class of exports is in that of 'Animals and their Produce.' Since confederation the Dominion's wealth of production has been abundantly shown, as follows:—

Year 1871	$12,608,506
" 1881	21,360,219
" 1891	25,967,741
" 1901	55,495,311
" 1902	59,161,209
" 1903	69,817,542

AGRICULTURAL PRODUCTS.

In the exports of 'Agricultural Products' Canada has made great progress, and yet with her magnificent resources the exports in this class can be said to have only begun.

Year 1871	$ 9,853,924
" 1881	21,268,327
" 1891	13,666,858
" 1901	24,781,486
" 1902	37,152,688
" 1903	44,624,321

MANUFACTURES.

As a manufacturing country, Canada's exports have shown a gratifying increase in competing in the markets of the world.

Year 1871	$ 2,432,750
" 1881	3,075,095
" 1891	6,296,249
" 1901	16,012,208
" 1902	18,462,970
" 1903	20,624,967

PRODUCE OF THE FOREST.

Canada's boundless forests have only begun to yield their wealth, for the constantly increasing world's demands for timber of all kinds. The forests of the neighbouring Republic are fast approaching complete denudation, while Canada can yet supply the world for many years. The exports of the products of the forest have been as follows :—

Year 1871	$23,063,223
" 1881	24,960,012
" 1891	24,282,015
" 1901	30,009,857
" 1902	32,119,429
" 1903	36,386,015

WHEAT AND CHEESE.

Notwithstanding the vast wheat-fields of Canada and almost unlimited areas yet to be sown, Canada has in the past exported more cheese than wheat as the following figures will show :—

	Wheat.	Cheese.
Year 1871	$ 1,981,917	$ 1,109,906
" 1881	2,593,820	5,510,443
" 1891	1,583,084	9,508,800
" 1901	6,871,939	20,696,951
" 1902	18,688,092	19,686,291
" 1903	24,566,703	24,712,943

It will be seen from the above that the exports in wheat are rapidly overtaking those of cheese, and, with the tremendous impetus in immigration and settling of the North-west, that the wheat exports for the next year will likely be greatly in excess of those of cheese.

BEST WHEAT IN THE WORLD.

So-called Manitoba wheat, which includes that from the North-west Territories, is held to be the best in the world and is in good and increasing demand for mixing with softer wheats grown elsewhere. Of it there was shipped ex terminal elevators at Fort William and Port Arthur, during the ten months to June 30th last, over 40,000,000 bushels, which quantity can and will be increased ten-fold in as many years.

PRODUCE OF THE MINE.

In mineral production Canada's wealth is increasing with almost incredible rapidity and the richness of her stores in these valuable commodities remains inexhaustible. In the following periods the production (calendar years) and amount exported (fiscal years) are shown :—

	Production.	Exports.
Year 1871	$ 6,043,868	$ 2,841,124
" 1881	7,610,108	2,767,829
" 1891	18,976,616	5,784,143
" 1901	66,712,708	40,367,683
" 1902	64,970,732	34,947,574

FISHERIES.

The fisheries of Canada have always been considered one of the most important resources of the country. From earliest times the exports of fish have been encouraged and since Confederation have greatly increased in value. The exports have been as follows :—

Year 1871	$ 3,994,275
" 1881	6,867,715
" 1891	9,715,401
" 1901	10,720,352
" 1902	14,143,294
" 1903	11,800,184

REVENUE AND EXPENDITURE.

Receipts and payments on account of the Consolidated Fund (ordinary revenue and expenditure) for the undermentioned years :—

	Revenue.	Expenditure.
Year 1871	$ 19,335,561	$ 15,623,082
" 1881	29,635,298	25,502,554
" 1891	38,579,311	36,343,568
" 1901	52,514,701	46,866,368
" 1902	58,050,790	50,759,392
" 1903	63,739,273	41,449,102

NET DEBT.

The net debt of Canada at the end of the undermentioned fiscal years has been as follows :—

Year 1871	$ 77,706,518
" 1881	155,395,780
" 1891	237,809,030
" 1901	268,480,004
" 1902	271,829,090
" 1903	254,934,638

DEPOSITS.

The growing wealth of the Canadian people may be evidenced in one respect by the growth of deposits in the chartered banks, post office savings banks, &c., by the following totals :—

Year 1871	$ 68,123,931
" 1881	107,188,699
" 1891	193,015,474
" 1901	390,949,482
" 1902	423,748,777
" 1903	460,950,580

LOAN COMPANIES AND BUILDING SOCIETIES.

In the last thirty-one years the total assets of loan companies and building societies have increased nearly twenty times, as evidenced by the following statistics for the calendar years undermentioned :—

Year 1871	$ 8,392,464
" 1881	73,906,638
" 1891	125,041,146
" 1901	158,523,307
" 1902	162,531,693

CHARTERED BANKS.

The splendid banking system of Canada has never been found wanting and its elasticity of circulation has met every requirement.

The assets of the chartered banks are nearly five and a half times larger than in 1871, as the following statement will show :—

Year 1871	$ 121,014,395
" 1881	198,967,278
" 1891	269,491,153
" 1901	528,304,110
" 1902	581,876,985
" 1903	641,985,372

IMMIGRATION.

With the growth of Canadian trade has come an era of rapid development throughout the great North-west Territories. Immigration to that part of the country especially, in the past year, has beaten all records. The following figures show the recent increases in this respect :—

Year 1871	27,773
" 1881	47,991
" 1891	82,165
" 1901	49,149
" 1902	67,379
" 1903	124,658

As an evidence of the continued growth in numbers of immigrants to Canada and to give an idea whence they come, the following late information is added :—

The returns for the month of July, 1903, were 11,278. Compared with July, 1902, this shows an increase of 2,689. They were as follows for July each year :—

	1902.	1903.
British	2,170	5,093
Continental	3,168	2,867
United States	3,251	3,318
	8,589	11,278

For the first seven months of the calendar year the returns were :—

	1902.	1903.
British	12,804	36,802
Continental	21,391	29,157
United States	19,845	28,356
	54,040	94,315

FIRST IN RAILROAD MILEAGE.

In transportation Canada has had to undertake gigantic railway schemes to draw more closely together her vast dominions. Per capita, Canada stands first among the nations and colonies of the world in railroad mileage, and eighth among all countries irrespective of population. Its miles in operation in the undermentioned years were as follows :—

	Miles.
Year 1871	2,497
" 1881	7,260
" 1891	14,009
" 1901	18,140
" 1902	18,868
" 1903	19,834

SHIPPING.

Canada's shipping has shown a steady increase since Confederation as the following figures show, being the number of tons register of sea-going, coasting and inland water vessels entered and cleared :—

	Tons register.
Year 1871	13,126,028
" 1881	28,919,198
" 1891	43,788,778
" 1901	60,474,604
" 1902	70,726,311
" 1903	(Figures not yet available.)

COMMERCIAL AGENCIES.

The Department of Trade and Commerce has the special duties assigned to it of promoting, as the name indicates, the trade of Canada. With this end in view Commercial agents have been appointed in various parts of the world who report monthly to the Department. These agents are under the careful control and direction of the Department so that their labours yield the highest possible benefit to those Canadians who seek the foreign markets. Their reports are published monthly and mailed free to applicants in Canada. The list of agents is as follows :—

J. S. Larke, The Exchange, Sydney, N.S.W., agent for New South Wales, Queensland, and New Zealand.

D. H. Ross, Melbourne, Victoria, agent for Victoria, South Australia, Western Australia and Tasmania.

James G. Jardine, P. O. Box 1232, Cape Town, Cape Colony, agent for South Africa.

Peter B. Ball, 16 Bennett's Hill, Birmingham, England, agent for Birmingham.

A. Poindron, 101 Rue Réaumur, Paris, France, agent for France.

G. Eustace Burke, Kingston, Jamaica, agent for Jamaica.

Robert Bryson, St. John, Antigua, agent for Antigua, Montserrat and Dominica.

S. L. Horsford, St. Kitts, agent for St. Kitts, Nevis and Virgin Islands.

Edgar Tripp, Port of Spain, Trinidad, agent for Trinidad and Tobago.

C. E. Sontum, Grubbegd, No 4, Christiania, Norway, agent for Norway, Sweden and Denmark.
